

## Key Investor Information for Investors in the United Kingdom

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Xtrackers MSCI World High Dividend Yield ESG UCITS ETF

**Share class: 1D, ISIN: IE000NS5HRY9, Security code: DBX0UC, Currency: USD**

a sub-fund of Xtrackers (IE) plc. The management company is DWS Investment S.A., a member of the DWS Group.

### Objectives and investment policy

The fund is passively managed. **INVESTMENT OBJECTIVE:** The fund aims to reflect the performance, before fees and expenses, of the MSCI World High Dividend Yield Low Carbon SRI Screened Select Index (index). **DESCRIPTION OF INDEX:** The index is based on the MSCI World Index (Parent Index) which is designed to reflect the performance of certain shares in large and medium listed companies in developed markets. In order to be eligible for inclusion in the index, shares must be included in the Parent Index and must meet certain environmental, social and governance (ESG) criteria. **ESG CRITERIA:** Securities from the Parent Index which pass the ESG screening criteria, as disclosed in the prospectus and/or supplement, will constitute the eligible universe (Eligible Universe). Securities from the Eligible Universe are selected and weighted following an optimisation-based approach (including optimising for high dividend yields) which are subject to (a) climate (such as minimum relative reductions in fossil fuel exposure and greenhouse gas, water emissions and hazardous waste intensity) and other ESG objectives and (b) diversification objectives in relation to for example a minimum increase in dividend yield relative to the parent index as well as sector, security and country weights. The ESG Criteria comprise the requirements as laid out in Article 12(1)(a) to (g) of the Commission Delegated Regulation (EU) 2020/1818 ("PAB Exclusions"). **INDEX**

**REBALANCING, CALCULATION AND ADMINISTRATION:** The index is administered by MSCI Limited. The index is calculated on a total return net basis which means that all dividends and distributions by the companies are reinvested in the shares after tax. The index is rebalanced on a quarterly basis. The index is calculated daily in USD. **INVESTMENT POLICY:** To achieve the aim, the fund will attempt to replicate the index, before fees and expenses, by buying all or a substantial number of the securities in the index. The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of financial contracts (derivatives). **FURTHER INFORMATION:** Certain information (including the latest share prices of the fund, indicative net asset values, full disclosure on the composition of the fund's portfolio and information on the index constituents) are available on your local DWS website or at [www.Xtrackers.com](http://www.Xtrackers.com). Transaction costs and taxes, unexpected fund costs and market conditions such as volatility or liquidity issues may affect the ability of the fund to track the index. The anticipated level of tracking error in normal market conditions is 1 per cent. The currency of the fund is USD. The fund distributes up to four times per annum. You may request the redemption of shares generally on a daily basis.

### Risk and reward profile

The calculation of the risk and reward profile is based on simulated data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high. The following risks could be of particular significance for the fund: The fund will attempt to replicate the performance of the index less costs, but your investment is not expected to match the performance of the index precisely. **EXCEPTIONAL CIRCUMSTANCES RISK:** Exceptional circumstances may arise, such as, but not limited to, disruptive market conditions, additional costs/taxes or extremely volatile markets, which may cause the fund's performance to be substantially different from the performance of the index. **CONFLICTS OF INTEREST RISK:** DWS entities and related companies may act in several roles in relation to the fund such as distributor and management company which may involve conflicts of interest. **NO GUARANTEE RISK:** The fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up. **SUSTAINABILITY RISK:** The ESG screening and weighting criteria are embedded within the

index selection process, which seeks to exclude securities issued by companies involved in certain activities. The investment manager and sub-portfolio manager are not responsible for monitoring the screening process or confirming that all securities which pass the screening process are issued by companies with adequate ESG standards. The company is solely relying on the activities conducted by and information provided by the administrator of the index and MSCI ESG Research LLC for the ESG screening. ESG information from third-party data providers may be incomplete, inaccurate or unavailable. As a result, there is a risk that the index administrator may incorrectly assess a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the index. **DIVIDEND FOCUS RISK:** The fund is designed for investors who are able to understand and evaluate the fund's value-based investment strategy and inherent risks and, in particular, are able to assess how the index is expected to perform in a range of market cycles. Due to the "dividend" focus of the Reference Index, investors need to understand when market conditions would favour a dividend-driven approach or when investing in other strategies may be more appropriate. Due to the "dividend" focus of the Reference Index, the performance and constituents of the Reference Index, and hence the Fund, may differ significantly from that of the Parent Index. **DERIVATIVES RISK:** The fund may use derivatives to try to manage its investments more efficiently. This may not always be successful and may result in greater fluctuations in the value of the fund. This may negatively affect the value of the fund and your investment. A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

### Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	0.25 %
Charges taken from the fund under certain specific conditions	
Performance fee	None

Secondary market investors (those who buy or sell shares on a stock exchange) may be charged certain fees by their stock broker. These charges, if any, can be obtained from such stock broker. Authorised participants dealing directly with the fund will pay the transaction costs related to their subscriptions and redemptions.

The ongoing charges shown here are a cost estimate. It excludes portfolio transaction costs and performance fees, if any.

Additional information on costs can be found in the cost section(s) of the prospectus.
