

## Key Investor Information for Investors in the United Kingdom

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Xtrackers S&P Global Infrastructure Swap UCITS ETF

**Share class: 1C, ISIN: LU0322253229, Security code: DBX1AP, Currency: USD**

a sub-fund of Xtrackers. The management company is DWS Investment S.A., a member of the DWS Group.

### Objectives and investment policy

The fund is passively managed. **INVESTMENT OBJECTIVE:** The aim is for your investment to reflect the performance of the S&P Global Infrastructure index (index) which is designed to reflect the performance of 75 companies from developed countries and emerging markets representing three industry sectors: utilities, transportation and energy. **DESCRIPTION OF INDEX:** The index contains shares of companies meeting certain size criteria based on the combined value of a company's readily available shares compared to other companies. The shares must also meet minimum trading activity requirements. Fifteen companies are from emerging markets and they must be listed on a stock exchange in a developed country. The utilities and transportation sectors are each represented by 30 companies in the index and the energy sector is represented by 15 companies. **INDEX REBALANCING, CALCULATION AND ADMINISTRATION:** At each annual rebalancing, each of the utilities and transportation sectors can only represent 40% of the index and the energy sector can only

represent 20%. **INVESTMENT POLICY:** To achieve the aim, the fund will invest in transferable securities and enter into financial contracts (derivatives) with one or more swap counterparties relating to the transferable securities and the index, in order to obtain the return on the index. **FURTHER INFORMATION:** Certain information (including the latest share prices of the fund, indicative net asset values, full disclosure on the composition of the fund's portfolio and information on the index constituents) are available on your local DWS website or at [www.Xtrackers.com](http://www.Xtrackers.com). Transaction costs and taxes, unexpected fund costs and market conditions such as volatility or liquidity issues may affect the ability of the fund to track the index. The anticipated level of tracking error in normal market conditions is 1 per cent. The currency of the fund is USD. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares generally on a daily basis.

### Risk and reward profile

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high. The following risks could be of particular significance for the fund: The value of your investment may go down as well as up and past performance does not predict future returns. Investor capital may be at risk up to a total loss. The Fund is exposed to less economically developed economies (known as emerging markets) which involve greater risks than well developed economies. Political unrest and economic downturn may be more likely and will affect the value of your investment. The value of an investment in shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events. The Fund has a focus on a single or narrow range of industry, sector or types of companies and performance may not reflect a rise in broader markets. The Fund will enter into a derivative with a counterparty. If the counterparty fails to make

payments (for example, it becomes insolvent) this may result in your investment suffering a loss. The fund does not invest directly in the components of the index and its returns will be dependent on the performance of the derivatives used. **COUNTERPARTY RISK:** The fund may enter into one or more derivatives with one or more counterparties. If any of the counterparties fails to make payments (for example, it becomes insolvent) this may result in your investment suffering a loss. **CONFLICTS OF INTEREST RISK:** DWS entities and related companies may act in several roles in relation to the fund such as distributor and management company which may involve conflicts of interest. **NO GUARANTEE RISK:** The fund is not guaranteed and your investment is at risk. The value of your investment may go down as well as up. **EMERGING MARKETS RISK:** The fund is exposed to less economically developed economies (known as emerging markets) which may involve greater risks than well developed economies. Political unrest and economic downturn may be more likely and will affect the value of your investment. **SECTOR CONCENTRATION RISK:** The fund also has a focus on a single or narrow range of industry, sector or types of companies and performance may not reflect a rise in broader markets. **DERIVATIVES RISK:** The derivative used to gain exposure to the index may be adjusted to reflect certain expenses in relation to taxes and/or buying, selling, borrowing, financing or custody costs. These replication costs may result in the fund and your investment suffering a loss.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

### Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	0.60 %
Charges taken from the fund under certain specific conditions	
Performance fee	None

Secondary market investors (those who buy or sell shares on a stock exchange) may be charged certain fees by their stock broker. These charges, if any, can be obtained from such stock broker. Authorised participants dealing directly with the fund will pay the transaction costs related to their subscriptions and redemptions.

The ongoing charges figure is based on expenses for the fiscal year ending 31.12.2023. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.

Additional information on costs can be found in the cost section(s) of the prospectus.

## Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from the 1C share class of Xtrackers S&P Global Infrastructure Swap UCITS ETF were deducted during the calculation. The 1C share class of Xtrackers S&P Global Infrastructure Swap UCITS ETF was launched in 2008.

## Practical information

The depositary is State Street Bank International GmbH, Luxembourg Branch. Copies of the prospectus and the periodic reports are available free of charge in the language of this document. The documents as well as other information (including the latest share prices as well as the indicative net asset values) are available free of charge. The documents are available on your local DWS website or at [www.Xtrackers.com](http://www.Xtrackers.com), for full disclosure on the composition of the fund's portfolio and information on the index constituents please refer to this website as well.
