## Independent Auditor's Report

To the Shareholders of db x-trackers\*,  
49, avenue J.F. Kennedy  
L-1855 Luxembourg

Following our appointment by the Annual General Meeting of the Shareholders of 26 March 2010, we have audited the accompanying financial statements of db x-trackers\* and of each of its Sub-Funds, which comprise the Statement of Net Assets and the Statement of Investments as at 31 December 2010 and the Statement of Operations and Changes in Net Assets for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

### *Responsibility of the Board of Directors of the SICAV for the financial statements*

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation and presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Responsibility of the "réviseur d'entreprises agréé"*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier". Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the judgement of the "réviseur d'entreprises agréé", including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the "réviseur d'entreprises agréé" considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

*Opinion*

In our opinion, the financial statements give a true and fair view of the financial position of db x-trackers\* and of each of its Sub-Funds as of 31 December 2010, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Without qualifying our opinion, we draw attention to Note 10 to the financial statements which indicates that the Board of Directors considers that the potential charge for People's Republic of China tax on capital gains on A-shares is uncertain as at the date of approval of these financial statements and the Board of Directors has exercised significant judgment in its assessment of whether the potential tax charge could affect the valuation of the OTC Swap Transactions as at 31 December 2010 held by the Sub-Funds as detailed in Note 10. The ultimate outcome of the matter cannot presently be determined, and no charge that may result has been recorded in the financial statements.

*Other matter*

Supplementary information included in the annual report has been reviewed in the context of our mandate but has not been subject to specific audit procedures carried out in accordance with the standards described above. Consequently, we express no opinion on such information. However, we have no observation to make concerning such information in the context of the financial statements taken as a whole.

The Investment Objective of the Sub-Funds here above mentioned is to provide the investors with a return linked to the performance of the Underlying Asset.

In order to achieve the Investment Objective, the Sub-Fund may:

- invest in transferable securities (the “Invested Assets”) and/or use derivative techniques such as index swap agreements negotiated at arm’s length with the Swap Counterparty (the “OTC Swap Transaction”), all in accordance with the Investment Restrictions. The purpose of the OTC Swap Transaction is to exchange the performance of the Invested Assets against the performance of the Index. The investors do not bear any performance or currency risk of the Invested Assets (refer to Note 4.1); and/or,

- invest part or all of the net proceeds of any issue of its Shares in one or more OTC Swap Transactions and exchange the invested proceeds against the performance of the Index. Although the Sub-Fund may in such case be at any time fully or partially exposed to one or more OTC Swap Transactions, collateral arrangements will be taken in relation to these OTC Swap Transactions so that the percentage of the counterparty risk exposure referred to under paragraph 2.3 of the section “Risk Diversification” of the Prospectus is reduced to nil (refer to Note 4.2 and Note 6).

The Investment Objective of the Sub-Funds here above mentioned is to track the performance of the Underlying Asset. The Sub-Funds will invest in a portfolio of Shariah compliant assets and proposes to enter into certain Shariah compliant agreements (“Wa’d”), the purpose of which would be to enable the exchange of the performance of the invested assets the Sub-Fund invests in against the performance of the Index in a Shariah compliant agreement (“Wa’d”).

The Sub-Funds shall invest the proceeds of the subscription of the Shares in assets meeting the criteria set out below and further detailed in the Prospectus, and in any non-interest bearing liquid assets that the Sub-Fund may hold from time to time on an ancillary basis.

Based on established parameters of leading Shariah scholars and boards, the following businesses, industries and financial instruments are inconsistent with Shariah precepts and principles and hence investment in their assets, e.g. shares, is not suitable for Islamic, Shariah compliant investment purposes: (i) alcohol, (ii) tobacco, (iii) pork-related products, (iv) conventional financial services (banking, insurance, etc.), (v) weapons and defense, (vi) entertainment (hotels, casinos/gambling, cinema, pornography, music, etc...).

The liabilities of each Sub-Fund shall be segregated on a Sub-Fund by Sub-Fund basis with the third party creditors having recourse only to the assets of the Sub-Funds concerned.

b) The Shares

The Shares may be divided into Shares of classes “I” and “R”.

The Shares will be issued by the Company exclusively in relation to Sub-Funds with an Investment Objective for which the subscription will normally be in cash.

Shares of class “I” are available only to Institutional Investors whilst shares of class “R” are primarily designated for Retail Investors.

As at 31 December 2010, only shares of class “I” available to Institutional Investors have been issued by the Company.

The Shares may be further differentiated between Distribution Shares (identified by the letter “D”) and Capitalisation Shares (identified by the letter “C”). Other Classes may be offered with specific features such as conversion or redemption charge, minimum subscription amount or other specific features. Within each Class of Shares, several types of sub-classes can be issued, differentiating between (but not limited to) dividend payment structures, dividend payment dates, and fee structures. The Shares will be listed for trading on one or more stock exchanges.

**2. Accounting policies**

The financial statements of the Company have been prepared according to accounting principles generally accepted in Luxembourg and applicable for investment funds. The significant accounting policies used are as follows:

a) Valuation of investments:

The Net Asset Value of the Company is at any time equal to the total of the Net Asset Values of the Sub-Funds in the base currency of the Company.

The Net Asset Value of the Sub-Funds shall be determined in accordance with the following rules:

- (i) the value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as may be considered appropriate in such case to reflect the true value thereof;
- (ii) the value of all securities which are listed or traded on an official stock exchange or traded on any other Regulated Market will be valued on the basis of the last available prices on the Business Day immediately preceding the Valuation Day or on the basis of the last available prices on the main market on which the investments of the Sub-Funds are principally traded. The Board of Directors will approve a pricing service which will supply the above prices. If, in the opinion of the Board of Directors, such prices do not truly reflect the fair market value of the relevant securities, the value of such securities will be determined in good faith by the Board of Directors either by reference to any other publicly available source or by reference to such other sources as it deems in its discretion appropriate;
- (iii) securities not listed or traded on a stock exchange or a Regulated Market will be valued on the basis of the probable sales price determined prudently and in good faith by the Board of Directors;
- (iv) the swap agreements are valued on the basis of total return swaps, which correspond to the net positive or negative value resulting from, on one hand, either the market appreciation/depreciation of the portfolio of investments, including income earned on these investments or the net proceeds of any issue of Shares, and, on the other hand, of the market value of the index plus dividend distributions for those indices which are total return indices. The net positive or negative value is disclosed in the financial statements as “Unrealised gain / (loss) on swap”;
- (v) for Sub-Funds investing part or all of their net proceeds in swaps transactions, “Receivable due from swap counterparty” represents an advance to the counterparty of the swap agreement to finance the swap (at nominal value). Swap agreements are valued as described here above under (iv);

Notes to the Financial Statements (continued)

**2. Accounting policies (continued)**

a) Valuation of investments (continued):

- (vi) all other securities and other permissible assets as well as any of the above mentioned assets for which the valuation in accordance with the above sub-paragraphs would not be possible or practicable, or would not be representative of their fair value, will be valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors;
- (vii) the value of the Shariah compliant agreements (“Wa’d”) will correspond to the net positive or negative value resulting from, on one hand, the market appreciation/depreciation of the Invested Assets and, on the other hand, of the market value of the Shariah compliant index. The net positive or negative value is disclosed in the financial statements as “Unrealised gain / (loss) on Wa’d”.

b) Investment transactions:

The net realised gain / (loss) on sale of investments is determined on the basis of the average cost of investments sold. Investment transactions are accounted for on a trade date basis. The net realised gain / (loss) on sale of investments is disclosed in the financial statements as “Net realised gain / (loss) on investments”.

c) Conversion of foreign currencies:

Accounting records are kept for each Sub-Fund in its reference currency. The combined statement of net assets and statement of operations and changes in net assets of the Company are presented in Euro based on the exchange rate prevailing at the date of the Statement of Net Assets.

Income and expenses in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the transaction date.

Assets and liabilities in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the date of the Statement of Net Assets.

The exchange rates used as at 31 December 2010 are:

1 Euro = 1.308766 AUD  
1 Euro = 1.250459 CHF  
1 Euro = 0.856865 GBP  
1 Euro = 10.428746 HKD  
1 Euro = 108.806476 JPY  
1 Euro = 1.341551 USD  
1 Euro = 9.019045 SEK

d) Income

Interest is recorded on an accruals basis. Dividends are accounted for on the ex-date.

**3. Taxation of the Company**

Under current Law and practice, the Company is not liable to any Luxembourg income tax. The Company is, however, liable in Luxembourg to a tax of 0.05 per cent per annum or 0.01 per cent per annum as applicable (“Taxe d’Abonnement”). The Taxe d’Abonnement is payable quarterly on the basis of the Net Asset Value of the Sub-Fund at the end of the relevant calendar quarter. The benefit of the 0.01 per cent Taxe d’Abonnement is available to Classes of Shares exclusively held by Institutional Investors (Class “I” Shares) on the basis of the Luxembourg legal, regulatory and tax provisions as these are known to the Company at the time of admission of an investor in such Classes of Shares. Such assessment is subject to changes in the laws and regulations of Luxembourg and to interpretation on the status of an eligible investor by any competent Luxembourg authority as will exist from time to time. Any reclassification made by an authority as to the status of an investor may submit the entire class to a Taxe d’Abonnement at the rate of 0.05 per cent p.a. The Taxe d’Abonnement charge is covered by the Fixed Fee (see Note 7).

#### 4. Swaps

##### 4.1 Sub-Funds with investments in transferable securities or money market instruments

The swap agreements are concluded at the beginning of the swap agreement with the transferable securities and money market instruments having a similar cost to the notional value of the index. This position may however change during the life of the swap whereby the cost of the transferable securities and money market instruments may become higher than the notional value of the Index due to additional purchases of transferable securities and money market instruments in excess of the Index notional. The difference between these notional values is accounted for and disclosed in the financial statements as “Receivable due from swap counterparty” or as “Payable due to swap counterparty” depending on which notional is higher. The receivable balances will be settled to the Sub-Fund and the payable balances will be settled to the swap counterparty on termination of the respective swap agreement.

The table below lists the notional values of the paying and receiving legs of the swap and the unrealised gain / (loss) on swap per Sub-Fund.

## Notes to the Financial Statements (continued)

## 5. Wa'd Agreements

The exposure of the Sub-Funds to Shariah Compliant Index is intended to be achieved through Shariah Compliant Agreements ("Wa'd"). The valuation of the Wa'd will reflect the relative movements in the performance of the Index and the Invested Assets. Depending on the value of the Wa'd, the Sub-Funds may be required to sell Invested Assets and/or make payment or be entitled to receive such a payment. In the case that the Sub-Fund has to make a payment, this payment will be made from the proceeds and, as the case may be, the partial or total disposal of the Invested Assets the Sub-Fund has invested in.

The table below lists the value and the unrealised gain / (loss) on Wa'd agreements per Sub-Fund.

## 6. Collateral

## 6.1. State Street Bank Luxembourg S.A. ("SSBL") Collateral Arrangement

Under a pledge agreement between db x-trackers\*, the Management Company, the Swap Counterparty and SSBL, the Company has organized collateral arrangements organised through one Luxembourg global account (the "Pooled Account") opened at SSBL in the name of the Swap Counterparty, pursuant to a custodian agreement entered into between SSBL and the Swap Counterparty. This Pooled Account is pledged in favour of the Company acting on behalf of all or part of its Sub-Funds and the financial assets of which would be allocated among the Sub-Funds concerned so that each of the latter would be able to identify the specific financial assets held on such account which are pledged in its favour.

In the event of an enforcement event (for example a default by the Swap Counterparty), the pledge arrangement allows for the custodian of the Pooled Account to transfer the collateral to the Sub-Funds without having to obtain the consent of the Swap Counterparty or having to inform the Swap Counterparty in advance. It is further detailed that the Company, the Management Company or any of their agents, will have total and unlimited discretion as to the manner of enforcement and will not be required to have regards to the interests of the Swap Counterparty.

The table below lists the collateral value and collateral ratio per Sub-Fund using the SSBL Collateral Arrangement:

## 6. Collateral (continued)

## 6.2. The Bank of New York Mellon (Luxembourg) S.A. (“BNYML”) Collateral Arrangement

Pursuant to the terms of a pledge agreement between db x-trackers\*, the Management Company, the Swap Counterparty and BNYML, the Company has organized collateral arrangements with the Swap Counterparty organised through Luxembourg dedicated accounts for each Sub-Fund covered by such pledge (the “Pledged Account”) opened at BNYML in the name of the Swap Counterparty. These Pledged Accounts are pledged in favour of the Sub-Funds covered by such pledge.

Pursuant to a Collateral Management Agreement, the Swap Counterparty has appointed BNYML to establish and maintain each Pledged Account and to act as custodian of all collateral credited from time to time to each Pledged Account. Under the terms of the Collateral Management Agreement, the Company has also appointed BNYML to provide services in respect of the delivery and return of collateral in respect of transactions.

In the event of an enforcement event (for example a default by the Swap Counterparty), the pledge arrangement allows for the Custodian of the Company to transfer the collateral to the Sub-Funds without having to obtain the consent of the Swap Counterparty or having to inform the Swap Counterparty in advance. It is further detailed that the Company, the Management Company or any of their agents, will have total and unlimited discretion as to the manner of enforcement and will not be required to have regards to the interests of the Swap Counterparty.

The table below lists the collateral value and collateral ratio per Sub-Fund using BNYML as collateral custodian:

**10. Taxation in the People's Republic of China**

In 2010, Sub-Funds have been launched which track the performance of the CSI300 Index or a sector or sub-sector of the CSI300 Index (Sub-Funds hereafter referred collectively to as the "CSI300 Sub-Funds" and each such index a "CSI300 Index"). Each CSI300 Index measures the performance of A-shares traded on the Shanghai Stock Exchange or the Shenzhen Stock Exchange in the People's Republic of China ("PRC"). The investment and trading in A-shares (which are the constituent securities of each CSI300 Index) by foreign entities requires such entities to be granted a license as a Qualified Foreign Institutional Investor ("QFII") by the China Securities Regulatory Commission ("CSRC").

Whilst the withholding tax on dividends, bonuses and interest paid to QFIIs has now been confirmed by State Administration of Taxation of the PRC ("SAT"), it should be noted that the position of QFIIs with regard to taxation in the PRC in respect of capital gains and profits (other than dividends, bonuses and interest) cannot be ascertained.

## Notes to the Financial Statements (continued)

**10. Taxation in the People's Republic of China (continued)**

The CSI300 Sub-Funds do not hold a QFII license and therefore gain exposure to such securities through the OTC Swap Transaction(s). Despite that it would be the QFII which would be liable to the PRC tax on capital gains derived from the holding and trading of A-shares, based on supplement agreement dated 9 December 2010 to the ISDA Master Agreement dated 27 November 2006 (the "Supplement Agreement") between the CSI300 Sub-Funds and Deutsche Bank AG, acting through its London branch (the "Swap Counterparty"), the CSI300 Sub-Funds will indemnify the Swap Counterparty through the OTC Swap Transaction(s) and related contractual arrangements for income tax on capital gains.

The Board of Directors has concluded that there is at present insufficient ground for reasonably justifying a provision for the risk of a potential reduction in the value of the OTC Swap Transaction(s) to be set aside in the accounts of the CSI300 Sub-Funds and no charge that may result has been recorded in the financial statements.

In forming its view, the Board of Directors has considered:

- the current position of the SAT, including the uncertainties around future enforcement by SAT of the capital gains tax on QFIIs relating to the buying and selling of A-shares;
- the terms of the OTC Swap Transaction(s): Deutsche Bank AG, acting in its capacity as Calculation Agent in respect of the OTC Swap Transaction(s), currently intends to provide valuations of such OTC Swap Transaction(s) gross of any potential capital gains tax, and that it currently does not intend to deduct any such tax from the unwind proceeds of such OTC Swap Transaction(s);
- current market practice: the Board of Directors has noted that there is currently no consensus between market participants, which seem to have adopted various methods to address the potential tax charge depending, among others, on their own individual tax status and internal policies;
- the possible implications for the CSI300 Sub-Funds and their shareholders of a capital gains tax ruling for QFIIs to be enforced by the SAT, including the impact of a retroactive enforcement;
- the independent advice of tax counsel, from which the Board of Directors understands that there is currently no indication that the PRC tax law on capital gains arising from the trading of A-shares by QFIIs may be enforced in the near future, and that additionally the rate and calculation method of such tax are not firmly established yet.

The Board of Directors monitors the situation on an ongoing basis throughout the life of the CSI300 Sub-Funds, seek to obtain updated advice from external tax counsel as and when relevant and request that the Swap Counterparty produce periodical reports showing the amount and calculation details of the potential tax charge incurred by the CSI300 Sub-Funds under the terms of the Supplement Agreement.

As at 31 December 2010, the Board of Directors estimates, on the basis of information provided by the QFII and Deutsche Bank AG, acting in its capacity as Calculation Agent in respect of the OTC Swap Transaction(s), the potential exposure under the indemnity through OTC Swap Transactions and related contractual arrangements attributable to PRC taxation at the rate of 10% on the unrealised and realised gains to be as follows:

<b>Sub-Fund</b>	<b>Potential tax on unrealised gains (USD)</b>	<b>Potential tax on realised gains (USD)</b>	<b>Total potential tax (USD)</b>	<b>% of NAV (%)</b>

## Notes to the Financial Statements (continued)

**10. Taxation in the People's Republic of China (continued)**

The ultimate outcome of the matter cannot presently be determined. As a result, the attention of investors is drawn to the fact that i) the Net Asset Value of the CSI300 Sub-Funds may be adversely impacted by any such adjustments to the valuation of the OTC Swap Transaction (s); ii) the potential negative impact on the CSI300 Sub-Fund's performance that investors may suffer as a result of any such adjustments will depend on the timing of their investment in and/or divestment from the CSI300 Sub-Funds; and iii) the magnitude of such potential negative impact on the performance of the CSI300 Sub-Funds may not be proportionate to an investor's holding in the Sub-Fund as a result of the potential retroactive effect of any changes in PRC tax.

These changes are made available to the Shareholders by the Custodian and Administrative Agent at the Company's registered office. They will be sent free of charge to anyone who so requests.

## 17. Sub-Funds valued as at 30 December 2010 using last index business value

The following Sub-Funds were closed on 31 December 2010 and have been valued as at 30 December 2010 as 31 December 2010 was not considered as an index business day (i.e. a day where real-time data is available). An index value may on occasion be provided on 31 December 2010, such an index value is published at the end of the day but no real-time data is available during that day (this is therefore considered a non index business day). In the below table, the Net Asset Values per share as of 31 December 2010 (in share class currency) are presented based on the "end of day" available index value and are also compared to index variation between 30 December 2010 and 31 December 2010.
