RECLASSIFICATION OF STATEMENT OF CASHFLOWS

Capitalised terms used herein shall have the meanings ascribed to them in the Master Terms and Conditions of the Securities as set out in the Base Prospectus of the Issuer dated 26 April 2021.

In the Company’s 31 December 2020 financial statements, certain of the 2019 comparative amounts in the Statement of cashflows were reclassified. It was disclosed in those financial statements that *‘In the statement of cash flows, certain of the 2019 comparable amounts have been reclassified as supplemental non-cash flow disclosures. This is not considered a significant or material change for the purposes of the users of these financial statements.’*

Consequent on an examination of those financial statements by the Irish Auditing and Accounting Supervisory Authority (IAASA), Ireland’s accounting enforcer, the Directors have now concluded that:

- (a) the reclassification of certain of the 2019 comparative amounts in the Statement of cashflows is a material item, and
- (b) the disclosures made in the Company’s 31 December 2020 financial statements in this regard did not comply, in full, with the requirements of paragraph 49 of IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors*.

Paragraph 49 of IAS 8 requires that, in correcting a prior year error by retrospective restatement, an entity shall disclose the nature of the prior period error and the amount of the correction for each financial statement line item affected.

The Directors note that all transactions are made through physical exchange which means for any amount of ETC securities and issued/disposed a corresponding amount of metals will be exchanged. Therefore, there is no actual cashflow movement. The reclassification had no impact to net cashflows presented by the Company.

The disclosures mandated by paragraph 49 of IAS 8 in respect of the reclassification are set out below.

All transactions are made through physical exchange which means for any amount of ETC securities and issued/disposed a corresponding amount of metals will be exchanged. Therefore, there is no actual cashflow movement. Amounts previously presented as cashflows have been reclassified and are now presented as non-cash transactions.

The amount of the correction for each financial statement line item affected is set out in the following table.
