

Key Investor Information for Investors in the United Kingdom

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Xtrackers II Salam USD Global Aggregate Sukuk UCITS ETF

Share class: 1D, ISIN: LU3123443510, Security code: DBX0XH, Currency: USD

a sub-fund of Xtrackers II. The management company is DWS Investment S.A., a member of the DWS Group.

Objectives and investment policy

The fund is passively managed. **INVESTMENT OBJECTIVE:** The aim is for your investment to reflect the performance of the Bloomberg Global USD 500mn Sukuk Index (index). The Management Company has appointed ASB Capital Limited (Shari'a Consultant) to provide Shari'a consultation services relating to the securities which comprise the portfolio of the Sub-Fund. **DESCRIPTION OF INDEX:** The index aims to reflect a broad-based measure of the global USD-denominated Sukuk markets that pass Sukuk Shari'a screening criteria based on IdealRatings data. The bonds must meet certain sector, amount outstanding, and security type criteria. **INDEX REBALANCING, CALCULATION AND ADMINISTRATION:** The weight of each issuer is limited to 15%. The index is rebalanced monthly. The index is administered by Bloomberg Index Services Limited. The index is calculated on a total return basis which means that the payments from coupons are reinvested. **INVESTMENT POLICY:** To achieve the aim, the fund will attempt to replicate the index, before fees and expenses, by

buying a portfolio of securities that may comprise the constituents of the index or other unrelated investments as determined by DWS entities. The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of derivatives. **FURTHER INFORMATION:** Certain information (including the latest share prices of the fund, indicative net asset values, full disclosure on the composition of the fund's portfolio and information on the index constituents) are available on your local DWS website or at www.Xtrackers.com. Transaction costs and taxes, unexpected fund costs and market conditions such as volatility or liquidity issues may affect the ability of the fund to track the index. The anticipated level of tracking error in normal market conditions is 1 per cent. The currency of the fund is USD. The fund distributes quarterly. You may request the redemption of shares generally on a daily basis.

Risk and reward profile

The calculation of the risk and reward profile is based on simulated data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 3 because its share price fluctuates comparatively little and the likelihood of both losses and gains is therefore relatively low. The following risks could be of particular significance for the fund: The fund will attempt to replicate the performance of the index less costs, but your investment is not expected to match the performance of the index precisely. **EXCEPTIONAL CIRCUMSTANCES RISK:** Exceptional circumstances may arise, such as, but not limited to, disruptive market conditions, additional costs/taxes or extremely volatile markets, which may cause the fund's performance to be substantially different from the performance of the index. **CONFLICTS OF INTEREST RISK:** DWS entities and related companies may act in several roles in relation to the fund such as distributor and management company which may involve conflicts of interest. **NO GUARANTEE RISK:** The fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up. **BONDS RISK:** The index provides a notional exposure to the value and/or return of certain bonds which may fall. Markets in these asset classes may at times become volatile or illiquid. This means that ordinary trading activity may occasionally be disrupted or impossible. The fund invests in

non-investment grade bonds which generally have a higher risk of default and are more susceptible to market fluctuations than investment grade bonds. This may affect the value of your investment. **EMERGING MARKETS RISK:** The fund is exposed to less economically developed economies (known as emerging markets) which involve greater risks than well developed economies. Political unrest and economic downturn may be more likely and will affect the value of your investment. **CREDIT & INTEREST RATE RISK:** The fund may invest in bonds which are exposed to credit risk and interest rate risk. This may affect the value of your investment. **DERIVATIVES RISK:** The fund may use derivatives to try to manage its investments more efficiently. This may not always be successful and may result in greater fluctuations in the value of the fund. This may negatively affect the value of the fund and your investment. **SHARI'A COMPLIANCE:** Although the fund intends to comply with the Shari'a Investment Guidelines at all times, no such assurance can be given. Pursuant to such guidance by the Shari'a Consultant, the fund will, for instance, refrain from investing in securities and other financial instruments which, in the opinion of the Shari'a Consultant, are not or are no longer, in compliance with the Shari'a Investment Guidelines. In addition, the Shari'a Investment Guidelines may require the fund to dispose of investments in circumstances that are less advantageous, which may result in the underperformance of the fund. **SUKUK:** Sukuk are exposed to credit risk and interest rate risk. There is a risk that a Sukuk issuer may be unable or unwilling to make payments according to the terms of the Sukuk, resulting in your investment suffering a loss. If interest rates rise, typically the value of Sukuk will fall, which could also affect the value of your investment.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	0.40 %
Charges taken from the fund under certain specific conditions	
Performance fee	None

Secondary market investors (those who buy or sell shares on a stock exchange) may be charged certain fees by their stock broker. These charges, if any, can be obtained from such stock broker. Authorised participants dealing directly with the fund will pay the transaction costs related to their subscriptions and redemptions.

The ongoing charges shown here are a cost estimate. It excludes portfolio transaction costs and performance fees, if any.

Additional information on costs can be found in the cost section(s) of the prospectus.
