Xtrackers Semiconductor Select Equity ETF

Q2 | 6.30.26

Ticker: CHPS

Xtrackers by DWS

Objective and strategy

Effective 7/7/26, the name and index screening methodology of the underlying index of the fund has changed. The name of the underlying index changed from the Solactive Semiconductor ESG Screened Index (the "Underlying Index") to the Solactive Semiconductor Focus Index. In addition, Solactive AG, the provider of the Underlying Index, changed the index screening methodology for the Underlying Index by removing the environmental, social and governance ("ESG") screen. These changes to the index screening methodology are expected to be reflected in the fund's portfolio on 8/5/26. All other aspects of the Underlying Index will remain unchanged. **Please see the prospectus for more information.** Xtrackers Semiconductor Select Equity ETF (the "fund") seeks investment results that correspond generally to the performance, before fees and expenses, of the Solactive Semiconductor ESG Screened Index (the "Underlying Index"). The index seeks to provide exposure to companies that have business operations in the semiconductor industry. Companies in the semiconductor field face intense competition which may have an adverse effect on profit margins. Cybersecurity companies also face heightened risk due to their dependence on the availability of materials that meet exacting standards, reliance on a limited number of suppliers and potential loss or impairment of patent and intellectual property rights. The MSCI All Country World Index (ACWI) is a global equity index that measures the equity performance in both the developed and emerging markets by tracking the performance of 47 countries comprising 23 developed and 24 emerging markets.

ETF performance (6/30/26)

	3-months	1-year	3-year	5-year	10-year	Since ETF Inception
ETF (at NAV)	97.29%	195.97%	_	_	_	62.58%
Market price returns	96.39%	199.06%	_	_	_	63.25%
Solactive Semiconductor ESG Screened Index	97.53%	196.29%	_	_	_	62.62%
MSCI All Country World Index	14.93%	23.67%	_	_	_	19.58%

Performance quoted represents past performance and does not guarantee future results. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. Shares are bought and sold at market price (closing price) not net asset value (NAV) and are not individually redeemed from the Fund. Market price returns are based on the midpoint of the bid/ask spread at 4:00 pm Eastern Time (when NAV is normally determined) and do not represent the return you would receive if you traded at other times. To obtain the most recent month-end performance data visit www.Xtrackers.com or call 1-844-851-4255.

High double-digit returns were achieved during favorable market conditions, may not be consistently achieved and should not be the sole factor in making your investment decision.

Indexes are unmanaged; you cannot invest in an index. Index performance is gross of fees and assumes dividend reinvestment. Inclusion of fees would have reduced returns.

The brand Xtrackers represents all systematic investment solutions. Xtrackers ETFs ("ETFs") are managed by DBX Advisors LLC (the "Adviser"), and distributed by ALPS Distributors, Inc. ("ALPS"). The Adviser is a subsidiary of DWS Group GmbH & Co. KGaA, and is not affiliated with ALPS. Shares are not individually redeemable, and owners of Shares may acquire those Shares from the Fund, or tender such Shares for redemption to the Fund, in Creation Units only. The brand DWS represents DWS Group GmbH & Co. KGaA and any of its subsidiaries such as DWS Distributors, Inc., which offers investment products, or DWS Investment Management Americas, Inc. and RREEF America L.L.C., which offer advisory services.

Carefully consider the fund's investment objectives, risk factors, and charges and expenses before investing. This and other information can be found in the fund's prospectus, which may be obtained by calling 1-844-851-4255, or by viewing or downloading a prospectus from www.Xtrackers.com. Read the prospectus carefully before investing.
ESG investment strategy risk:
The Underlying Indices' ESG methodology, and thus the Funds' investment strategy, limits the types and number of investment opportunities available to the Funds and, as a result, the Fund may underperform other funds that do not have an ESG focus. The Underlying Index's ESG methodology may result in the Fund investing in securities or industry sectors that underperform the market as a whole or underperform other funds screened for ESG standards. In addition, the index provider may be unsuccessful in creating an index composed of companies that exhibit positive ESG characteristics.

War, terrorism, sanctions, economic uncertainty, trade disputes, public health crises and related geopolitical events have led and, in the future, may lead to significant disruptions in U.S. and world economies and markets, which may lead to increased market volatility and may have significant adverse effects on the fund and its investments.

Risk: Companies in the semiconductor field face intense competition, both domestically and internationally, which may have an adverse effect on profit margins. Cybersecurity companies also face heightened risk due to their dependence on the availability of materials that meet exacting standards, to reliance on a limited number of suppliers and by potential loss or impairment of patent and intellectual property rights. Foreign investing involves greater and different risks than investing in U.S. companies, including currency fluctuations, less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, political instability and differing auditing and legal standards. Any fund that focuses in a particular segment of the market or region of the world will generally be more volatile than a fund that invests more broadly. This fund is non-diversified and can take larger positions in fewer issues, increasing its potential risk. An investment in the fund should be considered only as a supplement to a complete investment program for those investors willing to accept the risks associated with the fund. Please read the prospectus for more information.
