

Key Investor Information for Investors in the United Kingdom

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Xtrackers Europe Defence Technologies UCITS ETF

Share class: 1C, ISIN: LU3061478973, Security code: DBX0W8, Currency: EUR

a sub-fund of Xtrackers. The management company is DWS Investment S.A., a member of the DWS Group.

Objectives and investment policy

The fund is passively managed. **INVESTMENT OBJECTIVE:** The aim is for your investment to track the performance before fees and expenses of the STOXX Europe Total Market Defence Space and Cybersecurity Innovation index (the index). **DESCRIPTION OF INDEX:** The index is based on the STOXX Europe Total Market Index (Parent Index) and reflects the performance of a set of European companies associated with exposure to the sectors of defence, space, and cybersecurity (the Themes). Companies from the Parent Index that pass thematic selection criteria will be eligible for inclusion in the index. The thematic selection criteria are based on either (i) companies' revenue exposure from certain sectors associated with the Themes, or (ii) companies' number of active, high-quality patents relating to certain sub-themes associated with the Themes. Final eligible securities are subject to a capping component, limiting the weight of each individual constituent to 10% at each semi-annual rebalancing. **INDEX REBALANCING, CALCULATION AND ADMINISTRATION:** The index is calculated on a total return net basis which means that all dividends and distributions by the companies are reinvested in the shares after tax. The list of eligible securities is reviewed annually, and the index is rebalanced at least semi-annually. The index is administered by

STOXX Ltd. **INVESTMENT POLICY:** To achieve the aim, the fund will attempt to replicate the index, before fees and expenses, by buying all or a substantial number of the securities in the index. The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of financial contracts (derivatives). The fund may also engage in secured lending of its investments to certain eligible third parties to generate additional income to offset the costs of the fund. **FURTHER INFORMATION:** Certain information (including the latest share prices of the fund, indicative net asset values, full disclosure on the composition of the fund's portfolio and information on the index constituents) are available on your local DWS website or at www.Xtrackers.com. Transaction costs and taxes, unexpected fund costs and market conditions such as volatility or liquidity issues may affect the ability of the fund to track the index. The anticipated level of tracking error in normal market conditions is 1 per cent. The currency of the fund is EUR. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares generally on a daily basis.

Risk and reward profile

The calculation of the risk and reward profile is based on simulated data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high. The following risks could be of particular significance for the fund: The fund will attempt to replicate the performance of the index less costs, but your investment is not expected to match the performance of the index precisely. **EXCEPTIONAL CIRCUMSTANCES RISK:** Exceptional circumstances may arise, such as, but not limited to, disruptive market conditions, additional costs/taxes or extremely volatile markets, which may cause the fund's performance to be substantially different from the performance of the index. **CONFLICTS OF INTEREST RISK:** DWS

entities and related companies may act in several roles in relation to the fund such as distributor and management company which may involve conflicts of interest. **NO GUARANTEE RISK:** The fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up. **SHARES RISK:** The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events. **REGION CONCENTRATION RISK:** The Fund is exposed to market movements in a single country or region which may be adversely affected by political or economic developments, government action or natural events that do not affect a fund investing in broader markets. **SECTOR CONCENTRATION RISK:** The fund has a focus on a single or narrow range of industry, sector or types of companies and performance may not reflect a rise in broader markets. **DERIVATIVES RISK:** The fund may use derivatives to try to manage its investments more efficiently. This may not always be successful and may result in greater fluctuations in the value of the fund. This may negatively affect the value of the fund and your investment.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	0.15 %
Charges taken from the fund under certain specific conditions	
Performance fee	None
Securities lending fees	0.00 %

Secondary market investors (those who buy or sell shares on a stock exchange) may be charged certain fees by their stock broker. These charges, if any, can be obtained from such stock broker. Authorised participants dealing directly with the fund will pay the transaction costs related to their subscriptions and redemptions.

The ongoing charges shown here are a cost estimate. It excludes portfolio transaction costs and performance fees, if any.

Additional information on costs can be found in the cost section(s) of the prospectus.

To the extent the fund undertakes securities lending to generate revenue, the fund will ultimately be allocated 82% of the associated revenue, the securities lending agent, which will be a Deutsche Bank entity, will be allocated 9% and the remaining 9% will be allocated to the DWS entity which monitors such activities, as set out in the sales prospectus and/or supplement, for its own coordination and oversight tasks. As securities lending revenue sharing does not increase the costs of running the fund, this has been excluded from the composition of costs.

Past performance

There is not yet sufficient data available to provide you with useful information regarding earlier performance.

The 1C share class of Xtrackers Europe Defence Technologies UCITS ETF was launched in 2025.
