Investing involves risk, including the possible loss of principal. Incorporation of ESG criteria in the Fund's investment strategy does not guarantee a return or protect against a loss, limits the types and number of investment opportunities available to the Fund and, as a result, the Fund may underperform other funds that do not have an ESG focus. Stocks may decline in value. This Fund is non-diversified and can take larger positions in fewer issues, increasing its potential risk. An investment in this Fund should be considered only as a supplement to a complete investment program for those investors willing to accept the risks associated with the Fund. Please read the prospectus for more information.
