More ESG information is available in the sales prospectus and supplement and on the DWS website. **INVESTMENT OBJECTIVE:** The fund aims to reflect the performance, before fees and expenses, of the Dow Jones Developed Green Real Estate Index (index). **DESCRIPTION OF INDEX:** The index is based on the Dow Jones Developed Markets Select RESI Index (Parent Index) and is designed to reflect the performance of listed equity securities issued by real estate companies (including real estate investment trusts, "REITs") from global developed markets which meet certain ESG criteria. In order to be eligible for inclusion, companies must be eligible for inclusion in the Parent Index and must pass the ESG screening criteria. **ESG CRITERIA:** Securities from the Parent Index which pass the ESG screening criteria, as disclosed in the prospectus and/or supplement, will constitute the eligible universe (Eligible Universe). Securities from the Eligible Universe are selected and weighted following an optimisation based approach which are subject to (a) climate, (b) other ESG objectives, and (c) diversification objectives for example constraints on the constituent weightings and liquidity compared to the Parent Index. **INDEX REBALANCING, CALCULATION AND ADMINISTRATION:** The index is administered by S&P Dow Jones Indices LLC. The index is calculated on a total return net basis, which means that all dividends and distributions by the companies are reinvested in the shares after tax. The index is reviewed and rebalanced at least quarterly. The index is calculated in USD on a daily basis. **INVESTMENT POLICY:** To achieve the aim, the fund will attempt to replicate the index, before fees and expenses, by buying all or a substantial number of the securities in the index. The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of financial contracts (derivatives). **FURTHER INFORMATION:** Certain information (including the latest share prices of the fund, indicative net asset values, full disclosure on the composition of the fund's portfolio and information on the index constituents) are available on your local DWS website or at [www.Xtrackers.com](http://www.Xtrackers.com). Transaction costs and taxes, unexpected fund costs and market conditions such as volatility or liquidity issues may affect the ability of the fund to track the index. The anticipated level of tracking error in normal market conditions is 1 per cent. The return of the product is reflected by the daily calculated net asset value per unit and the distribution amount if applicable. The currency of the fund is USD. Returns and gains are not distributed but are reinvested in the fund.
