Bond markets in the fiscal year 2017

Difficult market environment

The performance of the international bond markets were characterized by repeated periods of high volatility in the fiscal year forwards the end of 2017. This development was attributable to unease regarding a change of direction in interest rates emanating from the United States – in view of negative rates in some industrialized countries – in addition to soaring debt levels worldwide. Elections in the U.S. and Europe as well as “Brexit”, the pending departure of the United Kingdom from the European Union, gave rise to additional anxiety, as did geopolitical crises, particularly with respect to North Korea. In contrast, the global economy settled into an increasingly stable, moderate growth trajectory after previously experiencing weakness.

Turnaround on interest rates after record-low bond yields?

In the reporting period, the bond markets experienced volatility – although uneven and varying in intensity – but ultimately saw rising yields, particularly in the case of government bonds, in tandem with declining prices. Long-term interest rates in the United States (“U.S.”) and the Eurozone were able to break out of their historical lows.

As a result of the financial market crisis, the last decade has seen anemic economic growth and low inflation. In order to combat looming deflation, central banks in the industrialized countries had opened the monetary floodgates with an extremely relaxed monetary policy featuring zero interest and major bond purchase programs. Bond yields hit new all-time lows in the course of this cash flood.

Yields of the international bond markets continued to rise in 2017, especially in government bonds of industrialized countries. The ongoing upturn in commodity and energy prices lead market participants to expect that the central banks could discontinue their quantitative easing and thereby slow down their extremely expansionary monetary policy. The yield increase in US government bonds following the US presidential election, driven by electoral promises for reductions in corporate taxation, deregulation and increases in public-sector spending, lost momentum over 2017 due to failures to deliver on these policies. As a result, in the US, Japan and the Eurozone the uptrend in yields increase weakened markedly in the face of volatility.

On the whole, annual yields on 10-year government bonds increased from 0.21% to 0.43% p.a. in Germany and from -0.19% to 0.15% p.a. in Switzerland. In the United States, the 10-year government bond yield changed only marginally from 2.44% to 2.41% p.a. in the past year 2017, similarly, the yield in Japan remained unchanged at 0.06% p.a.

In the meantime, the approaches taken by the central banks in the U.S. and the Eurozone continued to diverge. Whereas the U.S. Federal Reserve (“Fed”) again hiked the key interest rate three times during the reporting period by three-quarters of a percentage point to a corridor between 1.25% – 1.50% p.a., the European Central Bank (“ECB”) remained true to its zero-interest policy. The Fed justified its interest rate increases by citing a robust economy and full employment in the U.S. labor market. The Bank of Japan in turn kept its key interest rate at -0.10% p.a.

In view of the low-interest environment still prevailing during the reporting period, only higher-risk interest-bearing securities such as corporate bonds with investment-grade status, high-yield bonds and emerging market bonds offered opportunities of producing positive returns. After an initial rise in yields, these interest-bearing securities saw yields slide considerably from the beginning of the year through the end of 2017, and prices increase, sometimes sharply. Above all, high-yield and emerging market bonds outperformed government bonds issued by industrial countries. This trend was supported by factors including greater interest from investors seeking positive or higher returns. At the same time, concern grew on the investor side that central banks would distort bond markets with their expanded quantitative easing, and therefore the very low yields would no longer adequately reflect the risks. Ultimately, the bond purchase programs conducted over the past 10 years by central banks like the Fed, the ECB, the Bank of England and the Bank of Japan led to sharply lower yields overall not only for government bonds, but also corporate bonds, extending all the way to negative yields on some investment-grade corporate bonds at times. In addition to heightened investor interest, emerging market bonds benefited from the noticeable price rally and ongoing normalization in the commodity markets.

Strong euro and weak dollar

Currency market performance was a roller coaster ride this past fiscal year. Whereas the U.S. dollar devalued over the year against the main hard currencies amidst high levels of volatility, the Euro, was able to gain considerable strength against many currencies in the past twelve months. On the whole, the European common currency gained 14.1% (on a U.S. dollar basis) against the greenback during the reporting period. Currency fluctuations stemmed less from interest rate differences or economic data, but instead were dominated by political events. For one, the U.S. president has to date, been unable to fulfill expectations of delivering on fiscal stimuli. Secondly, the new president of France has vigorously defended a unified Europe. Moreover, the Eurozone’s economic stability also improved since the beginning of 2017.

Independent auditor's report

To the Shareholders of
db x-trackers II
49, Avenue J.F. Kennedy
L-1855 Luxembourg

Opinion

We have audited the financial statements of db x-trackers II (the "Fund") and of each of its sub-funds, which comprise the Statement of Net Assets and the Statement of Investments as at 31 December 2017 and the Statement of Operations and Changes in Net Assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 December 2017, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with EU Regulation N° 537/2014, the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under those Regulation, Law and Standards are further described in the « Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements » section of our report. We are also independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of the audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Based on the facts and circumstances of the Fund and the audit, there are no key audit matters to communicate.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of “réviseur d’entreprises agréé” thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund and of those charged with governance for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d’entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with EU Regulation N° 537/2014, the Law of 23 July 2016 and with the ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with EU Regulation N° 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our report unless law or regulation precludes public disclosure about the matter.

Report on other legal and regulatory requirements

We have been appointed as “réviseur d’entreprises agréé” by the General Meeting of the Shareholders on 31 March 2017 and the duration of our uninterrupted engagement, including previous renewals and reappointments, is eleven years.

We confirm that the prohibited non-audit services referred to in EU Regulation No 537/2014 were not provided and that we remained independent of the Fund in conducting the audit.

We provided the following permitted services in addition to the statutory audit:

- issuance of a long form report in the context of CSSF Circular 02/81;
- issuance of contribution in kind reports.

Notes to the Financial Statements (continued)

1. General (continued)

b) Investment Objectives and Policies

A Sub-Fund may carry out its Investment Objective via an Indirect Investment Policy and/or a Direct Investment Policy as more fully described in the following paragraphs.

Sub-Funds with an Indirect Investment Policy⁽¹⁾

Sub-Funds with an Indirect Investment Policy (“Indirect Replication Funds”) may not invest directly in the constituents of the Reference Index. Instead, the exposure to the performance of the Reference Index will be achieved by way of derivative transactions and/or instruments (the “Derivative Transaction(s)”). In particular, an Indirect Replication Fund will conclude OTC swap transactions negotiated at arm’s length with one or more Swap Counterparties (the “OTC Swap Transaction(s)”).

In order to achieve its Investment Objective and in accordance with the Investment Restrictions, an Indirect Replication Fund may at any time invest part or all of the net proceeds of any issue of its Shares in Invested Assets and use one or more Derivative Transactions the purpose of which is to exchange all or part of the performance and/or income of such Invested Assets to gain exposure to the Reference Index (an “Unfunded Swap”) (refer to Note 4).

The Invested Assets, Derivative Transactions and any techniques used to link the Invested Assets to the Reference Index or the Derivative Transactions will be managed by the relevant Investment Manager and/or Sub-Portfolio Manager. The management of the Invested Assets will generally not involve the active buying and selling of securities on the basis of investment judgement and economic, financial and market analysis.

In principle, the return that the Shareholder will receive will largely be dependent on the performance of the Invested Assets, the performance of the Reference Index and the performance of any techniques used to link the Invested Assets to the Reference Index.

Depending on the value of the Derivative Transactions an Indirect Replication Fund may be at any time fully or partially exposed to one or more counterparties (including one or more Swap Counterparties), in which case counterparty risk mitigation arrangements compliant with the Regulations will be implemented and/or payment will be received from the Derivative Transactions counterparties so that the percentage of the counterparty risk exposure remains within the limits set out in the Regulations.

Sub-Funds with a Direct Investment Policy⁽¹⁾

Sub-Funds with a Direct Investment Policy are identified by the reference “(DR)” at the end of their name.

Sub-Funds with a Direct Investment Policy (“Direct Replication Funds”) may carry out their investment objective by investing in a portfolio of transferable securities or other eligible assets that may comprise all (or, on an exceptional basis, a substantial number of) the constituents of that Reference Index (“Full Index Replication”), an optimised sample thereof, or unrelated transferable securities or other eligible assets (“Optimised Index Replication”).

Direct Replication Funds may not hold every constituent or the exact weighting of a constituent in the Reference Index but instead may seek to gain exposure to a Reference Index by utilising optimisation techniques and/or by investing in securities that are not part of that Reference Index. The types of securities in which Direct Replication Funds may invest include American depositary receipts (“ADRs”), global depositary receipts (“GDRs”), and/or non-voting depositary receipts (“NVDRs”).

The extent to which a Direct Replication Fund utilises optimisation techniques will partly depend on the nature of the constituents of its Reference Index. For example, a Direct Replication Fund may utilise optimization techniques and may be able to provide a return similar to that of its Reference Index by investing in a sub-set of the constituents on its Reference Index. Use of these investment techniques, the implementation of which is subject to a number of constraints detailed in the “Investment Restrictions” section of the Prospectus, may not produce the intended results.

c) The Shares

The Shares may be differentiated between Distribution Shares (identified by the letter “D”) and Capitalisation Shares (identified by the letter “C”). Other Classes may be offered with specific features such as conversion or redemption charge, minimum subscription amount or other specific features. Within each Class of Shares, several types of sub-classes can be issued (identified by capital alphabetic letters), differentiating between (but not limited to) dividend payment structures, dividend payment dates, and fee structures. The Shares will be listed for trading on one or more stock exchanges unless otherwise specified in the relevant Product Annex of the Prospectus.

The Shares will be issued by the Company exclusively in relation to Sub-Funds with the Investment Policies described in the Prospectus and may be subscribed in cash or in kind (or a combination of both cash and in kind).

⁽¹⁾ Please refer to note 3 of the Information for Shareholders section of this Annual Report regarding the name changes of the Sub-Funds.

Notes to the Financial Statements (continued)

2. Accounting policies

The financial statements of the Company have been prepared according to accounting principles generally accepted in Luxembourg and applicable for investment funds. The significant accounting policies used are as follows:

a) Valuation of investments

The Net Asset Value of the Company is at any time equal to the total of the Net Asset Values of the Sub-Funds.

The Net Asset Value of the Sub-Funds shall be determined in accordance with the following rules:

- (i) the value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as may be considered appropriate in such case to reflect the true value thereof;
- (ii) the value of all securities which are listed or traded on an official stock exchange or traded on any other Regulated Market will be valued on the basis of the last available prices on the Business Day immediately preceding the Valuation Day or on the basis of the last available prices on the main market on which the investments of the Sub-Funds are principally traded. The Board of Directors will approve a pricing service which will supply the above prices. If, in the opinion of the Board of Directors, such prices do not truly reflect the fair market value of the relevant securities, the value of such securities will be determined in good faith by the Board of Directors either by reference to any other publicly available source or by reference to such other sources as it deems in its discretion appropriate;
- (iii) securities not listed or traded on a stock exchange or a Regulated Market will be valued on the basis of the probable sales price determined prudently and in good faith by the Board of Directors;
- (iv) securities issued by open-ended investment funds shall be valued at their last available net asset value or in accordance with item (ii) above where such securities are listed;
- (v) the liquidating value of futures or forward contracts that are not traded on exchanges or on other organised markets shall be determined pursuant to the policies established by the Board of Directors, on a basis consistently applied. The liquidating value of futures or forward contracts traded on exchanges or on other organised markets shall be based upon the last available settlement prices of these contracts on exchanges and organised markets on which the particular futures or forward contracts are traded; provided that if a futures or forward contract could not be liquidated on such Business Day with respect to which a Net Asset Value is being determined, then the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable. The net realised gain / (loss) on forward foreign exchange is included in the financial statements as "Net realised gain / (loss) on foreign exchange";
- (vi) liquid assets and money market instruments may be valued at nominal value plus any accrued interest or using an amortised cost method; this amortised cost method may result in periods during which the value deviates from the price the relevant Sub-Fund would receive if it sold the investment. The Management Company may, from time to time, assess this method of valuation and recommend changes, where necessary, to ensure that such assets will be valued at their fair value as determined in good faith pursuant to procedures established by the Board of Directors. If the Board of Directors believes that a deviation from the amortised cost per Share may result in material dilution or other unfair results to Shareholders, the Board of Directors shall take such corrective action, if any, as it deems appropriate, to eliminate or reduce, to the extent reasonably practicable, the dilution or unfair results;
- (vii) a Total Return Swap (TRS) is a bilateral agreement in which each party agrees to exchange payments based on the performance of an underlying instrument represented by a basket of securities or the performance of the index. The total performance will include gains and losses on the underlying during the contract period according to the type of underlying. The cash flows to be exchanged are calculated by a reference to an agreed upon notional amount or quantity. Total return swaps are marked to market at each NAV calculation date;
- (viii) all other securities and other permissible assets as well as any of the above mentioned assets for which the valuation in accordance with the above sub-paragraphs would not be possible or practicable, or would not be representative of their fair value, will be valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors.

Notes to the Financial Statements (continued)

2. Accounting policies (continued)

b) Investment transactions

The net realised gain / (loss) on sale of investments is determined on the basis of the average cost of investments sold. Investment transactions are accounted for on a trade date basis.

The net realised gain / (loss) on sale of investments is disclosed in the financial statements as “Net realised gain / (loss) on investments”.

The cost of the inflation-linked bonds is adjusted for inflation and these adjustments are recognised as interest on bonds.

c) Conversion of foreign currencies

Accounting records are kept for each Sub-Fund in its reference currency. The Combined Statement of Net Assets and Statement of Operations and Changes in Net Assets of the Company are presented in Euro based on the exchange rate prevailing at the date of the Statement of Net Assets.

Income and expenses in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the transaction date.

Assets and liabilities in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the date of the Statement of Net Assets.

The exchange rates used as at 31 December 2017 are:

1 Euro = 1.532183 AUD	1 Euro = 134.744246 JPY
1 Euro = 1.503174 CAD	1 Euro = 9.849450 NOK
1 Euro = 1.168731 CHF	1 Euro = 1.684018 NZD
1 Euro = 7.801843 CNY	1 Euro = 9.859657 SEK
1 Euro = 7.445315 DKK	1 Euro = 1.596768 SGD
1 Euro = 0.888344 GBP	1 Euro = 1.193800 USD

d) Income

Interest is recorded on an accrual basis net of withholding tax.

3. Taxation of the Company

Under current law and practice, the Company is not liable to any Luxembourg income taxes, stamp or other tax. Investment income and capital gains, if any, received or realised by the Company may, however, be subject to taxation in the country of origin at varying rates, which normally cannot be recovered by the Company.

Although the Company is, in principle, subject in Luxembourg to a subscription tax (“*Taxe d’Abonnement*”) at an annual rate of 0.05%, all Sub-Funds which are ETFs are exempt from such tax as (i) all their Shares are listed or traded on at least one stock exchange or another regulated market operating regularly, recognised and open to the public; and (ii) their exclusive objective is to reflect the performance of one or more indices, it being understood that this condition of exclusive objective does not prevent the management of liquid assets, if any, on an ancillary basis, or the use of techniques and instruments used for hedging or for purposes of efficient portfolio management. A Grand-Ducal regulation may determine additional or alternative criteria with respect to the indices under that exemption.

Subscription tax exemption also applies to (i) investments in a Luxembourg UCI subject itself to the subscription tax, (ii) UCI, compartments thereof or dedicated classes reserved to retirement pension schemes, and (iii) money market UCIs.

A reduced subscription tax of 0.01% per annum is applicable to individual compartments of UCIs with multiple compartments referred to in the 2010 Law, as well as for individual classes of securities issued within a UCI or within a compartment of a UCI with multiple compartments, provided that the securities of such compartments or classes are reserved to one or more institutional investors.

4. Total Return Swaps

The Total Return Swap agreements are concluded at the beginning of the life of the Sub-Funds with the transferable securities and money market instruments having a similar cost to the notional value of the underlying asset. This position may however change during the life of the swap whereby the cost of the transferable securities and money market instruments, including net purchased accrued interest, may become higher / lower than the notional value of the underlying asset due to additional purchases / sales of transferable securities and money market instruments compared to the notional value of the underlying asset.

4. Total Return Swaps (continued)

The difference between these notional values is accounted for and disclosed in the financial statements as “Receivable due from swap counterparty” or as “Payable due to swap counterparty” depending on which notional is higher. The receivable balances will be settled to the Sub-Fund and the payable balances will be settled to the swap counterparty on termination of the respective Total Return Swap agreement.

The table below lists the notional values of the invested asset and underlying asset legs of the swap and the unrealised gain / (loss) on swap per Sub-Fund.

As required by the Securities Financing Transactions Regulation (see Note 5), the Company is required to disclose the amount of assets engaged in total return swaps expressed as an absolute amount and as a proportion of the Sub-Funds' Net Asset Value. The percentage of net assets disclosed in the above table is calculated using the Unrealised gain / (loss) on Swap in absolute terms divided by the total Net Asset Value. This figure is not representative of the counterparty risk calculation.

Deutsche Bank AG - London branch (United Kingdom) is the counterparty to the swap positions entered into by the Company.

All trades open at the end of the financial year ended 31 December 2017 have been transacted through bilateral settlement.

For all the Sub-Funds, there are no maturities for the above swap agreements.

5. Securities financing transactions

The Company is subject to the Regulation (EU) 2015/2365 of the European Parliament and of the Council on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 of the European Parliament (“SFTR”).

A Securities Financing Transaction (“SFT”) is defined in Article 3(11) of the SFTR as:

- ▶ a repurchase transaction or a reverse repurchase transaction;
- ▶ a securities or commodities lending and securities or commodities borrowing;
- ▶ a buy-sell back transaction or sell-buy back transaction;
- ▶ a margin lending transaction.

The Company did not undertake securities lending during the year ended 31 December 2017.

5. Securities financing transactions (continued)

The SFTR also covers transactions that are commonly referred to as total return swaps (“TRS”) (refer to Note 4). The Company held total return swaps as at 31 December 2017.

8. Collateral

The Company may have to provide variation margin for a Sub-Fund (i.e. collateral collected by a counterparty to reflect the results of the daily marking-to-market or marking-to-model of outstanding non-cleared OTC derivative contracts) to its counterparty to an OTC derivative transaction. In relation to the OTC derivative transactions entered into between the Company and counterparties (including Swap Counterparties), the Company may deliver or receive requested collateral by way of title transfer or by way of pledge, depending on the terms of the agreement between the relevant Sub-Fund and the counterparty.

The value of collateral pledged by counterparty for each Sub-Fund is detailed in the following table, as at 31 December 2017:

Sub-Funds	Sub-Funds Currency	Counterparty	Counterparty's country	Collateral Pledged	% of Net Assets

9. Management Company Fee and Fixed Fee

a) Management Company Fee

In accordance with and subject to the terms of the Management Company Agreement, the annual Management Company Fee will accrue on each calendar day and will be calculated on each Valuation Day on the basis of a percentage of (i) the last available Net Asset Value of each Sub-Fund or Class of Shares or (ii) the Initial Issue Price multiplied by the number of outstanding Shares of each Sub-Fund or Class of Shares (as indicated for each Sub-Fund or Class of Shares in the relevant Product Annex of the Prospectus).

The Management Company is also entitled to receive reimbursement for any reasonable expenses that were made in its capacity as Management Company of the Company in the context of the execution of the Management Company Agreement and that were not reasonably foreseeable in the ordinary course of business.

Notwithstanding the above, the Management Company and the Company may agree on a different fee structure in respect of a certain Sub-Fund or Class of Shares, as indicated in the relevant Product Annex of the Prospectus.

The Management Company may pay a Distribution Fee to the Distributor out of the Management Company Fee. A Distributor may re-allocate an amount of the Distribution Fee to a sub-distributor (as applicable). The Management Company shall remunerate the investment manager out of the Management Company Fee as agreed from time to time between the two parties.

b) Fixed Fee

Under the terms of an arrangement between the Company and Deutsche Bank AG, acting through its London branch, or Deutsche Asset Management (UK) Limited (as applicable) ⁽¹⁾ (the "Fixed Fee Agent"), the Fixed Fee Agent will, in exchange for the payment of a Fixed Fee calculated on the average daily Net Asset Value per Sub-Fund or per Class at a rate as specified in the table below and payable periodically, pay certain fees and expenses, unless otherwise specified in the relevant Product Annex of the Prospectus.

The fees and expenses covered by the arrangement are the Administrative Agent Fee, the Depositary Fee, the Registrar, Transfer Agent and Listing Agent Fee, the annual tax in Luxembourg (if any) (the "*Taxe d'Abonnement*"), the formation expenses and certain Other Administrative Expenses.

The Fixed Fee does not include the following fees, expenses and costs:

- the Investment Management Fee;
- the Management Company Fee;
- the costs of any marketing agencies appointed by the Company or the Management Company to provide certain marketing and distribution services to the Company or the Management Company;
- any taxes or fiscal charges which the Company may be required to pay, except the *Taxe d'Abonnement*, if any, or if it should be payable, any value added tax or similar sales or services tax payable by the Company (VAT) (all such taxes or fiscal charges), unless otherwise specified in the relevant Product Annex of the Prospectus;
- expenses arising out of any advertising or promotional activities in connection with the Company; nor,
- any costs and expenses incurred outside of the Company's ordinary course of business such as extraordinary expenses (e.g. legal fees incurred in prosecuting or defending, a claim or allegation, by or against, the Company).

In particular, the Fixed Fee Agent will pay the invoices of legal advisers, local paying agents and translators provided and to the extent that these invoices do not in aggregate exceed the overall threshold of Euro ten million (10,000,000) per financial year and the Company will be liable to pay for any amount that exceeds this threshold. The Company will pay this amount out of the relevant Sub-Fund's assets to which the specific costs are attributed.

10. Transaction Costs

Transaction costs are any costs and expenses incurred in respect of the buying and selling of portfolio securities and financial instruments, brokerage fees and commissions, interest or taxes payable in respect of such purchase and sale transactions, as may be more fully described in the relevant Product Annex of the Prospectus.

During the year ended 31 December 2017, the Sub-Funds of the Company did not incur transaction costs, except for db x-trackers II HARVEST CSI CHINA SOVEREIGN BOND UCITS ETF (DR). The transaction costs are disclosed in the financial statements as "Transaction Costs".

11. Directors Fees and Interests

During the year ending 2017, Mr. Ben O'Bryan, Mr. Jacques Elvinger and Mr. Klaus Michael Vogel resigned as Directors of the Company.

Mr. Jacques Elvinger is a partner of the Luxembourg law firm of Elvinger Hoss Prussen *société anonyme*, which provides legal services to the Company.

Mr. Klaus-Michael Vogel received remuneration for his role as independent Director paid by the Fixed Fee Agent until his resignation as independent Director of the Company.

Further to shareholders approval at the annual general meeting of the Company on 31 March 2017 and the approval of the *Commission de Surveillance du Secteur Financier of Luxembourg*, Mr. Alex McKenna, Mrs. Petra Hansen and Mr. Freddy Brausch were elected as Directors of the Company.

From 15 May 2017, Mr. Freddy Brausch began receiving remuneration for his role as independent Director paid by the Fixed Fee Agent, as set out in the Prospectus. Mr. Freddy Brausch is a partner of the Luxembourg lawfirm Linklaters LLP.

The other Directors have received no remuneration for their role as Directors of the Company nor any other direct benefit material paid to them by the Company.

12. Related Parties

Deutsche Asset Management S.A. has been appointed to act as Management Company under the Management Company Agreement and is responsible for providing investment management services, administration services and distribution and marketing services to the various Sub-Funds unless otherwise indicated in the relevant Product Annex of the Prospectus.

Deutsche Asset Management S.A. is entitled to receive as a compensation for its services to the Company:

- Management Company Fees as further detailed in Note 9;
- Fees covering direct and/or indirect operational costs.

The Fixed Fee Agent is entitled to receive Fixed Fees as further detailed in Note 9.

During the year ending 31 December 2017, Deutsche Bank AG, acting through its London branch, was the counterparty to all swap positions entered into by the Company.

12. Related Parties (continued)

In the normal course of its operations, each Sub-Fund may enter into transactions on securities or other investments with Deutsche Bank AG or other Deutsche Bank AG affiliates.

Due to changes in the structure within the Deutsche Bank Group, Deutsche Bank AG, acting in various roles, moved certain delegated functions from Deutsche Bank AG to Deutsche Asset Management (UK) Limited. Such movement of functions was accompanied in changes in terms of responsibility with regards to distribution, payment of fixed fee, marketing/ AP appointment, etc.

2. Determination of the Global Exposure

For all Sub-Funds, the methodology used in order to calculate the Global Exposure resulting from the use of financial derivative instruments is the commitment approach in accordance with the CSSF Circular 11/512.

3. Subsequent events

On 2 January 2018, the Board of Directors of the Company convened its Shareholders to an extraordinary general meeting of shareholders of the Company (the “EGM”), which was held on 29 January 2018 at the registered office of the Company. The agenda of the EGM was a full restatement of the Company’s Articles of Incorporation (the “Articles”) mainly to:

1. change the name of the Company from “db x-trackers II” to “Xtrackers II”; and
2. include new flexibilities introduced by the Law of 10 August 2016 modernising the Luxembourg Law of 10 August 1915 on commercial companies and to undertake a general update of the Articles.

As the EGM was not able to deliberate and vote on the above-mentioned agenda due to a lack of quorum, a second meeting was hereby reconvened on 14 February 2018 at the registered office of the Company in the manner prescribed by Luxembourg law to deliberate and vote on the same agenda (the “Reconvened Meeting”).

All resolutions were passed at the Reconvened Meeting, so that the relevant changes took effect from 16 February 2018.

Subject to the passing of the relevant resolutions by the Shareholders, the Board of Directors resolved to amend the names of each of the Sub-Funds of the Company, as detailed in the relevant notice which was published on www.Xtrackers.com on 2 January 2018. In particular, the removal of the reference to “(DR)” in the name of all Direct Replication Funds, which designated the Direct Investment Policy of the relevant Sub-Funds and, where appropriate, the addition of a reference to “Swap” in the name of all Indirect Replication Funds to designate the Indirect Investment Policy of those Sub-Funds. There were no changes in the applicable investment policies of the Sub-Funds, but rather the changes simply reflected a change in the naming convention applicable to the Direct Replication Funds and the Indirect Replication Funds.

4. Remuneration disclosures under UCITS V regulation

The Deutsche Asset Management S.A. (solely for the purpose of this section “remunerations disclosures under UCITS V regulation” the “Company”) is a subsidiary in Deutsche Bank Group (“Deutsche Bank”). The businesses of Deutsche Bank encompass a wide range of products and services incorporating investment, corporate and retail banking as well as asset management in all regions across the world. The institution at the highest level of consolidation of Deutsche Bank Group is Deutsche Bank AG.

Deutsche Bank AG as a credit institution is subject to the EU’s Capital Requirements Directive (CRD) and the Capital Requirements Regulation (CRR) and is supervised by the European Central Bank (ECB). Deutsche Bank AG has established a compensation framework applying to the whole Deutsche Bank Group (excluding Postbank), which therefore also applies to the Company. For further information on the remuneration system of Deutsche Bank Group as provided below, please refer to the Deutsche Bank Group Compensation Report which is part of the Financial Report¹.

Governance Structure

Deutsche Bank AG is managed by its Management Board. It is overseen by the Supervisory Board which has established a Compensation Control Committee (“CCC”). The CCC is, inter alia, responsible for monitoring the compensation system of the Group’s employees and its appropriateness. The Management Board of Deutsche Bank AG has established the Senior Executive Compensation Committee (“SECC”) which has the mandate to develop sustainable compensation principles, to prepare recommendations on Total Compensation levels and to ensure appropriate compensation governance and oversight. Furthermore, a Compensation Officer for Deutsche Bank Group was appointed who independently monitors the appropriateness of the employee’s compensation systems on a regular basis.

¹ The most current Compensation Report is linked on: <https://www.db.com/cr/en/concrete-compensation-structures.htm>

4. Remuneration disclosures under UCITS V regulation (continued)

Deutsche Bank has also established the Group Compensation Oversight Committee (“GCOC”) and Divisional Compensation Committees (“DCCs”) for each business division. As a sub-committee of the SECC, the GCOC is responsible for the oversight of the governance of divisions’ year-end compensation processes. This includes demonstrably reviewing that the DCCs (i) meet the established governance requirements and (ii) ensure that sound compensation parameters (financial and non-financial) are taken into account when allocating Variable Compensation (“VC”) pools within their division, and by decision-making managers when making individual VC allocation decisions.

The DCCs define and establish division-specific compensation frameworks and processes which are embedded in the year end processes on a global basis. The Deutsche Asset Management DCC oversees the compensation process within the DeAM business division of Deutsche Bank Group (“DeAM”), including the process for the Company, and ensures it is in line with Deutsche Bank’s practices and standards. In 2017 members of the DeAM DCC were the Global Head of DeAM, the Global COO of DeAM, the Global Head of DeAM HR and the Head of DeAM Reward & Analytics. The DeAM DCC reviews the remuneration framework of DeAM regularly, at least annually, which includes the principles applying to the Company, and assesses if substantial changes or amendments due to irregularities have to be made.

Both the annual central and independent internal review at Group level and the DeAM DCC review at divisional level concluded the design of the remuneration system to be appropriate, no significant irregularities were recognized.

Compensation Structure

The employees of Deutsche Bank Group and of the Company are subject to the compensation standards and principles as outlined in the Group Compensation Strategy and the Compensation Policy. Both policies are reviewed on an annual basis. As part of the Compensation Strategy, Deutsche Bank Group, including the Company, employs a Total Compensation philosophy which comprises Fixed Pay and Variable Compensation.

Deutsche Bank’s compensation framework puts a stronger emphasis on Fixed Pay over Variable Compensation and aims to ensure that these components are appropriately balanced.

Fixed Pay is used to compensate employees for their skills, experience and competencies, commensurate with the requirements, size and scope of their role. The appropriate level of Fixed Pay is determined with reference to the prevailing market rates for each role, internal comparisons and applicable regulatory requirements.

Variable Compensation has the advantage of being able to differentiate between individual performances and to drive behaviour through appropriate incentive systems that can positively influence culture. It also allows for flexibility in the cost base. Variable Compensation generally consists of two elements – the “Group Component” and the “Individual Component”. There continues to be no guarantee of Variable Compensation in an existing employment relationship.

Based on one of the overarching goals of the compensation framework – to strengthen the link between Variable Compensation and the performance of the Group – the Management Board of Deutsche Bank AG decided to align the “Group Component” directly and comprehensible for the employees to Deutsche Bank’s achievements in reaching its strategic targets.

Depending on eligibility, the “Individual Component” is delivered either in the form of Individual Variable Compensation or a Recognition Award. Individual Variable Compensation takes into consideration a number of financial and non-financial factors, relativities within the employee’s peer group and retention considerations. The Recognition Award provides the opportunity to acknowledge and reward outstanding contributions made by employees of lower hierarchical levels. Generally, there are two nomination cycles per year.

Determination of Variable Compensation and appropriate risk-adjustment

Deutsche Bank’s VC pools are subject to appropriate risk-adjustment measures which include ex-ante and ex-post risk adjustments. The robust methodology in place aims at ensuring that the determination of VC reflects the risk-adjusted performance as well as the capital position of Deutsche Bank and its divisions. The total amount of VC is primarily driven by (i) Group affordability (i.e. what “can” Deutsche Bank award in alignment with regulatory requirements) and (ii) performance (what “should” Deutsche Bank award in order to provide an appropriate compensation for performance while protecting the long-term health of the franchise).

4. Remuneration disclosures under UCITS V regulation (continued)

The Group Component is determined based upon the performance of four equally weighted Key Performance Indicators (KPIs): Common Equity Tier 1 (“CET1”) capital ratio (fully loaded), Leverage ratio, Adjusted costs and Post-tax return on tangible equity (“RoTE”). These four KPIs represent important metrics for the capital, risk, cost and the revenue profile of Deutsche Bank and provide a good indication of its sustainable performance.

For the determination of Individual VC both divisional and individual performance are taken into account: The financial performance of the division is assessed in context of divisional targets and appropriately risk-adjusted, in particular by referencing the degree of future potential risks to which Deutsche Bank may be exposed, and the amount of capital required to absorb severe unexpected losses arising from these risks. While the VC pools for Infrastructure areas depend on the overall performance of Deutsche Bank, they are not dependent on the performance of the division(s) they oversee in line with regulatory requirements, and are measured against cost performance and control targets instead.

At the level of the individual employee, Deutsche Bank has established “Variable Compensation Guiding Principles”, which detail the factors and metrics that must be taken into account when making Individual VC decisions. These include, for instance, investment performance, client retention, culture considerations, and objective setting and performance assessment based on Deutsche Bank’s ‘Total Performance’ approach. Furthermore, any control function inputs and disciplinary sanctions and their impact on the VC have to be considered as well.

Compensation for 2017

The financial year 2017, as expected, has been strongly influenced by the Deutsche Bank’s pursuit of its strategic objectives. As such, restructuring and severance costs as well as litigation charges have continued to affect the full year results. However, noticeable progress has been made overall: Deutsche Bank has concluded negotiations on significant litigation items, has continued with its efforts to build a more efficient infrastructure, has invested in digitisation, and furthered both the integration of Postbank and the partial initial public offering (IPO) of Deutsche Asset Management.

Against this backdrop, the SECC has monitored the affordability of VC throughout 2017. It has concluded that, taking into account the Deutsche Bank’s pre-tax profit and despite Deutsche Bank’s overall negative result, Deutsche Bank’s capital and liquidity positions remain comfortably above regulatory minimum requirements, and that therefore affordability parameters are met.

After the decision to only award a limited VC pool for 2016, another year with drastically reduced VC or no specific recognition of individual performance would have led to retention risk with respect to both key employees that are critical to Deutsche Bank’s future success as well as many other employees who all worked hard to help Deutsche Bank navigate through times of continuous change. Deutsche Bank has clearly stated multiple times throughout the year that it wanted to return to a normal system of VC for 2017, including both a “Group Component” and “Individual Component” of VC, which it considers to be both competitive and fair. This decision is reflected in the table on aggregate compensation information below.

Identification of Material Risk Takers

In accordance with the Law as of 17 December 2010 on Undertakings for Collective Investments (as subsequently amended) in conjunction with the guidelines on sound remuneration policies under UCITS published by the European Securities and Markets Authority (“ESMA”), the Company has identified individuals who have a material impact of the Company’s risk profile (“Material Risk Takers”). The identification process has been based on an assessment of the impact of the following categories of staff on the risk profile of the Company or on a fund it manages: (a) Board Members/Senior Management, (b) Portfolio/Investment managers, (c) Control Functions, (d) Staff heading Administration, Marketing and Human Resources, (e) other individuals (Risk Takers) in a significant position of influence, (f) other employees in the same remuneration bracket as other Risk Takers. At least 40% of the VC for Material Risk Takers is deferred. Additionally, at least 50% of both, the upfront and the deferred proportion, are granted in Deutsche Bank shares or share-based instruments. All deferred components are subject to a number of performance conditions and forfeiture provisions which ensure an appropriate ex-post risk adjustment. In case the VC is lower than EUR 50,000, the Material Risk Takers receive their entire VC in cash without any deferral.
