

Key Investor Information for Investors in the United Kingdom

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Xtrackers S&P 500 GARP UCITS ETF

Share class: 1C, ISIN: IE0001TLQX55, Security code: DBX0W9, Currency: USD

a sub-fund of Xtrackers (IE) plc. The management company is DWS Investment S.A., a member of the DWS Group.

Objectives and investment policy

The fund is passively managed. **INVESTMENT OBJECTIVE:** The aim is for your investment to reflect the performance of the S&P 500 GARP 100 Index (index) which is designed to reflect the performance of large capitalisation US companies that exhibit high growth characteristics. **DESCRIPTION OF INDEX:** The index aims to measure the performance of the top 100 growth companies with high quality and value characteristics from the S&P 500 Index (Parent Index). Companies from the Parent Index which meet certain eligibility criteria, including but not limited to having a "Growth Score", a "Quality & Value Composite Score", and a trading history will constitute the eligible universe (Eligible Universe). Companies from the Eligible Universe are initially ranked by order of their Growth Score (based on sustained earnings-per-share growth and/or sustained sales-per-share growth) and the highest ranking 200 companies are selected. Subsequently, these companies are ranked by order of their Quality & Value Composite Score (based on earnings to price ratio, and financial leverage ratio and/or return on equity), and the highest-ranking companies are selected for inclusion in the index until a target count of 100 companies is reached. **INDEX REBALANCING, CALCULATION AND ADMINISTRATION:** The index is calculated on a total return

net basis which means that all dividends and distributions by the companies are reinvested in the shares after tax. The composition of the index is reviewed on a semi-annual basis. **INVESTMENT POLICY:** To achieve the aim, the fund will attempt to replicate the index, before fees and expenses, by buying all or a substantial number of the securities in the index. The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of financial contracts (derivatives). **FURTHER INFORMATION:** Certain information (including the latest share prices of the fund, indicative net asset values, full disclosure on the composition of the fund's portfolio and information on the index constituents) are available on your local DWS website or at www.Xtrackers.com. Transaction costs and taxes, unexpected fund costs and market conditions such as volatility or liquidity issues may affect the ability of the fund to track the index. The anticipated level of tracking error in normal market conditions is 1 per cent. The currency of the fund is USD. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares generally on a daily basis.

Risk and reward profile

The calculation of the risk and reward profile is based on simulated data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high. The following risks could be of particular significance for the fund: The fund will attempt to replicate the performance of the index less costs, but your investment is not expected to match the performance of the index precisely. **EXCEPTIONAL CIRCUMSTANCES RISK:** Exceptional circumstances may arise, such as, but not limited to, disruptive market conditions, additional costs/taxes or extremely volatile markets, which may cause the fund's performance to be substantially different from the performance of the index. **CONFLICTS OF INTEREST RISK:** DWS entities and related companies may act in several roles in relation to the fund such as distributor and management company which may involve conflicts of interest. **NO GUARANTEE RISK:** The fund

is not guaranteed and your investment is at risk. The value of your investment may go down as well as up. **GROWTH FOCUS RISK:** Due to the growth focus of the index, investors should have the necessary knowledge and experience to understand when market conditions would favour a growth-driven approach or when investing in other strategies may be more appropriate. Due to the growth focus of the index, the performance and constituents of the index, and hence the fund, may differ significantly from that of the Parent Index. **REGION CONCENTRATION RISK:** The fund is exposed to market movements in a single country or region which may be adversely affected by political or economic developments, government action or natural events that do not affect a fund investing in broader markets. **RULE BASED INDEX RISK:** The index is rules-based and is not capable of being adjusted to take into account changing market circumstances. As a result you may be negatively affected by, or may not benefit from, the lack of such adjustments in changing market circumstances. **DERIVATIVES RISK:** The fund may use derivatives to try to manage its investments more efficiently. This may not always be successful and may result in greater fluctuations in the value of the fund. This may negatively affect the value of the fund and your investment. A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus. A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	0.25 %
Charges taken from the fund under certain specific conditions	
Performance fee	None

Secondary market investors (those who buy or sell shares on a stock exchange) may be charged certain fees by their stock broker. These charges, if any, can be obtained from such stock broker. Authorised participants dealing directly with the fund will pay the transaction costs related to their subscriptions and redemptions.

The ongoing charges shown here are a cost estimate. It excludes portfolio transaction costs and performance fees, if any.

Additional information on costs can be found in the cost section(s) of the prospectus.

Past performance
