Custodian/Sub-custodian	JP Morgan Chase Bank, N.A. London Branch

Physical Replication

Xtrackers IE Physical Gold GBP Hedged ETCs Securities are backed by a direct investment in the underlying physical gold. The issuer has direct and sole ownership of the gold which is stored in secure accounts. Each physical ETC security entitles the holder to a specified quantity of gold (the "Metal Entitlement") of the segregated pool owned by the issuer. The value of the security is a function of the Metal Entitlement, the gold spot price and any applicable fees.

Xtrackers IE Physical Gold GBP Hedged ETCs combine the advantages of physical gold ownership, e.g. exposure to gold spot prices and minimal counterparty exposure, with the liquidity, transparency and ease of execution typical of exchange traded products. Settlement of the ETCs will be in cash. No physical metal will be delivered to ETC security holders in the secondary market ie to security holders that are not Authorized Participants.

Currency Hedging and Limited Recourse Assets

The Xtrackers IE Physical Gold GBP Hedged ETC facilitates GBP-based investors to gain exposure to the underlying gold while minimising the impact of the GBP/USD exchange rate risk. The hedging is carried out on a daily rolling basis. In respect of each series of ETC securities, the underlying physical gold (Secured Property) is owned by the issuer, and held through the secured accounts custodian. It is further secured in favour of the trustee on behalf of the security holders. Each series of ETC securities will have recourse only to the respective Secured Property (i.e. ring-fenced) which is not available to satisfy the claims of holders of a different series of ETC securities.

Key Advantages of Xtrackers Physical precious metals ETCs

- Convenience: An easy way to gain exposure to spot returns of the underlying precious metal.
- Liquidity of Xtrackers ETC: Liquid and traded intra-day on major European stock exchange with intra-day market making.
- Minimal tracking error: Returns of the ETCs are equal to the spot returns of the underlying metal minus any applicable fees and adjusted in accordance with the FX hedge.
- Physical ownership: Backed by the corresponding physical metal.
- Transparent to value: Precious metal prices are published daily in major newspapers, TV and other news sources.
- Segregated: The physical metal is stored in secure accounts and each ETC series has a security over specific metal accounts held by the custodian.
- Currency hedging: Xtrackers IE Physical Gold GBP Hedged ETCs have a daily currency hedging mechanism to minimise the GBP/USD exchange rate risk.

Key Risk Factors

- Xtrackers ETCs are not principal protected investments, therefore an investor's capital will be at risk up to a total loss.
- Prices of precious metals are generally more volatile than prices of other asset classes.
- Investments in ETC securities will not accrue any interest and performance is subject to the deduction of the product fee.
- The value of an investment in ETC securities may go down as well as up and past performance is not a good indicator of future performance.
- Investing in ETC securities will not make an investor the owner of the relevant metal.
- Pricing of the ETC securities on the secondary market may be at a significant discount or premium compared to the Value per ETC Security (intrinsic value) published by the Issuer.
- Currency hedging component of ETC securities: In case the issuer has made a profit on a currency hedging component between relevant observation dates, the issuer and the investors will have an unsecured credit exposure to the Series Counterparty for such a profit being settled for up to two business days following each valuation day.

For a full description of relevant risk factors, please refer to the prospectus.
