PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

- The Sub-Fund is only suitable for you, if you:
 - o want capital growth rather than regular income;
 - o believe that the Reference Index will increase in value over your planned investment holding period;
 - o are prepared to lose some or all of the total capital invested;
 - o are able and willing to invest in a fund: (1) where the Net Asset Value (“NAV”) may have a high volatility; (2) which has a **high risk** grading³; and (3) that may invest in financial derivative instruments such as index swap transaction(s); and
 - o are comfortable with investing in a fund which exposes you to asset classes with high volatility and/or limited liquidity, where no strategies are implemented to ensure that you will get back your original investment or capital.

Further Information

Please refer to “Product Suitability” under Section A of Schedule 2 of the Prospectus for further details on product suitability.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in the Singapore Shares of Class 1C of an Exchange Traded Fund which is a UCITS compliant sub-fund of Xtrackers (the “Company”), an umbrella fund incorporated in Luxembourg.
- The aim is for your investment to reflect the performance of the Reference Index, which is a free float-adjusted market capitalisation weighted index reflecting the performance of listed equity securities of large and mid-capitalisation companies of Indonesia. The Reference Index is a total return net index.
- The Sub-Fund does not intend to make dividend payments for shares of Class 1C.

Please refer to General Description of the Reference Index”, “Investment Objective” and “Investment Policy” sections in the Product Annex for further details.

¹ The Prospectus is accessible at www.Xtrackers.com and available at the Singapore Representative’s office at One Raffles Quay, #17-10, Singapore 048583.

² There may from time to time without notice be market maker(s) who are not appointed by the Company or its delegate(s) making a market for the Singapore Shares of the Sub-Fund on the SGX-ST.

³ Please refer to the risk grading set out in “TYPOLOGY OF RISK PROFILES” of the Luxembourg base prospectus attached to the Prospectus (the “Luxembourg Prospectus”).

<ul style="list-style-type: none"> The Singapore Shares are classified as capital markets products other than prescribed capital markets products as defined in the Regulations 2018 and Specified Investment Products as defined in the Notices. You should refer to paragraph 3.3 of the Prospectus for full details. 	
Investment Strategy	
<ul style="list-style-type: none"> The Sub-Fund currently carries out its Investment Objective via the investment strategy described in the portion titled “Indirect Investment Policy – Investment strategy (i)” of the Prospectus. <ul style="list-style-type: none"> <u>Investment strategy (i)</u> The Sub-Fund may at any time invest part or all of the net proceeds of any issue of its shares in Invested Assets and use one or more Derivative Transactions the purpose of which is to exchange all or part of the performance and/or income of such Invested Assets to gain exposure to the Reference Index (an “Unfunded Swap”). For Unfunded Swaps, the maximum proportion of the NAV that is subject to Derivative Transactions in relation to the Reference Index is 110% of the NAV excluding the impact of fees and foreign exchange (“FX”) hedging arrangements, as applicable; whilst the expected proportion of the NAV that is subject to Derivative Transactions in relation to the Reference Index is 100% of the NAV, excluding the impact of fees and FX hedging arrangements, as applicable, unless otherwise specified in the Product Annex. For Unfunded Swaps, the maximum and expected proportion of the NAV that is subject to Derivative Transactions in relation to Invested Assets is the same proportion as the proportion of the value of Invested Assets to the NAV of the Sub-Fund. The Sub-Fund may enter into OTC Swap Transactions with one or more approved Swap Counterparties. <u>Criteria for selection of the Invested Assets</u> The general rule is to invest in shares of issuers listed or traded on an official stock exchange of an OECD Member State unless otherwise specified in the Product Annex. The Investment Manager will exclude from the universe of eligible Invested Assets certain securities as further outlined in the Prospectus. Other than the above, there is no fixed set of criteria for the selection of the Invested Assets which the Sub-Fund may invest in. 	<p>Please refer to “Investment Objective, Policy, Focus and Approach” section of the Prospectus and Sections A and B of Schedule 2 of the Prospectus setting out the description of the investment strategy of the Sub-Fund.</p> <p>Please also refer to “You are exposed to the credit risk of counterparties due to transactions entered into by the Sub-Fund” under the “Product-Specific Risks” section of this PHS for more details on the counterparty risk.</p>

The list of the approved Swap Counterparties is available on the website www.Xtrackers.com. 2. Index Administrator is MSCI Inc. and its subsidiaries (which include MSCI Limited). 3. Collateral arrangements may be put in place to maintain net counterparty risk exposure at or below 10% of the Sub-Fund's NAV at all times. <ul style="list-style-type: none"> • The investment strategy adopted by the Sub-Fund from time to time will be published on the following website: www.Xtrackers.com. • The Sub-Fund may invest, as a part of its investment policy and for the purposes of hedging, efficient portfolio management and/or optimising returns, in financial derivative instruments such as swap transaction(s). 	
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> • The Sub-Fund is a sub-fund of Xtrackers. Please see "Key Product Features" above. • The Management Company is DWS Investment S.A., which is part of the DWS Group. The Management Company has delegated certain investment management functions of the Sub-Fund to the Investment Manager. The Investment Manager of the Sub-Fund is DWS Investments UK Limited. The Depositary of the Sub-Fund is State Street Bank International GmbH, Luxembourg Branch. • As of the date of this PHS, each of the following is an approved Swap Counterparty of the Sub-Fund: Deutsche Bank AG, London Branch, HSBC Bank plc, Barclays Bank PLC, Goldman Sachs International, J.P. Morgan Securities plc, Société Générale, BNP Paribas, Merrill Lynch International, Citigroup Global Markets Limited and Goldman Sachs Bank Europe SE. 	<p>Please refer to "The Management Structure", "Other Parties", "Operations", "Risk of swap transactions" and "Termination of a Sub-Fund and the Company" sections of the Prospectus for further details on the role and responsibilities of these entities and what happens if they become insolvent.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT?</p> <p>The value of the product and its dividends or coupons may rise or fall.</p> <p>These risk factors may cause you to lose some or all of your investment, and your principal may be at risk:</p>	<p>Please refer to "Risk Factors" section of the Prospectus and Section D of Schedule 2 of the Prospectus for further details.</p>
Market and Credit Risks	
<ul style="list-style-type: none"> • Market prices for shares may be different from their NAV – The Singapore Shares traded on the SGX-ST will be transacted on a willing-buyer-willing-seller basis at market prices throughout the trading day. The price of any Singapore Share traded will depend, amongst others, on market supply and demand, movements in the value of the Reference Index. As such, market prices for the Singapore Shares may be different from their NAV. 	<p>Please refer to "Purchase via the SGX-ST" and "Sale via the SGX-ST" sections of the Prospectus for further details.</p>
Liquidity Risks	
<ul style="list-style-type: none"> • Most of the trading activity for shares of Class 1C in Singapore is expected to occur on the SGX-ST. • The secondary market (i.e. the SGX-ST) may be illiquid – The Sub-Fund shall ensure that at least one Designated Market Maker(s) ("DMM") is appointed at all times to provide for an adequately liquid market for the Singapore Shares on the SGX-ST. However, there can be no assurance as to the price at which a market will be made or that a liquid secondary market on the SGX-ST will exist for the Singapore Shares. 	<p>Please refer to "Listing and trading of the Singapore Shares on the SGX-ST", "Purchase via the SGX-ST" and "Sale via the SGX-ST" sections of the Prospectus for</p>

<ul style="list-style-type: none"> • The Singapore Shares may be compulsorily repurchased in certain events – If the Singapore Shares are delisted from the SGX-ST or the CDP is no longer able to act as the depository, the Singapore Shares in your securities account with the CDP or held by the CDP may be repurchased (compulsorily or otherwise): (i) by the DMM at a price calculated by reference to the NAV of the Sub-Fund; or (ii) in such other manner as the Company may consider appropriate. 	further details.
Product-Specific Risks	
<ul style="list-style-type: none"> • The OTC Swap Transaction(s) may be adjusted to reflect certain transaction costs (“OTC Swap Transaction Costs”) – According to the OTC Swap Transaction(s) entered into between the Sub-Fund and each Swap Counterparty, the Sub-Fund shall receive the performance of the Reference Index adjusted to reflect (a) certain index replication costs; (b) taxes that may be payable by the Swap Counterparty in relation to such OTC Swap Transaction(s); and (c) any other transaction costs or charges incurred by the Swap Counterparty in relation to the OTC Swap Transaction(s). • You are exposed to the credit risk of counterparties due to transactions entered into by the Sub-Fund – The Sub-Fund may enter into transactions which expose it to the credit risk of the counterparties to such transactions. If a counterparty defaults on its payment obligations under the swap transactions (for example, due to bankruptcy or insolvency of the counterparty), the Sub-Fund could experience delays in liquidating the positions taken and may incur significant losses which could adversely affect the NAV. If such a default were to occur, the Sub-Fund is contractually allowed to take certain remedial actions. The Sub-Fund may also enter into new swap transactions with replacement swap counterparty(ies). If there is no suitable replacement swap counterparty, the Sub-Fund may be terminated. • You may be exposed to foreign exchange risks – An investment in the Singapore Shares may involve foreign exchange risks. For example, the actual investments and liquid assets or an exposure of the Sub-Fund (i.e. the constituents of the Reference Index) may be denominated in a different currency from the currency in which the Singapore Shares are denominated, the Singapore Shares may be listed, quoted or traded on the SGX-ST in a different currency from the currency in which they are denominated or the currency of your home jurisdiction etc. Fluctuations in exchange rates may affect the value of the Singapore Shares. The currencies of some emerging markets (e.g. Indonesian rupiah) are controlled and there may be risks of limited liquidity in these markets. • There may be additional risks associated with investments in emerging markets – Investments in the market to which the Reference Index relates are currently exposed to certain risks (for example, due to investment ceiling limits, constraints imposed on trading of listed securities etc.) pertaining to emerging markets generally. The laws and regulations affecting the economies of most emerging markets are in a relatively early stage of development and are not as well established. The regulatory framework of the emerging economies’ primary and secondary securities markets is often in the developmental stage compared to the world’s leading stock markets and there may be a lower level of regulatory monitoring of these markets. You should note the risks of limited liquidity in certain foreign exchange markets. Emerging market stock exchanges may experience lower trading volumes and greater price volatility which could negatively affect the NAV of the Sub-Fund. It is expected that the level of premium or discount of the Share price of this Sub-Fund to its NAV may be higher than average. 	Please refer to “Adjustment to OTC Swap Transaction(s) to reflect certain transaction costs (“OTC Swap Transaction Costs””, “Counterparty risk related to derivative transactions”, “Risk of swap transactions” and “Foreign exchange risks” sections of the Prospectus and “Additional risks associated with investment in Emerging Markets” in Section D(2) of Schedule 2 of the Prospectus for further details.
Conflicts of Interest Risks	

<ul style="list-style-type: none"> • There may be conflicts of interest risks – Potential conflicts of interest may arise as entities within, and/or employees, agents, affiliates or subsidiaries of members of, DWS Group (the “DWS Affiliates”) may play multiple roles with respect to all or part of the Sub-Fund. Transactions entered into by the Company or on behalf of the Company by its delegate(s) and/or the Sub-Fund with the DWS Affiliates shall be on an arm’s length basis. 	<p>Please refer to the “Conflicts of interest” section under paragraph 5.8 of the Prospectus and the “Conflicts of Interest” section under paragraph 13 of the Prospectus for further details.</p>
