

Xtrackers USD High Yield BB-B ex Financials ETF

Q1 | 3.31.24

Ticker: BHYB

Objective and strategy

Xtrackers USD High Yield BB-B ex Financials ETF (the "fund") seeks investment results that correspond generally to the performance, before fees and expenses, of the ICE BofA BB-B Non-FNCL Non-Distressed US HY Constrained Index (the "Underlying Index"). The Underlying Index is a subset of the ICE BofA US High Yield Index (the "Parent Index"), which is designed to track the performance of US dollar denominated below investment grade corporate debt publicly issued in the US domestic market. Using the Parent Index as a starting point, the Underlying Index (i) excludes financial issuers (i.e., banking, financial services, insurance and financial/commodity exchange issuers); (ii) restricts the credit ratings of its constituent securities to securities rated BB1 through B3, inclusive, based on an average of ratings from Moody's, S&P and Fitch; and (iii) requires that its constituent securities have an option-adjusted spread of less than 10%.

ETF performance (3/31/24)

Performance quoted represents past performance and does not guarantee future results. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Shares are bought and sold at market price (closing price) not net asset value (NAV) and are not individually redeemed from the Fund. Market price returns are based on the midpoint of the bid/ask spread at 4:00 pm Eastern Time (when NAV is normally determined) and do not represent the return you would receive if you traded at other times. To obtain the most recent month-end performance data visit www.Xtrackers.com or call 1-844-851-4255.

Indexes are unmanaged; you cannot invest in an index. Index performance is gross of fees and assumes dividend reinvestment. Inclusion of fees would have reduced returns.

Sector weightings (3/31/24)

Credit quality⁵ (3/31/24)

³ Average coupon is the interest rate, expressed as an annual percentage of face value, which a bond issuer promises to pay until maturity.

⁴ Yield to worst is the lowest potential yield that can be received on a bond without the issuer actually defaulting.

⁵ Credit quality represents the higher rating of either Moody's Investors Service, Fitch Ratings or Standard & Poor's and is their opinion as to the quality of the securities they rate. Credit quality is measured on a scale that ranges from AAA (highest) to D (lowest). Credit quality does not remove market risk and is subject to change. Junk bonds are any bond that carries a rating lower than BB is said to be speculative or a 'junk bond'.

Carefully consider the fund's investment objectives, risk factors, and charges and expenses before investing. This and other information can be found in the fund's prospectus, which may be obtained by calling 1-844-851-4255, or by viewing or downloading a prospectus from www.Xtrackers.com. Read the prospectus carefully before investing.

War, terrorism, sanctions, economic uncertainty, trade disputes, public health crises and related geopolitical events have led and, in the future, may lead to significant disruptions in U.S. and world economies and markets, which may lead to increased market volatility and may have significant adverse effects on the fund and its investments.

Risk: Investing involves risk, including the possible loss of principal. Bond investments are subject to interest rate, credit, liquidity, and market risks to varying degrees. When interest rates rise, bond prices generally fall. Credit risk refers to the ability of an issuer to make timely payments of principal and interest. If interest rates rise due to reasons other than inflation, the fund's investment in inflation indexed bonds may not be fully protected from the effects of rising interest rates. This fund is non-diversified and can take larger positions in fewer issues, increasing its potential risk. An investment in the fund should be considered only as a supplement to a complete investment program for those investors willing to accept the risks associated with the fund. Please read the prospectus for more information.
