Objective and strategy

Prior to 10/27/17, this fund was known as Xtrackers MSCI Southern Europe Hedged Equity ETF (DBSE). The Fund’s investment policies and index also change on that date. See the prospectus for details.

Xtrackers Eurozone Equity ETF seeks investment results that correspond generally to the performance, before fees and expenses, of the NASDAQ Eurozone Large Mid Cap Index. The index is designed to track the performance of equity securities from issuers of large- and mid-cap companies based in the countries in the Economic and Monetary Union (EMU or Eurozone) of the European Union (EU). The MSCI All Country World Index (ACWI) ex-USA is a market-capitalization-weighted index designed to provide a broad measure of stock performance throughout the world by tracking the performance of 22 developed and 24 emerging markets.

ETF PERFORMANCE AND INDEX HISTORY* (from 9/30/16 to 9/30/21)

Source: DWS. Includes reinvestment of all distributions.

1 Returns and hypothetical growth of $10,000 prior to 10/27/17 reflect that of DBSE and its underlying indices. Performance shown since 10/27/17 reflects performance of EURZ and its underlying indices.

Performance quoted represents past performance and does not guarantee future results. Investment returns and principal value of an investment will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Shares are bought and sold at market price (closing price) not net asset value (NAV) and are not individually redeemed from the Fund. Market price returns are based on the midpoint of the bid/ask spread at 4:00 pm Eastern Time (when NAV is normally determined) and do not represent the return you would receive if you traded at other times. To obtain the most recent month-end performance data visit www.Xtrackers.com or call 855-329-3837.

Indexes are unmanaged; you cannot invest in an index. Index performance is gross of fees and assumes dividend reinvestment. Inclusion of fees would have reduced returns.

NASDAQ and NASDAQ Index are servicemarks of NASDAQ Inc. and have been licensed for use by DBX. MSCI and MSCI Index are servicemarks of MSCI Inc. and have been licensed for use by DWS. The ETFs are not sponsored, endorsed, issued, sold or promoted by MSCI nor does this company make any representation regarding the advisability of investing in the ETFs. Index data source: MSCI Inc.

1 Price-to-book ratio is a valuation ratio of a stock’s market value compared to its book value.
2 Price-to-earnings ratio (P/E) is a stock’s current price divided by the company’s trailing 12-month earnings per share from continuous operations.
3 Dividend yield is a weighted-sum of the annualized dividends of the index components divided by the most recent index value. Annualized dividends are determined using a sum of all dividend announcements during the previous 12 months.
