The Investment Objective of the Sub-Funds is to provide the investors with a return linked to the performance of the Underlying Asset. The Sub-Funds will mainly invest in transferable securities and money market instruments and use derivative techniques such as index swap agreements to exchange the performance of the transferable securities and money market instruments the Sub-Funds invest in against the performance of the Index. The investors do not bear any performance or currency risk of the transferable securities and money market instruments.

## Notes to the Financial Statements (continued)

From 1 January 2008 to 30 June 2008

### 1. General (continued)

#### a) The Company (continued)

The exposure of the Sub-Funds to an Index is achieved through an OTC swap transaction. The valuation of the OTC swap transaction will reflect the relative movements in the performance of the Index and the transferable securities and money market instruments. Depending on the value of the OTC swap transaction the Sub-Funds will have to make a payment to the Swap Counterparty or will receive such payment. In the case the Sub-Funds have to make a payment to the Swap Counterparty, this payment will be made from the proceeds and, as the case may be, the partial or total disposal of the transferable securities and money market instruments the Sub-Funds have invested in.

The liabilities of each Sub-Fund shall be segregated on a Sub-Fund by Sub-Fund basis with the third party creditors having recourse only to the assets of the Sub-Funds concerned.

#### b) The Shares

The shares can be divided into shares of classes "I" and "R" (identified by the number "1" or "2").

The shares will be issued by the Company exclusively in relation to Sub-Funds with an Investment Objective for which the subscription will normally be in cash.

Shares of class "I" are available only to institutional investors whilst shares of class "R" are primarily designated for retail investors.

Shares of class "I" and "R" are further differentiated by their respective fee structure and further differentiated between Distribution shares (identified by the letter "D") and Capitalisation shares (identified by the letter "C"). Within each class of shares, several types of sub-classes can be issued. Shares of classes "I" and "R" may be listed for trading on one or more stock exchanges.

### 2. Accounting policies

The financial statements of the Company have been prepared according to accounting principles generally accepted in Luxembourg and applicable for investment funds. The significant accounting policies used are as follows:

#### a) Valuation of investments:

The Net Asset Value of the Company is at any time equal to the total of the Net Asset Values of the Sub-Funds in the base currency of the Company.

The Net Asset Value of the Sub-Funds shall be determined in accordance with the following rules:

- (i) the value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as may be considered appropriate in such case to reflect the true value thereof;

Notes to the Financial Statements (continued)

From 1 January 2008 to 30 June 2008

**2. Accounting policies (continued)**

- (ii) the value of all transferable securities and money market instruments and other assets which are listed or traded on an official stock exchange or traded on any other regulated market will be valued on the basis of the last available prices on the Business Day immediately preceding the Valuation Day or on the basis of the last available prices on the main market on which the investments of the Sub-Funds are principally traded. If, in the opinion of the Board of Directors, such prices do not truly reflect the fair market value of the relevant securities, the value of such securities will be determined in good faith by the Board of Directors either by reference to any other publicly available source or by reference to such other sources as it deems in its discretion appropriate;
- (iii) securities not listed or traded on a stock exchange or a Regulated Market will be valued on the basis of the probable sales price determined prudently and in good faith by the Board of Directors;
- (iv) securities issued by open-ended investment funds shall be valued at their last available net asset value or in accordance with item (ii) above where such securities are listed;
- (v) the liquidating value of futures, forward or options contracts that are not traded on exchanges or on other organised markets shall be determined pursuant to the policies established by the Board of Directors, on a basis consistently applied. The liquidating value of futures, forward or options contracts traded on exchanges or on other organised markets shall be based upon the last available settlement prices of these contracts on exchanges and organised markets on which the particular futures, forward or options contracts are traded; provided that if a futures, forward or options contract could not be liquidated on such Business Day with respect to which a Net Asset Value is being determined, then the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable;
- (vi) liquid assets and money market instruments may be valued at nominal value plus any accrued interest or using an amortised cost method; this amortised cost method may result in periods during which the value deviates from the price the relevant Sub-Fund would receive if it sold the investment. The Management Company may, from time to time, assess this method of valuation and recommend changes, where necessary, to ensure that such assets will be valued at their fair value as determined in good faith pursuant to procedures established by the Board of Directors. If the Board of Directors believes that a deviation from the amortised cost per Share may result in material dilution or other unfair results to Shareholders, the Board of Directors shall take such corrective action, if any, as it deems appropriate, to eliminate or reduce, to the extent reasonably practicable, the dilution or unfair results;
- (vii) the swap transactions will be consistently valued based on a calculation of the net present value of their expected cash flows;
- (viii) all other securities and other permissible assets as well as any of the above mentioned assets for which the valuation in accordance with the above sub-paragraphs would not be possible or practicable, or would not be representative of their fair value, will be valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors.

b) Investments transactions:

The net realised gain / (loss) on investments is determined on the basis of the average cost of investments sold. Investment transactions are accounted for on a trade date basis.

## Notes to the Financial Statements (continued)

### 2. Accounting policies (continued)

#### c) Conversion of foreign currencies:

The Company maintains the accounting records in Euro. The combined total of net assets and of operations and changes in net assets of the Company is presented in Euro based on the exchange rate prevailing at the date of the Statement of Net Assets.

Income and expenses in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the transaction date.

Assets and liabilities in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the date of the Statement of Net Assets.

The exchange rate used as at 30 June 2008 is:

1 Euro = 1.64 AUD

1 Euro = 1.60 CHF

1 Euro = 0.79 GBP

1 Euro = 1.58 USD

#### d) Income

Bank interest is recorded on an accruals basis.

### 3. Taxation of the Company

Under current law and practice, the Company is not liable to any Luxembourg income tax.

The Company is, however, liable in Luxembourg to a tax of 0.05 per cent per annum or 0.01 per cent per annum as applicable ("*Taxe d'Abonnement*"). Investments by a Sub-Fund in shares or units of another Luxembourg undertaking for collective investment are excluded from the Net Asset Value of the Sub-Fund serving as basis for the calculation of the *Taxe d'Abonnement* payable by that Sub-Fund. The *Taxe d'Abonnement* is payable quarterly on the basis of the Net Asset Value of the Sub-Fund at the end of the relevant calendar quarter. The benefit of the 0.01 per cent *Taxe d'Abonnement* is available to Classes of Shares exclusively held by Institutional Investors (including Class "I" Shares) on the basis of the Luxembourg legal, regulatory and tax provisions as these are known to the Company at the time of admission of an investor in such Classes of Shares. Such assessment is subject to such changes in the laws and regulations of Luxembourg and to such interpretation on the status of an eligible investor by any competent Luxembourg authority as will exist from time to time. Any such reclassification made by an authority as to the status of an investor may submit the entire class to a *Taxe d'Abonnement* at the rate of 0.05 per cent p.a. The *Taxe d'Abonnement* charge is covered by the Fixed Fee (see Note 6).

No stamp or other tax will be payable in Luxembourg in connection with the issue of Shares by the Company, except a once and for all tax of Euro 1,250 which was paid upon incorporation of the Company.

Under current law and practice in Luxembourg, no capital gains tax is payable on the realised capital appreciation of the assets of the Company and no tax is payable on the investment income received in respect of the assets. Investment income for dividends and interest received by the Company may however be subject to withholding taxes in the country of origin at varying rates; such withholding taxes are not recoverable.

## Notes to the Financial Statements (continued)

From 1 January 2008 to 30 June 2008

### 6. Fixed Fee

Under the terms of an arrangement between the Company and the Fixed Fee Agent Deutsche Bank AG, acting through its London Branch ("Deutsche Bank"), the Fixed Fee Agent will in exchange for the payment of a Fixed Fee, calculated on the average daily Net Asset Value per Sub-Fund or per Class as specified in the relevant Product Annex of the Prospectus and payable quarterly provide for the payment of certain fees and expenses, unless otherwise specified in the relevant Product Annex of the Prospectus.

The fees and expenses covered by the arrangement are Transaction Fees, Administrative Expenses (including the Administration Agent, the Custodian Fee, the Registrar, Transfer Agent and Listing Agent Fee, the formation expenses and other Administrative Expenses) and such as the annual tax in Luxembourg (the "Taxe d'abonnement").

The Fixed Fee does not include the following fees, expenses and costs:

- the Distribution Fee;
- the Investment Management Fee;
- the Management Company Fee;
- the costs of any marketing agencies appointed by the Company or the Management Company to provide certain marketing and distribution services to the Company or the Management Company;
- any taxes or fiscal charges which the Company may be required to pay or, if it should be payable, any value added tax or similar sales or services tax payable by the Company (VAT) (all such taxes or fiscal charges), unless otherwise specified in the relevant Product Annex; nor,
- any cost and expenses incurred outside of the Company's ordinary course of business such as Extraordinary Expenses (e.g. legal fees incurred in prosecuting or defending, a claim or allegation, by or against, the Company).

Invoices received by the Company which are covered by the Fixed Fees are paid by each Sub-Fund on a pro-rata basis. At the end of each quarter, the total invoices paid are compared against the Fixed Fee charge of the respective Sub-Fund charged in accordance with the terms outlined in the Prospectus. If the invoices paid are less than the Fixed Fee charge for the quarter, then the Sub-Fund will pay the difference to the Fixed Fee Agent in accordance with the payment terms in the Prospectus. If the invoices paid exceed the Fixed Fee charge for the quarter, then the Sub-Fund is due cash from the Fixed Fee Agent and will have a receivable due from the Fixed Fee Agent at the end of the quarter.

### 7. Related Parties

DB Platinum Advisors is the Manager of the Company and as a compensation for its services receives a fee of up to 0.90% annually (see Note 5 for full details of the Management Company Fee).

The Fixed Fee Agent is Deutsche Bank AG, acting through its London Branch. The Fixed Fee is up to 0.20% annually of the average daily net assets (see Note 6 for full details of the Fixed Fee).

Deutsche Bank AG, acting through its London Branch, is the counterparty to all swap positions entered into by the Company.

In the normal course of its operations, each Sub-Fund may enter into transactions on securities or other investments with Deutsche Bank or other Deutsche Bank affiliates.

### 8. Changes in the composition of the investment portfolio

These changes are made available to the Shareholders by the Custodian and Administrative Agent at the Company's registered office. They will be sent free of charge to anyone who so requests.
