Full year 2020 performance figures for Share Classes

The performance figures in the Directors' report are calculated based on the last official NAV published for 2020, which is in some cases different than the NAV used for the purpose of the annual report. NAVs used for the annual report are all dated 31/12/2020 (except for liquidated Sub-Funds or Share Classes) and have been specially calculated for the purpose of the annual report; for the avoidance of doubt, the NAVs as published in the annual report are not NAVs on which any Shareholder could have traded. Computing performance figures with the NAV included in the annual report will lead to different results than the table.

Independent auditor's report

To the Shareholders of
Xtrackers II

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Xtrackers II (the "Fund") and of each of its sub-funds, which comprise the statement of net assets and the statement of investments as at 31 December 2020 and the statement of operations and changes in net Assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 December 2020, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with EU Regulation N° 537/2014, the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the EU Regulation N° 537/2014, the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other matter

We draw your attention to Note 11 which describes that the amounts of transaction costs disclosed in Note 11 in the audited financial statements as of 31 December 2020 issued on 26 March 2021 contained an error which has been amended.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. We have determined that there are no key audit matters to communicate in our report.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of “réviseur d’entreprises agréé” thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund and of those charged with governance for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund’s and of each of its sub-funds’ ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “réviseur d’entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d’entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with EU Regulation N° 537/2014, the Law of 23 July 2016 and with the ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with EU Regulation N° 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds (except for the sub-fund where a decision to close exists) to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our report unless law or regulation precludes public disclosure about the matter.

Report on other legal and regulatory requirements

We have been appointed as “réviseur d’entreprises agréé” by the General Meeting of the Shareholders on 17 April 2020 and the duration of our uninterrupted engagement, including previous renewals and reappointments, is fourteen years.

We confirm that the prohibited non-audit services referred to in EU Regulation No 537/2014 were not provided and that we remained independent of the Fund in conducting the audit.

We provided the following permitted services in addition to the statutory audit:

- issuance of a long form report in the context of CSSF Circular 02/81;
- issuance of redemption in kind reports;
- issuance of contribution in kind reports.

Significant events of the year:

1. During the year ending 31 December 2020, the following Sub-Fund has been launched:

Sub-Fund	Launch Date
XTRACKERS II ESG EUR CORPORATE BOND SHORT DURATION UCITS ETF	23 July 2020

2. On 10 January 2020, the Company informed Shareholders that the Prospectus was updated to clarify in more detail the operation of Direct Replication Sub-Funds. The update made clear that Sub-Funds following a Full Index Replication methodology may not contain all of the constituents of the relevant index, and accordingly such Sub-Funds may hold other transferable securities or other eligible assets on a time to time basis as opposed to on an exceptional basis. The notice further explained that certain Sub-Funds classified as following a Full Index Replication methodology or an Optimised Index Replication methodology respectively would be re-designated. These changes took effect on 12 February 2020.
3. On 10 January 2020, the Company informed Shareholders that with effect from 12 February 2020, DWS Investment GmbH, acting as investment manager of the Company for Direct Replication Funds, intended to extend the practical operation of the delegation to include DWS Investments Hong Kong Limited, such that the Investment Manager may, from time to time and in accordance with an agreed process, delegate certain of its sub-portfolio management functions in respect of Direct Replication Funds to DWS Investments UK Limited and/or DWS Investments Hong Kong Limited.
4. During a reconvened extraordinary general meeting of shareholders held on 6 May 2020 it was decided to amend article 21 of the Articles of Incorporation in order to provide for the possibility of the Board of Directors to decide on the split or consolidation of the Shares of any Sub-Fund or Class, with effect from 7 May 2020.
5. During the annual general meeting of shareholders held on 17 April 2020, the following proposed resolution was not passed: “6. Statutory appointments and remuneration”. The current Directors remained in office and convened a general meeting of shareholders on 26 June 2020 (the “General Meeting”) in order to vote on the appointment of Directors. All resolutions brought before the General Meeting passed and Manooj Mistry, Philippe Ah-Sun, Alex McKenna and Freddy Brausch were re-elected to the Board of Directors. Thilo Wendenburg was newly elected to the Board of Directors. The remuneration of EUR 15,000 for Freddy Brausch for the period from the annual general meeting held on 8 April 2019 to the next annual general meeting (which was held on 17 April 2020) was approved by a majority of Shareholders at the annual general meeting dated 8 April 2019. In order to bring the approval of Director’s remuneration in line with the appointment letters of Freddy Brausch and Thilo Wendenburg, remuneration for the period from 17 April 2020 until the annual general meeting of Shareholders that will approve the annual accounts for the financial year ending 31 December 2020 (the “2021 AGM”) will be voted upon by Shareholders at the 2021 AGM. As such, no resolutions to approve the remuneration of Directors were brought before the General Meeting.
6. Manooj Mistry resigned as a Director with effect from 30 June 2020.
7. The Covid-19 coronavirus has spread since January 2020 and has subsequently led to a serious economic crisis. The rapid proliferation of the virus was reflected in, among other things, significant price market distortions and substantially increased volatility at the same time. Restrictions on freedom of movement, repeated lockdown measures, production stoppages, as well as disrupted supply chains, are exerting major pressure on downstream economic processes, which caused global economic prospects to deteriorate considerably. Even though gradual recovery was to be observed again in the markets in the interim – due, among other things, to assistance programs in the context of monetary and fiscal policy as well as the introduction of vaccination campaigns – the actual or possible mid- to long-term effects of the crisis on the economy, individual markets and sectors, as well as the social implications, cannot be reliably evaluated or adequately forecast at the time of preparing this report in light of the pace of the global spread of the virus and the associated high degree of uncertainty. Consequently, there may still be a material influence on the

respective Sub-Funds assets. A high level of uncertainty exists in relation to the financial implications of the pandemic, as these are dependent on external factors such as the spread of the virus and the measures taken by individual governments and central banks, the successful stemming of the development of infection rates and the speedy and sustainable restart of the economy.

The Management Company is therefore continuing its efforts, within the framework of its risk management strategy, to assess these uncertainties and their possible impact on the activities, liquidity and performance of the respective Sub-Funds. The Board of Directors is ensuring that the Management Company is taking all measures deemed appropriate to protect investor interests to the greatest possible extent. In coordination with the service providers, the Board of Directors observed the consequences of the Covid-19 coronavirus crisis and adequately included its impact on the respective Sub-Funds and the markets in which the respective Sub-Funds invest into its decision-making processes. As of the date of this report, no significant redemption requests had been made in respect of the respective Sub-Funds; the effects on the respective Sub-Funds' share certificate transactions are continuously monitored by the Management Company; the performance capability of the most important service providers did not experience any significant impairment. In this context, the Board of Directors satisfied itself in line with numerous national guidelines and following discussions with the most important service providers (especially the Depository, the portfolio management and the fund administration) that the measures taken and the business continuity plans put in place (including extensive hygiene measures on the premises, restrictions on business travel and events, precautions to ensure the reliable and smooth running of business processes in the event of a suspected case of Covid-19 coronavirus infection, expansion of the technical options for mobile working) will curb the currently foreseeable or ongoing operational risks and will ensure that the respective Sub-Funds' activities will not be disrupted.

At the time of preparing this report, the Board of Directors is of the opinion that there are no signs indicating that any of the respective Sub-Funds should not be continued, nor were there any liquidity problems for the respective Sub-Funds.

8. With effect from 31 January 2020 the United Kingdom is no longer a Member State of the European Union. A transitional period ended on 31 December 2020 while the United Kingdom and EU negotiate additional arrangements. Notwithstanding the departure of the United Kingdom from the European Union and the end of the transitional period there is no need to amend the structure of the Company or replace certain service providers and the Company continues to be able to fully operate in this post-Brexit environment. Funds that were passported for public offer into the United Kingdom under the UCITS Directive can continue to be offered in the United Kingdom pursuant to the temporary permissions regime.

For other significant events of the year, please refer to point 4 in the section "Information for Shareholders - unaudited".

b) Investment Objectives and Policies

A Sub-Fund may carry out its Investment Objective via an Indirect Investment Policy and/or a Direct Investment Policy as more fully described in the following paragraphs.

Sub-Funds with an Indirect Investment Policy

The Sub-Funds with an Indirect Investment Policy are identified by the reference "SWAP" in their name. Sub-Funds with an Indirect Investment Policy ("Indirect Replication Funds") may not invest directly in the constituents of the Reference Index. Instead, the exposure to the performance of the Reference Index will be achieved by way of derivative transactions and/or instruments (the "Derivative Transaction(s)"). In particular, an Indirect Replication Fund will conclude OTC swap transactions negotiated at arm's length with one or more Swap Counterparties (the "OTC Swap Transaction(s)"). For the avoidance of doubt, the OTC Swap Transactions would qualify as total return swaps within the meaning of Regulation (EU) 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 (the "SFTR Regulation"). Indirect Replication Funds do not currently provide for the possibility to enter into securities lending agreements, buy-sell or sell-buy back transactions, margin lending transactions or repurchase agreements (and/or reverse repurchase agreements), as covered by the SFTR Regulation.

In order to achieve its Investment Objective and in accordance with the Investment Restrictions, an Indirect Replication Fund may at any time invest part or all of the net proceeds of any issue of its Shares:

- (a) in Invested Assets and use one or more Derivative Transactions the purpose of which is to exchange all or part of the performance and/or income of such Invested Assets to gain exposure to the Reference Index (an "Unfunded Swap") (refer to Note 4); and/or,
- (b) in one or more Derivative Transactions the purpose of which is to exchange all or part of the invested proceeds to gain exposure to the Reference Index (a "Funded Swap").

The Invested Assets that can be subject to an Unfunded Swap are UCITS eligible fixed income securities, unless otherwise specified in the relevant Product Annex.

Notes to the Financial Statements (continued)

1. General (continued)

b) Investment Objectives and Policies (continued)

For Funded Swaps, the maximum proportion of Net Asset Value that is subject to Derivative Transactions is 110 percent, excluding the impact of fees and foreign exchange ("FX") hedging arrangements, as applicable; whilst the expected proportion of Net Asset Value that is subject to Derivative Transactions is 100 percent, of the Net Asset Value, excluding the impact of fees and FX hedging arrangements, as applicable.

For Unfunded Swaps, the maximum proportion of the Net Asset Value that is subject to Derivatives Transactions in relation to the Reference Index is 110 percent, of the Net Asset Value excluding the impact of fees and FX hedging arrangements, as applicable; whilst the expected proportion of the Net Asset Value that is subject to Derivative Transactions in relation to the Reference Index is 100 percent, of the Net Asset Value, excluding the impact of fees and FX hedging arrangements, as applicable.

For Unfunded Swaps, the maximum and expected proportion of the Net Asset Value that is subject to Derivatives Transactions in relation to Invested Assets is the same proportion as the proportion of the value of Invested Assets to the Net Asset Value of the relevant Sub-Fund.

An Indirect Replication Fund may, with due regard to the best interests of its Shareholders and subject to any conditions set forth in each specific Product Annex, decide from time to time to switch partially or totally from a Funded Swap to an Unfunded Swap, and vice versa.

The Invested Assets, Derivative Transactions and any techniques used to link the Invested Assets to the Reference Index or the Derivative Transactions, or the invested proceeds to the Reference Index will be managed by the relevant Investment Manager and/or the Sub-Portfolio Manager. The management of the Invested Assets will generally not involve the active buying and selling of securities on the basis of investment judgement and economic, financial and market analysis.

In principle, the return that the Shareholder will receive will largely be dependent on the performance of the Invested Assets, the performance of the Reference Index and the performance of any techniques used to link the Invested Assets and/or the net proceeds from the issue of Shares to the Reference Index.

Depending on the value of the Derivative Transactions and its chosen policy, an Indirect Replication Fund may be at any time fully or partially exposed to one or more counterparties (including one or more Swap Counterparties), in which case appropriate collateral or other counterparty risk mitigation arrangements compliant with the Regulations and EMIR will be taken/implemented and/or payment will be received from the Derivative Transactions counterparties so that the percentage of the counterparty risk exposure remains within the limits set out in the Regulations and EMIR (refer to Note 9).

Sub-Funds with a Direct Investment Policy

Sub-Funds with a Direct Investment Policy ("Direct Replication Funds") may carry out their investment objective by investing in a portfolio of transferable securities or other eligible assets that may comprise either:

- (i) all, or a substantial number of, the constituents of the Reference Index (such Sub-Fund a "Full Replication Fund"), or
- (ii) an optimised sample of the constituents of the Index, or unrelated transferable securities or other eligible assets (such Sub-Fund an "Optimised Replication Fund").

Optimised Replication Funds may not hold every constituent or the exact weighting of a constituent in the Reference Index but will seek to provide a return similar to that of its Reference Index by (i) investing either in a sub-set of the constituents of the Reference Index, (ii) seeking to gain exposure to the Reference Index by utilising optimisation techniques and/or (iii) by investing in securities that are not part of that Reference Index. Use of these investment techniques, the implementation of which is subject to a number of constraints detailed in the "Investment Restrictions" section of the Prospectus, may not produce the intended results.

Full Replication Funds may from time to time not contain all of the constituents of the Reference Index, and accordingly such Sub-Funds may hold other transferable securities or other eligible assets in accordance with the Investment Restrictions. The extent to which a Full Replication Fund does not contain all of the constituents of the Reference Index will vary, and will be dependent on a number of factors which may include, but are not limited to; the nature and number of the constituents of the Reference Index (for example, where a Reference Index comprises a large number of securities, contains a number of illiquid securities or where the availability of constituent securities for purchase is limited), legal or regulatory restrictions, the size of the Sub-Fund, and the utilisation of efficient portfolio management techniques.

A Direct Investment Policy provides for the possibility to enter into securities lending agreements but does not currently provide for the possibility to enter into margin lending transactions or repurchase agreements (and/or reverse repurchase agreements), buy-sell or sell-buy back transactions or total return swaps as covered by the SFTR Regulation. Should the Board of Directors decide to provide for such possibility, the Prospectus will be updated prior to the entry into force of such decision in order for the Company to comply with the relevant disclosure requirements of the SFTR Regulation for these Direct Replication Funds.

Notes to the Financial Statements (continued)

1. General (continued)

b) Investment Objectives and Policies (continued)

The types of securities in which Direct Replication Funds may invest include American depositary receipts ("ADRs"), global depositary receipts ("GDRs"), and/or non-voting depositary receipts ("NVDRs"). Direct Replication Funds may receive income in respect of the securities held by them. Taxes may be imposed on income received from securities held by a Sub-Fund.

Direct Replication Funds may from time to time invest temporary cash balances (such as subscription proceeds which are pending investment or any other temporary cash balances) in FDIs to gain market exposure and to seek to reduce Tracking Error.

In addition, the Investment Manager reserve the right to exclude from the portfolios of the Sub-Funds any securities which do not comply with the Investment Manager's policies. This will include those securities which have been identified as parties involved in the production or manufacturing of controversial conventional weapons, production of delivery devices and the deliberate and knowing production of primary key components of controversial conventional weapons, each as determined by the DWS Controversial Conventional Weapons identification methodology.

Notwithstanding the foregoing, it should be noted that due to exceptional circumstances, such as, but not limited to, disruptive market conditions or extremely volatile markets, instances may arise which cause a Direct Replication Fund's tracking accuracy to diverge substantially from the Reference Index. Due to various factors, including the Sub-Fund's fees and expenses involved, the concentration limits described in the Investment Restrictions, other legal or regulatory restrictions, and, in certain instances, certain securities being illiquid, it may not be possible or practicable to purchase all of the constituents in proportion to their weighting in the Reference Index or purchase certain of them at all.

c) The Shares

The Shares will be issued by the Company exclusively in relation to Sub-Funds with the Investment Policies described in the Prospectus and may be subscribed in cash or in kind (or a combination of both in cash and in kind).

The Shares may be differentiated between Distribution Shares (identified by the letter "D") and Capitalisation Shares (identified by the letter "C"). Other Classes may be offered with specific features such as fee structures, minimum subscription amount, investor eligibility criteria or other specific features. The Shares will be listed for trading on one or more stock exchanges unless otherwise specified in the relevant Product Annex of the Prospectus.

2. Accounting policies

The financial statements of the Company have been prepared according to accounting principles generally accepted in Luxembourg and applicable for investment funds. The significant accounting policies used are as follows:

a) Valuation of investments

The Net Asset Value of the Company is at any time equal to the total of the Net Asset Values of the Sub-Funds.

The Net Asset Value of the Sub-Funds shall be determined in accordance with the following rules:

- (i) the value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as may be considered appropriate in such case to reflect the true value thereof;
- (ii) the value of all securities which are listed or traded on an official stock exchange or traded on any other Regulated Market will be valued on the basis of the last available prices on the Business Day immediately preceding the Valuation Day or on the basis of the last available prices on the main market on which the investments of the Sub-Funds are principally traded. The Board of Directors will approve a pricing service which will supply the above prices. If, in the opinion of the Board of Directors, such prices do not truly reflect the fair market value of the relevant securities, the value of such securities will be determined in good faith by the Board of Directors either by reference to any other publicly available source or by reference to such other sources as it deems in its discretion appropriate;
- (iii) securities not listed or traded on a stock exchange or a Regulated Market will be valued on the basis of the probable sales price determined prudently and in good faith by the Board of Directors;
- (iv) securities issued by open-ended investment funds shall be valued at their last available net asset value or in accordance with item (ii) above where such securities are listed;

Notes to the Financial Statements (continued)

2. Accounting policies (continued)

a) Valuation of investments (continued)

- (v) the liquidating value of futures, forward or options contracts that are not traded on exchanges or on other organised markets shall be determined pursuant to the policies established by the Board of Directors, on a basis consistently applied. The liquidating value of futures, forward or options contracts traded on exchanges or on other organised markets shall be based upon the last available settlement prices of these contracts on exchanges and organised markets on which the particular futures, forward or options contracts are traded; provided that if a futures, forward or options contract could not be liquidated on such Business Day with respect to which a Net Asset Value is being determined, then the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable. The net realised gain / (loss) on forward foreign exchange is included in the financial statements as “Net realised gain / (loss) on foreign exchange”;
- (vi) liquid assets and money market instruments may be valued at nominal value plus any accrued interest or using an amortised cost method; this amortised cost method may result in periods during which the value deviates from the price the relevant Sub-Fund would receive if it sold the investment. The Management Company may, from time to time, assess this method of valuation and recommend changes, where necessary, to ensure that such assets will be valued at their fair value as determined in good faith pursuant to procedures established by the Board of Directors. If the Board of Directors believes that a deviation from the amortised cost per Share may result in material dilution or other unfair results to Shareholders, the Board of Directors shall take such corrective action, if any, as it deems appropriate, to eliminate or reduce, to the extent reasonably practicable, the dilution or unfair results;
- (vii) the total return swap (TRS) transactions will be consistently valued based on a calculation of the net present value of their expected cash flows. TRS are marked to market at each NAV Date;
- (viii) all other securities and other permissible assets as well as any of the above mentioned assets for which the valuation in accordance with the above sub-paragraphs would not be possible or practicable, or would not be representative of their fair value, will be valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors.

b) Investment transactions

The net realised gain / (loss) on sale of investments is determined on the basis of the average cost of investments sold. Investment transactions are accounted for on a trade date basis.

The net realised gain / (loss) on sale of investments is disclosed in the financial statements as “Net realised gain / (loss) on investments”.

The cost of inflation-linked bonds is adjusted for inflation and these adjustments are recognised as interest on bonds.

c) Conversion of foreign currencies

Accounting records are kept for each Sub-Fund in its reference currency. The Combined Statement of Net Assets and Statement of Operations and Changes in Net Assets of the Company are presented in Euro based on the exchange rate prevailing at the date of the Statement of Net Assets.

Income and expenses in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the transaction date.

Assets and liabilities in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the date of the Statement of Net Assets.

The purchase price of the securities purchased in currencies other than the reference currency of the Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the date of the purchase of the securities.

The exchange rates used as at 31 December 2020 are:

1 Euro = 1.585628 AUD	1 Euro = 126.32541 JPY
1 Euro = 1.558803 CAD	1 Euro = 10.475973 NOK
1 Euro = 1.081557 CHF	1 Euro = 1.699375 NZD
1 Euro = 8.001772 CNY	1 Euro = 10.048465 SEK
1 Euro = 7.443466 DKK	1 Euro = 1.617105 SGD
1 Euro = 0.895095 GBP	1 Euro = 1.223550 USD
1 Euro = 3.928574 ILS	

2. Accounting policies (continued)

d) Income

Interest is recorded on an accrual basis net of withholding tax and includes amortization on a straight line basis of premiums and accretion of discounts that are disclosed in the financial statements as “Accretion of discount or Amortization of premium”. Dividends are accounted for on the ex-date, net of withholding tax.

e) Net Asset Value

This annual report is prepared on the basis of the last available official net asset value of the Sub-Funds as at 31 December 2020.

3. Taxation of the Company

Under current law and practice, the Company is not liable to any Luxembourg income taxes, stamp or other tax. Investment income and capital gains, if any, received or realised by the Company may, however, be subject to taxation in the country of origin at varying rates, which normally cannot be recovered by the Company.

Although the Company is, in principle, subject in Luxembourg to a subscription tax (“Taxe d’Abonnement”) at an annual rate of 0.05% or 0.01% for the category of shares reserved to institutional investors, all Sub-Funds which are index-tracking ETFs are exempt from such tax as (i) their Shares are listed or traded on at least one stock exchange or another regulated market operating regularly, recognised and open to the public; and (ii) their exclusive objective is to reflect the performance of one or more indices, it being understood that this condition of exclusive objective does not prevent the management of liquid assets, if any, on an ancillary basis, or the use of techniques and instruments used for hedging or for purposes of efficient portfolio management. A Grand-Ducal regulation may determine additional or alternative criteria with respect to the indices under that exemption.

4. Total Return Swaps

The Total Return Swap agreements are concluded at the beginning of the life of the Sub-Funds with the transferable securities and money market instruments having a similar cost to the notional value of the Reference Index. This position may however change during the life of the swap whereby the cost of the transferable securities and money market instruments, including net purchased accrued interest, may become higher / lower than the notional value of the Reference Index due to additional purchases / sales of transferable securities and money market instruments compared to the index notional.

The difference between these notional values is accounted for and disclosed in the financial statements as “Receivable due from swap counterparty” or as “Payable due to swap counterparty” depending on which notional is higher. The receivable balances will be settled to the Sub-Fund and the payable balances will be settled to the swap counterparty on termination of the respective Total Return Swap agreement.

The table below lists the notional values of the invested asset and underlying asset of the swap and the unrealised gain / (loss) on swap per Sub-Fund as at 31 December 2020.

As required by the Securities Financing Transactions Regulation (see Note 5), the Company is required to disclose the amount of assets engaged in total return swaps expressed as an absolute amount and as a proportion of the Sub-Funds' Net Asset Value. The percentage of net assets disclosed in the above table is calculated using the Unrealised gain / (loss) on Swap in absolute terms divided by the total Net Asset Value. This figure is not representative of the counterparty risk calculation.

8. Securities lending

Sub-Funds with a Direct Investment Policy may enter into securities lending transactions (“Securities Lending Transactions”) for up to 50% (or up to 30% for Authorised Sub-Funds with a Direct Investment Policy) of their assets to generate additional income and therewith offset part or all of their costs. Such transactions are strictly regulated and must, amongst other things, be able to be terminated at any time at the initiative of the Company. Securities Lending Transactions nonetheless give rise to certain risks including valuation and operational risks and market and counterparty risks.

Depending on the value of the Securities Lending Transactions and its chosen policy, a Sub-Fund may be at any time fully or partially exposed to one or more counterparties, in which case appropriate collateral or other counterparty risk mitigation arrangements compliant with, (i) Part I of the Luxembourg law of 17 December 2010, as amended, (ii) any amendment or replacement legislation thereto for the time being in force, (iii) any regulation of any type taken in pursuance of (i) and (ii), (iv) the Directive 2014/91/EU of the European Parliament and of the Council of 23 July 2014 as regards depositary functions, remunerations policies and sanctions, including its mandatory implementing legislations on an EU or Home Member State level, (v) any sub-custodian agreement entered into between the Securities Lending Agent (as defined below), the Company, the Management Company and State Street Bank International GmbH, Luxembourg Branch (“SSBL”) as well as (vi) any rule, guideline and general or specific position from time to time adopted by the CSSF pursuant thereto (the “Regulations”) will be taken/implemented and/or payment will be received from the Securities Lending Transactions counterparties so that the percentage of the counterparty risk exposure remains within the limits set out in the Regulations.

For the Sub-Funds with a Direct Investment Policy, the Company has appointed Deutsche Bank AG, acting through its Frankfurt am Main head office and its London and New York branches as the Securities Lending Agent (the “Securities Lending Agent”). The Securities Lending Agent has been authorised (i) to enter into Securities Lending Transactions on behalf of the Company and (ii) to invest any cash received/held on behalf of the Company as collateral pursuant to such Securities Lending Transactions, in accordance with and within the limits set forth in the Agency Securities Lending and Repurchase Agreement, the rules set out in the Prospectus and the Regulations.

The Depository has delegated the safekeeping function of certain non-cash collateral received by the Sub-Funds to Deutsche Bank AG.

Any income generated by Securities Lending Transactions (reduced by any applicable direct or indirect operational costs and fees arising therefrom and paid to the Securities Lending Agent and, as the case may be, to the relevant Investment Manager and/or the Sub-Portfolio Manager) will be payable to the relevant Sub-Fund. Unless otherwise specified in the relevant Product Annex and to the extent the Securities Lending Agent undertakes Securities Lending Transactions in relation to a Sub-Fund, the Securities Lending Agent, the relevant Investment Manager and/or the Portfolio Manager, as the case may be, shall receive a fee for the services provided in this respect.

For the year ended 31 December 2020, the Sub-Funds earned net income which is included in the Statement of Operations and Changes in Net Assets as “Income on securities lending, net”.

During the financial year ending 31 December 2020, the Securities Lending Agent and DWS Investments UK Limited (“DWS UK”) received the following portions of the gross lending revenues generated, in order to cover their estimated direct or indirect operational costs and fees associated with the services provided in this respect and the oversight of the Securities Lending Transactions.

All securities lending transactions are settled in a bilateral way.

The Company may have to provide variation margin for a Sub-Fund (i.e. collateral collected by a counterparty to reflect the results of the daily marking-to-market or marking-to-model of outstanding non-cleared OTC derivative contracts) to its counterparty to an OTC derivative transaction. In relation to the OTC derivative transactions entered into between the Company and counterparties (including Swap Counterparties), the Company may deliver or receive requested collateral by way of title transfer or by way of pledge, depending on the terms of the agreement between the relevant Sub-Fund and the counterparty.

10. Management Company Fee and Fixed Fee**a) Management Company Fee**

In accordance with and subject to the terms of the Management Company Agreement, the annual Management Company Fee will accrue on each calendar day and will be calculated on each Valuation Day on the basis of a percentage of (i) the last available Net Asset Value of each Sub-Fund or Class of Shares or (ii) the Initial Issue Price multiplied by the number of outstanding Shares of each Sub-Fund or Class of Shares (as indicated for each Sub-Fund or Class of Shares in the relevant Product Annex).

The Management Company is also entitled to receive reimbursement for any reasonable expenses that were made in its capacity as management company of the Company in the context of the execution of the Management Company Agreement and that were not reasonably foreseeable in the ordinary course of business.

Notwithstanding the above, the Management Company and the Company may agree on a different fee structure in respect of a certain Sub-Fund or Class of Shares, as indicated in the relevant Product Annex.

The Management Company may pay a Distribution Fee to the Distributor out of the Management Company Fee. A Distributor may re-allocate an amount of the Distribution Fee to a sub-distributor (as applicable). The Management Company shall remunerate the Investment Managers out of the Management Company Fee as agreed from time to time between the two parties. Each Investment Manager shall remunerate out of the applicable Investment Management Fee any appointed Sub-Portfolio Manager, as agreed from time to time between the parties.

b) Fixed Fee

Under the terms of an arrangement between the Company and DWS Investments UK Limited⁽¹⁾ (the "Fixed Fee Agent"), the Fixed Fee Agent will, in exchange for the payment of a Fixed Fee calculated on the average daily Net Asset Value per Sub-Fund or per Class at a rate as specified in the table below and payable periodically, pay certain fees and expenses, unless otherwise specified in the relevant Product Annex.

⁽¹⁾Please refer to note 13. Related Parties.

10. Management Company Fee and Fixed Fee (continued)

b) Fixed Fee (continued)

The fees and expenses covered by the arrangement are the Administrative Agent Fee, the Depositary Fee, the Registrar, Transfer Agent and Listing Agent Fee, the annual tax in Luxembourg (if any) (the "*Taxe d'Abonnement*"), the formation expenses and certain Other Administrative Expenses.

The Fixed Fee does not include the following fees, expenses and costs:

- the Investment Management Fee;
- the Management Company Fee;
- the costs of any marketing agencies appointed by the Company or the Management Company to provide certain marketing and distribution services to the Company or the Management Company;
- any taxes or fiscal charges which the Company may be required to pay, except the *Taxe d'Abonnement*, if any, or if it should be payable, any value added tax or similar sales or services tax payable by the Company (VAT) (all such taxes or fiscal charges), unless otherwise specified in the relevant Product Annex;
- expenses arising out of any advertising or promotional activities in connection with the Company; nor,
- any costs and expenses incurred outside of the Company's ordinary course of business such as extraordinary expenses (e.g. legal fees incurred in prosecuting or defending, a claim or allegation, by or against, the Company).

In particular, the Fixed Fee Agent will pay the invoices of legal advisers, local paying agents and translators provided and to the extent that these invoices do not in aggregate exceed the overall threshold of Euro ten million (10,000,000) per financial year and the Company will be liable to pay for any amount that exceeds this threshold. 1. Online publication of investment portfolios, collateral holdings and swap exposures

Shareholders can view the swap exposures and investment portfolios or collateral holdings for each Sub-Fund on www.etf.dws.com. The information is available under the “ETF Information” tab section for each Sub-Fund.

2. Adjustment to OTC Swap Transactions to reflect index replication costs

As per the Prospectus, each of the Swap Counterparties may enter into hedging transactions in respect of the OTC Swap Transaction(s). According to the OTC Swap Transaction(s) entered into between the Sub-Funds and the Swap Counterparty, the Sub-Funds shall receive the performance of the Reference Index adjusted to reflect certain index replication costs, taxes and any other transaction costs or charges incurred by the Swap Counterparty in relation to the OTC Swap Transaction. These costs may include, amongst other things, costs, taxes or other duties associated with the buying, selling, custody, holding or any other transactions relating to investments in transferable securities and/or OTC Swap Transactions and/or collateral. The nature of these costs may differ depending on the Reference Index whose performance the Sub-Funds aim to reflect.

•Situation 1: the Reference Index is “long” (i.e. its objective is to reflect the performance of its constituents). Then the index replication costs will be associated with (i) the buying and selling by the Swap Counterparty of the constituents of the Reference Index in order to reflect the Reference Index performance; or (ii) custody or other related costs incurred by the Swap Counterparty in relation to holding the constituents of the Reference Index; or (iii) taxes or other duties imposed on the buying or selling of the constituents of the Reference Index; or (iv) taxes imposed on any income derived from the constituents of the Reference Index; or (v) any other transactions performed by the Swap Counterparty in relation to the constituents of the Reference Index.

•Situation 2: the Reference Index is “leveraged” (i.e. its objective is to reflect the daily leveraged performance of the long version of the Reference Index). Then the index replication costs will be associated with (i) the buying and selling and any borrowing and/or financing of the constituents of the Reference Index in order to reflect the Reference Index performance, (ii) custody or other related costs incurred by the Swap Counterparty in relation to holding the constituents of the Reference Index, (iii) financing charges incurred to safeguard against severe market movements of the constituents of the Reference Index, (iv) unexpected financing costs in the event of severe market movements, (v) taxes imposed on any income derived from the constituents of the Reference Index, or (vi) any other transactions performed by the Swap Counterparty in relation to the constituents of the Reference Index.

•Situation 3: the Reference Index is “short” (i.e. its objective is to reflect the daily inverse performance of the long version of the Reference Index) or “short and leveraged” (i.e. its objective is to reflect the leveraged daily inverse performance of the long version of the Reference Index). Then the index replication costs will be associated with (i) the borrowing and/or financing of the constituents of the Reference Index in order to reflect the Reference Index performance, (ii) financing charges incurred to safeguard against severe market movements of the constituents of the Reference Index, (iii) unexpected financing costs in the event of severe market movements or (iv) any other transactions performed by the Swap Counterparty in relation to the constituents of the Reference Index.

In addition, from time to time each Swap Counterparty may achieve certain benefits or enhancements as a result of its hedging activities. In certain circumstances, the Swap Counterparty may, in its absolute and sole discretion, decide to pay some or all of such benefits or enhancements to the Sub-Fund under the OTC Swap Transaction(s) in addition to any payments contractually due under the OTC Swap Transaction(s). The OTC Swap Transactions of the following Sub-Funds were adjusted by the below figures in the valuation of the swaps prevailing as at 31 December 2020. A positive figure in the table means that the OTC Swap Transactions of the relevant Sub-Fund were subject to a negative adjustment. These figures are netted against the benefits or enhancements as a result of a Swap Counterparty’s hedging activities that were received under the OTC Swap Transaction(s), if any. These costs may vary over time in accordance with market conditions and market practice.

3. On 27 February 2020, the Company informed the Shareholders of Xtrackers II USD EMERGING MARKETS BOND UCITS ETF about material changes to the methodology of its Reference Index. Due to the exceptional market conditions, these changes were postponed and the Index Administrator, FTSE Fixed Income LLC staggered the change in exposure over three month end rebalances from September 2020 to November 2020.
4. On 3 August 2020, the Company informed the Shareholders of the Share Class 1D (ISIN: LU1109939865) of XTRACKERS II EUR HIGH YIELD CORPORATE BOND 1-3 SWAP UCITS ETF that DWS Investment S.A., acting in its role as a management company, agreed to waive part of the Management Company Fee from “up to 0.25% per annum” to “0.15% per annum” for the period from 1 August 2020 until 31 July 2021 inclusive (the “Waiver Period”). As a result, the All-in Fee of the Share Class has been also reduced to “up to 0.25% per annum” during the Waiver Period.
5. On 1 September 2020, the Management Company Fee of the Share Class 1C (ISIN: LU0478205379) of XTRACKERS II EUR CORPORATE BOND UCITS ETF was permanently reduced from “up to 0.06% per annum” to “0.02% per annum”. 6. On 13 November 2020, the Company informed the Shareholders of XTRACKERS II EUR OVERNIGHT RATE SWAP UCITS ETF of certain changes to its Reference Index, with effect from 16 December 2020. The Sub-Fund’s Reference Index was designed to reflect the performance of a deposit earning interest at the rate of the Euro Over Night Index Average (“EONIA”). EONIA in its current form was not compliant with EU Regulation (EU) 2016/2011, given the lack of underlying transactions and high concentration of volumes by only a few contributors and therefore, EONIA’s administrator, the European Money Markets Institute, announced it would stop publishing it on 3 January 2020. The European Central Bank’s working group on euro-risk rates recommended that the Euro short term rate (“€STR”) replace the EONIA as the Euro risk-free rate. As a result of the foregoing, Deutsche Bank AG, the index administrator of the Reference Index, announced its intention to replace EONIA with €STR plus 8.5 basis points adjustment. As a result, the Sub-Fund’s Reference Index changed its name from DEUTSCHE BANK EONIA TOTAL RETURN INDEX® to DEUTSCHE BANK EURO OVERNIGHT RATE INDEX®.

6. Remuneration disclosures under UCITS V regulation

DWS Investment S.A. is a subsidiary of DWS Group GmbH & Co. KGaA (“DWS KGaA”), Frankfurt - Main, one of the world’s leading asset managers providing a broad range of investment products and services across all major asset classes as well as solutions aligned to growth trends to its clients globally.

DWS KGaA is a publicly traded company listed on the Frankfurt Stock Exchange, which is majority owned by Deutsche Bank AG.

As a result of the sector specific legislation under UCITS V (Undertakings for Collective Investment in Transferable Securities Directive V) and in accordance with Sec. 1 and Sec. 27 of the German “Institutsvergütungsverordnung” (“InstVV”), the Management Company is carved-out from Deutsche Bank Group’s (“DB Group”) compensation policy and strategy. DWS KGaA and its subsidiaries (“DWS Group” or only “Group”) have established their own compensation governance, policies and structures, including a DWS group-wide guideline of identifying “Material Risk Takers” (“MRTs”) at Management Company level as well as DWS Group level in line with the criteria stated in UCITS V and in the guidelines on sound remuneration policies under UCITS V published by the European Securities and Markets Authority (“ESMA Guidelines”).

Governance Structure

The DWS Group is managed through its General Partner, DWS Management GmbH. The General Partner changed its remit in June 2020 and now has six Managing Directors who serve as the Executive Board (“EB”) of the Group. The EB – supported by the DWS Compensation Committee (“DCC”) – is responsible for establishing and operating the compensation system for employees. It is overseen by the DWS KGaA Supervisory Board which has established a Remuneration Committee (“RC”). The RC reviews the compensation system of the Group’s employees and its appropriateness. The RC supports the Supervisory Board in monitoring the appropriate structure of the remuneration systems for the Group’s employees. This is done by taking into account the effects of the remuneration system on the group-wide risk, capital and liquidity management as well as the consistency of the remuneration strategy with the business and risk strategy of the DWS Group.

6. Remuneration disclosures under UCITS V regulation (continued)

The DCC is mandated to develop and design sustainable compensation frameworks and operating principles, to prepare recommendations on total compensation levels, and to ensure appropriate compensation and benefits governance and oversight for the Group. The DCC establishes quantitative and qualitative factors to assess performance as a basis for compensation related decisions and makes appropriate recommendations to the EB regarding the annual Variable Compensation pool and its allocation across the business areas and infrastructure functions. Voting members of the DCC comprise the Chief Executive Officer (“CEO”), Chief Financial Officer (“CFO”), Chief Operating Officer (“COO”), and the Global Head of HR. The Head of Reward & Analytics is a nonvoting member. Control Functions such as Compliance, Anti-Financial Crime, and Risk Management are represented by the CFO and COO in the DCC and are appropriately engaged in the design and application of the Group’s remuneration systems in the context of the tasks and functions assigned to them, to ensure that the remuneration systems do not create conflicts of interests, and to review the effects on the risk profile of the Group. The DCC reviews the remuneration framework of DWS Group regularly, at least annually, which includes the principles applying to the Management Company, and assesses if substantial changes or amendments due to irregularities have to be made.

The DCC is supported by two sub-committees: The DWS Compensation Operating Committee (“COC”) implemented to assist the DCC in reviewing the technical validity, operationalizing and approving new or existing compensation plans. The Integrity Review Committee implemented to review and decide on suspension and forfeiture matters involving DWS deferred compensation awards.

The internal annual review at DWS Group level concluded the design of the remuneration system to be appropriate, no significant irregularities were recognised.

Compensation Structure

The employees of the Management Company are subject to the compensation standards and principles as outlined in the DWS Compensation Policy. The policy is reviewed on an annual basis. As part of the Compensation Policy, the Group, including the Management Company, employs a Total Compensation (“TC”) philosophy which comprises Fixed Pay (“FP”) and Variable Compensation (“VC”).

The Group ensures an appropriate relationship between FP and VC across all categories and groups of employees. TC structures and levels reflect the Sub-Divisional and regional compensation structures, internal relativities, and market data, and assist in seeking consistency across the Group. One of the main objectives of the Group’s strategy is to align reward for sustainable performance at all levels whilst enhancing the transparency of compensation decisions and their impact on shareholders and employees with regard to DWS Group and as applicable DB Group performance. Achieving a sustainable balance between employee, shareholder and client interests is a key aspect of DWS’ Group compensation strategy.

FP is used to compensate employees for their skills, experience and competencies, commensurate with the requirements, size and scope of their role. The appropriate level of FP is determined with reference to the prevailing market rates for each role, internal comparisons and applicable regulatory requirements.

VC is a discretionary compensation element that enables the Group to provide additional reward to employees for their performance and behaviours without encouraging excessive risk-taking. VC determination considers sound risk measures by taking into account the Group’s Risk Appetite as well as the Group affordability and financial situation and providing for a fully flexible policy on granting or “not-granting” VC. VC generally consists of two elements – the “Group Component” and the “Individual Component”. There continues to be no guarantee of VC in an existing employment relationship.

For the 2020 financial year, the Group Component is dominantly determined based upon the performance of three Key Performance Indicators (KPIs) at DWS Group level: Adjusted Cost Income Ratio (“CIR”), Net Flows and Dividend Payout. These three KPIs represent important metrics for DWS Group’s financial targets and provide a good indication of its sustainable performance.

For employees at management level the Group Component additionally considers four equally weighted KPIs at DB Group level ⁽¹⁾.

Depending on eligibility, the “Individual Component” is delivered either in the form of Individual VC (“IVC”) or a Recognition Award. IVC takes into consideration a number of financial and non-financial factors, relativities within the employee’s peer group and retention considerations. The Recognition Award provides the opportunity to acknowledge and reward outstanding contributions made by employees outside the scope of IVC eligibility (these are generally employees at lower hierarchical levels). Generally, there are two nomination cycles per year.

⁽¹⁾DB Group KPIs: Common Equity Tier 1 (“CET1”) capital ratio, leverage ratio, adjusted costs and post-tax return on tangible equity (“RoTE”).

6. Remuneration disclosures under UCITS V regulation (continued)

Both Group and Individual Component may be awarded in cash, share-based or fund-based instruments under the Group deferral arrangements. The Group retains the right to reduce the total amount of VC, including the Group Component, to zero in cases of significant misconduct, performance-related measures, disciplinary outcomes or unsatisfactory conduct or behaviour by the employee subject to applicable local law.

Determination of VC and appropriate risk-adjustment

The Group's VC pools are subject to appropriate risk-adjustment measures which include ex-ante and ex-post risk adjustments. The robust methodology in place aims at ensuring that the determination of VC reflects the risk-adjusted performance as well as the capital and liquidity position of the Group. The total amount of VC is primarily driven by (i) the Group affordability (i.e. what "can" DWS Group sustainably afford award in alignment with regulatory requirements) and (ii) performance (what "should" the Group award in order to provide an appropriate compensation for performance while protecting the long-term health of the franchise).

At the level of the individual employee, the Group has established "Variable Compensation Guiding Principles" which detail the factors and metrics that must be taken into account when making IVC decisions. These include, for instance, investment performance, client retention, culture considerations, and objective setting and performance assessment based on the "Total Performance" approach. Furthermore, any control function inputs and disciplinary sanctions and their impact on the VC have to be considered as well.

As part of a discretionary decision-making process, the DWS DCC uses (financial and non-financial) key figures to identify differentiated and performance linked VC pools for business and infrastructure areas.

Compensation for 2020

Despite the ongoing pandemic, the diverse range of investment products and solutions as well as stabilizing markets contributed to significant net flows in 2020 and allowed the Group to execute its strategic priorities effectively. The intensified focus on investment performance and increased investor demand for targeted asset classes were key drivers of the success.

Against this backdrop, the DCC has monitored the affordability of VC for 2020. The committee has concluded that the capital and liquidity base of the Group remain above regulatory minimum requirements, and internal risk appetite threshold.

As part of the overall 2020 VC awards to be granted in March 2021, the Group Component was awarded to eligible employees in line with the assessment of the defined KPIs. The Executive Board recognised the considerable contribution of employees and determined a target achievement rate of 98.50% for 2020 for DWS Group. Considering the DB Group target achievement as determined by the Deutsche Bank AG Management Board, the hybrid achievement rate for employees at management level was determined of 85.50% for 2020.

Identification of Material Risk Takers

In accordance with the Law as of 17 December 2010 on Undertakings for Collective Investments (as subsequently amended) in conjunction with the ESMA Guidelines with accordance to UCITS Directive, the Management Company has identified individuals who have a material impact of the Management Company's risk profile ("Material Risk Takers"). The identification process has been based on an assessment of the impact of the following categories of staff on the risk profile of the Management Company or on a fund it manages: (a) Board Members/Senior Management, (b) Portfolio/Investment managers, (c) Control Functions, (d) Staff heading Administration, Marketing and Human Resources, (e) other individuals (Risk Takers) in a significant position of influence, (f) other employees in the same remuneration bracket as other Risk Takers, whose roles have an impact on the risk profile of the Management Company or the Group. At least 40% of the VC for Material Risk Takers is deferred. Additionally, at least 50% of both, the upfront and the deferred proportion, are granted in the Group share-based instruments or fund-linked instruments for Key Investment Professionals. All deferred components are subject to a number of performance conditions and forfeiture provisions which ensure an appropriate ex-post risk adjustment. In case the VC is lower than EUR 50,000, the Material Risk Takers receive their entire VC in cash without any deferral.

The TER expresses the sum of all fees and incidental costs charged on an ongoing basis to the collective investment scheme's assets (operating expenses) taken retrospectively as a percentage of the net assets, and is in principle calculated using the following formula according to the Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes from 16 May 2008 (dated 20 April 2015):

$TER \% = \text{Total operating expenses in CU}^* / 100 \text{ Average net assets in CU}^* * 100$

* CU = currency units in the accounting currency of the collective investment scheme

The performance of each Share Class corresponds to the change in Net Asset Value during the current period, adjusted for gross distribution for the Distribution Shares, expressed in the Share Class's currency.

For the Share Classes shown in the table that were launched during this period, the performance was calculated for the first period since inception. Historical performance is not an indicator of the current or future performance; commissions and costs charged for the issue and redemption of units are not taken into account.
