

Final Terms dated 15 June 2026

DB ETC plc (the “Issuer”)

Issue of 11,000 Xtrackers Physical Gold GBP Hedged ETC Securities due 2061

being the Tranche Number 161 of Series 13 Xtrackers Physical Gold GBP Hedged ETC Securities due 2061 issued under its Secured ETC Precious Metal Linked Securities Programme (the “ETC Securities”)

Part A – Contractual Terms

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the Base Prospectus dated 31 March 2026. This document constitutes the Final Terms of the ETC Securities described herein for the purposes of Article 8.4 of the Regulation (EU) 2017/1129, as amended as it forms part of “retained EU law”, as defined in the European Union (Withdrawal) Act 2018 (the “EUWA”) (the “UK Prospectus Regulation”) and must be read in conjunction with the Base Prospectus dated 31 March 2026, which constitutes a base prospectus for the purposes of the UK Prospectus Regulation. A summary of the individual issue is annexed to the Final Terms. Full information on the Issuer and the offer of the ETC Securities is only available on the basis of the combination of these Final Terms and the Base Prospectus dated 31 March 2026. The Base Prospectus, any applicable supplementary prospectus, and the Final Terms for each issue are available for viewing on the website maintained on behalf of the Issuer at <https://etf.dws.com/en-gb/information/etc-documents/>, at the registered office of the Issuer and at the specified office of the Issuing and Paying Agent and copies may be obtained from the offices of each Paying Agent. A summary of the individual issue is annexed to the Final Terms.

The ETC Securities of this Series may also be listed on the official list of a stock exchange and admitted to trading on an exchange other than those listed in these Final Terms, but any such listing or admission to trading will be on the basis of a separate Final Terms prepared in connection therewith and which shall be identical to these Final Terms save for the information relating to listing and the associated disclosure and/or offering documents.

C. KEY INFORMATION ON THE SECURITIES		
C.1	What are the main features of the ETC Securities?	
C.1.1	<i>Type, class and ISIN</i>	
Commodity-linked securities. ISIN Code: GB00B68FL050		
C.1.2	<i>Currency, denomination, par value, number of securities issued and duration</i>	
<p>The ETC Securities are denominated in GBP. The ETC Securities are in dematerialised uncertified registered form ("Uncertificated Registered Securities"). The scheduled maturity date of the ETC Securities is 1 April 2061. As at the issue date of the above tranche of ETC Securities, there will be 2,221,615 ETC Securities of the Series in issue. The ETC Securities do not have a denomination but are treated by the Issuer as having a denomination of less than €100,000. Uncertificated Registered Securities will be held in dematerialised uncertificated registered form in accordance with the uncertificated regulations and will be participating securities for the purposes thereof. Title to Uncertificated Registered Securities will be recorded on the register and will pass by registration in the register. ETC Securities in bearer global form may not be exchanged for ETC Securities in dematerialised uncertified registered form and <i>vice versa</i>.</p>		
C.1.3	<i>Rights attached to the ETC Securities</i>	
<u>Overview</u>		
<p>The ETC Securities are designed to provide investors with exposure to a Metal without having to take physical delivery of the metal. The "Metal" for the ETC Securities is: gold.</p> <p>Each ETC Security relates to a specific amount in weight of Metal, specified in the Final Terms, known as the metal entitlement per ETC Security.</p> <p>On any particular day, the ETC Security can be viewed as giving an exposure to that amount of Metal as the amount payable in respect of the ETC Securities and the value per ETC Security is linked to the value of the Metal. In order to back its obligations under the ETC Securities, the Issuer will seek to hold enough Metal to meet its obligations under the ETC Securities. The precise amount it holds at any time may be more or less than the aggregate amount of the metal entitlement per ETC Security to reflect the periodic payment of product fees and an adjustment for any foreign exchange gains or losses. The proceeds from the disposal of the underlying Metal, net of any deductions (and converted into the currency of the ETC Securities using the spot FX exchange rate), will equal the amount due under the ETC Securities.</p>		

The Metal will be held for the Issuer by JPMorgan Chase Bank, N.A. (or any successor or replacement) (the “**Secured Account Custodian**”) and will be generally held on an “allocated” basis. This means that specifically identifiable physical items of the relevant Metal are allocated to a particular client and are segregated from Metal held for other clients. However, for operational purposes, small amounts of Metal may be held on an “unallocated” basis. This means that the Secured Account Custodian maintains an account in the name of the Issuer which shows them as being entitled to delivery of a particular amount of the Metal but without specific physical metal having been identified. Where Metal is held on an “unallocated” basis the right to delivery is a purely contractual right and, as such, the Issuer is an unsecured creditor of the custodian and is exposed to the credit risk of the custodian.

Security

The obligations of the Issuer under the ETC Securities will be secured pursuant to a security deed by security interests over the rights of the Issuer under the agreements entered into by it in respect of this series and any underlying Metal. The security will become enforceable if payment of the redemption amount in respect of such ETC Securities is not made when due on the scheduled maturity date or the relevant early redemption date (if applicable).

Final Redemption Amount

On the scheduled maturity date, each ETC Security will become due and payable at an amount (the “**Final Redemption Amount**”) equal to the greater of (i) the Final Metal Redemption Amount (defined below) and (ii) 10 per cent. of the issue price per ETC Security as at the series issue date (the “**Minimum Debt Amount**”).

The “**Final Metal Redemption Amount**” is determined by multiplying (i) the metal entitlement per ETC Security as at the Final Redemption Valuation Date (defined below); and (ii) the weighted average prices at which the Metal Agent (defined below) is able to sell the underlying Metal (“**Average Metal Sale Price**”) during the Final Redemption Disposal Period (defined below).

The “**Final Redemption Disposal Period**” is the period from (and including) the date falling four scheduled valuation days after the Final Redemption Valuation Date (which is the day falling 45 calendar days prior to the scheduled maturity date) to (but excluding) the date falling five business days prior to the scheduled maturity date.

“**Final Redemption Valuation Date**” is the day falling 45 calendar days prior to the scheduled maturity date, as specified in the Final Terms or, if such day is not a business day, the next following business day.

Early Redemption Amount

If any of the early redemption events occur, each ETC Security will become due and payable at an amount (the “**Early Redemption Amount**”) equal to the greater of (i) the Early Metal Redemption Amount (defined below) and (ii) the Minimum Debt Amount.

The “**Early Metal Redemption Amount**” is determined by multiplying (i) the metal entitlement per ETC Security as at the Early Redemption Valuation Date (defined below); and (ii) the Average Metal Sale Price during the Early Redemption Disposal Period (defined below).

The “**Early Redemption Disposal Period**” is the period from (and including) the date falling four non-disrupted business days after the occurrence of an early redemption event or an event of default or, if such day is not a business day, the next following business day to (but excluding) the date falling five business days prior to the Scheduled Early Redemption Date (defined below).

The “**Scheduled Early Redemption Date**” is the earlier of (a) five business days after the first day on which all underlying Metal held by or on behalf of the Issuer in respect of the series of ETC Securities has been sold by the Metal Agent (defined below) and (b) the 45th calendar day following the occurrence of an early redemption event or an event of default.

The “**Early Redemption Valuation Date**” is the date of the occurrence of an early redemption event or the date on which the trustee gives notice of the occurrence of an event of default, or, if such day is not a business day, the next following business day.

There can be no assurance that the Final Redemption Amount or Early Redemption Amount, as applicable, will be greater than or equal to the amount invested by any securityholder. If the Final Metal Redemption Amount or Early Redemption Amount, as applicable, is below the Minimum Debt Amount, then due to the limited recourse nature of the ETC Securities, securityholders are unlikely to receive payment of the Final Redemption Amount or Early Redemption Amount, as applicable, in full and may receive zero.

The Final Redemption Amount or Early Redemption Amount per ETC Security, as applicable, will be determined by reference to the average sale price of the underlying Metal held in respect of the series of ETC Securities sold during the Final Redemption Disposal Period or Early Redemption Disposal Period, as applicable, by JPMorgan Chase Bank

N.A. (or any successor or replacement) as “**Metal Agent**”, net of associated deductions and taxes. The Issuer will, on or prior to the scheduled maturity date or Scheduled Early Redemption Date, publish the determination of the Final Redemption Amount or Early Redemption Amount, as applicable, (which shall include publication of the price, volume and date of each sale of underlying Metal during the relevant redemption disposal period, including information on any fees, deductions and/or taxes imposed on such sale, and the determination of the Average Metal Sale Price) on the website maintained on behalf of the Issuer at www.etf.dws.com (or such other website notified by the Issuer for such series of ETC Securities from time to time).

The Metal Agent will pay the aggregate proceeds of such disposals (converted, if necessary, into the currency of the ETC Securities) to the Issuer (or the issuing and paying agent on the Issuer’s behalf).

Interest

No interest shall accrue and be payable on the ETC Securities. As such, there is no nominal rate of interest nor expected yield.

Foreign Exchange Hedge

The foreign exchange hedge seeks to reduce the exposure of the ETC Securities to exchange rate fluctuations between the currency in which the ETC Securities are denominated and the currency in which the relevant Metal is quoted. The currency in which the relevant Metal is quoted is known as the “**Metal Currency**”. It does this by reflecting the effect of a notional forward sale of the Metal Currency and a corresponding forward purchase of the currency in which the ETC Securities are denominated. The foreign exchange hedge may result in gains or losses to the Issuer. Such gains or losses will result in an increase or decrease in the metal entitlement per ETC Security and will therefore impact the value per ETC Security.

The foreign exchange hedge is entered into by the Issuer with Deutsche Bank AG as the programme counterparty. In such role, it enters into a balancing agreement with the Issuer provides for deliveries of metal to or by the Issuer to reflect an adjustment for any foreign exchange gain or loss realised by the Issuer.

Where there are foreign exchange gains and the metal entitlement per ETC Security consequently increases, the programme counterparty will deliver additional Metal equivalent to such increase. Where there are losses and the metal entitlement per ETC Security consequently decreases, the Issuer will be required to deliver Metal equivalent to such decrease to the programme counterparty under the balancing agreement. All such payments will be in the form of Metal and will happen on a periodic (typically monthly) basis.

Fees

The ETC Securities are subject to a product fee (which, in the case of FX Hedged ETC Securities, also comprises a foreign exchange hedging fee) that accrues on a daily basis. Accrued product fee is paid by a daily reduction in the metal entitlement per ETC Security which, as a result of such reduction, operates as a charge on holders of ETC Securities. The Issuer pays the product fee by delivering an amount of Metal to the programme counterparty (rather than as a cash payment). Such payment will happen on a periodic (typically monthly) basis.

Events of Default and Early Redemption Events

The ETC Securities may become due and payable prior to their scheduled maturity date in connection with the occurrence of any of the following events:

- certain legal or regulatory changes occur in relation to the Issuer and the Issuer gives a notice of redemption;
- the Balancing Agreement is terminated in connection with a Balancing Agreement Event of Default or a Balancing Agreement Termination Event. See Condition 9(d)(ii) for a description of the circumstances in which the Balancing Agreement may be terminated;
- the Determination Agent, the Issuing and Paying Agent, the Secured Account Custodian, the Subscription Account Custodian, the Registrar (in the case of ETC Securities in registered form), the Lead Authorised Participant and/or all the Authorised Participants, as applicable, resign or their appointment is terminated for any reason and the Issuer gives notice that no successor or replacement has been appointed within a 60 calendar days of the date of the relevant notice of resignation or termination or the date of any automatic termination, as applicable;
- the Metal Entitlement per ETC Security or the value per ETC Security for the Series is not published for 14 consecutive Non-Disrupted Scheduled Valuation Days and the Trustee gives the relevant notice as directed by the requisite number of Securityholders;
- the value per ETC Security is less than or equal to 20 per cent. of the Issue Price as at the Series Issue Date for two consecutive Non-Disrupted Scheduled Valuation Days and the Determination Agent gives the relevant Notice;

- the Issuer will, or there is a substantial likelihood that it will, be required to make a payment in respect of VAT or be required to account for VAT in respect of a delivery of Metal from or to an Authorised Participant (whether or not such VAT is recoverable);
- a Securityholder does not, upon request, receive a firm bid price for its ETC Securities from an Authorised Participant for five consecutive Non-Disrupted Scheduled Valuation Days and, following the requisite notices being given, such Securityholder does not receive a firm bid price for the relevant ETC Securities during a further 20 consecutive Non-Disrupted Scheduled Valuation Day period and the Issuer gives the relevant Notice;
- a Balancing Agreement Event of Default occurs and is continuing with respect to the Programme Counterparty and the Trustee is directed by the requisite number of Securityholders to give the relevant Notice;
- the Issuer becomes entitled to serve a VAT Redemption Event Notice or a termination notice under the Balancing Agreement following a Balancing Agreement Tax Event or a Balancing Agreement illegality and the Trustee gives the relevant Notice as directed by the requisite number of Securityholders; or
- an Event of Default occurs under the ETC Securities and the Trustee gives the relevant notice.

Issuer Call Option

The Issuer may elect to redeem this series of ETC Securities early on giving not less than 60 calendar days' notice to securityholders.

Programme Counterparty Optional Termination

In the case of FX Hedged ETC Securities, the programme counterparty may, on giving not less than 60 calendar days' prior notice, terminate the balancing agreement relating to the relevant series of ETC Securities. Termination of the balancing agreement will result in an early redemption of the relevant ETC Securities.

Limited Recourse

The rights of securityholders are limited in recourse to the relevant Secured Property. Any proceeds of the Secured Property will be applied in a pre-defined order. As a result of such provisions, the securityholders may not receive in full the final redemption amount or early redemption amount payable in respect of an ETC Security.

Withholding Tax

All payments in respect of the ETC Securities shall be made net of and after allowance for any withholding or deduction for, or on account of, any taxes. In the event that any withholding or deduction for, or on account of, any taxes applies to payments in respect of the ETC Securities, the holders of ETC Securities will be subject to such tax or deduction and shall not be entitled to receive amounts to compensate for any such tax or deduction. No event of default will occur as a result of any such withholding or deduction.

Governing Law

ETC Securities in bearer form will be governed by English law. ETC Securities in uncertificated registered form will be governed by Jersey law. The security deed relating to this series of ETC Securities (whether in bearer or uncertificated registered form) will be governed by English law.

C.1.4	<i>Rank of the ETC Securities in the Issuer's capital structure upon insolvency</i>
--------------	---

The ETC Securities are secured, limited recourse obligations of the Issuer and the ETC Securities of a series rank equally amongst themselves. The Issuer's obligations thereunder are secured over the underlying Metal for the series and over the rights of the Issuer under the main agreements entered into by it for that series. Such security will become enforceable if payment of the redemption amount is not made when due or if the Issuer becomes insolvent.

C.1.5	<i>Restrictions on free transferability of the securities</i>
--------------	---

Interests in ETC Securities traded in any clearing system will be transferred in accordance with the procedures and regulations of that clearing system. The ETC Securities will be freely transferable. Investors should note that the ETC Securities have not been, nor will be, registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or under the securities law of any state or political sub-division of the United States of America or any of its territories, possessions or other areas subject to its jurisdiction including the Commonwealth of Puerto Rico. No person has registered nor will register as a commodity pool operator of the Issuer under the Commodity Exchange Act of 1936, as amended (the "**CEA**") and the rules thereunder (the "**CFTC Rules**") of the Commodity Futures Trading Commission (the "**CFTC**"). Any offer or sale of the ETC Securities must be made in an offshore transaction exempt from the registration requirements of the Securities Act pursuant to Regulation S thereunder ("**Regulation S**"). The Issuer has imposed a selling restriction on the authorised participants and any other Authorised Offerors that the ETC Securities may not at any time be offered, sold or otherwise transferred in the United States or to, or for the account or

benefit of, persons who are either (A) U.S. Persons as defined in Regulation S of the Securities Act or (B) persons who do not come within the definition of a Non-United States person under CFTC Rule 4.7 (excluding for the purposes of sub-section (D) thereof, the exception to the extent it would apply to persons who are not non-United States persons).

C.2 | *Where will the ETC Securities be traded?*

Application has been made by the Issuer (or on its behalf) for the ETC Securities of this series to be admitted to listing on the official list of the London Stock Exchange and/or Euronext Dublin and to trading on the regulated market(s) and/or other main market(s) thereof..

C.3 | *What are the key risks that are specific to the ETC Securities?*

- The amount payable in respect of a series of ETC Securities is linked to the performance of the underlying Metal in respect of such series. Prices of precious metals are generally more volatile than prices in other asset classes. If the value of such underlying Metal falls that will reduce amounts payable in respect of the ETC Securities.
- The value of the ETC Security, secondary market price and the redemption amount of ETC Securities will primarily be affected by the performance and level of the relevant Metal, rate movements, market perception, the creditworthiness of the Metal Agent and the programme counterparty, the creditworthiness of the Secured Account Custodian, the subscription account custodian and any applicable sub-custodian and liquidity in the ETC Securities.
- In respect of a series of ETC Securities, the securityholders and other transaction parties will have recourse only to the secured property in respect of the relevant series of ETC Securities and not to any other assets of the Issuer. If, following realisation in full of the secured property relating to the relevant series of ETC Securities, any outstanding claim remains unpaid, then such claim will be extinguished and no debt will be owed by the Issuer in respect thereof.
- The metal entitlement per ETC Security is subject to the deduction of the product fee.
- The Minimum Debt Amount operates as a minimum repayment amount on the early or final redemption of the ETC Securities of a Series. However, in the event that the metal entitlement per ETC Security of such Series is insufficient to fund the Minimum Debt Amount payable in respect of each ETC Security to all securityholders on such early or final redemption, such securityholders may not receive payment of the Minimum Debt Amount in full and may receive substantially less.
- The Issuer and securityholders are exposed to the credit risk of the Metal Agent, the programme counterparty, the Secured Account Custodian, the subscription account custodian and any sub-custodian and the authorised participants.
- Any disruption to a price source or relevant association may affect the value per ETC Security of the ETC Securities.
- Certain events may lead to an early redemption of the ETC Securities.
- ETC Securities may have a long term and the only means through which an investor can realise value from an ETC Security prior to its Scheduled Maturity Date is to sell it to an Authorised Offeror or to other investors on the secondary market. While each authorised participant may make a market for the relevant Series of ETC Securities, no authorised participant is obliged to make a market for any series of ETC Securities and an authorised participant may discontinue making a market at any time. Furthermore, any market in ETC Securities may not be liquid and the secondary market price (if any) for ETC Securities may be substantially less than the price paid by the investor.

D. KEY INFORMATION ON THE ADMISSION TO TRADING ON A REGULATED MARKET

D.1 | *Under which conditions and timetable can I invest in this security?*

Upon initial issue, the ETC Securities are being made available by the Issuer for subscription only to Authorised Participants (the “**Authorised Participants**”). Authorised Participants will pay for any such subscriptions by delivering Metal equal to the metal entitlement per ETC Security of the ETC Securities being subscribed. The Authorised Participants are the only entities allowed to buy and sell ETC Securities directly from and to the Issuer. Authorised Participants may also act as market makers, i.e. they buy and sell ETC Securities from and to investors on an over-the-counter basis or via a stock exchange. However, not all market makers need to be Authorised Participants. Any offer or sale of ETC Securities to an investor by an Authorised Participant or other distributor or broker authorised to use the Base Prospectus (each, an “**Authorised Offeror**”) will be made in accordance with any terms and other

arrangements in place between such Authorised Offeror and such investor including as to price, allocations and settlement arrangements. It will be the responsibility of the applicable financial intermediary at the time of such offer to provide the investor with that information and neither the Issuer nor any other person has any responsibility or liability for such information.

The Authorised Participants may appoint distributors or brokers (which may include Deutsche Bank AG, London Branch, or any of its Affiliates) in connection with the offering of ETC Securities and may pay commissions or fees to such distributors or brokers in an amount not exceeding one-third of the Product Fee in relation to the Series of ETC Securities (any such appointed distributor or broker being an “**Authorised Distributor**”). If any commissions or fees relating to the issue and sale of these ETC Securities have been paid or are payable by an Authorised Participant to a distributor or broker, then such distributor or broker may be obliged to fully disclose to its clients the existence, nature and amount of any such commissions or fees (including, if applicable, by way of discount) as required in accordance with laws and regulations applicable to such distributor or broker. Potential investors in these ETC Securities should ensure that they have been informed about the fee or commission arrangements by the distributor or broker before making any purchase of the ETC Securities.

D.2	<i>Why has the prospectus been produced?</i>
------------	---

D.2.1	<i>Reason for the offer and use of proceeds</i>
--------------	---

The ETC securities are designed to provide investors with exposure to a Metal without having to take physical delivery of the Metal.

The net proceeds from the issue of ETC Securities of a Series of ETC Securities will be an amount of unallocated Metal which, in accordance with the Custody Agreement for Secured Accounts will, to the extent possible, be allocated to physical Metal bars or other metal shapes and be held in the Secured Allocated Account. Any remaining Metal shall be held in the Secured Unallocated Account. Such Underlying Metal shall be used to meet the Issuer’s obligations under the relevant Series of ETC Securities and the relevant Balancing Agreement.

D.2.1.2	<i>Material conflicts of interest pertaining to the offer or admission to trading</i>
----------------	---

Deutsche Bank AG entity and/or its Affiliates (“**Deutsche Bank entities**” and each a “**Deutsche Bank entity**”) has been, or may be, appointed as Arranger, Issuing and Paying Agent, Secured Account Custodian, Subscription Account Custodian, Metal Agent, Trustee, Programme Counterparty, Lead Authorised Participant and Authorised Participant in relation to a series of ETC Securities. Conflicts of interest may exist or arise between such Deutsche Bank entities acting in other capacities and the interests of the Issuer and/or Securityholders.

A Deutsche Bank entity and/or its Affiliates may engage in trading and market-making activities and may hold long or short positions in any Metal, other instruments or derivative products based on or related to the Metal, Metal for their proprietary accounts or for other accounts under their management. Deutsche Bank entities may also issue securities or enter into financial instruments in relation to any Metal. To the extent that any Deutsche Bank entity, directly or through its Affiliates, serves as issuer, agent, manager, sponsor or underwriter of such securities or other instruments, its interests with respect to such products may be adverse to those of the Securityholders. Such activities may have an adverse effect on the Value per ETC Security of the ETC Securities and/or the value of the Underlying Metal relating to the ETC Securities.

Deutsche Bank entities may be entitled to receive fees or other payments pursuant to products linked to the Metal to which the ETC Securities relate or otherwise and to exercise all rights, including rights of termination or resignation, which they may have, even though so doing may have a detrimental effect on investors in the ETC Securities.
