## Notes to the Financial Statements (continued)

### 1. General (continued)

#### a) The Company (continued)

The Investment Objective of the Sub-Funds here above mentioned is to track the performance of the Underlying Asset. The Sub-Funds will invest in a portfolio of Shariah compliant assets and proposes to enter into certain Shariah compliant agreements (“Wa’d”), the purpose of which would be to enable the exchange of the performance of the invested assets of the Sub-Fund invests in against the performance of the Index in a Shariah compliant agreement (“Wa’d”).

The Sub-Funds shall invest the proceeds of the subscription of the Shares in assets meeting the criteria set out below and further detailed in the Prospectus, and in any non-interest bearing liquid assets that the Sub-Fund may hold from time to time on an ancillary basis (“the Invested Assets”).

Based on established parameters of leading Shariah scholars and boards, the following businesses, industries and financial instruments are inconsistent with Shariah precepts and principles and hence investment in their assets, e.g. shares, is not suitable for Islamic, Shariah compliant investment purposes: (i) alcohol, (ii) tobacco, (iii) pork-related products, (iv) conventional financial services (banking, insurance, etc.), (v) weapons and defense, (vi) entertainment (hotels, casinos/gambling, cinema, pornography, music, etc...).

The liabilities of each Sub-Fund shall be segregated on a Sub-Fund by Sub-Fund basis with the third party creditors having recourse only to the assets of the Sub-Funds concerned.

#### b) The Shares

The shares may be divided into shares of classes “I” and “R”.

The shares will be issued by the Company exclusively in relation to Sub-Funds with an Investment Objective for which the subscription will normally be in cash.

Shares of class “I” are available only to Institutional Investors whilst shares of class “R” are primarily designated for retail investors.

Shares of class “I” and “R” may be further differentiated between Distribution shares (identified by the letter “D”) and Capitalisation shares (identified by the letter “C”). Other classes may be offered with specific features such as conversion or redemption charge, minimum subscription amount or other specific features. Other classes may be offered with specific features such as conversion or redemption change, minimum subscription amount or other specific features. Within each class of shares, several types of sub-classes can be issued. The shares may be listed for trading on one or more stock exchanges.

### 2. Accounting policies

The financial statements of the Company have been prepared according to accounting principles generally accepted in Luxembourg and applicable for investment funds. The significant accounting policies used are as follows:

#### a) Valuation of investments:

The Net Asset Value of the Company is at any time equal to the total of the Net Asset Values of the Sub-Funds in the base currency of the Company.

The Net Asset Value of the Sub-Funds shall be determined in accordance with the following rules:

Notes to the Financial Statements (continued)

**2. Accounting policies (continued)**

a ) Valuation of investments (continued):

- (i) the value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as may be considered appropriate in such case to reflect the true value thereof;
- (ii) the value of all securities which are listed or traded on an official stock exchange or traded on any other Regulated Market will be valued on the basis of the last available prices on the Business Day immediately preceding the Valuation Day or on the basis of the last available prices on the main market on which the investments of the Sub-Funds are principally traded. The Board of Directors will approve a pricing service which will supply the above prices. If, in the opinion of the Board of Directors, such prices do not truly reflect the fair market value of the relevant securities, the value of such securities will be determined in good faith by the Board of Directors either by reference to any other publicly available source or by reference to such other sources as it deems in its discretion appropriate;
- (iii) securities not listed or traded on a stock exchange or a Regulated Market will be valued on the basis of the probable sales price determined prudently and in good faith by the Board of Directors;
- (iv) securities issued by open-ended investment funds shall be valued at their last available net asset value or in accordance with item (ii) above where such securities are listed;;
- (v) the liquidating value of futures, forward or options contracts that are not traded on exchanges or on other organised markets shall be determined pursuant to the policies established by the Board of Directors, on a basis consistently applied. The liquidating value of futures, forward or options contracts traded on exchanges or on other organised markets shall be based upon the last available settlement prices of these contracts on exchanges and organised markets on which the particular futures, forward or options contracts are traded; provided that if a futures, forward or options contract could not be liquidated on such Business Day with respect to which a Net Asset Value is being determined, then the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable;
- (vi) liquid assets and money market instruments may be valued at nominal value plus any accrued interest or using an amortised cost method; this amortised cost method may result in periods during which the value deviates from the price the relevant Sub-Fund would receive if it sold the investment. The Management Company may, from time to time, assess this method of valuation and recommend changes, where necessary, to ensure that such assets will be valued at their fair value as determined in good faith pursuant to procedures established by the Board of Directors. If the Board of Directors believes that a deviation from the amortised cost per Share may result in material dilution or other unfair results to Shareholders, the Board of Directors shall take such corrective action, if any, as it deems appropriate, to eliminate or reduce, to the extent reasonably practicable, the dilution or unfair results;
- (vii) the swap transactions will be consistently valued based on a calculation of the net present value of their expected cash flows;
- (viii) all other securities and other permissible assets as well as any of the above mentioned assets for which the valuation in accordance with the above sub-paragraphs would not be possible or practicable, or would not be representative of their fair value, will be valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors.

## 2. Accounting policies (continued)

### b) Investment transactions:

The net realised gain / (loss) on sale of investments is determined on the basis of the average cost of investments sold. Investment transactions are accounted for on a trade date basis. The net realised gain / (loss) on sale of investments is disclosed in the financial statements as “Net realised gain / (loss) on investments”.

### c) Conversion of foreign currencies:

The Company maintains the accounting records in Euro. The combined total of net assets and of operations and changes in net assets of the Company is presented in Euro based on the exchange rate prevailing at the date of the Statement of Net Assets.

Income and expenses in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the transaction date.

Assets and liabilities in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the date of the Statement of Net Assets.

The exchange rates used as at 30 June 2009 are:

1 Euro = 1.73 AUD

1 Euro = 1.53 CHF

1 Euro = 0.85 GBP

1 Euro = 1.40 USD

### d) Income

Interest is recorded on an accruals basis. Dividends are accounted for on the ex-date.

## 3. Taxation of the Company

Under current Law and practice, the Company is not liable to any Luxembourg income tax.

The Company is, however, liable in Luxembourg to a tax of 0.05 per cent per annum or 0.01 per cent per annum as applicable (“Taxe d’Abonnement”). The Taxe d’Abonnement is payable quarterly on the basis of the Net Asset Value of the Sub-Fund at the end of the relevant calendar quarter. The benefit of the 0.01 per cent Taxe d’Abonnement is available to Classes of Shares exclusively held by Institutional Investors (Class “I” Shares) on the basis of the Luxembourg legal, regulatory and tax provisions as these are known to the Company at the time of admission of an investor in such Classes of Shares. Such assessment is subject to such changes in the laws and regulations of Luxembourg and to such interpretation on the status of an eligible investor by any competent Luxembourg authority as will exist from time to time. Any such reclassification made by an authority as to the status of an investor may submit the entire class to a Taxe d’Abonnement at the rate of 0.05 per cent p.a. The Taxe d’Abonnement charge is covered by the Fixed Fee (see Note 6).

## 4. Swaps

The index swap agreements are concluded at the outset of the swap agreement with the transferable securities and money market instruments having a lower cost than the notional value of the Index. This position may however change during the life of the swap whereby the cost of the transferable securities and money market instruments may become higher than the notional value of the Index due to additional purchases of transferable securities and money market instruments in excess of the Index notional. The difference between these notional values is accounted for and disclosed in the financial statements as “Receivable due from swap counterparty” or as “Payable due to swap counterparty” depending on which notional is higher.

#### 5. Wa'd Agreements

The exposure of the Sub-Funds to Shariah Compliant Index is intended to be achieved through Shariah Compliant Agreements (“Wa’d”). The valuation of the Wa’d will reflect the relative movements in the performance of the Index and the Invested Assets. Depending on the value of the Wa’d, the Sub-Funds may be required to sell Invested Assets and/or make payment or be entitled to receive such a payment. In the case that the Sub-Fund has to make a payment, this payment will be made from the proceeds and, as the case may be, the partial or total disposal of the Invested Assets the Sub-Fund has invested in.

The table below lists the value and the unrealised gain / (loss) on Wa'd agreements per Sub-Fund.

## 7. Management Company Fee and Fixed Fee

### a) Management Company Fee

In accordance with and subject to the terms of the Management Company Agreement, the annual Management Company Fee will be a percentage of the Net Assets of each Sub-Fund or Class of Shares or the Initial Issue Price (as indicated in the Product Annexes of the Prospectus). Management Company Fees are payable monthly at a rate which is within a range specified in the table below. The Management Company is also entitled to receive reimbursement for any reasonable disbursements and out-of-pocket expenses. The Management Company Fee will be calculated upon each Valuation Day.

### b) Fixed Fee

Under the terms of an arrangement between the Company and the Fixed Fee Agent, the Fixed Fee Agent will in exchange for the payment of a Fixed Fee, calculated on the average daily Net Asset Value per Sub-Fund or per Class at a rate as specified in the table below and payable quarterly, finance the payment of certain fees and expenses, unless otherwise specified in the relevant Product Annex of the Prospectus.

The fees and expenses covered by the arrangement are Transaction Fees, Administrative Expenses (including the Administration Agent Fee, the Custodian Fee, the Registrar and Transfer Agent Fee, the Listing Agent Fee, the formation expenses and other Administrative Expenses) and the annual tax in Luxembourg (the “Taxe d’abonnement”).

Invoices received by the Company which are covered by the Fixed Fees are paid by each Sub-Fund on a pro-rata basis. At the end of each quarter, the total invoices paid are compared against the Fixed Fee charge of the respective Sub-Fund charged in accordance with the terms outlined in the Prospectus. If the invoices paid are less than the Fixed Fee charge for the quarter, then the Sub-Fund will pay the difference to the Fixed Fee Agent in accordance with the payment terms in the Prospectus. If the invoices paid exceed the Fixed Fee charge for the quarter, then the Sub-Fund is due cash from the Fixed Fee Agent and will have a receivable due from the Fixed Fee Agent at the end of the quarter.

The Fixed Fee does not include the following fees, expenses and costs:

- the Distribution Fee;
- the Investment Management Fee;
- the Management Company Fee;
- the costs of any marketing agencies appointed by the Company or the Management Company to provide certain marketing and distribution services to the Company or the Management Company;
- any taxes or fiscal charges which the Company may be required to pay or, if it should be payable, any value added tax or similar sales or services tax payable by the Company (VAT) (all such taxes or fiscal charges), unless otherwise specified in the relevant Product Annex; nor,
- any costs and expenses incurred outside of the Company’s ordinary course of business such as extraordinary expenses (e.g. legal fees incurred in prosecuting or defending, a claim or allegation, by or against, the Company).
