<sup>1</sup> All ETFs are sub-funds of one of the platforms: Xtrackers, Xtrackers II or Xtrackers (IE) Plc.

<sup>2</sup> Investors should be aware that in addition to the All-In Fee, the ETF may incur other costs which may negatively impact the performance of their investment relative to the underlying index. Examples include: Brokerage and other transaction costs, financial transaction taxes or stamp duties as well as potential differences in taxation of either capital gains or dividend assumed in the relevant underlying index, and actual taxation of either capital gains or dividends in the ETF. The precise impact of these costs cannot be estimated reliably in advance as it depends on a variety of non-static factors. Investors are encouraged to consult the audited annual- and un-audited semi-annual reports for details. Clarification on All-in Fee for Indirect Replication funds: Investors should note that the All-In Fee does not cover any OTC Swap Transaction Costs, which are embedded in the OTC Swap Transaction Costs of the relevant Xtrackers UCITS ETF. OTC Swap Transaction Costs are index replication costs incurred by the Swap Counterparty and may impact the performance of the relevant Xtrackers UCITS ETF negatively relative to the underlying index. Index replication costs can be broken down into various categories depending on the nature of the underlying index (long, short or leveraged). A detailed description of each scenario is available in the Prospectus under the heading „Investment Objectives and Policies - Sub-Funds with an Indirect Investment Policy“. Investors can access Xtrackers.com for information regarding the applicable scenario and an indication for the latest OTC Swap Transaction Costs.

## Key Risk Factors

Investments in funds involve numerous risks including, among others, general market risks, credit risks, foreign exchange risks, interest rate risks and liquidity risks. As such, the value of an investment in an Xtrackers ETF may go down as well as up and can result in losses, up and including a total loss of the amount initially invested. Movements in exchange rates can impact the value of your investment. If the currency of your country of residence is different from the currency in which the underlying investments of the fund are made, the value of your investment may increase or decrease subject to movements in exchange rates.
