XTRACKERS ETC PUBLIC LIMITED COMPANY

INTERIM DIRECTOR'S REPORT

FOR THE SIX-MONTH PERIOD FROM 1 OCTOBER 2023 TO 31 MARCH 2024

The directors present their interim directors report and unaudited condensed interim financial statements of Xtrackers ETC plc (the "Company") for the six-month period from 1 October 2023 to 31 March 2024. The comparative figures relate to the six-month period ended 31 March 2023 for the condensed statement of comprehensive income, cash flows and changes in equity. The comparative figures for the condensed statement of financial position are as at 30 September 2023.

These unaudited condensed interim financial statements are not the company's statutory financial statements. They have not been audited or reviewed by auditors pursuant to the Auditing Practices Board guidance on Review of Interim Financial Information.

The audit of the statutory financial statements for the year ended 30 September 2023 has been completed and the audited financial statements have been filed with Companies Registration Office.

Principal activities, business review and future developments

Xtrackers ETC Public Limited Company (the "Company") was incorporated in Ireland under registration number 627079 on 21 May 2018 with limited liability and is organised under the laws of Ireland as a Public Limited Company ("plc") pursuant to the Companies Act, 2014 (the "Companies Act"). It has been established as a special purpose vehicle for the purpose of issuing asset backed securities. The Company is taxable as a securitisation company pursuant to section 110 of the Taxes Consolidation Act 1997. Profits arising to the Company is taxable at a rate of 25 per cent. The Company commenced trading on 16 April 2020.

The principal activity of the Company, under the Secured Xtrackers ETC Precious Metal Linked Securities Programme (the "Programme"), is issuance of several series (each a "Series/ETC Security") of ring-fenced notes listed on one or more of the following stock exchanges: the Frankfurt Stock Exchange, the Borsa Italiana, and the London Stock Exchange plc.

The metal for any Series of ETC Securities may consist of gold, silver, or platinum (the "Metal"). The main assets of the Company in respect of a Series of ETC Securities are its holdings of Metal held by or on behalf of the Company (through the Secured Account Custodian, the Subscription Account Custodian) and its interests under the related metal agent agreement entered into by the Company and the Metal Agent (the "Metal Agent Agreement") and the Balancing Agreement.

The ETC Securities are designed to provide purchasers with exposure to a Metal without having to take physical delivery of the Metal. Each ETC Security relates to a specific amount in weight of Metal, specified in the relevant Final Terms, known as the metal entitlement per ETC Security. On any particular day, the ETC Security can be viewed as giving an exposure to that amount of Metal as the amount payable in respect of the ETC Securities and the Value per ETC Security is linked to the value of the Metal. In order to back its obligations under the ETC Securities, the Company will seek to hold enough Metal to meet its obligations under the ETC Securities. The precise amount it holds at any time may be more or less than the aggregate amount of the metal entitlement per ETC Security to reflect the periodic payment of product fees and, in respect of FX Hedged ETC Securities, an adjustment for any foreign exchange gains or losses. Because the Company obtains its exposure to the precious Metal by physically investing directly in the relevant Metal, these types of ETC Securities are known as physical replication exchange traded commodities. The proceeds from the disposal of the Underlying Metal, plus (where applicable) any interest received on the proceeds of such disposal less any negative interest, net of any deductions (and, in the case of FX Hedged ETC Securities, converted into the currency of the ETC Securities at the rate the Metal Agent determines would be obtainable at the time of conversion which shall be on or about the day of such sale (or, if such day is not an FX Business Day, the immediately following FX Business Day), and which may take into account a bid/offer spread quoted by a dealer), will equal the amount due under the ETC Securities (subject to certain minimum amounts owed).

The Master Balancing Terms (the "Balancing Agreement") sets out the arrangements between the Company and J.P. Morgan AG (the "Series Counterparty") with respect to the rebalancing of the Metal held by the Company for the relevant ETC securities. Such rebalancing will be made in respect of FX Hedged ETC Securities to reflect gains or losses in respect of the foreign exchange hedge element of the metal entitlement per ETC Security. The Balancing Agreement broadly seeks to account for any currency hedging gains or losses by requiring deliveries of Precious Metal to be made between the Company and the Series Counterparty so that, as a result of such deliveries, the amount of Underlying Metal held by the Company should equal the aggregate metal entitlement in the foreign currency of the ETC Security in respect of all outstanding ETC Securities of the relevant Series. Where there are foreign exchange gains and the metal entitlement per ETC Security consequently increases, the Series Counterparty will be required to deliver additional Metal equivalent to such increase to the Company under the Balancing Agreement. Where there are losses and the metal entitlement per ETC Security consequently decreases, the Company will be required to deliver Metal equivalent to such decrease to the Series Counterparty under the Balancing Agreement.

With respect to each Series of ETC Securities, the Company's primary assets are its holdings of underlying metal and its interests under the related Balancing Agreement (the "Balancing Agreement"). The obligations of the Company under the ETC Securities of a Series will be secured in favour of the Trustee by an assignment by way of security of all the Company's rights, title, interest and benefit present and future against the secured account custodian (the "Secured Account Custodian"), the subscription account custodian (the "Subscription Account Custodian") relating to the underlying metal in respect of this Series of ETC Securities. Subscription and redemption terms of the ETC Securities are disclosed in the notes of the financial statements.

Irish law requires the Directors to prepare financial statements for each financial period. Under that law they have elected to prepare these financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU").

Please refer to note 15 to the unaudited condensed interim financial statements for the Company's fair value consideration under IFRS13.

Stock Exchange Listings

The Company maintains a listing on the Frankfurt Stock Exchange, the Borsa Italiana and the London Stock Exchange plc.

Product fee

Each Series pays a product fee prepared by the Determination Agent, which accrues on a daily basis. The Product fee is the rate set out below for each Series as of 31 March 2024 and is applied to the Metal Entitlement on a daily basis to determine a daily deduction of an amount of Metal from the Metal Entitlement:

Series	Description	Annual Product fee as a % of metal entitlement 31 March 2024	Annual Product fee as a % of metal entitlement 30 Sep 2023
Series 1	Xtrackers IE Physical Platinum ETC Securities	0.38	0.38
Series 2	Xtrackers IE Physical Gold ETC Securities	0.11	0.12

Series 6	Xtrackers IE Physical Gold GBP Hedged ETC Securities	0.24	0.28
Series 7	Xtrackers IE Physical Platinum EUR Hedged ETC Securities	0.73	0.73

Pursuant to the Programme Administrator Agreement, DWS International GmbH as Programme Administrator receives 100% of the Product fee for each series issued. In return DWS International GmbH pays designated list of Programme expenses as set out in the amended Programme Administrator Agreement, even where the aggregate of such expenses exceeds the Product Fee due to DWS International GmbH.

XTRACKERS ETC PUBLIC LIMITED COMPANY

INTERIM DIRECTOR'S REPORT

FOR THE SIX-MONTH PERIOD FROM 1 OCTOBER 2023 TO 31 MARCH 2024

Key performance indicators

The Company is a Special Purpose Vehicle (the "SPV") whose sole business is the issue of asset-backed securities. The Company has established a programme for the issue of ETC Securities whose return is linked to the performance of a specified precious metal: either gold, silver, platinum. Each series of ETC Securities will be separate (or 'ring-fenced') from each other series of ETC Securities. The ETC uses a hedging mechanism ("Balancing Agreement") which is designed to reduce exposure of the underlying precious metal to exchange rate fluctuations between US dollars and the currency in which the ETC is denominated.

The Directors confirm that the key performance indicators as disclosed below are those that are used to assess the performance of the Company.

During the period:

- the Company made a profit of USD 1,622 (2023: USD 1,223);
- the net fair value (loss)/gain on Precious Metals at fair value and Precious Metals due from Series Counterparty amounted to USD 712,684,820 (2023: USD 859,320,115);
- the net fair value gain/(loss) on ETC securities at fair value amounted to USD 712,684,820 (2023: USD 859,320,115);

* with a EUR/USD hedge in terms of the Balancing Agreement.

** with a GBP/USD hedge in terms of the Balancing Agreement.

The unaudited condensed interim financial statements and notes to the unaudited condensed interim financial statements are presented in US Dollar ("USD" or "\$") which is the Company's functional currency. Functional currency is the currency of the primary economic environment in which the entity operates. The Directors of the Company believe that USD most faithfully represents the economic effects of the underlying transactions, events and conditions.

XTRACKERS ETC PUBLIC LIMITED COMPANY

INTERIM DIRECTOR'S REPORT

FOR THE SIX-MONTH PERIOD FROM 1 OCTOBER 2023 TO 31 MARCH 2024

Future developments

The Directors expect that the present level of activity will be sustained for the foreseeable future. The Board will continue to seek new opportunities for the Company and will continue to ensure proper management of the current portfolio of Series of the Company.

Going concern

The nature of the Company's business dictates that the outstanding ETC Securities may be redeemed at any time by the holder and in certain circumstances may be compulsorily redeemed by the Company. As the redemption of ETC Securities will always coincide with the transfer of an equal amount of Precious Metals, no net liquidity risk is considered to arise. The Directors consider the Company to be a going concern.

Risks and Uncertainties

The Company is subject to various risks. The principal risks facing the Company are outlined in Note 14 to the unaudited condensed interim financial statements.

Price Risk

Price risk is the risk that the value of Precious metals will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or other factors affecting all instruments traded in the market. Refer to note 14 for further details.

Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Company's processes and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour.

Operational risk arises from all of the Company's operations. The Company was incorporated with the purpose of engaging in those activities outlined in note 1. All administration functions are undertaken by Wilmington Trust SP Services (Dublin) Limited, Deutsche Bank AG, Jane Street Financial Limited, HSBC Bank Plc, Susquehanna International Securities Limited and Flow Traders B.V. Morgan Stanley & Co. International Plc, Citigroup Global Markets Limited, Optiver VOF and Virtu Financial Ireland Limited act as the Company's authorised participants (the "Authorised Participants"), DWS International GmbH acts as arranger (the "Arranger") and Programme Administrator, JPMorgan Chase Bank N.A. acts as metal agent (the "Metal Agent"), Secured Account Custodian, Fee Account Custodian, Subscription Account Custodian and Series Counterparty ("Series Counterparty") and State Street Fund Services (Ireland) Limited acts as issuing and determination agent.

Credit Risk

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations. The Company's principal financial assets are cash and cash equivalents, other receivables, Amounts Receivable on Precious metals awaiting settlement and Precious metals due from the Series Counterparty which represents the Company's maximum exposure to credit risk. All credit risks are ultimately borne by the ETC Security holders.

The Directors have also considered the credit risk and counterparty risk with JPMorgan as custodian (the "Custodian") and Series Counterparty respectively, of the Precious metals held by the Company given the significance of the Precious metals to the overall financial position of the Company. With an overall credit rating status of JPMorgan 2024: S&P A+ (2023: S&P A+), the Directors are of opinion that counterparty risk is acceptable. Ultimately, all credit and counterparty risks associated with JP Morgan are borne by the ETC Security holders.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its obligations as they fall due. The Company limits its exposure to liquidity risk through the purchase of Precious metals. All liquidity risk associated with the Precious metals are ultimately borne by the ETC Security holders. Due to the fact that the ETC Security holders have the option to redeem the securities before the final scheduled maturity date, the ETC securities at fair value have been classified as due in less than one year. Maturity dates across the ETC Securities range between April 2080 and May 2080.

Currency Risk

In addition to Precious Metal price risk, the Company has exposure to currency risk as some of the ETC Securities are priced in currencies other than US Dollars and hedged against exchange rate movements between the US Dollar and the Euro or Pound Sterling.

An ETC Security is a debt instrument whose redemption price is linked to the value of the relevant underlying Precious metals and Precious metals due from Series Counterparty. The ETC Securities are issued under limited recourse arrangements whereby the holders have recourse only to the Precious metals and Precious metals due from Series Counterparty attributable to the class of Security held and not to the Company. In addition, since any movements in the value of the Precious metals and Precious metals due from Series Counterparty are wholly attributable to the holders of the ETC Securities, the Company has no residual exposure to movements in the value of the Precious metals and Precious metals due from Series Counterparty. From a commercial perspective, the gains or losses on the liability represented by the ETC Securities are matched economically by corresponding losses or gains attributable to the Precious metals and Precious metals due to/from Series Counterparty under the Balancing Agreement. The Company does not retain any net gains or losses or net risk exposures. Further details surrounding the value of the Precious metals and Precious metals due to/from Series Counterparty are disclosed in note 11.

XTRACKERS ETC PUBLIC LIMITED COMPANY

INTERIM DIRECTOR'S REPORT

FOR THE SIX-MONTH PERIOD FROM 1 OCTOBER 2023 TO 31 MARCH 2024

Risks and Uncertainties (continued)

Currency Risk (continued)

Movements in the value of the underlying Precious Metals and Precious Metals due from Series Counterparty, and thus the value of the ETC Securities, may vary widely which could have an impact on the demand for the ETC Securities issued by the Company.

Climate Risk

The directors acknowledge that climate change is an emerging risk impacting the global economy and will continue to be of interest to all stakeholders with a focus on how climate change is expected to impact the operations of the precious metals industry in areas such as mining, processing, warehousing, transportation, societal response and the regulatory environment in the future. However, having considered such factors relating to climate change, the directors have determined that there are no direct or immediate impacts of climate change on the business operations of the Company. Given this, there is no basis on which to provide extended information of analysis relating to climate change risks on the business operations of the Company. Furthermore, the directors conclude that at present there is no material impact to the fair value of financial instruments, assets and liabilities of the company. The directors recognise that governmental and societal responses to climate change risks are still developing and the future impact cannot be predicted. Therefore, the future fair value of assets and liabilities may fluctuate as the market responds to climate change policies, physical events and changes in societal behaviours.

Results and dividends for the financial period

The trading results for the period, and company's financial position at the end of the period are shown in the attached unaudited condensed interim financial statements. The directors have not recommended a dividend.

Political donations

The Electoral Act 1997 (as amended by the Electoral Amendment Political Funding Act, 2012) requires companies to disclose all political donations over €200 in aggregate mode during a financial year. The Directors, on enquiry, have satisfied themselves that no such donations in excess of this amount have been made by the Company during the period ended 31 March 2024.

Significant events during the financial period

On 24 February 2022, Russia launched a large-scale military invasion of Ukraine and is now engaged in a broad military conflict with Ukraine. In response, the United States, the European Union, the United Kingdom and other countries have imposed broad, far-reaching sanctions against Russia, certain Russian persons and certain activities involving Russia or Russian persons. This conflict has continued into 2024. The business of the Company can be affected by a number of factors that are beyond the Company's control, such as geopolitical, economic and business conditions. The Ukraine Conflict and possible outbreaks elsewhere in the world may lead to instability in certain regions together with sanctions being imposed against certain countries and airlines which could have an adverse economic impact.

On 29 November 2023, the Company informed Securityholders of the below Series of the following fee changes, with effect from 1 December 2023:

Series	Description	Old Base Fee Percentage	Old Product Fee Percentage	New Base Fee Percentage	New Product Fee Percentage
Series 2	Xtrackers IE Physical Gold ETC Securities	12 bps	12 bps	11 bps	11 bps

On 26 February 2024, the Company informed Securityholders of the below Series of the following fee changes, with effect from 1 March 2024;

Series	Description	Old FX Hedging Fee Percentage	Old Product Fee Percentage	New FX Hedging Fee Percentage	New Product Fee Percentage
Series 5	Xtrackers IE Physical Gold EUR Hedged ETC Securities	13 bps	28 bps	9 bps	24 bps
Series 6	Xtrackers IE Physical Gold GBP Hedged ETC Securities	13 bps	28 bps	9 bps	24 bps

On 26 February 2024, the Company informed Securityholders of the below Series of the following changes, with effect from 27 March 2024:

Series	Description	Old Maximum FX Bid-Offer Spread Adjustment	New Maximum FX Bid-Offer Spread Adjustment
Series 5	Xtrackers IE Physical Gold EUR Hedged ETC Securities	18 bps	22 bps
Series 6	Xtrackers IE Physical Gold GBP Hedged ETC Securities	18 bps	45 bps

XTRACKERS ETC PUBLIC LIMITED COMPANY

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS

FOR THE SIX-MONTH PERIOD FROM 1 OCTOBER 2023 TO 31 MARCH 2024

1. Reporting entity

Xtrackers ETC Plc (the “Company”), the reporting entity, was incorporated on 18 May 2018 as a public limited company with limited liability under the Companies Act 2014, as amended, with registration number 627079. The Company commenced operations on 16 April 2020. The registered office of the Company is at 4th Floor, 3 George’s Dock, IFSC, Dublin 1, Ireland.

The purpose of the Company is to provide a vehicle that facilitates the issuance and subsequent listing and trading of ETC Securities. The ETC Securities are issued under limited recourse arrangements whereby the Company has no residual exposure to the value of the Precious Metals and Precious Metals due from Series Counterparty, therefore from a commercial and accounting perspective the aggregate gains and losses in respect of Precious Metals and Precious Metals due from Series Counterparty will always be offset by a corresponding loss or gain on the ETC Securities. Further details regarding the risks of the Company are disclosed in note 14. Further details regarding the application of IFRS 13 are disclosed in note 15.

Exchange traded products are not typically actively managed, are significantly lower in cost when compared to actively managed mutual funds and are easily accessible to investors. No active trading or management of Precious Metals and Precious Metals due from Series Counterparty is required because the Company only receives or delivers Precious Metals on the issue and redemption of ETC Securities, and only holds Precious Metals to support the ETC Securities.

The ETC Securities issued are listed on the following exchanges: the Frankfurt Stock Exchange, the Borsa Italiana and the London Stock Exchange plc. In all cases, the ETC securities issued by the Company are limited recourse.

Each ETC Security of a Series has Precious Metal entitlement (the “Precious Metal Entitlement”) expressed as an amount in weight (in troy or fine troy ounces) of the relevant metal linked to such Series. This Precious Metal Entitlement starts at a predetermined initial Precious Metal Entitlement for the relevant Series and is reduced weekly by a Product fee (in Precious Metal) for the Series, and in respect of FX Hedged ETC Securities, an adjustment is also required for any exchange gains or losses under the relevant Balancing Agreement.

The Balancing Agreement sets out the arrangements between the Company and J.P. Morgan SE (the “Series Counterparty”) with respect to the rebalancing of the Precious Metal held by the Company for the relevant ETC securities. Such rebalancing will be made in respect of FX Hedged ETC Securities to reflect gains or losses in respect of the foreign exchange hedge element of the Precious Metal entitlement per ETC Security. The Balancing Agreement broadly seeks to account for any currency hedging gains or losses by requiring deliveries of Precious Metal to be made between the Company and the Series Counterparty so that, as a result of such deliveries, the amount of Precious Metal held by the Company should equal the aggregate Precious Metal entitlement per ETC Security in respect of all outstanding ETC Securities of the relevant Series. Where there are foreign exchange gains and the Precious Metal entitlement per ETC Security consequently increases, the Series Counterparty will be required to deliver additional Precious Metal equivalent to such increase to the Company under the Balancing Agreement. Where there are losses and the Precious Metal entitlement per ETC Security consequently decreases, the Company will be required to deliver Precious Metal equivalent to such decrease to the Series Counterparty under the Balancing Agreement. The balancing agreement is recognised as a derivative in the financial statements of the Company.

2. Basis of preparation

(a) Statement of compliance

These unaudited condensed consolidated interim financial statements have been prepared in accordance with IAS 34 Interim Financial Reporting. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in financial position and performance of the Company since the last annual financial statements as at and for the year ended 30 September 2023. These unaudited condensed interim financial statements do not include all the information required for full annual financial statements prepared in accordance with International Financial Reporting Standards.

The comparative figures relate to the six-month period ended 31 March 2023 for the condensed statement of comprehensive income, cash flows and changes in equity. The comparative figures for the condensed statement of financial position are as at 30 September 2023.

(b) Judgements and estimates

Preparing the unaudited condensed interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing the unaudited condensed interim financial statements, significant judgements made by management in applying the Company’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements as at and for the year ended 30 September 2023.

Each Series pays a product fee prepared by the Determination Agent, which accrues on a daily basis. This fee is used to pay the agreed fees of service providers of the Company. The Product fee is the rate set out for each Series as of 31 March 2024 and is applied to the Metal Entitlement on a daily basis to determine a daily deduction of an amount of Metal from the Metal Entitlement.

Pursuant to the Programme Administrator Agreement, DWS International GmbH the Programme Administrator receives 100% of the Product fee for each series issued. In return DWS International GmbH pays a designated list of Programme expenses as set out in the amended Programme Administrator Agreement, including where the aggregate of such expenses exceeds the Product Fee due to DWS International GmbH.

FOR THE SIX-MONTH PERIOD FROM 1 OCTOBER 2023 TO 31 MARCH 2024

8. Taxation

The Company has been advised that it should fall within the Irish regime for the taxation of qualifying companies as set out in Section 110 of the Taxes consolidation Act 1997 ("Section 110"), and as such should be taxed only on the amount of its retained profit after deducting all amounts of interest and other revenue expenses due to be paid by the Company. If, for any reason, the Company is not or ceases to be entitled to the benefits of Section 110, then profits or losses could arise in the Company which could have tax effects not contemplated in the cashflows for the transaction and as such adversely affect the tax treatment of the Company and consequently the payments on the ETC Securities.

The Company will be taxable as a securitisation Company pursuant to Section 110 of the Taxes Consolidation Act ("TCA") 1997. Profits arising to the Company are charged at a corporate tax rate of 25%. All expenses that are not capital in nature and are for the purposes of the Company's activities will be deductible from income in order to determine taxable profits.

The Company is a qualifying Company within the meaning of Section 110 of the TCA. As such, the profits are chargeable to corporation tax under Case III of Schedule D of the TCA at the rate of 25% but are computed in accordance with the provisions applicable to Case I Schedule D of the TCA.

13. Capital risk management

The Company views the share capital as its capital. The Company is a special purpose vehicle set up to issue ETC Securities for the purpose of making investments as defined under the programme memorandum and in each of the Series memorandum agreements. Share capital of EUR 25,000 was issued in line with Irish Company Law and is not used for financing the investment activities of the Company. The Company is not subject to any other externally imposed capital requirements. The Company can issue further series of ETC Securities to meet the demand of its investors.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS (continued)

FOR THE SIX-MONTH PERIOD FROM 1 OCTOBER 2023 TO 31 MARCH 2024

14. Financial risk management

Risk management framework

The Company, and ultimately the holders of the ETC Securities, have exposure to the following risks from its use of financial instruments:

- (a) Market risk;
- (b) Credit risk;
- (c) Liquidity risk; and
- (d) Operational risk.

This note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing these risks.

a) *Market risk*

Market risk comprises three types of risk: interest rate risk, currency risk and other price risk. The ETC Security holders are exposed to the market risk of the financial instruments.

(i) *Interest rate risk*

Interest rate risk is the risk that the fair value or future cash flows of financial instruments will fluctuate as a result of a change in interest rates. The ETC Securities, the Precious Metals due from the Series Counterparty and the Precious Metals do not bear interest. As such, the Company and ETC Security holders have limited exposure to interest rate risk.

(ii) *Currency risk*

The Company has exposure to currency risk as some of the Currency-Hedged Precious Metal Securities are priced in currencies other than US Dollars and hedged against exchange rate movements between the US Dollar and the Euro or Pound Sterling. However, the Directors do not consider the Company to have a significant exposure to currency risk arising from the current economic uncertainties facing a number of countries around the world as the gains or losses on the liability represented by the Currency-Hedged Precious Metal Securities are matched economically by corresponding losses or gains attributable to the Precious Metals and Precious Metals due to/from Series Counterparty as result of the Balancing Agreement.

(iii) *Price risk*

Price risk is the risk that changes in market prices of Precious Metals will affect the Company's income, expense, Precious Metals and ETC securities at fair value through profit or loss. The Company's liabilities are exposed to the market prices of the Precious Metals. However, the risk is mitigated by the Company holding quantities of Precious Metals equivalent to the weight of Precious Metal entitlement for each Series of ETC Securities issued.

b) *Credit risk*

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations. The Company's principal financial assets are cash and cash equivalents, other receivables, Amounts Receivable on Precious Metals awaiting settlement and Precious Metals due from the Series Counterparty which represents the Company's maximum exposure to credit risk. All credit risks are ultimately borne by the ETC Security holders.

The Company has no net credit risk given its obligations to the ETC Security holders are limited in recourse to the amount received on the Precious Metals for each series of ETC Securities.

c) *Liquidity risk*

Liquidity risk is the risk that the Company will not be able to meet its obligations as they fall due. The Company limits its exposure to liquidity risk through the purchase of Precious Metals. All liquidity risk associated with the Precious Metals are ultimately borne by the ETC Security holders.

Due to the fact that the ETC Security holders have the option to redeem the securities before the final scheduled maturity date, the ETC securities at fair value have been classified as due in less than one year. Maturity dates across the ETC Securities range between April 2080 and May 2080.

The carrying amount and the gross contractual cashflows are equal to the fair value of each liability as stated in the Statement of financial position.

FOR THE SIX-MONTH PERIOD FROM 1 OCTOBER 2023 TO 31 MARCH 2024

14. Financial risk management (continued)

d) Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Company's processes and infrastructure, and from external factors other than credit, markets and liquidity issues such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour.

Operational risks arise from all of the Company's operations. The Company was incorporated with the purpose of engaging in those activities outlined in note 1. All administration functions are undertaken by Wilmington Trust SP Services (Dublin) Limited, Deutsche Bank AG, Jane Street Financial Limited, HSBC Bank Plc, Susquehanna International Securities Limited, Optiver VOF, Virtu Financial Ireland Limited, Flow Traders B.V, Morgan Stanley & Co International and CitiGroup Global Markets Limited act as the Company's authorised participants (the "Authorised Participants"), DWS International GmbH acts as arranger (the "Arranger") and Programme Administrator, JPMorgan Chase Bank N.A. acts as metal agent (the "Metal Agent"), Secured Account Custodian, Fee Account Custodian, Subscription Account Custodian and Series Counterparty ("Series Counterparty") and State Street Fund Services (Ireland) Limited acts as Issuing and Determination Agent.

15. Fair values

The Company's financial assets and financial liabilities at fair value through profit or loss are carried at fair value in the Statement of financial position.

The Company measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

- a. Level 1: Quoted market price in an active market for an identical instrument.
- b. Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- c. Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The objective of valuation techniques is to arrive at a fair value determination that reflects the price of the financial instrument at the reporting date that would have been determined by market participants acting at arm's length.

Level 2 prices use widely recognized valuation models for determining the fair value of common and more simple financial instruments that use only observable market data and require little management judgement and estimation. Availability of observable market prices and model inputs reduces the need for management judgement and estimation and also reduces the uncertainty associated with determination of fair values. Availability of observable market prices and inputs varies depending on the products and markets and is prone to changes based on specific events and general conditions in the financial markets.

Transfers between levels are determined based on changes to the significant inputs used in their fair value measurement. The Directors evaluate whether significant inputs to the valuation models are observable at the period end in making a decision to transfer a valuation from one level to another.

The Company determines the effective date of transfer at the beginning of the reporting period.

The Company does not have any financial instruments at Level 3 and there has not been any transfer between levels during the period ended 31 March 2024.
