Term

This product is an open-ended fund without predefined maturity. You may request the redemption of shares generally on each valuation date. The company may, however, suspend the redemption if extraordinary circumstances appear to make this necessary, taking into account the interests of the investors. Further, the company may restrict the redemption. The product may be redeemed early in certain circumstances as set out in the sales prospectus. Objectives

The fund is passively managed. The fund promotes environmental and social characteristics and is subject to the disclosure requirements of a financial product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector. More ESG information is available in the sales prospectus and supplement and on the DWS website. **INVESTMENT OBJECTIVE:** The aim is for your investment to reflect the performance of the Bloomberg MSCI US High Yield Sustainable and SRI Index (index) while seeking to minimise foreign currency fluctuations at share class level. **DESCRIPTION OF INDEX:** The index aims to reflect the performance of USD denominated, high yield, fixed-rate corporate bonds, excluding bonds which do not fulfil specific environmental, social and governance (ESG) criteria. The bonds must have a fixed rate of interest, must be rated less than Ba1/BB+ by major rating agencies and meet certain currency, sector, amount outstanding, credit quality, maturity, coupon, seniority of debt, market of issue, and security type criteria. The index excludes 144A tranche securities that do not have an equivalent Regulation S tranche. **ESG CRITERIA:** Bonds rated below BB by MSCI ESG Research are excluded. Issuers with a "red" MSCI ESG Controversies score (less than 1) and issuers that are classified by MSCI in their MSCI ESG Business Involvement Screening Research (BISR) as breaching certain thresholds in controversial activities are also excluded from the index. At least 20% of issuers will be excluded from the original universe using the ESG criteria. Issuers with MSCI ESG Ratings of BBB or higher will be weighted in the index at 100% weight by market value while the weight of bonds from issuers with MSCI ESG Ratings of BB will be weighted in the index at a 50% weight by market value. The weight of each issuer is limited to 3% and any excess weight over the 3% cap will be redistributed on a pro rata basis to all other issuers' bonds in the index that are under the 3% cap. The composition of the index is rebalanced monthly. **INDEX REBALANCING, CALCULATION AND ADMINISTRATION:** The index is administered by Bloomberg Index Services Limited. The index is calculated on a total return basis which means that the payments from coupons are reinvested in the index. **INVESTMENT POLICY:** To achieve the aim, the fund will i) attempt to replicate the index, before fees and expenses, by buying a portfolio of securities that may comprise the constituents of the index or other unrelated investments or other eligible assets as determined by DWS entities and ii) enter into financial contracts (derivatives) which attempt to reduce the effect of exchange rate fluctuations between the currency of the assets of the fund and the currency of your shares. The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of derivatives. **FURTHER INFORMATION:** Certain information (including the latest share prices of the fund, indicative net asset values, full disclosure on the composition of the fund's portfolio and information on the index constituents) are available on your local DWS website or at www.Xtrackers.com. Transaction costs and taxes, unexpected fund costs and market conditions such as volatility or liquidity issues may affect the ability of the fund to track the index. The anticipated level of tracking error in normal market conditions is 1 per cent. The return of the product is reflected by the daily calculated net asset value per unit and the distribution amount if applicable. The currency of the fund is USD. Returns and gains are not distributed but are reinvested in the fund. This fund is a sub-fund of Xtrackers (IE) plc for which the sales prospectus and the periodic reports are prepared as a whole in addition to individual supplements per sub-fund.
