

Xtrackers S&P 500 Swap II UCITS ETF

Supplement to the Prospectus

This Supplement contains information in relation to Xtrackers S&P 500 Swap II UCITS ETF (the “**Fund**”), a sub-fund of Xtrackers (IE) plc (the “**Company**”) an umbrella type open-ended investment company with segregated liability between sub-funds and with variable capital governed by the laws of Ireland and authorised by the Central Bank of Ireland (the “**Central Bank**”).

This Supplement forms part of, may not be distributed unless accompanied by (other than to prior recipients of the prospectus of the Company dated 15 June 2023 (the “Prospectus”) and the first addendum to the Prospectus dated 1 December 2023 (the “Addendum”)), and must be read in conjunction with, the Prospectus and the Addendum.

Xtrackers (IE) plc

Dated 28 July 2025

IMPORTANT INFORMATION

The Fund is an ETF. The Shares of this Fund are fully transferable to investors and will be listed for trading on one or more stock exchanges.

TERMS OF THE SHARES REPRESENTING INTERESTS IN THE FUND

Investment Objective

The investment objective of the Fund is to reflect the performance before fees and expenses of an index which is designed to reflect the performance of the large-cap segment of the US equity market.

Investment Policy

In order to achieve the investment objective, the Fund will adopt an Indirect Investment Policy and will aim to replicate or track, before fees and expenses, the performance of the S&P 500 Index (the "**Reference Index**") by investing in transferable securities (the "**Invested Assets**") and use index swap agreements (a "**Swap(s)**") negotiated at arm's length with the Swap Counterparty, all in accordance with the investment restrictions. Further information on the Reference Index is contained under "General Description of the Reference Index".

The purpose of the Swap is to exchange the performance and/or income of the Invested Assets against the performance of either the net total return version of the Reference Index or the gross total return version of the Reference Index (the "**Swap Reference Index**"). A gross total return index calculates the performance of the stocks assuming that all dividends and distributions are reinvested on a gross basis. A net total return index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply. The constituent selection and rebalancing rules described under "General Description of the Reference Index" apply to both the gross and net total return versions of the Reference Index. The particular Swap Reference Index shall be selected in the absolute discretion of the Investment Manager in order to seek to reduce OTC Swap Transactions Costs and enhance cost efficiencies of the Fund. There is no guarantee that the selection of the Swap Reference Index will result in lower OTC Swap Transaction Costs as this will depend on prevailing market conditions. For the Fund, all references to "Reference Index" in this Supplement, the Prospectus and any addendum thereto, shall also be read as a reference to "Swap Reference Index" where there are references to derivatives or OTC Swap Transaction(s) in relation to the Reference Index.

The Invested Assets that the Fund will invest in, will be equity securities and equity related securities (which may include global depositary receipts (GDR) and American depositary receipts (ADR)) of issuers listed or traded on an official stock exchange of an OECD Member State. The Fund is managed according to a passive approach.

There is no assurance that the investment objective of the Fund will actually be achieved.

The value of the Fund's Shares is linked to the Reference Index, the performance of which may rise or fall. Hence, investors should note that the value of their investment could fall as well as rise and they should accept that there is no guarantee that they will recover their initial investment. The return that the Shareholder may receive will be dependent on the performance of the Reference Index and the performance of the Swap.

The Fund will have no Final Repurchase Date. However, the Board of Directors may decide to terminate the Fund in accordance with the terms set out in the Prospectus and/or the Articles of Association.

The Fund may invest in ancillary liquid assets which may include secured and/or unsecured deposits.

The investments and liquid assets the Fund may hold on an ancillary basis will, together with any fees and expenses, be valued by the Administrator on each Valuation Day in order to determine the Net Asset Value of the Fund in accordance with the rules set out in the main part of the Prospectus.

OTC Swap Transaction Costs

The Fund will invest in Swaps subject to the conditions and limits laid down by the Central Bank. With regard to the Swaps entered into, the Fund shall receive the performance of the Reference Index adjusted to reflect certain index replication costs. The nature of these costs will be associated with (i) the buying and selling by the Swap Counterparty of the constituents of the Reference Index in order to reflect the Reference Index performance; or (ii) custody or other related costs incurred by the Swap Counterparty in relation to holding the constituents of the Reference Index; or (iii) taxes or other duties imposed on the buying or selling of the constituents of the Reference

Index; or (iv) taxes imposed on any income derived from the constituents of the Reference Index; or (v) any other transactions performed by the Swap Counterparty in relation to the constituents of the Reference Index. The Swap Counterparty will be responsible for any transaction costs incurred by the Fund in investing in the Invested Assets.

The Company employs a risk management process which enables it to accurately measure, monitor and manage at any time the risks attached to the Fund's financial derivative instrument positions and their contribution to the overall risk profile of the portfolio of assets of the Fund. The Company will, on request, provide supplementary information to Shareholders relating to the risk management methods employed, including the quantitative limits that are applied and any recent developments in the risk and yield characteristics of the main categories of investments in respect of the Fund.

Calculation of Global Exposure

The Fund will employ the commitment approach to assess the Fund's global exposure and to ensure that the Fund's use of derivative instruments is within the limits specified by the Central Bank. Global exposure will be calculated daily. While the Fund may be leveraged through the use of the FDIs, any such leverage will not be in excess of 100% of the Fund's Net Asset Value.

Investment Restrictions

The general investment restrictions set out under "Investment Restrictions" in the Prospectus apply to the Fund.

The Directors may from time to time impose such further investment restrictions as shall be compatible with or in the interests of Shareholders, in order to comply with the laws and regulations of the countries where Shareholders are located. Such investment restrictions will be included in an updated Supplement.

The Fund will not invest more than 10% of its assets in units or shares of other UCITS or other collective investment schemes in order to be eligible for investment by UCITS governed by the UCITS directive.

Borrowing

The Company may only borrow, for the account of the Fund, up to 10% of the Net Asset Value of the Fund provided that such borrowing is for temporary purposes. The assets of the Fund may be charged as security for any such borrowings.

Specific Risk Warning

Investors should note that the Fund is not capital protected or guaranteed and that the capital invested is not protected or guaranteed and investors in this Fund should be prepared and able to sustain losses up to the total capital invested.

Concentration of the Reference Index

The Reference Index is concentrated in securities from a single country. As a result, any country-specific political or economic changes may have an adverse impact on the performance of the Reference Index and the Net Asset Value of the Fund.

Distribution Shares

There is no guarantee that distributing Share Classes will make dividend payments. Where a dividend payment is made by the D Share Class(es), the Net Asset Value of such Share Class(es) will be reduced by the gross amount of such dividends on the ex-dividend date.

Investors will also bear some other risks as described under the section "Risk Factors" in the Prospectus.

Profile of a Typical Investor

Prospective investors in the Fund should ensure that they understand fully the nature of the Fund, as well as the extent of their exposure to risks associated with an investment in the Fund and should consider the suitability of an investment in the Fund.

Investment in the Fund may be appropriate for investors who have knowledge of, and investment experience in this type of financial product and understand and can evaluate the strategy and characteristics in order to make an informed investment decision. Further, they may have free and available cash for investment purposes and are looking to gain exposure to the securities making up the Reference Index. As the Net Asset Value per Share of the Fund will fluctuate and may fall in value, investment in the Fund should be viewed as suitable for investors who seek a return over the medium to long term. However, prospective investors should be prepared and able to sustain losses up to the total amount of capital invested.

The Prospectus sets out statements on taxation regarding the law and practice in force in the relevant jurisdiction at the date of the Prospectus. The statements are by way of a general guide to potential investors and Shareholders only and do not constitute legal or tax advice to Shareholders or potential investors. Shareholders and potential investors are therefore advised to consult their professional advisers concerning any investment in the Fund particularly as the tax position of an investor and the rates of tax may change over time.

Dividend Policy

Dividends are not expected to be declared and paid on the "1C" Shares. Dividends may be declared and paid on the "1D" Shares up to four times per annum.

GENERAL DESCRIPTION OF THE UNDERLYING ASSET

This section is a brief overview of the Reference Index. It contains a summary of the principal features of the Reference Index and is not a complete description of the Reference Index. In case of inconsistency between the summary of the Reference Index in this section and the complete description of the Reference Index, the complete description of the Reference Index prevails. Information on the Reference Index appears on the website identified below in "Further Information". Such information may change from time to time and details of the changes will appear on that website.

General Description of the Reference Index

The Reference Index is administered by S&P Dow Jones Indices LLC (the "**Index Administrator**"). The Reference Index is designed to reflect the performance of shares of 500 companies representing major US industries. The Reference Index contains shares of large capitalisation companies traded on the relevant domestic NYSE, NASDAQ, or CBOE markets (the "**Eligible Markets**"). The Reference Index is a free float market capitalisation weighted index, where a company's weighting in the Reference Index depends on its relative size based on the combined value of a company's readily available shares as compared to other companies on the Eligible Markets.

Constituent selection is at the discretion of the Index Administrator's index committee and is based on certain eligibility criteria, including, public float, financial viability, liquidity, sector representativeness, and company and share type criteria.

The Reference Index is calculated on a total return net basis which means that all dividends and distributions by the companies are reinvested in the shares after tax.

The Reference Index is calculated on a real-time basis.

The Reference Index is rebalanced on a quarterly basis.

The Reference Index has a base date of 1941.

Further Information

Additional information on the Reference Index, its composition, calculation and rules for periodical review and rebalancing and on the general methodology behind the S&P indices can be found on <https://www.spglobal.com/en>.

S&P Dow Jones Indices LLC has been granted authorisation as a benchmark administrator for the Index and is included in the register of administrators and benchmarks maintained by ESMA pursuant to the Benchmark Regulations.
