

## **Xtrackers Global Equity Top Active UCITS ETF**

### **Supplement to the Prospectus**

This Supplement contains information in relation to Xtrackers Global Equity Top Active UCITS ETF (the “**Fund**”), a sub-fund of Xtrackers (IE) plc (the “**Company**”) an umbrella type open-ended investment company with segregated liability between sub-funds and with variable capital governed by the laws of Ireland and authorised by the Central Bank of Ireland (the “**Central Bank**”).

**This Supplement forms part of, may not be distributed unless accompanied by (other than to prior recipients of the prospectus of the Company dated 15 June 2023 (the “Prospectus”) and the first addendum to the Prospectus dated 1 December 2023 (the “Addendum”)), and must be read in conjunction with, the Prospectus and the Addendum.**

**An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.**

**Xtrackers (IE) plc**

**Dated 6 March 2026**

---

## IMPORTANT INFORMATION

---

**The Fund is an ETF. The Shares of this Fund are fully transferable to investors and will be listed for trading on one or more stock exchanges. The Fund is actively managed and uses the term “Active” in its name to reflect that the portfolio will be selected to achieve excess returns over a benchmark.**

---

## TERMS OF THE SHARES REPRESENTING INTERESTS IN THE FUND

---

### Investment Objective

The investment objective of the Fund is to achieve mid to long-term capital appreciation by investing primarily in equities from developed and emerging markets.

### Investment Policy

In order to achieve the investment objective, the Fund will adopt a Direct Investment Policy, which is actively managed (as described in the Prospectus under the heading "*Direct Investment Funds following an active approach*") against the MSCI All Country World Net Total Return Index as a performance benchmark ("the **Performance Benchmark**"). There is no assurance that the investment objective of the Fund will actually be achieved. The Fund does not target any particular level of outperformance of the Performance Benchmark. Investors should note that any outperformance may be minimal, may be negatively impacted by fees and may ultimately be unachievable. Investors should note that the Fund will not seek to track the performance of or replicate the Benchmark, rather the Fund will hold Invested Assets, as defined below, which may include a selection but not all of the securities represented in the Performance Benchmark, and may also include additional securities not represented in the Performance Benchmark. The Invested Assets are actively selected and managed with the aim of delivering an investment performance which exceeds that of the Performance Benchmark.

In order to seek to achieve its investment objective, the Fund will invest i) primarily in the equities of large and medium-capitalisation companies listed in developed and emerging market countries ("**Equities**"); and ii) may also invest from time to time in other equities, equity related securities (such as depositary receipts like ADRs and GDRs), money market instruments (such as secured and/or unsecured deposits) or collective investment schemes for purposes including, but not limited to, investing temporary cash balances and efficient portfolio management in accordance with the Investment Restrictions (together with the Equities, referred to as the "**Invested Assets**").

The Investment Manager for the Fund is DWS Investment GmbH. The Investment Manager has appointed DWS Investments UK Limited as Sub-Portfolio Manager for the Fund. The Investment Manager will provide the composition of the Invested Assets, the "**Proposed Allocation**", to the Sub-Portfolio Manager on a scheduled quarterly basis (the "**Asset Selection Date**"). The Investment Manager may also provide a Proposed Allocation at other times where the Investment Manager wishes to update the Proposed Allocation on the basis of indicators which could impact the allocation, being economic or geopolitical indicators or otherwise at the request of the Sub-Portfolio Manager. The Sub-Portfolio Manager will perform the day-to-day management of the portfolio based on the Proposed Allocation. Such day-to-day portfolio management shall include order raising for the purchasing and selling of Invested Assets, management of Invested Assets following subscriptions and redemptions of Shares in the Fund, dividend re-investment, cash balance management, corporate action events management and the payment of dividends.

### Investment Strategy

The Proposed Allocation will be selected from an investment universe consisting primarily of large and medium-sized companies listed on regulated markets in developed and emerging countries (the "**Investment Universe**").

The Investment Manager constructs a global equity strategy by combining a macro outlook using top-down insights (taking into account macroeconomic factors, such as inflation, interest rates and geopolitical trends) with bottom-up fundamental stock selection (taking into account research on individual companies). The Investment Manager will make specific sector tilts (overweighting or underweighting specific industry sectors) reflecting its macro outlook, while company selection prioritises strong fundamentals and attractive valuations. The Investment Manager will continuously review its fundamental research to ensure its stock selections reflect high-conviction and an expectation to deliver excess returns. The Proposed Allocation is dynamically managed and reviewed on a regular basis.

The Investment Manager will perform certain ongoing duties pursuant to the Investment Management Agreement, which shall include, but not be limited to, proxy voting, trade related downstream services, ongoing investment guideline monitoring, and oversight and reporting services.

As further described in the “**Efficient Portfolio Management and Financial Derivative Instruments**” section below and in the Prospectus, the Fund may also invest in financial derivative instruments (“**FDIs**”) for efficient portfolio management purposes, where such securities and/or FDIs would achieve a risk and return profile consistent with the investment objective.

The Fund may invest in ancillary liquid assets which will include secured and/or unsecured deposits and/or units or shares of other UCITS or other collective investment schemes which pursue a money market/cash strategy.

Invested Assets (other than permitted unlisted investments) will be listed or traded on the Markets referred to in Appendix I of the Prospectus. This may include direct investment in China A Shares through Stock Connect. Further information about Stock Connect is available online at the website: HKEX ([https://www.hkex.com.hk/?sc\\_lang=en](https://www.hkex.com.hk/?sc_lang=en))

Full disclosure on the composition of the Fund's portfolio will be available on a daily basis at [www.Xtrackers.com](http://www.Xtrackers.com). Investors should note that the value of their investment could fall as well as rise and they should accept that there is no guarantee that they will recover their initial investment.

The return that the Shareholder will receive will be dependent on the performance of the Invested Assets.

The Fund will have no Final Repurchase Date. However, the Board of Directors may decide to terminate the Fund in accordance with the terms set out in the Prospectus and/or the Articles of Association.

### **The Performance Benchmark**

The Performance Benchmark is a market capitalisation-weighted index designated to provide a broad measure of the equity-market performance in various developed and emerging market countries. The Performance Benchmark is maintained by MSCI Limited. The Performance Benchmark is rebalanced on a quarterly basis. Further information in relation to the Performance Benchmark is available at <https://www.msci.com/>.

### **Efficient Portfolio Management and Financial Derivative Instruments**

The Fund may employ FDIs and techniques and instruments relating to transferable securities under the conditions and within the limits laid down by the Central Bank from time to time and the conditions set out in the Prospectus and this Supplement for efficient portfolio management purposes. Such FDIs will be futures, options, swaps or FX forwards for investing temporary cash balances and for hedging purposes as described in the Prospectus. For further details of these FDIs, please refer to the section entitled "Use of Derivatives by Direct Investment Funds" set out in the Prospectus.

The Company employs a risk management process which enables it to accurately measure, monitor and manage at any time the risks attached to the Fund's FDI positions and their contribution to the overall risk profile of the portfolio of assets of the Fund. The Company will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments in respect of the relevant Fund.

### **Calculation of Global Exposure**

The Fund will employ the commitment approach to assess the Fund's global exposure and to ensure that the Fund's use of derivative instruments is within the limits specified by the Central Bank. Global exposure will be calculated daily. While the Fund may be leveraged through the use of the FDIs, any such leverage will not be in excess of 100% of the Fund's Net Asset Value.

### **Investment Restrictions**

The general investment restrictions set out under "Investment Restrictions" in the Prospectus apply to the Fund.

Furthermore, the Fund will not invest more than 10% of its assets in units or shares of other UCITS or other collective investment schemes in order to be eligible for investment by UCITS governed by the UCITS directive.

The Directors may from time to time impose such further investment restrictions as shall be compatible with or in the interests of Shareholders, in order to comply with the laws and regulations of the countries where Shareholders are located.

## **Borrowing**

The Company may only borrow, for the account of the Fund, up to 10% of the Net Asset Value of the Fund provided that such borrowing is for temporary purposes. The assets of the Fund may be charged as security for any such borrowings.

## **Specific Risk Warning**

Investors should note that the Fund is not capital protected or guaranteed and that the capital invested is not protected or guaranteed and investors in this Fund should be prepared and able to sustain losses up to the total capital invested.

Prospective investors should be aware that the performance of the Invested Assets can go down as well as up and that the performance of the Invested Assets in any future period may not mirror its past performance.

The Fund should not be considered low risk and may not be appropriate for cautious investors. It is strongly recommended that you seek professional investment advice before considering investing in the Fund.

## *Conflicts of Interest*

DWS Investments UK Limited acts as the Sub-Portfolio Manager and DWS Investments GmbH acts as the Investment Manager. DWS Investments UK Limited and DWS Investments GmbH are part of the DWS Group. Conflicts of interest may exist or arise between the Sub-Portfolio Manager or the Investment Manager on the one hand and, on the other hand, DWS entities acting in other capacities including as issuer, obligor, dealer or calculation agent of one or more of the shares constituting the Invested Assets. Subject always to the regulatory obligations of DWS entities in performing each or any of these roles, DWS entities do not act on behalf of, or accept any duty of care or any fiduciary duty to any investors or any other person. Each relevant DWS entity will pursue actions and take steps that it deems appropriate to protect its interests without regard to the consequences for investors. DWS entities may be in possession at any time of information in relation to one or more of the shares constituting the Invested Assets which may not be available to investors. There is no obligation on any DWS entity to disclose to any investor any such information.

DWS entities shall be entitled to receive fees or other payments pursuant to financial products linked to the Invested Assets or otherwise (any such fees or other payments may be deducted from the amounts otherwise payable to investors) and to exercise all rights, including rights of termination or resignation, which they may have, even though so doing may have a detrimental effect on investors.

DWS Investments UK Limited or DWS Investments GmbH may buy or sell proprietary positions or engage in other transactions for its account or the account of other clients in a manner inconsistent with the reconstitution and/or the administration of the Invested Assets.

DWS Group entities may act as service provider (including investment manager, market maker and/or counterparty to an ETF. Each of the DWS Group entities, acting in any such role, and the directors, the depositary, the administrative agent, any fund shareholder, other investment manager, portfolio manager, swap counterparty or distributor, and any market maker may undertake activities which may give rise to potential conflicts of interest including, but not limited to, financing or banking transactions with the ETF or investing and dealing in Fund Shares, other securities or assets (including sales to and purchases from the ETF) of the kind included in the Invested Assets.

For further details, please refer to the section entitled "*Conflicts of Interest*" set out in the Prospectus.

## *Active Management Risk*

The Fund's assets will be actively managed by the Investment Manager and Sub-Portfolio Manager who will have discretion (subject to the Fund's investment policy and restrictions) to invest the Fund's assets in investments that they consider will enable the Fund to achieve its investment objective. There is no guarantee that the Fund's investment objective will be achieved based on the investments selected.

## Emerging Markets

Investors in the Fund should be aware of the following risks associated with an investment in emerging markets:

- (a) *Emerging Market Risk*: Investments in the markets reflected in the Invested Assets are currently exposed to risks pertaining to emerging markets generally. These include risks brought about by investment ceiling limits where foreign investors are subject to certain holding limits and constraints imposed on trading of listed securities where a registered foreign investor may only maintain a trading account with one licensed securities company in the relevant market. These may contribute to the illiquidity of the relevant securities market, as well as create inflexibility and uncertainty as to the trading environment.
- (b) *Legal Risk*: The economies of most emerging markets are often less developed than those of other geographic regions such as the United States and Europe. The laws and regulations affecting these economies are also in a relatively early stage of development and are not as well established as the laws and regulations of developed countries. Such countries' securities laws and regulations may still be in their development stages and not drafted in a very concise manner which may be subject to interpretation. In the event of a securities related dispute involving a foreign party, the laws of these countries would typically apply (unless an applicable international treaty provides otherwise). The court systems of these nations may not be as transparent and effective as court systems in more developed countries or territories and there can be no assurance of obtaining effective enforcement of rights through legal proceedings and generally the judgements of foreign courts are often not recognised.
- (c) *Regulatory Risk*: Foreign investment in emerging economies' primary and secondary securities markets is often still relatively new and much of the relevant securities laws may be ambiguous and/or have been developed to regulate direct investment by foreigners rather than portfolio investment. Investors should note that because of a lack of precedent, securities market laws and the regulatory environment for primary and secondary market investments by foreign investors can be in the early stages of development, and may, in some jurisdictions, remain untested. The regulatory framework of the emerging economies' primary and secondary securities markets is often in the development stage compared to many of the world's leading stock markets, and accordingly there may be a lower level of regulatory monitoring of the activities of the emerging economies' primary and secondary securities markets.
- (d) *Foreign Exchange Risk*: Some currencies of emerging markets are controlled. Investors should note the risks of limited liquidity in certain foreign exchange markets.
- (e) *Trading Volumes and Volatility*: Often emerging market stock exchanges are smaller and have lower trading volumes and shorter trading hours than most OECD exchanges and the market capitalisations of listed companies are small compared to those on more developed exchanges in developed markets. The listed equity securities of many companies on such exchanges are accordingly materially less liquid, subject to greater dealer spreads and experience materially greater volatility than those of OECD countries. Many such exchanges have, in the past, experienced substantial price volatility and no assurance can be given that such volatility will not occur in the future. The above factors could negatively affect the Net Asset Value of the Fund.
- (f) *Taxation risk*: The Fund may invest in jurisdictions where the tax regime is not fully developed or is not sufficiently certain, and as such changes to the tax policies may be implemented without any prior notice and may also apply retrospectively. Any changes in tax policies may reduce the after-taxation returns of the underlying assets to which the performance of the Fund is linked to.
- (g) *Restricted markets risk*: The Fund may invest in markets in respect of which the local government imposes limitations or restrictions on foreign ownership or holdings. In order to access such markets, the Fund may use instruments such as American depositary receipts (ADRs), global depositary receipts (GDRs), non-voting depositary receipts (NVDRs) or P-Notes in order to gain exposure to equity securities instead of using physical securities where, due to such local restrictions or quota limitations, it is not possible to hold these directly. Such legal and regulatory restrictions or limitations may have adverse effects on the liquidity and performance of the Fund holdings. This may increase the risk of tracking error and, at worst, the Fund may not be able to achieve its investment objective and/or the Fund may have to be closed to further subscriptions.
- (h) *Liquidity Risk*: Primary market-investors should be aware that it may take up to nine Business Days following the Transaction Day to receive the proceeds of redemptions requests.

### Concentration of the Invested Assets

The strategy which the Proposed Allocation seeks to represent may have a high concentration to one or more countries or sectors. Therefore, investors should be aware that changes in the conditions affecting the concentrated country or sector may have an adverse impact on the performance of the Proposed Allocation and the Invested Assets.

Investors will also bear some other risks as described under the section "**Risk Factors**" in the Prospectus.

### Profile of a Typical Investor

Prospective investors in the Fund should ensure that they understand fully the nature of the Fund, as well as the extent of their exposure to risks associated with an investment in the Fund and should consider the suitability of an investment in the Fund.

Investment in the Fund may be appropriate for retail investors who have knowledge of, and investment experience in this particular financial product and understand and can evaluate the investment objective, characteristics and risks in order to make an informed investment decision. Further, they have free and available cash for investment purposes and are looking to gain exposure to an actively managed portfolio of global equities. As the Net Asset Value per Share of the Fund will fluctuate and may fall in value, investment in the Fund should be viewed as suitable for investors who seek a return over the medium to long term. However, prospective investors should be prepared and able to sustain losses up to the total amount of capital invested.

The Prospectus sets out statements on taxation regarding the law and practice in force in the relevant jurisdiction at the date of the Prospectus. The statements are by way of a general guide to potential investors and Shareholders only and do not constitute legal or tax advice to Shareholders or potential investors. Shareholders and potential investors are therefore advised to consult their professional advisers concerning any investment in the Fund particularly as the tax position of an investor and the rates of tax may change over time.

### Dividend Policy

The Fund does not intend to make dividend payments.

### General Information Relating to the Fund

<b>Base Currency</b>	USD
<b>Cut-off Time</b>	Means for subscription and redemption orders, 4:30 p.m. Dublin time on the Business Day before the relevant Transaction Day.
<b>Initial Offer Period</b>	The Initial Offer Period in respect of the "1C" Shares shall be from 9:00 a.m. on 9 March 2026 to 4:30 p.m. (Irish time) on 4 September 2026 or such earlier or later date as the Directors may determine and notify in advance to the Central Bank.
<b>Fund Classification (InvStG)</b>	Equity Fund, target minimum percentage of 70%.
<b>Minimum Fund Size</b>	USD 50,000,000.
<b>Settlement Day</b>	Means up to nine Settlement Days following the Transaction Day <sup>1</sup> .
<b>Securities Lending</b>	No
<b>Securities Lending Agent</b>	N/A
