Objective and strategy

On 2/3/25 the fund changed its name from Xtrackers MSCI EAFE ESG Leaders Equity ETF to Xtrackers MSCI EAFE Selection Equity ETF. The underlying index of the fund, the MSCI EAFE ESG Leaders Index, also changed its name to the MSCI EAFE Selection Index. There were no changes to the index methodology of the Underlying Index and no changes in the investment policies of the fund.

Xtrackers MSCI EAFE Selection Equity ETF seeks investment results that correspond generally to the performance, before fees and expenses, of the MSCI EAFE Selection Index. The MSCI EAFE Selection Index is designed to provide exposure to companies across developed market countries, excluding Canada and the United States, that exhibit high environmental, social and governance (ESG) performance relative to their sector peers. MSCI EAFE Index (Europe, Australia, Far East) tracks the performance of stocks in select developed markets outside of the United States.

ETF performance (12/31/25)

	3-months	1-year	3-year	5-year	10-year	Since ETF Inception

Market price returns	4.19%	25.46%	14.98%	7.09%	—	7.78%
MSCI EAFE Selection Index	4.31%	25.57%	15.12%	7.10%	—	7.79%
MSCI EAFE Index	4.86%	31.22%	17.22%	8.92%	—	8.48%

Performance quoted represents past performance and does not guarantee future results. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Shares are bought and sold at market price (closing price) not net asset value (NAV) and are not individually redeemed from the Fund. Market price returns are based on the midpoint of the bid/ask spread at 4:00 pm Eastern Time (when NAV is normally determined) and do not represent the return you would receive if you traded at other times. To obtain the most recent month-end performance data visit www.Xtrackers.com or call 1-844-851-4255.

Indexes are unmanaged; you cannot invest in an index. Index performance is gross of fees and assumes dividend reinvestment. Inclusion of fees would have reduced returns.

¹ The unsubsidized yield reflects what the yield would have been had a fee and/or expense waiver not been in place during the period shown. Yields fluctuate and are not guaranteed. For current yield information, visit our website at www.dws.com or call (844) 851-4255. The SEC 30-day yield is the net investment income per share earned over the month ended (as of 12/31/25) shown as an annualized percentage of net asset value on that date. For current yield information, call 1-844-851-4255.

² Beta is a historical measurement of a fund's sensitivity to the movements of the fund's benchmark index. A fund with a beta greater than one is more volatile than the benchmark. A fund with a beta less than one is less volatile. Beta is based on a one-year period relative to the index.

Read the prospectus carefully before investing.

ESG investment strategy risk:

The Underlying Indices' ESG methodology, and thus the Funds' investment strategy, limits the types and number of investment opportunities available to the Funds and, as a result, the Fund may underperform other funds that do not have an ESG focus. The Underlying Index's ESG methodology may result in the Fund investing in securities or industry sectors that underperform the market as a whole or underperform other funds screened for ESG standards. In addition, the index provider may be unsuccessful in creating an index composed of companies that exhibit positive ESG characteristics.

War, terrorism, sanctions, economic uncertainty, trade disputes, public health crises and related geopolitical events have led and, in the future, may lead to significant disruptions in U.S. and world economies and markets, which may lead to increased market volatility and may have significant adverse effects on the fund and its investments.

Risk: Investing involves risk, including the possible loss of principal. Incorporation of ESG criteria in the fund's investment strategy does not guarantee a return or protect against a loss, limits the types and number of investment opportunities available to the fund and, as a result, the fund may underperform other funds that do not have an ESG focus. Stocks may decline in value. Foreign investing involves greater and different risks than investing in US companies, including currency fluctuations, less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, political instability and differing auditing and legal standards. Performance of the fund may diverge from that of the Underlying Index due to operating expenses, transaction costs, cash flows, use of sampling strategies or operational inefficiencies. An investment in this fund should be considered only as a supplement to a complete investment program for those investors willing to accept the risks associated with the fund. Please read the prospectus for more information.
