This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Xtrackers Global Infrastructure ESG UCITS ETF

Share class: 1C, ISIN: IE00BYZNF849, Security code: A2DH15, Currency: USD

a sub-fund of Xtrackers (IE) plc. The management company is DWS Investment S.A., a member of the DWS Group.

Objectives and investment policy

The fund is passively managed. **INVESTMENT OBJECTIVE:** The fund aims to reflect the performance, before fees and expenses, of the Dow Jones Brookfield Global Green Infrastructure Index (index). **DESCRIPTION OF INDEX:** The index is based on the Dow Jones Brookfield Global Infrastructure Plus Index (Parent Index) and is designed to reflect the performance of the shares of listed companies from developed markets that are owners and operators of infrastructure assets, and which meet certain ESG criteria. In order to be eligible for inclusion, companies must be eligible for inclusion in the Parent Index and must pass the ESG screening criteria. **ESG CRITERIA:** Securities from the Parent Index which pass the ESG screening criteria, as disclosed in the prospectus and/or supplement, will constitute the eligible universe (Eligible Universe). Securities from the Eligible Universe are selected and weighted following an optimisation based approach which are subject to (a) climate, (b) other ESG objectives, and (c) diversification objectives for example constraints on the constituent weightings and liquidity compared to the Parent Index. **INDEX REBALANCING, CALCULATION AND ADMINISTRATION:** The index is administered by S&P Dow Jones Indices LLC. The index is calculated on a total return net basis, which means that all

dividends and distributions by the companies are reinvested in the shares after tax. The index is reviewed and rebalanced at least quarterly. The index is calculated in USD on a daily basis. **INVESTMENT POLICY:** To achieve the aim, the fund will attempt to replicate the index, before fees and expenses, by buying all or a substantial number of the securities in the index. The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of financial contracts (derivatives). **FURTHER INFORMATION:** Certain information (including the latest share prices of the fund, indicative net asset values, full disclosure on the composition of the fund's portfolio and information on the index constituents) are available on your local DWS website or at www.Xtrackers.com. Transaction costs and taxes, unexpected fund costs and market conditions such as volatility or liquidity issues may affect the ability of the fund to track the index. The anticipated level of tracking error in normal market conditions is 1 per cent. The currency of the fund is USD. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares generally on a daily basis.

Risk and reward profile

The calculation of the risk and reward profile is based on simulated data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high. The following risks could be of particular significance for the fund: The fund will attempt to replicate the performance of the index less costs, but your investment is not expected to match the performance of the index precisely. **EXCEPTIONAL CIRCUMSTANCES RISK:** Exceptional circumstances may arise, such as, but not limited to, disruptive market conditions, additional costs/taxes or extremely volatile markets, which may cause the fund's performance to be substantially different from the performance of the index. **CONFLICTS OF INTEREST RISK:** DWS entities and related companies may act in several roles in relation to the fund such as distributor and management company which

may involve conflicts of interest. **NO GUARANTEE RISK:** The fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up. **SHARES RISK:** The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events. **SUSTAINABILITY RISK:** The ESG screening criteria are embedded within the index selection process, which seeks to exclude securities issued by companies involved in certain activities. The investment manager and sub-portfolio manager are not responsible for monitoring the screening process or confirming that all securities which pass the screening process are issued by companies with adequate ESG standards. The company is relying on the activities conducted by and information provided by the administrator of the index. ESG information from third-party data providers may be incomplete, inaccurate or unavailable. As a result, there is a risk that the index administrator may incorrectly assess a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the index and therefore the portfolio of the fund. **DERIVATIVES RISK:** The fund may use derivatives to try to manage its investments more efficiently. This may not always be successful and may result in greater fluctuations in the value of the fund. This may negatively affect the value of the fund and your investment. A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.
