Directors' Report

2015 presented a mixed picture to investors, with a wide array of returns across equity, commodity and alternatives markets. Emerging market equities continued their decline from 2014, the db x-trackers MSCI EMERGING MARKETS INDEX UCITS ETF* posted a loss of 15.62% in EUR¹. Economies reliant on the exportation of commodities, specifically, saw significant losses due to depreciating currencies coupled with a weakness in energy and raw material prices, subsequently lowering demand for goods from China and elsewhere. Arguably, concerns surrounding the Chinese economy were a major catalyst in slowing down growth in emerging market countries. Despite weak economic performance, the CSI 300 still reported a gain on the year, with the db x-trackers Harvest CSI300 INDEX UCITS ETF (DR) up 13.88%¹ due to a successful period of positive returns at the beginning of the year.

Nevertheless, certain Chinese sector products performed extremely well; db x-trackers CSI300 HEALTH CARE UCITS ETF* was the best performing across all asset classes, returning +42.50%¹, and the db x-trackers CSI300 REAL ESTATE UCITS ETF* not far behind at +39.41%¹.

Brazil, in particular, underperformed, with the db x-trackers MSCI BRAZIL INDEX UCITS ETF (DR) returning -34.72%¹, with a sharp depreciation of the Brazilian Real dropping over 45% against the US Dollar over the year. This slump in the currency resulted in an increase in inflation, prompting Central Bank tightening and financial stress.

Developed markets fared better than their emerging counterparts, despite unrest and uncertainty. There was a distinct divergence in returns, however, across all regions. Italy was the top performer – the db x-trackers FTSE MIB UCITS ETF (DR) witnessed an increase in returns of +14.86%¹. Austria, France, Germany and Japan in particular also performed well, but Singapore, Canada and Spain all struggled, with 2015 performance for their respective benchmark blue-chip indices sitting firmly in negative territory.

The S&P 500 posted modest gains of 0.75% due to an end of year rally, marking its worst year since 2011 with commodity prices, worries surrounding emerging markets and Fed tightening all weighing on returns and leading to sell-offs in August and September.

European small- and mid-caps had a positive year, with the db x-trackers MSCI EUROPE SMALL CAP INDEX UCITS ETF (DR) returning 23.38%¹ in contrast to the db x-trackers MSCI EUROPE INDEX UCITS ETF (DR), which rose 8.25%¹ over the course of the year. Some of this outperformance can be accredited to alternate sector weightings, with the Small Cap Index providing lower exposure to sectors such as Energy and Consumer Staples, but a heavier weight to Technology stocks, which had a strong year.

The db x-trackers FTSE 250 UCITS ETF (DR) also saw greater returns in comparison with its larger capitalisation counterpart the db x-trackers FTSE 100 UCITS ETF (DR), with returns sitting at +16.43%¹ and +3.79%¹ respectively. The lower returns of the FTSE 100 can be attributed to the relatively high weighting of Oil, Gas and Mining stocks in the index, which experienced a challenging year.

Slower growth across the global economy coupled with an increase in supply exerting downward pressure on prices. The broad based commodity index product, db x-trackers DBLCI - OY BALANCED UCITS ETF*, was down -15.93%¹ for the year, highlighting another difficult year for commodities.

Alternatives had a positive year, the db x-trackers LPX MM® Private Equity UCITS ETF* demonstrated strong performance at +11.36%¹. Hedge fund products, however, had a mixed year, depending on the funds' respective currency hedging policy. The db x-trackers DB HEDGE FUND INDEX UCITS ETF* - 3C (USD hedged) was up 9.35%¹ on the year. Conversely, the db x-trackers DB HEDGE FUND INDEX UCITS ETF* - 1C (EUR hedged) lost 2.38%¹ over the year.

In the Cash realm, despite the db x-trackers US DOLLAR CASH UCITS ETF* offering marginally negative returns at -0.02% in USD terms due to a sustained period of low interest rates, the fund offered +11.37%¹ gains in EUR due to a strengthening USD against the EUR.

New Share-Classes:

By financial year end, db x-trackers** had launched five new Share-Classes (as per the table below), all offering direct replication exposures to European equities. These Share-Classes managed to accumulate 191 million EUR in new assets.

¹ All return figures in this Commentary are calculated based on returns in EUR. All conversions into EUR were made with WM/ Reuters closing spot rates at 16:00 UK GMT.

Focusing on direct replication ETFs as an area of key growth, db x-trackers** changed investment policy for a number of synthetic Sub-Funds to direct replication in 2015, in order to extend and further strengthen the well-received offering of direct replication ETFs launched since 2012. 10 Sub-Funds also changed their investment policy from a Funded Swap to an Unfunded Swap.

Focusing on key areas of growth and thereby better serving the requirements of investors by bringing the Sub-Funds of the Company in line with current and future investor demand, db x-trackers** terminated a number of Sub-Funds. A total of 15 Sub-Funds and additional 23 share classes had demonstrated sustained low levels of investor demand over a long period of time, and were closed. In the same process a total of 47 exchange listings of existing ETFs were discontinued in order to strengthen the liquidity of the ETF shares on those exchanges where listings were retained.

By year-end, 123 Sub-Funds encompassing 174 Share Classes were live.

The table below contains tracking error levels realised over the 2015 period for all Sub-Funds and/or Share Classes which were launched before the beginning of the financial year ending 31 December 2015. These realised tracking error levels are contrasted with the anticipated tracking error levels. As per the following table, for each of the Sub-Funds and/or Share Classes the level of realised tracking error was within the expected range, due to the effectiveness of replication techniques utilised over the 2015 period.

Independent auditor's report

To the Shareholders of db x-trackers,
49, avenue J.F. Kennedy
L-1855 Luxembourg

Following our appointment by the annual general meeting of the Shareholders of 27 March 2015, we have audited the accompanying financial statements of db x-trackers (the "SICAV") and of each of its Sub-Funds, which comprise the Statement of Net Assets and the Statement of Investments as at 31 December 2015 and the Statement of Operations and Changes in Net Assets for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

Responsibility of the Board of Directors of the SICAV for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation and presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the "réviseur d'entreprises agréé"

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier". Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the judgement of the "réviseur d'entreprises agréé", including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the "réviseur d'entreprises agréé" considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of db x-trackers and of each of its Sub-Funds as of 31 December 2015, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Other matter

Supplementary information included in the annual report has been reviewed in the context of our mandate but has not been subject to specific audit procedures carried out in accordance with the standards described above. Consequently, we express no opinion on such information. However, we have no observation to make concerning such information in the context of the financial statements taken as a whole.

b) Investment Objectives and Policies

A Sub-Fund may carry out its Investment Objective via an Indirect Investment Policy and/or a Direct Investment Policy as more fully described in the following paragraphs.

Sub-Funds with an Indirect Investment Policy

Sub-Funds with an Indirect Investment Policy (“Indirect Replication Funds”) may not invest directly in the constituents of the Reference Index. Instead, the exposure to the performance of the Reference Index will be achieved by way of derivative transactions and/or instruments (the “Derivative Transaction(s)”). In particular, an Indirect Replication Fund will conclude OTC swap transactions negotiated at arm’s length with one or more Swap Counterparties (the “OTC Swap Transaction(s)”).

* This is a synthetic ETF.

** This includes synthetic ETFs and a non-ETF.

Notes to the Financial Statements (continued)

1. General (continued)**b) Investment Objectives and Policies (continued)**

In order to achieve its Investment Objective and in accordance with the Investment Restrictions, an Indirect Replication Fund may at any time invest part or all of the net proceeds of any issue of its Shares:

- (a) in Invested Assets and use one or more Derivative Transactions the purpose of which is to exchange all or part of the performance and/or income of such Invested Assets to gain exposure to the Reference Index (an “Unfunded Swap”) (refer to Note 4.1); and/or,
- (b) in one or more Derivative Transactions the purpose of which is to exchange all or part of the invested proceeds to gain exposure to the Reference Index (a “Funded Swap”) (refer to Note 4.2).

An Indirect Replication Fund may, with due regard to the best interests of its Shareholders and subject to any conditions set forth in each specific Product Annex of the Prospectus, decide from time to time to switch partially or totally from a Funded Swap to an Unfunded Swap, and vice versa.

The Invested Assets, Derivative Transactions and any techniques used to link the Invested Assets to the Reference Index or the Derivative Transactions; or the invested proceeds to the Reference Index will be managed by the relevant Investment Manager and/or Sub-Portfolio Manager. The management of the Invested Assets will generally not involve the active buying and selling of securities on the basis of investment judgement and economic, financial and market analysis.

In principle, the return that the Shareholder will receive will largely be dependent on the performance of the Invested Assets, the performance of the Reference Index and the performance of any techniques used to link the Invested Assets and/or the net proceeds from the issue of Shares to the Reference Index.

Depending on the value of the Derivative Transactions and its chosen policy an Indirect Replication Fund may be at any time fully or partially exposed to one or more counterparties (including one or more Swap Counterparties), in which case appropriate collateral or other counterparty risk mitigation arrangements compliant with the Regulations will be taken/implemented and/or payment will be received from the Derivative Transactions counterparties so that the percentage of the counterparty risk exposure remains within the limits set out in the Regulations (refer to Note 9).

Sub-Fund in compliance with Islamic investment guidelines

Sub-Fund
db x-trackers DJ ISLAMIC MARKET TITANS 100 UCITS ETF*

The Investment Objective of the Sub-Fund mentioned hereabove is to track the performance of the Reference Index. The Sub-Fund will invest in a portfolio of Shariah compliant assets and propose to enter into certain Shariah compliant agreements (“Wa’d”), negotiated at arm’s length with Deutsche Bank AG, acting through its London branch, the purpose of which would be to enable the exchange of the performance of the invested assets the Sub-Fund invests in against the performance of the index in a Shariah compliant agreement (“Wa’d”).

The Sub-Fund shall invest the proceeds of the subscription of the Shares in assets meeting the criteria set out below and further detailed in the Prospectus, and in any non-interest bearing liquid assets that the Sub-Fund may hold from time to time on an ancillary basis.

Based on established parameters of leading Shariah scholars and boards, the following businesses, industries and financial instruments are inconsistent with Shariah precepts and principles and hence investment in their assets, e.g. shares, is not suitable for Islamic, Shariah compliant investment purposes: (i) alcohol, (ii) tobacco, (iii) pork-related products, (iv) conventional financial services (banking, insurance, etc.), (v) weapons and defense, (vi) entertainment (hotels, casinos/gambling, cinema, pornography, music, etc...).

Sub-Funds with a Direct Investment Policy

Sub-Funds with a Direct Investment Policy have “(DR)” in the name of the Sub-Fund.

Sub-Funds with a Direct Investment Policy (“Direct Replication Funds”) may carry out their investment objective by investing in a portfolio of transferable securities or other eligible assets that may comprise all (or, on an exceptional basis, a substantial number of) the constituents of that Reference Index (“Full Index Replication”), an optimised sample thereof, or unrelated transferable securities or other eligible assets (“Optimised Index Replication”).

* This is a synthetic ETF.

** This includes synthetic ETFs and a non-ETF.

Notes to the Financial Statements (continued)

1. General (continued)**b) Investment Objectives and Policies (continued)**

Direct Replication Funds may not hold every constituent or the exact weighting of a constituent in the Reference Index but instead may seek to gain exposure to a Reference Index by utilising optimisation techniques and/or by investing in securities that are not part of that Reference Index. The types of securities in which Direct Replication Funds may invest include American depositary receipts (“ADRs”), global depositary receipts (“GDRs”), and/or non-voting depositary receipts (“NVDRs”).

The extent to which a Direct Replication Fund utilises optimisation techniques will partly depend on the nature of the constituents of its Reference Index. For example, a Direct Replication Fund may utilise optimisation techniques and may be able to provide a return similar to that of its Reference Index by investing in a sub-set of the constituents on its Reference Index. Use of these investment techniques, the implementation of which is subject to a number of constraints detailed in the “Investment Restrictions” section of the Prospectus, may not produce the intended results.

c) The Shares

The Shares will be issued by the Company exclusively in relation to Sub-Funds with the aforementioned Investment Policies and may be subscribed in cash or in kind (or a combination of both cash and in kind).

The Shares may be differentiated between Distribution Shares (identified by the letter “D”) and Capitalisation Shares (identified by the letter “C”). Other Classes may be offered with specific features such as conversion or redemption charge, minimum subscription amount or other specific features. Within each Class of Shares, several types of sub-classes can be issued (identified by capital alphabetic letters), differentiating between (but not limited to) dividend payment structures, dividend payment dates, and fee structures. The Shares will be listed for trading on one or more stock exchanges unless otherwise specified in the relevant Product Annex of the Prospectus.

2. Accounting policies

The financial statements of the Company have been prepared according to accounting principles generally accepted in Luxembourg and applicable for investment funds. The significant accounting policies used are as follows:

a) Valuation of investments

The Net Asset Value of the Company is at any time equal to the total of the Net Asset Values of the Sub-Funds in the base currency of the Company.

The Net Asset Value of the Sub-Funds shall be determined in accordance with the following rules:

- (i) the value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as may be considered appropriate in such case to reflect the true value thereof;
- (ii) the value of all securities which are listed or traded on an official stock exchange or traded on any other Regulated Market will be valued on the basis of the last available prices on the Business Day immediately preceding the Valuation Day or on the basis of the last available prices on the main market on which the investments of the Sub-Funds are principally traded. The Board of Directors will approve a pricing service which will supply the above prices. If, in the opinion of the Board of Directors, such prices do not truly reflect the fair market value of the relevant securities, the value of such securities will be determined in good faith by the Board of Directors either by reference to any other publicly available source or by reference to such other sources as it deems in its discretion appropriate;
- (iii) securities not listed or traded on a stock exchange or a Regulated Market will be valued on the basis of the probable sales price determined prudently and in good faith by the Board of Directors;

2. Accounting policies (continued)**a) Valuation of investments (continued)**

- (iv) the swap agreements are valued on the basis of total return swaps, which correspond to the net positive or negative value resulting from, on one hand, either the market appreciation/depreciation of the portfolio of investments, including income earned on these investments or the net proceeds of any issue of Shares, and, on the other hand, of the market value of the index plus dividend distributions for those indices which are total return indices. The net positive or negative value is disclosed in the financial statements as “Unrealised gain on swap” or as “Unrealised loss on swap”;
- (v) the liquidating value of futures or forward contracts that are not traded on exchanges or on other organised markets shall be determined pursuant to the policies established by the Board of Directors, on a basis consistently applied. The liquidating value of futures or forward contracts traded on exchanges or on other organised markets shall be based upon the last available settlement prices of these contracts on exchanges and organised markets on which the particular futures or forward contracts are traded; provided that if a futures or forward contract could not be liquidated on such Business Day with respect to which a Net Asset Value is being determined, then the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable;
- (vi) for Sub-Funds investing part or all of their net proceeds in swaps transactions, “Receivable due from swap counterparty” represents an advance to the counterparty of the swap agreement to finance the swap (at nominal value). Swap agreements are valued as described hereabove under (iv);
- (vii) all other securities and other permissible assets as well as any of the above mentioned assets for which the valuation in accordance with the above sub-paragraphs would not be possible or practicable, or would not be representative of their fair value, will be valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors;
- (viii) the value of the Shariah compliant agreements (“Wa’d”) will correspond to the net positive or negative value resulting from, on one hand, the market appreciation/depreciation of the Invested Assets and, on the other hand, of the market value of the Shariah compliant index. The net positive or negative value is disclosed in the financial statements as “Unrealised gain on Wa’d” or as “Unrealised loss on Wa’d”.

b) Investment transactions

The net realised gain / (loss) on sale of investments is determined on the basis of the average cost of investments sold. Investment transactions are accounted for on a trade date basis.

The net realised gain / (loss) on sale of investments is disclosed in the financial statements as “Net realised gain / (loss) on investments”.

c) Conversion of foreign currencies

Accounting records are kept for each Sub-Fund in its reference currency. The combined statement of net assets and statement of operations and changes in net assets of the Company are presented in Euro based on the exchange rate prevailing at the date of the Statement of Net Assets.

Income and expenses in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the transaction date.

Assets and liabilities in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the date of the Statement of Net Assets.

d) Income

Interest is recorded on an accrual basis. Dividends are accounted for on the ex-date, net of withholding tax.

3. Taxation of the Company

Under current law and practice, the Company is not liable to any Luxembourg income taxes, stamp or other tax. Investment income and capital gains, if any, received or realised by the Company may, however, be subject to taxation in the country of origin at varying rates, which normally cannot be recovered by the Company.

Although the Company is, in principle, subject in Luxembourg to a subscription tax ("Taxe d'Abonnement") at an annual rate of 0.05% or 0.01% for the category of shares reserved to institutional investors, all Sub-Funds which are ETFs are exempt from such tax if (i) all their Shares are listed or traded on at least one stock exchange or another regulated market operating regularly, recognised and open to the public; and (ii) their exclusive objective is to reflect the performance of one or more indices, it being understood that this condition of exclusive objective does not prevent the management of liquid assets, if any, on an ancillary basis, or the use of techniques and instruments used for hedging or for purposes of efficient portfolio management. A Grand-Ducal regulation may determine additional or alternative criteria with respect to the indices under that exemption.

4. Swaps**4.1 Sub-Funds with investments in transferable securities or money market instruments**

The swap agreements are concluded at the beginning of the life of the Sub-Fund with the transferable securities and money market instruments having a similar cost to the notional value of the index. This position may however change during the life of the swap whereby the cost of the transferable securities and money market instruments may become higher / lower than the notional value of the index due to additional purchases / sales of transferable securities and money market instruments compared to the index notional. The difference between these notional values is accounted for and disclosed in the financial statements as "Receivable due from swap counterparty" or as "Payable due to swap counterparty" depending on which notional is higher. The receivable balances will be settled to the Sub-Fund and the payable balances will be settled to the swap counterparty on termination of the respective swap agreement.

The table below lists the notional values of the paying and receiving legs of the swap and the unrealised gain / (loss) on swap per Sub-Fund.

5. Wa'd Agreements

The exposure of db x-trackers DJ ISLAMIC MARKET TITANS 100 UCITS ETF* to its Reference Index is intended to be achieved through Shariah Compliant Agreements ("Wa'd"). The valuation of the Wa'd will reflect the relative movements in the performance of the Reference Index and the Invested Assets. Depending on the value of the Wa'd, the Sub-Fund may be required to sell Invested Assets and/or make payment or be entitled to receive such a payment. In the case that the Sub-Fund has to make a payment, this payment will be made from the proceeds and, as the case may be, the partial or total disposal of the Invested Assets the Sub-Fund has invested in.

The table below lists the value and the unrealised gain / (loss) on Wa'd agreements of the Sub-Fund.

8. Securities lending

Sub-Funds with a Direct Investment Policy may enter into securities lending transactions (“Securities Lending Transactions”) for up to 100% (or up to 30% for Authorised Sub-Funds with a Direct Investment Policy) of their assets to generate additional income and therewith offset part or all of their costs. Such transactions are strictly regulated and must, amongst other things, be able to be terminated at any time at the initiative of the Sub-Fund. Securities Lending Transactions nonetheless give rise to certain risks including valuation and operational risks and market and counterparty risks.

Depending on the value of the Securities Lending Transactions and its chosen policy, a Sub-Fund may be at any time fully or partially exposed to one or more counterparties, in which case appropriate collateral or other counterparty risk mitigation arrangements compliant with, (i) Part I of the Luxembourg law of 17 December 2010, as amended, (ii) any amendment or replacement legislation thereto for the time being in force, (iii) any regulation of any type taken in pursuant of (i), (ii), as well as (iv) any rule, guideline and general or specific position from time to time adopted by the CSSF pursuant thereto (the “Regulations”) will be taken/implemented and/or payment will be received from the Securities Lending Transactions counterparties so that the percentage of the counterparty risk exposure remains within the limits set out in the Regulations.

For the Sub-Funds with a Direct Investment Policy, the Company and the Management Company have appointed Deutsche Bank AG, acting through its Frankfurt head office and its London and New York branches as the Securities Lending Agent (the “Securities Lending Agent”). The Securities Lending Agent has been authorised (i) to enter into Securities Lending Transactions on behalf of the Company and (ii) to invest any cash received/held on behalf of the Company as collateral pursuant to such Securities Lending Transactions, in accordance with and within the limits set forth in the Agency Securities Lending and Repurchase Agreement, the rules set out in the Prospectus and the Regulations.

Any income generated by Securities Lending Transactions (reduced by any applicable direct or indirect operational costs and fees arising therefrom and paid to the Securities Lending Agent and, as the case may be, to the Management Company) will be payable to the relevant Sub-Fund. Unless otherwise specified in the relevant Product Annex and to the extent a Sub-Fund undertakes Securities Lending Transactions, the Securities Lending Agent and the Management Company shall receive a fee for the services provided in this respect.

For the year ended 31 December 2015, the Sub-Funds earned net income which is included in the Statement of Operations and Changes in Net Assets as “Income on securities lending”.

Currently, the Securities Lending Agent and the Management Company receive the following portions of the gross lending revenues generated, in order to cover their estimated direct or indirect operational costs and fees associated with the services provided in this respect and the oversight of the Securities Lending Transactions:

9. Collateral**9.1. State Street Bank Luxembourg S.C.A. (“SSBL”) Collateral Arrangement**

Under a pledge agreement between the Company, the Management Company, Deutsche Bank, acting through its London branch, in its capacity as Swap Counterparty and SSBL, the Company has organised collateral arrangements through one Luxembourg global account (the “Pooled Account”) opened at SSBL in the name of the Swap Counterparty, pursuant to a custodian agreement entered into between SSBL and the Swap Counterparty.

This Pooled Account is pledged in favour of the Company acting on behalf of all or part of its Sub-Funds and the financial assets of which would be allocated among the Sub-Funds concerned so that each of the latter would be able to identify the specific financial assets held on such account which are pledged in its favour.

In the event of an enforcement event (for example a default by the Swap Counterparty), the pledge arrangement allows for the custodian of the Pooled Account to transfer the collateral to the Sub-Funds without having to obtain the consent of the Swap Counterparty or having to inform the Swap Counterparty in advance. It is further detailed that the Company, the Management Company or any of their agents, will have total and unlimited discretion as to the manner of enforcement and will not be required to have regards to the interests of the Swap Counterparty.

10. Management Company Fee and Fixed Fee**a) Management Company Fee**

In accordance with and subject to the terms of the Management Company Agreement, the annual Management Company Fee will accrue on each calendar day and will be calculated on each Valuation Day on the basis of a percentage of (i) the last available Net Asset Value of each Sub-Fund or Class of Shares or (ii) the Initial Issue Price multiplied by the number of outstanding Shares of each Sub-Fund or Class of Shares (as indicated for each Sub-Fund or Class of Shares in the relevant Product Annex of the Prospectus). The Management Company Fee is payable quarterly.

The Management Company is also entitled to receive reimbursement for any reasonable expenses that were made in its capacity as management company of the Company in the context of the execution of the Management Company Agreement and that were not reasonably foreseeable in the ordinary course of business.

Notwithstanding the above, the Management Company and the Company may agree on a different fee structure in respect of a certain Sub-Fund or Class of Shares, as indicated in the relevant Product Annex of the Prospectus.

The Management Company may pay a Distribution Fee to the Distributor out of the Management Company Fee. A Distributor may re-allocate an amount of the Distribution Fee to a sub-distributor (as applicable).

b) Fixed Fee

Under the terms of an arrangement between the Company and Deutsche Bank AG, acting through its London branch (the "Fixed Fee Agent"), the Fixed Fee Agent will, in exchange for the payment of a Fixed Fee, calculated on the average daily Net Asset Value per Sub-Fund or per Class at a rate as specified in the table below and payable periodically, finance the payment of certain fees and expenses, unless otherwise specified in the relevant Product Annex of the Prospectus.

The fees and expenses covered by the arrangement are the Administrative Agent Fee, the Custodian Fee, the Registrar, Transfer Agent and Listing Agent Fee, the annual tax in Luxembourg (if any), the formation expenses and certain Other Administrative Expenses.

10. Management Company Fee and Fixed Fee (continued)**b) Fixed Fee (continued)**

The Fixed Fee does not include the following fees, expenses and costs:

- the Investment Management Fee;
- the Management Company Fee;
- the costs of any marketing agencies appointed by the Company or the Management Company to provide certain marketing and distribution services to the Company or the Management Company;
- any taxes or fiscal charges which the Company may be required to pay, except the “Taxe d’Abonnement”, if any, or if it should be payable, any value added tax or similar sales or services tax payable by the Company (VAT) (all such taxes or fiscal charges), unless otherwise specified in the relevant Product Annex of the Prospectus;
- expenses arising out of any advertising or promotional activities in connection with the Company; nor,
- any costs and expenses incurred outside of the Company’s ordinary course of business such as extraordinary expenses (e.g. legal fees incurred in prosecuting or defending, a claim or allegation, by or against, the Company).

In particular, the Fixed Fee Agent will pay the invoices of legal advisers, local paying agents and translators provided and to the extent that these invoices do not in aggregate exceed the overall threshold of Euro ten Million (10,000,000) per financial year and the Company will be liable to pay for any amount that exceeds this threshold. The Company will pay this amount out of the relevant Sub-Fund’s assets to which the specific costs are attributed.

17. Taxation in the People's Republic of China**a) Synthetic CSI300 Sub-Funds**

In 2010, synthetic Sub-Funds were launched which track the performance of the CSI300 Index or a sector or sub-sector of the CSI300 Index (Sub-Funds hereafter referred collectively to as the "Synthetic CSI300 Sub-Funds" and each such index a "CSI300 Index"). Each CSI300 Index measures the performance of A-shares traded on the Shanghai Stock Exchange or the Shenzhen Stock Exchange in the People's Republic of China ("PRC"). The investment and trading in such A-shares by foreign entities requires such entities to be granted a license as a Qualified Foreign Institutional Investor ("QFII") by the China Securities Regulatory Commission ("CSRC").

As described in the Product Annex of each Sub-Fund, the Sub-Funds do not invest directly in A-shares which are the constituent securities of the relevant Reference Index, but seek to obtain an exposure to the performance of the relevant Reference Index by way of OTC Swap Transaction(s) with Deutsche Bank, acting through its London branch, in its capacity as the Swap Counterparty.

The OTC Swap Transaction(s) entered into between a Synthetic CSI300 Sub-Fund and the Swap Counterparty includes a provision according to the terms of which the Synthetic CSI300 Sub-Fund undertakes to keep the Swap Counterparty fully indemnified for any tax liability that may arise in a prospective or retrospective manner in connection with such OTC Swap Transaction(s) to the extent of the same level of tax that a hypothetical offshore investor having invested in the A-shares (which are the constituent securities of the relevant Reference Index) would potentially sustain or incur.

On 14 November 2014, the Ministry of Finance (the "MoF") of the PRC, the State Administration of Taxation of the PRC ("SAT") and the CSRC issued the "Notice on the issues of temporary exemption from the imposition of capital gains tax arising from gains from the transfer of equity investment assets such as PRC domestic stocks by QFII and Renminbi Qualified Foreign Institutional Investor ("RQFII")" Caishui [2014] No.79 (the "Tax Announcement"). According to the Tax Announcement, QFIIs and RQFIIs without an establishment or a place of business in the PRC are temporarily exempt from Corporate Income Tax ("CIT") on gains derived from the trading of A-shares effective from 17 November 2014. With respect to gains derived prior to 17 November 2014, QFIIs and RQFIIs are subject to CIT in accordance with the relevant tax laws and regulations.

On the basis of the information set out in the Tax Announcement, the Management Company made an adjustment to the Net Asset Value (the "NAV") of each Synthetic CSI300 Sub-Fund as of 17 November 2014 to reflect the expected amount of tax related liability to the Swap Counterparty which was attributable to gross realised capital gains derived from the trading of A-shares since the date of inception of each Synthetic CSI300 Sub-Fund up to and including 14 November 2014 (the "Relevant Tax-related Liability").

Notes to the Financial Statements (continued)

17. Taxation in the People's Republic of China (continued)**a) Synthetic CSI300 Sub-Funds (continued)**

Each Synthetic CSI300 Sub-Fund agreed to make a payment (the "Payment Amount") equal to such adjustment amount to the Swap Counterparty as a provision of such Relevant Tax-related Liability. Following such payment, the Swap Counterparty agreed that (a) if the Payment Amount was insufficient to meet the relevant Synthetic CSI300 Sub-Fund's obligation under the Swap Agreement to keep the Swap Counterparty indemnified for any tax liability in connection with the OTC Swap Transactions attributable to the Relevant Tax-related Liability (the "Relevant Tax Indemnity"), the Swap Counterparty would not exercise its rights or remedies in respect of the Relevant Tax Indemnity and (b) if the Payment Amount (converted into RMB at the spot exchange rate prevailing around the payment date of the Payment Amount) was excessive to meet the relevant Synthetic CSI300 Sub-Fund's obligation under the Relevant Tax Indemnity, the Swap Counterparty would pay such excess (the "Excess Amount") to the relevant Synthetic CSI300 Sub-Fund (converted into USD at the spot exchange rate prevailing around the payment date of such excess). Shareholders' attention is drawn to the foreign exchange risk as further described in (f) of the Specific Risk Warning section as set out in the Product Annex of each Synthetic CSI300 Sub-Fund.

During the fiscal year 2015, the Swap Counterparty has determined the Relevant Tax-related Liability in respect of each Synthetic CSI300 Sub-Fund and has paid the relevant Excess Amount to the Synthetic CSI300 Sub-Funds where applicable. The positive impact for each relevant Synthetic CSI300 Sub-Fund was reflected in the respective NAV as of 22 December 2015 and is detailed in the table below.

For the avoidance of doubt, no Excess Amount was available in respect of the Synthetic CSI300 Sub-Funds marked with “#” in the table below, and as such there was no impact on the NAV of these Synthetic CSI300 Sub-Funds as a result of the determination of their Relevant Tax-related Liability.

b) db x-trackers HARVEST CSI300 INDEX UCITS ETF (DR)

db x-trackers HARVEST CSI300 INDEX UCITS ETF (DR) ("Harvest CSI300 Sub-Fund") was launched on 8 January 2014. The methodology adopted for the potential capital gains tax which may be enforced by the SAT on the trading of Chinese A-shares on foreign investors under the Harvest CSI300 Sub-Fund differed from the above methodology described and used by the Synthetic CSI300 Sub-Funds.

From launch date until 10 July 2014 (inclusive), the Board of Directors made a provision of 10% in respect of any potential tax on capital gains from its investments of the Harvest CSI300 Sub-Fund in A-shares issued by companies.

With effect from 11 July 2014 to 14 November 2014 (both dates inclusive), a provision of 10% was made for the account of the Harvest CSI300 Sub-Fund in respect of any potential tax on capital gains from investments of the Harvest CSI300 Sub-Fund in A-shares issued only by companies which qualify as "land rich companies". A company is treated as a "land rich company" if the value of its immovable property in the PRC is more than 50% of its total assets.

On the basis of the information set out in the Tax Announcement, the Management Company has determined to:

(a) make a provision of 10% for the account of the Harvest CSI300 Sub-Fund in respect of the Harvest CSI300 Sub-Fund's gross realised capital gains derived from trading of A-Shares since the Harvest CSI300 Sub-Fund's launch date up to and including 14 November 2014. This excluded the realised gains derived from the Harvest CSI300 Sub-Fund's trading of A-Shares issued by "land rich companies" (for which a provision has already been made). This had a negative impact on the Net Asset Value of the Harvest CSI300 Sub-Fund;

and

(b) reverse the provision in respect of the Harvest CSI300 Sub-Fund's gross unrealised capital gains derived from investment in A-Shares issued by land rich companies made prior to 17 November 2014. This had a positive impact on the Net Asset Value of the Harvest CSI300 Sub-Fund, the net impact of (a) and (b) was positive and is referred to as the "Withholding".

Shareholders may refer to the 2014 Annual Report and the 2015 Semi-Annual Report of the Company for more information on the details of the actual positive impact of the Withholding to the Net Asset Value of 17 November 2014 of the Harvest CSI300 Sub-Fund.

In consideration of the Tax Announcement, the Management Company maintains the intention to not make new tax provisions on gross realized capital gains derived from trading of A-Shares from 17 November 2014 onwards.

The tax liability of the Harvest CSI300 Sub-Fund was determined and settled with the SAT during the fiscal year 2015. However, risks and uncertainties associated with the current PRC tax laws, regulations and practice still exist. Consequently, with the above in consideration and in order to minimize the risks of potential further PRC taxation impact, it is the current intention of the Management Company, acting in the best interest of Shareholders, to continue to withhold the difference (USD 317,906 as of 31 December 2015) between the tax provision mentioned in (a) and the taxation liability that was determined and settled with the SAT during the fiscal year 2015 for a period of time until the Management Company reasonably believes that the risk of potential further PRC taxation impact on the actual taxation liability becomes immaterial. Shareholders who have already redeemed their shares in the Harvest CSI300 Sub-Fund before the return of overprovision, if any, to the account of the Harvest CSI300 Sub-Fund will not be entitled or have any right to claim any part of such overprovision.

Shareholders can view the swap exposures and investment portfolios or collateral holdings for each Sub-Fund on <http://www.etf.db.com>. The information is available under the “ETF Information” tab section for each Sub-Fund.

2) Adjustment to OTC Swap Transactions to reflect index replication costs

As per the prospectus, a Swap Counterparty may enter into hedging transactions in respect of the OTC Swap Transaction(s). According to the OTC Swap Transaction(s) entered into between the Sub-Funds and a Swap Counterparty, the Sub-Funds shall receive the performance of the Indices adjusted to reflect certain index replication costs associated with (i) the buying and selling and any borrowing and/or financing by a Swap Counterparty of the constituents of the Indices in order to replicate the Indices performance; or (ii) financing charges incurred to safeguard against severe market movements of the constituents of the Indices; or (iii) unexpected financing costs in the event of severe markets movements; or (iv) custody or other related costs incurred by a Swap Counterparty in relation to holding the constituents of the Indices; or (v) taxes or other duties imposed on the buying or selling of the constituents of the Indices; or (vi) taxes imposed on any income derived from the constituents of the Indices; or (vii) any other transactions performed by a Swap Counterparty in relation to the constituents of the Indices.

In addition, from time to time a Swap Counterparty may achieve certain benefits or enhancements as a result of its hedging activities. In certain circumstances, a Swap Counterparty may, in its absolute and sole discretion, decide to pay some or all of such benefits or enhancements to the Sub-Fund under the OTC Swap Transaction(s) in addition to any payments contractually due under the OTC Swap Transaction(s).

As of the end of the annual financial year 2015, the OTC Swap Transactions of the following Sub-Funds were adjusted by the below figures. A positive figure in the table means that the OTC Swap Transactions of the relevant Sub-Fund were subject to a negative adjustment. These figures are netted against the benefits or enhancements as a result of a Swap Counterparty's hedging activities that were received under the OTC Swap Transaction(s), if any. These costs may vary over time in accordance with market conditions and market practice.
