## CONCEPT FUND SOLUTIONS PLC

### GENERAL INFORMATION CONT/D

The following information is derived from and should be read in conjunction with the full text and definitions section of the prospectus of Concept Fund Solutions plc (the "Prospectus"). Capitalised terms used herein shall have the same meaning as capitalised terms used in the Prospectus of the Company unless otherwise defined herein.

Concept Fund Solutions plc (the "Company") is an investment company with variable capital incorporated on 17 November 2004, authorised and regulated by the Central Bank of Ireland (the "Central Bank") under the European Communities (Undertakings for Collective Investments in Transferable Securities) Regulations 2011, as amended, and under the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1) (Undertakings for Collective Investments in Transferable Securities) Regulations 2015 (together the "UCITS Regulations").

The Company has listed the following funds on the Irish Stock Exchange: db x-trackers MSCI World Index UCITS ETF (DR), db x-trackers JPX-Nikkei 400 UCITS ETF (DR), db x-trackers FTSE All-World ex UK UCITS ETF (DR), db x-trackers S&P 500 UCITS ETF (DR), db x-trackers FTSE 100 Equal Weight UCITS ETF (DR), db x-trackers iBoxx USD Emerging Sovereigns Quality Weighted UCITS ETF (DR) and db x-trackers MSCI USA Minimum Volatility UCITS ETF (DR).

The Company is structured as an open-ended umbrella fund with segregated liability between the Funds. Shares representing interests in different Funds may be issued from time to time by the Directors with prior consent by the Central Bank. Shares of more than one class may be issued in relation to a Fund. All shares of each class will rank pari passu save as provided for in each relevant Supplement to the Prospectus.

During the financial year the Company comprised of the following Funds:

<b>Fund</b>	<b>Currency</b>	<b>Launch Date</b>

## CONCEPT FUND SOLUTIONS PLC

### GENERAL INFORMATION CONT/D

#### Valuation of Assets

The Net Asset Value of a Fund shall be expressed in the currency in which the shares are designated or in such other currency as the Directors may determine either generally or in relation to a particular class or in a specific case, and shall be calculated by ascertaining the value of the assets of the Fund and deducting from such value the liabilities of the Fund (excluding shareholders equity) as at the valuation point for such Dealing Day.

The Net Asset Value per share of a Fund will be calculated by dividing the Net Asset Value of the Fund by the number of shares in the Fund then in issue or deemed to be in issue as at the Valuation Point for such Dealing Day and rounding the result mathematically to four decimal places or such other number of decimal places as may be determined by the Directors from time to time.

In the event the shares of any Fund are further divided into classes, the Net Asset Value per class shall be determined by notionally allocating the Net Asset Value of the Fund amongst the classes making such adjustments for subscriptions, repurchases, fees, dividends accumulation or distribution of income and the expenses, liabilities or assets attributable to each such class (including the gains/losses on and costs of financial instruments employed for currency hedging between the currencies in which the assets of the Fund are designated and the designated currency of the class, which gains/losses and costs shall accrue solely to that class) and any other factor differentiating the classes as appropriate. The Net Asset Value of the Fund, as allocated between each class, shall be divided by the number of shares of the relevant class which are in issue or deemed to be in issue and rounding the result mathematically to four decimal places as determined by the Directors or such other number of decimal places as may be determined by the Directors from time to time.

#### Dealing

For the PIANO 400 Fund a Dealing Day is, in respect of subscriptions each Dividend Valuation Date in respect of which a dividend has been declared and paid (as defined in the Supplement) and in respect of redemptions is each Business Day.

All other Funds deal on every Business Day as set out in the relevant Supplements.

Applications must be received by the Administrator before the Dealing Deadline on the relevant Dealing Day as specified in the relevant Supplement to the Prospectus.

Applications should be addressed to the Administrator:

**Tel: 353-1-776 8000**

**Fax: 353-1-523 3717**

#### Tracking error and tracking difference

Funds which track an index are subject to tracking error risks which may result in the value and performance of the Funds not tracking exactly the value and performance of the corresponding Index. The tracking error is defined as the volatility (as measured by the standard deviation) of the difference between the return of the Fund and the return of its Index, over a given period of time (the "tracking error"). It should be differentiated from the tracking difference, which is simply the difference between the return of the Fund and the return of its Index, over a given period of time (the "tracking difference"). The tracking difference indicates the extent to which a Fund has outperformed or underperformed its Index. In contrast, the tracking error measures how consistently the Fund return matches its Index. Hence, while the tracking difference shows how a Fund's performance compares with that of its Index over a given period of time, the tracking error indicates the consistency of the difference of return during this same period of time. The anticipated level of tracking error, in normal market conditions, is disclosed for each share class in the supplements to the Prospectus for the relevant Funds. Investors' attention is drawn to the fact that these figures are only estimates of the tracking error level in normal market conditions and should not be understood as strict limits. Tracking error and tracking difference for the financial year to date is outlined in the Investment Manager's Reports for the relevant Funds where they apply.

# CONCEPT FUND SOLUTIONS PLC

## DIRECTORS' REPORT FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016

The Directors present to the shareholders their Annual Report, together with the Audited Financial Statements, for the financial year ended 31 December 2016 of the Company.

### **Results, Activities and Future Developments**

The results of operations are set out on pages 480 to 495. A review of activities is contained in the Investment Manager's Reports. The Directors intend to continue to pursue the investment objectives of the Funds as set out in the Prospectus.

### **Principal Risk Uncertainties**

A detailed analysis of the risks facing each Fund is included in note 10 of the notes to the financial statements.

### **Financial Instruments**

The information required in relation to the use by the Company of financial instruments and financial risk management objectives and policies of the Company and the exposure of the Company to market risk, currency risk, interest rate risk, liquidity risk and credit risk are outlined in note 10 of the financial statements.

### **Directors**

The Directors of the Company are:

#### **Michael Whelan**

Mr. Whelan is a vastly experienced financial services professional who was Chief Country Officer for Deutsche Bank in Ireland from 2007 until 2015. During that period he led the substantial growth of the business in Ireland and was responsible for the Corporate Governance of the main operating legal entities, liaising with the Bank's Irish based clients and interfacing with the Regulator. He led a senior team which established and operated two highly successful businesses which have added substantially to the Bank's bottom line. A fellow of the Association of Chartered Certified Accountants (FCCA) he is currently Chairman and Director of a number of Irish registered mutual funds.

#### **Tom Murray**

Mr. Murray is currently Chairman and Director of several major UCITS and AIF platforms. He graduated in Commerce from University College Dublin in 1976 and qualified as a Chartered Accountant in 1980. Between 2004 and 2008, Mr Murray was a Director of Merrion Corporate Finance Limited. Prior to this he was Director of Treasury in Investec Ireland, a founding Director of Gandon Securities Ltd and CFO of Wang International Finance Ltd.

#### **Alex McKenna**

Mr. McKenna is currently head of db-X Funds, part of db-X Financial Products within Deutsche Bank A.G. Prior to joining Deutsche Bank A.G. in 2005, Mr. McKenna was a Vice President in the legal department of JP Morgan Chase Bank in London, working in the equities division and with a focus on investment products. From 2001 to 2003, Mr. McKenna worked in the capital markets practice of Simmons & Simmons. Mr. McKenna qualified as a lawyer and was called to the Bar of England and Wales in 1995. He holds a Master's degree from the University of Cambridge.

#### **Gerry Grimes**

Mr. Grimes is currently a non-executive director of several regulated funds and other companies. Mr. Grimes held a number of senior investment positions in the Central Bank and was Managing Director of Allied Irish Capital Management Ltd, a Dublin based alternative asset management firm. He also worked as a Director of Gandon Securities Ltd and as a consultant to RQSI Ltd. Mr. Grimes holds a First Class Honours Degree in Economics and History from University College Dublin and has completed the Financial Times Non-Executive Director Diploma course. He is a past Deputy President of the Alternative Investment Management Association.

## DIRECTORS' REPORT FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016 CONT/D

### Directors cont/d

#### Manooj Mistry

Mr. Mistry is head of Exchange Traded Products and Institutional Passive for EMEA region for Deutsche Bank's Asset & Wealth Management division. He joined Deutsche Bank in May 2006 and was part of the team that launched the db X-trackers ETF business in 2007. Prior to Deutsche Bank, Mr. Mistry was with Merrill Lynch International in London where he was responsible for the development of the LDRS ETFs, the first ETFs to be launched in Europe in 2000. At Merrill Lynch, Mr. Mistry was also responsible for the development of a number of fund platforms offering solutions for retail and institutional investors. Mr. Mistry graduated in Economics and Business Finance from Brunel University.

#### Directors' and Secretary's Interests in Shares and Contracts

The Directors and Company Secretary (Goodbody Secretarial Limited) who held office on 31 December 2016 had no interests in the Shares of the Company at that date or at any time during the financial period.

#### Accounting Records

The Directors are responsible for ensuring that proper books and accounting records as outlined in Section 281 to 285 of the Companies Act 2014 are kept by the Company which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act, 2014. To achieve this, the Directors have appointed an experienced Administrator to ensure that the requirements of Sections 281 to 286 of the Companies Act, 2014 are complied with. The books and accounting records are maintained at the Administrator's office, 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

## CONCEPT FUND SOLUTIONS PLC

### DIRECTORS' REPORT FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016 CONT/D

#### Significant Events During the Financial Year

For a list of the significant events affecting the Company during the financial year, please refer to note 18 of the financial statements.

#### Significant Events After the Financial Year End

For a list of the significant events affecting the Company after the financial year end, please refer to note 19 of the financial statements.

#### Corporate Governance Statement

##### *General Principles*

The Company is subject to compliance with the requirements of the Irish Companies Act, 2014 (the "Irish Companies Act"), the Regulations and the UCITS Regulations and guidance notes, as applicable to the Company.

The European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations (S.I. 450 of 2009), as amended (the "Regulations") require the inclusion of a corporate governance statement in the Directors' Report.

Relevant information on the Company's governance arrangements for the financial year ended 31 December 2016 are set out below and the Company is subject to corporate governance practices imposed by:

- (i) The Irish Companies Act, 2014 which are available for inspection at the registered office of the Company; and may also be obtained at <http://www.irishstatutebook.ie>;
- (ii) The Articles of Association of the Company which are available for inspection at the registered office of the Company at 78 Sir John Rogerson's Quay, Dublin 2, Ireland and at the Companies Registration Office in Ireland; and
- (iii) The Central Bank in their UCITS Regulations which can be obtained from the Central Bank's website at: <http://www.centralbank.ie/regulation/industry-sectors/funds/Pages/default.aspx> and are available for inspection at the registered office of the Company.
- (iv) The Irish Stock Exchange ("ISE") through the ISE Code of Listing Requirements and Procedures which can be obtained from the ISE's website at: <http://www.ise.ie>.

On 14 December 2011, the Irish Funds Industry Association ("IFIA"), now known as "Irish Funds", issued a voluntary corporate governance code (the "Code") for Irish authorised collective investment schemes. The Code became effective from 1 January 2012, with a twelve month transition period until 31 December 2012. On 18 January 2012, the Board of Directors (the "Board") voluntarily adopted the Code. The Board have fully adhered to and fulfilled the requirements under the Code.

The Board of Directors did not adopt any further corporate governance codes for the financial year ended 31 December 2016.

##### *Internal Control and Risk Management Systems in Relation to Financial Reporting*

The Board is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has procedures in place to ensure that all relevant books of account are properly maintained and are readily available, including production of annual and half yearly financial statements. The Board has appointed the Administrator to maintain the books and records of the Company. The Administrator is authorised and regulated by the Central Bank and must comply with the rules imposed by the Central Bank. From time to time, the Board of Directors examines and evaluates the Administrator's financial accounting and reporting routines. The annual financial statements of the Company are produced by the Administrator and reviewed by the Investment Manager. They are required to be approved by the Board and the annual and half yearly financial statements of the Company are required to be filed with the Central Bank.

## CONCEPT FUND SOLUTIONS PLC

### DIRECTORS' REPORT FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016 CONT/D

#### **Corporate Governance Statement cont/d**

##### *Internal Control and Risk Management Systems in Relation to Financial Reporting cont/d*

During the period of these financial statements, the Board was responsible for the review and approval of the unaudited half yearly financial statements as set out in the Statement of Directors' Responsibilities. The statutory financial statements are required to be audited by independent auditors who report annually to the Board on their findings. The Board monitors and evaluates the independent auditor's performance, qualifications and independence. As part of its review procedures, the Board receives presentations from relevant parties including consideration of Irish accounting standards and their impact on the annual financial statements, and presentations and reports on the audit process. The Board evaluates and discusses significant accounting and reporting issues as the need arises.

The Company's financial statements will be published electronically on a web site maintained by Deutsche Bank AG in its capacity as Global Distributor, namely [www.etf.deutscheawm.com](http://www.etf.deutscheawm.com). The Directors are responsible for ensuring that the financial statements provided to the Investment Manager for publication on the website are consistent with the manually signed financial statements. Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

##### *Dealings with shareholders*

The convening and conduct of shareholders' meetings are governed by the Articles of Association of the Company and the Irish Companies Act. Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors were required to convene the first annual general meeting of the Company within eighteen months of incorporation and subsequent annual general meetings within fifteen months of the date of the previous annual general meeting thereafter, provided that an annual general meeting is held once in each financial year within six months of the end of each accounting period of the Company.

At least twenty-one clear days' notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to shareholders and fourteen days' notice must be given in the case of any other general meeting unless the auditors of the Company and all the shareholders of the Company entitled to attend and vote agree to shorter notice. Two shareholders present either in person or by proxy constitutes a quorum at a general meeting. The share capital of the Company is divided into different classes of shares and the Irish Companies Act and the Articles of Association provide that the quorum for a general meeting convened to consider any alteration to the rights attached to any class of shares, is two or more shareholders present in person or by proxy, holding or representing by proxy at least one third of the issued shares of the relevant class.

Every holder of participating shares or subscriber shares present, in person or by proxy who votes on a show of hands is entitled to one vote. On a poll, every holder of participating shares present, in person or by proxy, is entitled to one vote in respect of each share held by him, and every holder of subscriber shares is entitled to one vote in respect of all subscriber shares held by him. At any general meeting, a resolution put to the vote of the meeting is decided on a show of hands unless, before or upon the declaration of the result of the show of hands, a poll is demanded by the chairman of the general meeting, or by at least two members or shareholders present, in person or by proxy, having the right to vote at such meeting, or any holder or holders of participating shares present, in person or by proxy, representing at least one tenth of the shares in issue having the right to vote at such meeting.

Shareholders may resolve to sanction an ordinary resolution or special resolution at a shareholders' meeting. Alternatively, a resolution in writing signed by all of the shareholders and holders of non-participating shares for the time being entitled to attend and vote on such resolution at a general meeting of the Company, will be valid and effective for all purposes as if the resolution had been passed at a general meeting of the Company duly convened and held. An ordinary resolution of the Company (or of the shareholders of a particular fund or class of shares) requires a simple majority of the votes cast by the shareholders voting, in person or by proxy, at the meeting at which the resolution is proposed. A special resolution of the Company (or of the shareholders of a particular fund or class of shares) requires a majority of not less than 75% of shareholders present, in person or by proxy, and voting in general meeting in order to pass a special resolution including a resolution to amend the Articles of Association.

## CONCEPT FUND SOLUTIONS PLC

### DIRECTORS' REPORT FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016 CONT/D

#### **Corporate Governance Statement cont/d**

##### *Board composition and activities*

In accordance with the Irish Companies Act and the Articles of Association, unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. Details of the current Directors are set out on page 4, under the heading "Directors".

The business of the Company is managed by the Directors, who exercise all such powers of the Company as are not by the Companies Act or by the Articles of Association of the Company required to be exercised by the Company in general meeting. The Board is responsible for the Company's overall direction and strategy and to this end it reserves the decision making power on issues such as the determination of medium and long term goals, review of managerial performance, organisational structure and capital needs and commitments to achieve the Company's strategic goals. To achieve these responsibilities, the Board meets on a quarterly basis to review the operations of the Company, address matters of strategic importance and to receive reports from the Administrator, Depositary and the Investment Manager.

A Director may, and the Company Secretary on the requisition of a Director will, at any time summon a meeting of the Directors and ad hoc meetings in addition to the four quarterly meetings are convened as required.

Questions arising at any meeting of the Directors are determined by the Chairman. In the case of an equality of votes, the Chairman of the meeting at which the show of hands takes place or at which the poll is demanded shall be entitled to a second or casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

In December 2012 the Company established an Audit Committee. There were no other sub-committees of the Board in operation during the financial year or at the financial year end.

#### **Compliance statement**

The Directors acknowledge that they are responsible for securing the Company's compliance with its relevant obligations. These include all requirements of the Company under Section 225 of Companies Act 2014, and all tax law within the Republic of Ireland (the "relevant obligations").

In keeping with this responsibility, the Directors have:

- drawn up a compliance policy statement setting out the Company's compliance with the relevant obligations;
- appointed the Investment Manager, and relies on the Investment Manager's risk and compliance departments to implement these procedures and secure material compliance with the relevant obligations; and
- performed a review of this policy statement, and its implementation by the Investment Manager.

#### **Audit Committee**

The membership of the Audit committee is disclosed in the Administration of the Company page.

#### **Relevant audit information**

So far as the Directors are aware, there is no relevant audit information of which the Company's auditors are unaware and the Directors have taken all the steps that should have been taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

## **CONCEPT FUND SOLUTIONS PLC**

### **DIRECTORS' REPORT FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2016 CONT/D**

#### **Connected Party Transactions**

Regulation 41 of the UCITS Regulations "Restrictions of transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person conducted is a) at arm's length; and b) in the best interest of the unit-holders of the UCITS".

As required under UCITS Regulation 78(4), the Directors, as responsible persons are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by UCITS Regulation 41(1) are applied to all transactions with a connected party; and all transactions with a connected parties that were entered into during the period to which the report relates complied with the obligations that are prescribed by UCITS Regulation 41(1).

#### **Independent Auditor**

PricewaterhouseCoopers, Chartered Accountants and Statutory Audit Firm, have been appointed as auditors and have expressed their willingness to accept this office in accordance with the Companies Act, 2014.

#### **On behalf of the Board of Directors**

**Michael Whelan (Director)**

**Tom Murray (Director)**

**26 April 2017**

## CONCEPT FUND SOLUTIONS PLC

### STATEMENT OF DIRECTORS' RESPONSIBILITIES

The Directors are responsible for preparing the Directors' Report and the financial statements in accordance with Irish law.

Irish law requires the directors to prepare financial statements for each financial year giving a true and fair view of the Company's assets, liabilities and financial position at the end of the financial year and the profit or loss of the company for the financial year. Under that law the Directors have prepared the financial statements in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102; The Financial Reporting Standard applicable in the UK and Republic of Ireland and promulgated by the Institute of Chartered Accountants in Ireland and Irish law).

Under Irish law, the Directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and the profit or loss of the Company for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the Companies Act 2014 and enable those financial statements to be audited.

The Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

**On behalf of the Board of Directors**

**Michael Whelan (Director)**

**Tom Murray (Director)**

**26 April 2017**

## **CONCEPT FUND SOLUTIONS PLC**

### **REPORT OF THE DEPOSITARY TO THE SHAREHOLDERS OF CONCEPT FUND SOLUTIONS PLC**

We have enquired into the conduct of Concept Fund Solutions Plc (“the Company”) for the financial year ended 31 December 2016, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, (‘the UCITS Regulations’), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

#### **Responsibilities of the Depositary**

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that financial period in accordance with the provisions of the Company’s Memorandum and Articles of Association and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

#### **Basis of Depositary Opinion**

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Company’s Memorandum and Articles of Association and the UCITS Regulations and (ii) otherwise in accordance with the Company’s constitutional documentation and the appropriate regulations.

#### **Opinion**

In our opinion, the Company has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 (‘the Central Bank UCITS Regulations’); and
- (ii) otherwise in accordance with the provisions of the Memorandum and Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF CONCEPT FUND SOLUTIONS PLC

### Report on the financial statements

#### Our Opinion

In our opinion, Concept Fund Solutions plc financial statements (the "financial statements"):

- give a true and fair view of the Company's and Funds' assets, liabilities and financial position as at 31 December 2016 and of their results for the financial year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

#### What we have audited

The financial statements comprise:

- the Statement of Financial Position as at 31 December 2016;
- the Statement of Comprehensive Income for the financial year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the financial year then ended;
- the Portfolio of Investments for each of the Funds as at 31 December 2016; and
- the notes to the financial statements for the Company and for each of its Funds which include a summary of significant accounting policies and other explanatory information.

The financial reporting framework that has been applied in the preparation of the financial statements is Irish law and accounting standards issued by the Financial Reporting Council and promulgated by the Institute of Chartered Accountants in Ireland (Generally Accepted Accounting Practice in Ireland).

In applying the financial reporting framework, the directors have made a number of subjective judgements, for example in respect of significant accounting estimates. In making such estimates, they have made assumptions and considered future events.

#### Matters on which we are required to report by the Companies Act 2014

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.
- In our opinion the information given in the Directors' Report is consistent with the financial statements.
- In our opinion, based on the work undertaken in the course of our audit of the financial statements, the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement, is consistent with the financial statements and has been prepared in accordance with section 1373(2)(c) of the Companies Act 2014.
- Based on our knowledge and understanding of the company and its environment, obtained in the course of our audit of the financial statements, we have not identified material misstatements in the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement.
- In our opinion, based on the work undertaken during the course of our audit of the financial statements, the information required by section 1373 (2)(a), (b), (e) and (f) is contained in the Corporate Governance Statement.

#### Matter on which we are required to report by exception

##### Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of Directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

## CONCEPT FUND SOLUTIONS PLC

### INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF CONCEPT FUND SOLUTIONS PLC CONT/D

#### Responsibilities for the financial statements and the audit

##### **Our responsibilities and those of the directors**

As explained more fully in the Statement of Directors' Responsibilities set out on page 19, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view.

Our responsibility is to audit and express an opinion on the financial statements in accordance with Irish law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

##### **What an audit of financial statements involves**

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland). An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of:

- whether the accounting policies are appropriate to the Company's circumstances and have been consistently applied and adequately disclosed;
- the reasonableness of significant accounting estimates made by the Directors; and
- the overall presentation of the financial statements.

We primarily focus our work in these areas by assessing the directors' judgements against available evidence, forming our own judgements, and evaluating the disclosures in the financial statements.

We test and examine information, using sampling and other auditing techniques, to the extent we consider necessary to provide a reasonable basis for us to draw conclusions. We obtain audit evidence through testing the effectiveness of controls, substantive procedures or a combination of both.

In addition, we read all the financial and non-financial information in the Annual Report and Audited Financial Statements to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

## INVESTMENT MANAGER'S REPORT

### Market Commentary

Markets in 2016 were dominated by political uncertainty, with the United Kingdom (the "UK") voting to leave the European Union and the presidential election in the United States of America (the "US") among the significant developments of the year. Despite these events leading to temporary spikes in volatility, the CBOE Volatility Index (VIX) stood at a lower average than in 2015; at 15.84% in 2016 compared to 16.68% in 2015. Nevertheless, 2016 was a positive year for equity markets across the spectrum, with strong returns in developed, emerging and frontier markets. The broad based equity product, the db x-trackers FTSE All-World Ex UK, was the Company's top performing fund, providing a 29.26% return measured in GBP, with much of this return attributed to the depreciation of the Sterling, which fell 15.81% over 2016. Other ETFs tracking global benchmarks also saw encouraging growth, with the ETFs tracking the MSCI All Country World and MSCI World indices growing 10.82% and 7.62% respectively.

For developed markets, North America led the way, with all of the Company's US equity funds providing positive returns and the regional ETF, the db x-trackers MSCI North America High Dividend Yield UCITS ETF (DR) growing 16.14%. In the US, the top performer was the small cap based db x-trackers Russell 2000 UCITS ETF (DR) which posted gains of 20.44% over the year, outperforming the benchmarks of its larger capitalisation counterpart, the Russell Midcap, which in turn outperformed the flagship S&P 500. This outperformance of the smaller capitalisation stocks also translated to success for the db x-trackers S&P 500 Equal Weight UCITS ETF (DR), which gained 14.14%, 2.91% greater than its market cap weighted benchmark. The growth in the region was driven by various factors, including strong macroeconomic data, such as decreasing unemployment rates, robust non-farm payroll data, as well as political developments. US presidential campaign promises for fiscal stimulus, reductions in corporate taxation, increases in infrastructure spending, and the relaxation of regulation. The Federal Reserve also oversaw an interest rate hike in December 2016, which was only the second since the 2008 crisis.

Europe saw the UK leave the EU, but despite this, the db x-trackers FTSE 100 Equal Weight UCITS ETF (DR) finished the year up double figures. At 12.66%, returns far exceeded expectations following Brexit, with anticipations of a significant market decline after the referendum result never materialising, and UK macroeconomic data remaining resilient. The devaluation of the GBP resulted in the increased competitiveness of British exports, and amplified the value of business conducted internationally for constituents impacting positively on returns.

Emerging and frontier markets also saw a positive year. The db x-trackers MSCI AC Far East Ex Japan Index UCITS ETF (DR) gained 10.27%, with encouraging macroeconomic data from countries in the region, and positive sentiment with regards to political, economic and manufacturing developments in China. Another key event during the year saw OPEC States agreeing to the first cut in oil production in eight years.

The only funds to decline over the year were the db x-trackers MSCI Nordic UCITS ETF (DR) and the db x-trackers JPX-Nikkei 400 UCITS ETF (DR). Despite a significant recovery in Q4, latter ETF, with smart-beta exposure to the Japanese equity market, finished the year with a 0.84% loss. Japanese equities experienced a difficult year compared to their Western developed market counterparts, with the strengthening Japanese Yen weighing negatively on Japanese exporters for the majority of the year and investor uncertainty regarding Prime Minister Shinzo Abe's economic policies.

In the fixed income space, all three of the Company's sub-funds ended in positive territory, despite a challenging Q3 which saw a widespread bond sell-off following the US presidential election results. The db x-trackers EUR Liquid Corporate 12.5 UCITS ETF and the db x-trackers Barclays USD Corporate Bond UCITS ETF (DR) delivered returns of 9.68% and 6.17% respectively, with investors seeking more attractive yields moving up the yield curve and towards corporate / credit exposure, due to the low or even negative yields of Eurozone sovereigns and US Treasuries.

### Outlook

Equities have further built on their gains from the latter part of 2016, posting healthy returns during the start of 2017.

Nevertheless, Global growth is expected to pick up only gradually this year, as the spill over from better US growth prospects is limited before 2018.

## CONCEPT FUND SOLUTIONS PLC

### INVESTMENT MANAGER'S REPORT CONT/D

#### Outlook cont/d

In the US, promises of tax cuts and deregulation are expected to drive the economy towards a stronger long-term equilibrium of higher growth, inflation and interest rates, but along with it comes significant political uncertainty. There is also potential for these policies to be 'too' successful, resulting in significant inflation that can only be combated through continuously rising interest rates. Despite this, there has been a perceived lack of progress in many of these economic policies, with trades related to these promises so far stalling in 2017.

The political landscape remains the key risk in Europe, especially during the first half of the year with elections in France, the Netherlands and Germany, and a potential early election in Italy. Some of these risks have already been priced in by markets, but downside still exists. Having triggered Article 50 for the UK to leave the European Union, there still remains both political and economic uncertainty surrounding what consequences this will have for the UK and European Union. Regardless of these factors, global momentum has strengthened and is currently running at its best pace in more than a year.

Central banks have stepped back from the spotlight for the time being. But attention should return to monetary policy later this year, as the Fed considers changing its reinvestment policy, as well as two interest rate hikes on the cards. Further tapering is also a possibility in the Eurozone and Japan, with balance sheet easing expected to slow in these regions.

In Japan, an economic recovery is expected to continue through 2017 and beyond, mostly driven by private consumption. Japanese equities are expected to perform well due to their relative undervaluation compared to their other developed market counterparts, combined with long-term improvements in corporate governance and high liquidity reserves. This recovery could be challenged, however, by a strengthening Japanese Yen, which can hinder Japan's exporters.

Faster global growth and rising commodity prices are expected to benefit Emerging Market countries. However a strong dollar and rising US rates are expected to weigh on returns in the short-term. EM equities have already largely rebounded from post US election sell offs, along with EM currencies also registering strong gains during the start of 2017.

# CONCEPT FUND SOLUTIONS PLC

## PIANO 400 Fund

### Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The Fund's investment objective is to gain exposure to the Underlying Asset through the use of Derivative Contracts. The Underlying Asset is a notional portfolio of assets selected by the Strategy Agent. The purpose of the Strategy is to achieve the investment objective of the Fund and in particular, aim to ensure that a Shareholder receives a minimum Repurchase Price at the Final Repurchase Date equal to the Principal Protection Amount.

#### Fund Performance

The Piano 400 Fund was launched on 30th November 2007. The NAV per share of each class at launch was 100 (in the relevant currency).

Over the period since inception, the Net Asset Value per share rose to a high of EUR 108.253, as at 22nd January 2008.

The fund subsequently paid a special dividend on 29th June 2012 and the Net Asset Value per Share was reset at 100. The fund was again reset to pay a dividend to a price of 100 as of 31st March 2014. A dividend has also been paid as of 30th June 2015 and 2nd July 2015 reducing the NAV by 3.4046 and 0.96261 respectively.

There were no dividends paid on the Fund during the financial year ended 31 December 2016.

# CONCEPT FUND SOLUTIONS PLC

## db x-trackers EUR Liquid Corporate 12.5 UCITS ETF

Investment Manager's Report for the financial year ended 31 December 2016

### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the db x-trackers EUR Liquid Corporate 12.5 Index Fund (DBECDR) (the "Index"). The Index is intended to create a liquid and diversified investment alternative to a portfolio of Euro denominated and longdated corporate bonds.

In order to achieve the investment objective, the Fund will adopt an Indirect Investment Policy. In order to achieve the investment objective, the Fund may invest in transferable securities (the "Invested Assets") and/or use index swap agreements (the "Swap"). The purpose of the Swap is to exchange the performance and/or income of the Invested Assets against the performance of the Index.

Invested Assets that the Fund will invest in include (i) bonds with investment grade or equivalent long-term credit ratings issued by (a) sovereign states that are OECD Member States and/or supranational organisations/entities and/or (b) financial institutions or corporates and/or (ii) in units of exchange traded funds ("ETFs") and/or UCITS and/or other collective investment undertakings. The Fund may invest in ancillary liquid assets which will include secured and/or unsecured cash deposits.

### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Index within its anticipated tracking error. The anticipated tracking error for both share classes of the Fund is 1.00%.

	<u>Total Net Assets</u> <u>31/12/2016</u>	<u>Net Assets per Share</u> <u>Price (at 31/12/2016)</u>

## db x-trackers Portfolio Income UCITS ETF

### Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to replicate the performance before fees and expenses of the Portfolio Income Strategy (the "Strategy"). The Strategy is a balanced and diversified portfolio of exchange-traded funds ("ETFs") linked to equities, fixed income, commodities and alternative investments.

In order to achieve the investment objective, the Fund will adopt a Direct Investment Policy. In order to seek to achieve its investment objective, the Fund will invest in ETFs that comprise all or a representation of all of the ETFs in the Strategy as may be proposed by the Allocation Agent, which the Investment Manager may accept, reject or amend in its sole discretion in consultation with the Allocation Agent. Accordingly the Investment Manager retains discretion in respect of the Strategy and the appointment of the Allocation Agent is in an investment advisory capacity. The Fund may invest in ancillary liquid assets which will include secured and/or unsecured cash deposits.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with the Strategy and within guided tolerance levels.

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers Stiftungs-UCITS ETF Stabilität

Investment Manager's Report for the period from 1 January 2016 to 27 June 2016 (date of termination)

#### Investment Objective

The investment objective of the Fund was to track the performance before fees and expenses of the Underlying Asset, which is the db Stiftungs-ETF Stabilität Index (DBGLSEST) (the "Index").

The Index was intended to reflect the performance of a balanced and diversified portfolio of exchange-traded funds ("ETFs") linked to equities, fixed income, commodities and alternative investments. To achieve its aim the Fund invested in ETFs that comprise all, or were representations of all of the ETFs in the Index.

#### Fund Performance

The Fund Performance data disclosed below covers the period from 1 January 2016 to 27 June 2016, date of termination.

	<u>Total Net Assets</u>	<u>Net Assets per Share</u>
	<u>27/06/2016</u>	<u>Price (as at 27/06/2016)</u>
db x-trackers Stiftungs-UCITS ETF Stabilität	Nil	Nil

	<u>Fund Return</u>	<u>Index Return</u>
db x-trackers Stiftungs-UCITS ETF Stabilität	(0.46)%	N/A*

\* The Fund did not track an index.

# CONCEPT FUND SOLUTIONS PLC

## db x-trackers MSCI Nordic Index UCITS ETF (DR)

### Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI Nordic Total Return Net Index (the "Reference Index"). The Reference Index is designed to reflect the equity market performance of the Nordic countries.

The Reference Index is calculated and maintained by MSCI. The Reference Index is a free float-adjusted market capitalisation weighted index that is designed to measure the large and medium capitalisation equity market performance of the Nordic countries. As of March 2013, the Reference Index consists of the following 4 developed country indices: Denmark, Finland, Norway and Sweden.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply. The Reference Index is calculated in Euro on an end-of-day basis. Changes to the Reference Index are made during the Semi-annual Index Reviews in May and November and the Quarterly Index Reviews in February and August.

The Reference Index may also be re-balanced at other times in order to reflect corporate activity such as mergers and acquisitions. To achieve the aim, the Fund will attempt to replicate the Index by buying all (or, on an exceptional basis, a substantial number of) the shares in the Index in the same proportion as the Index as determined by the Investment Manager.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 1.00%.

	<u>Total Net Assets</u>	<u>Net Assets per Share</u>

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers MSCI Turkey Index UCITS ETF (DR)

Investment Manager's Report for the period from 1 January 2016 to 27 June 2016 (date of termination)

#### Investment Objective

The investment objective of the Fund was to track the performance before fees and expenses of the Underlying Asset, which was the MSCI Turkey Total Return Net Index (the "Reference Index"). The Reference Index was designed to reflect the performance of the large and mid cap segments of the Turkish equity market.

The Reference Index was calculated and maintained by MSCI. The Reference Index was a free float market capitalisation weighted index reflecting the performance of the large and mid cap segments of the Turkish equity market.

The Reference Index was calculated in US Dollars on an end-of-day basis.

The Reference Index was a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply. Changes to the Reference Index were made on a quarterly basis and the Reference Index may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions. To achieve the aim, the Fund attempted to replicate the Index by buying all (or, on an exceptional basis, a substantial number of) the shares in the Index in the same proportion as the Index as determined by the Investment Manager.

#### Fund Performance

The db x-trackers MSCI Turkey Index UCITS ETF (DR) Fund was terminated 27 June 2016. The Fund Performance data disclosed below covers the period from 1 January 2016 to 27 June 2016, date of termination.

# CONCEPT FUND SOLUTIONS PLC

## db x-trackers Mittelstand & MidCap Germany UCITS ETF (DR)

### Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the Solactive Mittelstand & MidCap Deutschland Index (the "Reference Index"). The Reference Index is designed to reflect the performance of companies incorporated in Germany with a primary listing on Xetra, which rank from 31 to 100 (in descending order).

The Reference Index is calculated and maintained by Solactive AG. The Reference Index is weighted based on free float market capitalisation reflecting the performance of companies incorporated in Germany with a primary listing on Xetra that rank from 31 to 100 based on their free float market capitalisation. This means that the 100 largest companies by Free Float Market Capitalisation are ranked in descending order, i.e. the company ranked 1st has a higher Free Float Market Capitalisation than the company ranked 2nd and only those ranked from 31 to 100 are included.

The Reference Index excludes companies from the banking, insurance and diversified financials (i.e. financial services, consumer finance and capital markets) sectors and is calculated in Euro.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 1.00%.

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers MSCI North America High Dividend Yield Index UCITS ETF (DR)

#### Investment Manager's Report for the financial year ended 31 December 2016

##### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI North America High Dividend Yield Index (the "Reference Index"). The Reference Index is based on the MSCI North America Index (its "Parent Index") and comprises certain companies from the USA and Canada that are included in the Parent Index and offer a higher than average dividend yield.

The Reference Index is based on the Parent Index, which is calculated and maintained by MSCI. The Parent Index includes large and medium capitalisation companies and aims to include 85% of the cumulative free float market capitalisation of the USA and Canada.

The Reference Index includes only securities that offer a higher than average dividend yield relative to the Parent Index and that pass dividend sustainability screens:

- Securities included in the Reference Index must have a dividend yield which is at least 30% higher than the dividend yield of the Parent Index; and
- Securities included in the Reference Index must have sustainable dividend yields, meaning that securities are not considered for inclusion if they have a dividend payout that is either (i) extremely high (defined to be the top 5% of securities within the universe of securities with positive payout), (ii) zero or (iii) negative, and therefore future dividend payments might be in jeopardy.

The Reference Index is reviewed and rebalanced on a quarterly basis and may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested net of applicable withholding tax.

The Reference Index is calculated in US Dollars on an end-of-day basis.

##### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 1.00%.

	<b>Total Net Assets</b>	<b>Net Assets per Share</b>
	<b>31/12/2016</b>	<b>31/12/2016</b>

## db x-trackers MSCI AC World Index UCITS ETF (DR)

### Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI ACWI EUR Index (the "Reference Index"). The Reference Index includes large and mid cap stocks across 24 Developed Markets and 21 Emerging Markets countries.

The Reference Index is calculated and maintained by MSCI. The Reference Index includes large and medium capitalisation stocks across developed market and emerging market countries. As of 28 June 2013, the Reference Index includes representation across 24 developed markets and 21 emerging market countries, and contains 2,424 constituents.

The Reference Index is calculated in Euro on an end-of-day basis.

The Reference Index is reviewed and rebalanced on a quarterly basis and may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 1.00%.

## db x-trackers MSCI AC Far East ex Japan Index UCITS ETF (DR)

### Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI AC Far East ex Japan monthly Euro Hedged Index (the "Reference Index") linked to the MSCI AC Far East ex Japan Total Return Net Index. The Reference Index is designed to reflect the equity market performance of the Far East, excluding Japan.

The Reference Index is calculated and maintained by MSCI. The Reference Index is a free float-adjusted market capitalisation weighted index that is designed to measure the equity market performance of the Far East, excluding Japan. As of March 2013 the Reference Index consists of the following 9 developed and emerging market country indices: China, Hong Kong, Indonesia, Korea, Malaysia, Philippines, Singapore, Taiwan and Thailand. The Reference Index covers approximately 85% of the free float-adjusted market capitalisation in each country.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply. The Reference Index is calculated in US Dollars on an end of day basis. The Reference Index is reviewed quarterly - in February, May, August and November - with the objective of reflecting change in the underlying equity markets in a timely manner, while limiting undue index turnover. During the May and November semi-annual index reviews, the index is rebalanced and the large and mid-capitalisation cut-off points are recalculated. Changes to the Reference Index are made on a quarterly basis and the Reference Index may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions.

The Reference Index intends to provide a hedge against exchange rate fluctuations at the Reference Index versus the Euro by locking in foreign exchange rate on a one month forward booking basis.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 2.00%.

## db x-trackers MSCI USA Index UCITS ETF (DR)

Investment Manager's Report for the financial year ended 31 December 2016

### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI Total Return Net USA Index (the "Reference Index"). The Reference Index is designed to reflect the performance of the shares of certain companies in the USA. The companies making up the Reference Index are large and medium sized companies.

The Reference Index is calculated and maintained by MSCI Inc.

The Reference Index is a free float-adjusted market capitalisation weighted index reflecting the performance of large and mid capitalisation companies in the United States. According to the MSCI index methodology the Reference Index targets an 85% free float-adjusted market representation level within each industry group in the USA market.

The Reference Index is calculated in US Dollars on an end of day basis.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

The Reference Index is reviewed and rebalanced on a quarterly basis and may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions.

The Reference Index has a base date of 31 December 1969.

### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 1.00%.

	<b>Total Net Assets</b>	<b>Net Assets per Share</b>

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers S&P 500<sup>®</sup> Equal Weight UCITS ETF (DR)

Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the S&P 500<sup>®</sup> Equal Weight Index (the "Reference Index"). The Reference Index is designed to measure the performance of the companies in the S&P 500 Index with each company in the Reference Index being allocated a fixed weight of 0.20%. The Reference Index contains shares of large public companies traded on the New York Stock Exchange Euronext or the NASDAQ OMX Markets.

The Reference Index is calculated and maintained by Standard & Poor's Financial Services LLC. The Reference Index is an equal weighted index which measures the performance of the companies in the S&P 500 Index (which is a capitalisation weighted index comprising 500 large-cap common stocks of publicly held companies actively traded on either the NYSE Euronext or the NASDAQ OMX markets) in equal weights. Each company in the Reference Index is allocated a fixed weight of 0.20%.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply. The Reference Index is calculated in US Dollars on a real time basis.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 1.00%.

# CONCEPT FUND SOLUTIONS PLC

## db x-trackers MSCI World Index UCITS ETF (DR)

### Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI Total Return Net World Index (the "Reference Index"). The Reference Index is designed to reflect the performance of the shares of certain companies in various developed countries. The companies making up the Reference Index are large and medium sized companies based on the combined value of a company's readily available shares as compared to other companies.

The Reference Index is calculated and maintained by MSCI Inc.

The Reference Index is a free float-adjusted market capitalisation weighted index reflecting the performance of large and mid-capitalisation companies in the global developed markets. According to the MSCI index methodology the Reference Index targets an 85% free float-adjusted market representation level within each industry group in the global developed markets.

As of 30 September 2016, the Reference Index consists of the following 23 developed markets: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Ireland, Hong Kong, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the United Kingdom, and the United States.

The underlying constituents of the Reference Index are listed in multiple currencies.

The Reference Index is calculated in US Dollars on an end of day basis.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

The Reference Index is reviewed and rebalanced on a quarterly basis and may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions.

The Reference Index has a base date of 31 December 1969.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 1.00%.

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers FTSE Developed Europe Ex UK Property UCITS ETF (DR)

#### Investment Manager's Report for the financial year ended 31 December 2016

##### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying asset, which is the FTSE EPRA/NAREIT Developed Europe Ex UK Capped Net Index (the "Reference Index"). The Reference Index is designed to reflect the performance of the shares of certain property companies (including real estate investment trusts, "REITs") listed in European developed countries, excluding the United Kingdom.

The Reference Index is calculated and maintained by FTSE International Limited.

The Reference Index is part of the FTSE EPRA/NAREIT Global Real Estate Index Series which is designed to represent general trends in eligible listed real estate stocks worldwide. The Reference Index is a market capitalisation-weighted index reflecting the performance of European listed equity REITs and property companies and offers a diverse representation of the real estate markets in developed countries in Europe, excluding the United Kingdom, by both geography and property type.

Relevant real estate activities are defined as the ownership, trading and development of income-producing real estate. Generally, in order to be eligible for inclusion in the Reference Index, real estate companies must have derived, in the previous full financial year, at least 75% of their total earnings before interest, tax, depreciation and amortisation ("EBITDA") from relevant real estate activities and need to provide an audited annual report in English. The Reference Index covers companies listed in developed countries in Europe, excluding the UK.

The Reference Index is calculated in Euro on an end of day basis.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

The Reference Index is reviewed on an annual basis and each constituent of the Reference Index is capped on a quarterly basis at 10% and the total weight of those constituents whose individual weights exceed 5% is capped at 40% in aggregate. The Reference Index may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions.

##### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 1.00%.

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers MSCI World Minimum Volatility UCITS ETF (DR)<sup>1</sup>

#### Investment Manager's Report for the financial year ended 31 December 2016

##### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI World Minimum Volatility (USD) Index (the "Reference Index").

The Reference Index consists of global equities from developed markets that provide the lowest absolute volatility of returns, measured by the rate of fluctuation in their daily price movements over time, within a certain set of constraints.

The Reference Index is based on the Parent Index which is calculated and maintained by MSCI Inc. (the "Index Sponsor"). The Parent Index is designed to reflect the performance of the shares of certain listed large and medium sized companies across developed markets countries. The Reference Index is designed to reflect the performance characteristics of a portfolio based on the universe of eligible securities constituting the Parent Index with the lowest forecasted volatility of returns, subject to certain risk diversification constraints as further described below. Volatility of returns measures the rate of daily price movements of a security over a given period of time. For example, a security with a low volatility would have smaller fluctuations in its daily price movements over time, compared to one with a higher volatility.

The Reference Index is calculated in US Dollars on an end of day basis.

The Reference Index is rebalanced semi-annually in May and November, and may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

##### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 2.00%.

	<b>Total Net Assets</b>	<b>Net Assets per Share</b>
	<b>31/12/2016</b>	<b>31/12/2016</b>

## CONCEPT FUND SOLUTIONS PLC

### db-x trackers MSCI World Momentum Factor UCITS ETF (DR)<sup>1</sup>

Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI World Momentum Index (USD) Index (the "Reference Index").

The Reference Index is based on the MSCI World Index (the "Parent Index"), which is designed to reflect the performance of the shares of certain listed large and medium sized companies across developed markets countries.

The aim of the Reference Index is to replicate the performance of shares from the Parent Index that have high price momentum, measured by a combination of a risk-adjusted 12-month and 6-month stock performance. Further information on the Reference Index is contained under "General Description of the Underlying Asset".

The Reference Index is calculated in US Dollars on an end of day basis.

The Reference Index is rebalanced semi-annually in May and November, and may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error.

	<b>Total Net Assets</b>	<b>Net Assets per Share</b>
	<b>31/12/2016</b>	<b>31/12/2016</b>

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers MSCI World Quality Factor UCITS ETF (DR)<sup>1</sup>

Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI World Sector Neutral Quality Index (USD) Index (the "Reference Index").

The Reference Index is based on the MSCI World Index (the "Parent Index"), which is designed to reflect the performance of the shares of certain listed large and medium sized companies across developed markets countries.

The aim of the Reference Index is to reflect the performance of shares chosen from the Parent Index on the basis that they exhibit higher quality characteristics relative to their peers within the corresponding GICS<sup>®</sup> sector. The Reference Index targets a fixed number of securities at rebalancing, 300, and the stock's weight is determined by the product of the quality score and its market capitalization weight in the Parent Index. The security weights are then updated to implement sector neutrality, i.e. the weight of each sector in the Reference Index is in line with the weight in the Parent Index.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

The Reference Index is calculated in US Dollars on an end of day basis.

The Reference Index is rebalanced semi-annually in May and November, and may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 2.00%.

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers MSCI World Value Factor UCITS ETF (DR)<sup>1</sup>

#### Investment Manager's Report for the financial year ended 31 December 2016

##### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI World Enhanced Value Index (USD) Index (the "Reference Index").

The Reference Index is based on the Parent Index which is calculated and maintained by MSCI Inc. (the "Index Sponsor"). The Parent Index is designed to reflect the performance of the shares of certain listed large and medium sized companies across developed markets countries.

The Reference Index is designed to reflect the performance of listed equity securities of large and mid capitalisation companies in developed markets that exhibit higher value characteristics relative to their peers within the corresponding GICS<sup>®</sup> sector. When determining which securities display the required value characteristics the following are considered: the price of shareholder equity relative to the company's book value (Price-to-Book-Value), the price of shareholder equity relative to expected future earnings (Price-to-Forward Earnings) and a measure of a company's value incorporating debt and equity relative to the cash generated by the company in its normal business operations (Enterprise Value-to-Cash Flow from Operations). The Reference Index targets a fixed number of securities at rebalancing, 400, and the stock's weight is determined by the product of the value score and its market capitalization weight in the Parent Index. The security weights are then updated to implement sector neutrality, i.e. the weight of each sector in the Reference Index is in line with the weight in the Parent Index.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

The Reference Index is calculated in US Dollar on an end of day basis.

The Reference Index is rebalanced semi-annually in May and November, and may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

##### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 2.00%.

## Deutsche MSCI World Index Fund

### Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI Total Return Net World Index (the "Reference Index"). The Reference Index is designed to reflect the performance of the shares of certain companies in various developed countries. The companies making up the Reference Index are large and medium sized companies based on the combined value of a company's readily available shares as compared to other companies.

The Reference Index is calculated and maintained by MSCI Inc.

The Reference Index is a free float-adjusted market capitalisation weighted index reflecting the performance of large and mid-capitalisation companies in the global developed markets. According to the MSCI index methodology the Reference Index targets an 85% free float-adjusted market representation level within each industry group in the global developed markets.

As of 2 June 2014, the Reference Index consists of the following 23 developed markets: Australia, Austria, Belgium, Canada, Denmark, Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the United Kingdom, and the United States.

The underlying constituents of the Reference Index are listed in multiple currencies.

The Reference Index for Share Classes 1D - Core, 1D - Institutional and 1C - Institutional is calculated in EUR on an end of day basis. The Reference Index for Share Class 2D - Institutional is calculated in US Dollars on an end of day basis.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

The Reference Index is reviewed and rebalanced on a quarterly basis and may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions.

The Reference Index has a base date of 31 December 1969.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 1.00%.

	<b>Total Net Assets</b>	<b>Net Assets per Share</b>
	<b>31/12/2016</b>	<b>31/12/2016</b>
Deutsche MSCI World Index Fund	€110,698,676	€44.30
	<b>Year to Date</b>	<b>Year to Date</b>

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers MSCI GCC Select Index UCITS ETF

#### Investment Manager's Report for the financial year ended 31 December 2016

##### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI GCC Countries ex Select Securities Index (the "Reference Index"). The Reference Index is designed to reflect the performance of shares of companies from 6 Gulf Cooperation Council equity markets: Bahrain, Kuwait, Oman, Qatar, Saudi Arabia and the United Arab Emirates.

The Reference Index is calculated and maintained by MSCI Inc. (the "Index Sponsor").

The Reference Index tracks the performance of the companies included in the MSCI GCC Countries ex Select Securities Index classified according to the Index Sponsor's methodology. The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

The Reference Index is a custom free float market capitalisation weighted index designed to reflect the performance of shares of companies from 6 Gulf Cooperation Council equity markets: Bahrain, Kuwait, Oman, Qatar, Saudi Arabia and the United Arab Emirates. According to the Index Sponsor's index methodology, the Reference Index targets approximate coverage of 85% of the free float-adjusted market capitalisation within each country; however the Index Sponsor may exclude certain securities from time to time on the basis that they may have restrictions on foreign ownership.

The Reference Index is calculated in US Dollars on an end of day basis.

The Reference Index is reviewed and rebalanced on a quarterly basis and may also be rebalanced at other times in order to reflect corporate activity such as mergers and acquisitions.

The Reference Index has a base date of 30 November 2009 when it was set to 1000.

##### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 1.00%.

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers FTSE All-World ex UK UCITS ETF (DR)

Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the FTSE All-World ex UK Index (the "Reference Index"). The Reference Index is designed to reflect the performance of shares of companies from developed countries and emerging markets worldwide excluding the UK.

The Reference Index comprises large and mid-cap stocks providing coverage of developed and emerging markets worldwide excluding the UK. The Reference Index is derived from the FTSE Global Equity Index Series ("GEIS") as the overall index universe, which covers 98% of the world's investable market capitalisation. Securities of companies which are listed on a stock exchange or a recognised market are eligible for inclusion in GEIS.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 2.00%.

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers S&P 500 UCITS ETF (DR)

#### Investment Manager's Report for the financial year ended 31 December 2016

##### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the S&P 500 Index (the "Reference Index"). The Reference Index is designed to reflect the performance of shares of 500 companies representing all major US industries.

The Reference Index is calculated and maintained by Standard & Poor's Financial Services LLC ("S&P"). The Reference Index is a free float market capitalisation weighted index reflecting the performance of 500 large-cap common stocks of publicly held companies actively traded on either the NYSE Euronext or the NASDAQ OMX markets. A company's relative weighting in the Reference Index depends on its relative size based on the combined value of a company's readily available shares as compared to other companies on these stock markets.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested in the index net of applicable withholding taxes.

The Reference Index is calculated in US Dollars on a real-time basis.

The Reference Index is a free float market capitalisation weighted index reflecting the performance of 500 large-cap common stocks of publicly held companies actively traded on either the NYSE Euronext or the NASDAQ OMX markets.

##### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for all share classes of the Fund is 1.00%.

OTC Financial Derivative Instruments	0.01
Current Assets	1.12
Total Assets	100.00

\* The broker for the open futures contracts is Deutsche Bank AG Frankfurt.

\*\* The counterparty for the open forward foreign currency exchange contracts is Barclays Bank Plc.

# CONCEPT FUND SOLUTIONS PLC

## db x-trackers Russell 2000 UCITS ETF (DR)

Investment Manager's Report for the financial year ended 31 December 2016

### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the Russell 2000<sup>®</sup> Index (the "Reference Index"). The Reference Index is designed to reflect the performance of the shares of certain companies included on the Russell 3000<sup>®</sup> Index. The Russell 3000<sup>®</sup> Index comprises the 3000 largest shares of US companies, based on the combined value of a company's shares compared to other companies. The Reference Index consists of approximately 2000 of the smallest securities included in the Russell 3000<sup>®</sup> Index and thus represents approximately 10% of the total market capitalisation of that index.

The constituents of the Reference Index are selected on basis of a combination of their market capitalisation and current index membership. The Reference Index is float-adjusted and market capitalisation weighted. The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error of the Fund is 1.00%.

	<b>Total Net Assets</b>	<b>Net Assets per Share</b>
	<b>31/12/2016</b>	<b>31/12/2016</b>
db x-trackers Russell 2000 UCITS ETF (DR) (Class 1C)	\$462,865,221	\$185.43
	<b>Year to Date</b>	<b>Year to Date</b>
	<b>Fund Return</b>	<b>Index Return</b>
db x-trackers Russell 2000 UCITS ETF (DR) (Class 1C)	20.44%	20.78%

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers Russell Midcap UCITS ETF (DR)

#### Investment Manager's Report for the financial year ended 31 December 2016

##### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the Russell Midcap Index (the "Reference Index"). The Reference Index is designed to reflect the performance of the shares of certain US companies. The companies making up the Reference Index are medium sized companies.

The Reference Index is calculated and maintained by Frank Russell Company.

The Reference Index is a free float-adjusted market capitalisation weighted index reflecting the performance of the mid-cap segment of the U.S. equity universe.

The Reference Index is a subset of the Russell 1000<sup>®</sup> Index. It includes approximately 800 of the smallest securities based on a combination of their market cap and current index membership.

The Reference Index represents approximately 27% of the total market capitalisation of the Russell 1000 companies. The Reference Index is constructed to provide a comprehensive and unbiased barometer for the mid-cap segment.

The Reference Index is calculated in US Dollars on an end of day basis and real time basis.

The Reference Index is a total return net index. A total return net index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested after the deduction of any taxes that may apply.

The Reference Index is reviewed and rebalanced on an annual basis to ensure larger stocks do not distort the performance and characteristics of the true mid-cap opportunity set.

The Reference Index has a base date of 31 December 1978.

##### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 1.00%.

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers JPX-Nikkei 400 UCITS ETF (DR)

#### Investment Manager's Report for the financial year ended 31 December 2016

##### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the total return version of the JPX-Nikkei Index 400 (the "Reference Index").

The Reference Index is calculated by a method jointly developed by Japan Exchange Group, Inc ("JPX") and the Tokyo Stock Exchange, Inc. ("TSE"). The Reference Index is designed to reflect the performance of the Japanese stock market, specifically companies which have as their main market the TSE 1st section, 2nd section, Mothers or JASDAQ markets.

The Reference Index is calculated in points on an end of day basis. The Reference Index has a base date of 30 August 2013 and a base value of 10,000 points. The Reference Index was calculated from 6 January 2014. The currency of the constituents of the Reference Index is the Japanese Yen.

The Reference Index is calculated based on market capitalisation adjusted by free float weight. Constituents are capped at 1.5% at the time of the annual review.

The Reference Index is a total return index. A total return index calculates the performance of the index constituents on the basis that any dividends or distributions are reinvested.

##### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for all share classes of the Fund is 1.00%.

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers FTSE 100 Equal Weight UCITS ETF (DR)

Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the FTSE 100 Semi Annual Equal Weighted Index (the "Reference Index"). The Reference Index is an equal weighted index designed to reflect the performance of large UK listed companies that are constituents of the FTSE 100 Index with each company in the Reference Index at the time of rebalancing being allocated a fixed weight of 1%. The Reference Index consists of the largest 100 UK companies listed on the London Stock Exchange. The companies are selected on the basis that they have the largest combined value of shares as compared to other companies on the London Stock Exchange.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 1.00%.

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers Barclays USD Corporate Bond UCITS ETF (DR)

Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the Barclays USD Liquid Investment Grade Corporate Index (the "Reference Index"). The Reference Index consists of fixed-rate, investment grade, US Dollar denominated securities. The Reference Index includes securities issued by US and non-US-domiciled industrial, utility and financial companies that meet specific maturity, credit quality, and liquidity requirements. The Reference Index is a sub-set of the Barclays USD Corporate Index. Further information on the Reference Index is contained under the heading "General Description of the Underlying Asset" in the relevant supplement.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 1.00%.

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers iBoxx Eurozone Sovereigns Quality Weighted UCITS ETF (DR)

Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the Markit iBoxx EUR Eurozone Sovereigns Quality Weighted Index (the "Reference Index"). The Reference Index consists of EUR denominated investment grade sovereign bonds issued by Eurozone countries. The Reference Index aims to offer a targeted coverage of the EUR denominated sovereign bond universe with adjusted weights, by allocating higher weights to countries with relatively solid fundamentals and reducing weights of countries with relatively weak fundamentals. Further information on the Reference Index is contained under the heading "General Description of the Underlying Asset" in the relevant supplement.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

The Fund has tracked the Reference Index within its anticipated tracking error. The anticipated tracking error for the Fund is 1.00%.

# CONCEPT FUND SOLUTIONS PLC

## db x-trackers MSCI World Energy Index UCITS ETF (DR)

Investment Manager's Report for the financial year ended 31 December 2016

### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI World Energy Total Return Net Index (the "Reference Index"). The Reference Index is designed to reflect the performance of the shares of certain companies in various developed markets. The shares are issued by companies in the energy sector.

### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

	<b>Total Net Assets</b>	<b>Net Assets per Share</b>
	<b>31/12/2016</b>	<b>31/12/2016</b>

# CONCEPT FUND SOLUTIONS PLC

## db x-trackers MSCI World Industrials Index UCITS ETF (DR)

Investment Manager's Report for the financial year ended 31 December 2016

### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI World Industrials Total Return Net Index (the "Reference Index"). The Reference Index is designed to reflect the performance of the shares of certain companies in various developed markets. The shares are issued by companies in the industrials sector.

### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

	<b>Total Net Assets</b>	<b>Net Assets per Share</b>
	<b>31/12/2016</b>	<b>31/12/2016</b>
db x-trackers MSCI World Industrials Index UCITS ETF (DR)	\$26,623,662	\$28.56
	<b>Year to Date</b>	<b>Year to Date</b>
	<b>Fund Return</b>	<b>Index Return</b>
db x-trackers MSCI World Industrials Index UCITS ETF (DR)	11.82%	12.02%
	<b>Year to Date</b>	<b>Year to Date</b>
	<b>Tracking Error</b>	<b>Tracking Difference<sup>1</sup></b>
db x-trackers MSCI World Industrials Index UCITS ETF (DR)	0.09%	(0.20)%

<sup>1</sup> The tracking difference is due to differences on taxes and the Fund's being optimised.

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers MSCI World Consumer Discretionary Index UCITS ETF (DR)

Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI World Consumer Discretionary Total Return Net Index (the "Reference Index"). The Reference Index is designed to reflect the performance of the shares of certain companies in various developed markets. The shares are issued by companies in the consumer discretionary sector. The consumer discretionary sector consists of companies which provide non-essential goods or services.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

	<b>Total Net Assets</b>	<b>Net Assets per Share</b>

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers MSCI World Utilities Index UCITS ETF (DR)

Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI World Utilities Total Return Net Index (the "Reference Index"). The Reference Index is designed to reflect the performance of the shares of certain companies in various developed markets. The shares are issued by companies in the utilities sector, for example, power, water and gas services.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers iBoxx USD Emerging Sovereigns Quality Weighted UCITS ETF (DR)

Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the Markit iBoxx USD Emerging Markets Sovereigns Quality Weighted Index (the "Reference Index"). The Reference Index is designed to reflect the adjusted performance of USD-denominated sovereign bonds issued by emerging market countries. The Reference Index aims to offer a targeted coverage of the USD-denominated emerging market sovereign bonds universe with adjusted weights, by allocating higher weights to countries with relatively solid fundamentals and reducing weights of countries with relatively weak fundamentals.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

	<b>Total Net Assets</b>	<b>Net Assets per Share</b>

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers iBoxx EUR Corporates Yield Plus UCITS ETF (DR)

Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the Markit iBoxx EUR Corporates Yield Plus Index (the "Reference Index"). The Reference Index is designed to reflect the performance of the higher-yielding EUR denominated corporate bond market with a credit rating between BB- and AAA.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

	<b>Total Net Assets</b>	<b>Net Assets per Share</b>

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers MSCI USA Minimum Volatility UCITS ETF (DR)

Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI USA Minimum Volatility (USD) Index (the "Reference Index"). The Reference Index consists of the equities of large and mid-capitalisation US companies that provide the lowest absolute volatility of returns, measured by the rate of fluctuation in their daily price movements over time, within a certain set of constraints.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

	<b>Total Net Assets</b>	<b>Net Assets per Share</b>
	<b>31/12/2016</b>	<b>31/12/2016</b>
db x-trackers MSCI USA Minimum Volatility UCITS ETF (DR)	\$5,268,311	\$28.48

  

	<b>Year to Date</b>	<b>Year to Date</b>

## CONCEPT FUND SOLUTIONS PLC

### db x-trackers MSCI EMU Minimum Volatility UCITS ETF (DR)

Investment Manager's Report for the financial year ended 31 December 2016

#### Investment Objective

The investment objective of the Fund is to track the performance before fees and expenses of the Underlying Asset, which is the MSCI EMU Minimum Volatility (EUR) Index (the "Reference Index"). The Reference Index consists of equities from the 10 developed countries within the European Economic and Monetary Union ("EMU") that provide the lowest absolute volatility of returns, measured by the rate of fluctuation in their daily price movements over time, within a certain set of constraints.

#### Fund Performance

The Fund's performance amounts are calculated net of fees and taxes.

The Fund performed in line with its benchmark and within guided tolerance levels.

## Notes to the Financial Statements for the financial year ended 31 December 2016

### 1. General Information

The Company is an investment company with variable capital incorporated on 17 November 2004, authorised and regulated by the Central Bank under the European Communities (Undertakings for Collective Investments in Transferable Securities) Regulations 2011, as amended, and under the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1) (Undertakings for Collective Investments in Transferable Securities) Regulations 2015) (together the "UCITS Regulations"). The Company had no employees during the financial year (financial year ended 31 December 2015 – Nil). The Company has listed the following Funds on the Irish Stock Exchange; db x-trackers MSCI World Index UCITS ETF (DR), db x-trackers JPX-Nikkei 400 UCITS ETF (DR), db x-trackers FTSE All-World ex UK UCITS ETF (DR), db x-trackers S&P 500 UCITS ETF (DR), db x-trackers FTSE 100 Equal Weight UCITS ETF (DR), db x-trackers MSCI USA Minimum Volatility UCITS ETF and db x-trackers iBoxx USD Emerging Sovereigns Quality Weighted UCITS ETF (DR).

### 2. Basis of Preparation

The Financial Statements have been prepared for the financial year ended 31 December 2016.

#### Statement of compliance

These Financial Statements have been prepared in accordance with accounting standards generally accepted in Ireland including Financial Reporting Standard ("FRS") 102; the Financial Reporting Standard applicable in the UK and Republic of Ireland for the first time, the provisions of the UCITS Regulations and Irish Statute comprising the Companies Act 2014. Accounting standards generally accepted in Ireland in preparing Financial Statements giving a true and fair view are those published by the Institute of Chartered Accountants in Ireland and issued by the Financial Reporting Council ("FRC"). Prior to the mandatory application of FRS 102 from 1 January 2015 the Financial Statements were prepared in accordance with previous Irish GAAP.

The Company has availed of the exemption available to open ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 of FRS 102 and is not presenting cash flow statements.

The format and wording of certain line items on the primary statements contains departures from the Guidelines of the Companies Act 2014 to reflect this Company's structure as an Investment Fund.

All references to net assets throughout the documents refers to Net Assets Attributable to Holders of Redeemable Participating Shares unless otherwise stated.

#### Functional and presentation currency

The Financial Statements of the individual Funds are prepared in the functional currency of the respective Fund. The functional currency of each Fund is that as disclosed on the primary statements of the respective Fund. The Company Financial Statements of the Company are measured using Euro. The Company has also adopted Euro as the presentation currency.

Transactions in foreign currencies are translated at the foreign currency exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign currency closing exchange rate ruling at the Statement of Financial Position date. Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlement of monetary assets and liabilities are recognised in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated at the foreign currency exchange rates ruling at the dates that the values were determined. Foreign currency exchange differences relating to investments at fair value through profit or loss and derivative financial instruments are included in gains and losses on investments. All other foreign currency exchange differences relating to monetary items, including cash are presented in the Statement of Comprehensive Income.

Foreign exchange gain and losses on financial assets and financial liabilities at fair value through profit and loss are recognised together with other changes in fair value. Included in the Statement of Comprehensive Income line item "Net gains/(losses) on investments at fair value through profit or loss during the financial year" are net foreign exchange gains and losses on monetary financial assets and financial liabilities other than those classified at fair value through profit or loss.

# CONCEPT FUND SOLUTIONS PLC

## Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

### 2. Basis of Preparation cont/d

#### Critical accounting estimates and judgements

The preparation of Financial Statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires the Board of Directors, based on the advice of the Manager to exercise its judgement in the process of applying the Company's accounting policies. The estimates and associated judgements are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the actual results.

### 3. Significant accounting policies

The accounting policies set out below have been applied consistently to all year and periods presented in these financial statements.

#### (a) Financial instruments

##### (i) Fair Value Measurement, Recognition and Derecognition

The Company has elected to apply the recognition and measurement provisions of IAS 39 and the disclosure requirements of sections 11 and 12 of FRS 102.

Financial instruments are measured initially at fair value (transaction price), last traded price used for equities and mid price used for bonds. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately.

Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income.

Financial assets classified as loans and receivables are carried at amortised cost using the effective interest rate method, less impairment losses, if any.

Financial liabilities, other than those at fair value through profit or loss, are measured at amortised cost using the effective interest rate method. Financial liabilities arising from the redeemable shares issued by the Company are carried at the redemption amount representing the Investors' right to a residual interest in the Company's assets.

The Company recognises financial assets and financial liabilities when all significant rights and access to the benefits from the assets and the exposure to the risks inherent in those benefits are transferred to the Company. The Company derecognises financial assets and financial liabilities when all such benefits and risks are transferred from the Company.

##### (ii) Categorisation

In accordance with IAS 39 Financial Instruments: Recognition and Measurements the Company has classified its investments as financial assets at fair value through profit or loss category, held for trading.

The category of financial assets and financial liabilities at fair value through profit or loss comprises:

- Financial instruments held-for-trading. These include total return swaps, funded swaps, interest rate swaps, exchange traded funds, futures contracts, equities and bonds included as financial assets at fair value through profit or loss on the Statement of Financial Position. All derivatives in a net receivable position (positive fair value), are reported as financial assets. All derivatives in a net payable position (negative fair value), are reported as financial liabilities.
- Financial instruments designated at fair value through profit or loss upon initial recognition. These include financial assets that are not held for trading purposes and which may be sold.

Financial assets that are classified as loans and receivables include deposits and accounts receivables.

Financial liabilities that are not at fair value through profit or loss include accounts payable and financial liabilities arising on redeemable shares.

## CONCEPT FUND SOLUTIONS PLC

### Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

#### 3. Significant accounting policies cont/d

##### (a) Financial instruments cont/d

###### (iii) Fair value measurement principles

If a quoted market price is not available on a recognised stock exchange or from a broker / dealer for non-exchange-traded financial instruments, the fair value of the instrument is estimated using valuation techniques, including use of recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

The fair value of derivatives that are not exchange-traded is estimated at the amount that the Company would receive or pay to terminate the contract at the Statement of Financial Position date taking into account current market conditions (volatility, appropriate yield curve) and the current creditworthiness of the counterparties.

The Company classifies its financial instruments using a fair value measurement that reflects the significance of inputs used in making measurements, as set out in note 10.

###### (iv) Total Return Swaps

"Total Return Swap" is the generic name for any non traditional swap where one party agrees to pay the other the "total return" of a defined underlying reference obligation, usually in return for receiving a stream of LIBOR based cashflows. The total return swap may be applied to any underlying reference obligation but is most commonly used with equity indices, single stocks, bonds and defined portfolios of loans and mortgages.

The total return swaps held by the Company are exposed to fluctuations on the underlying reference obligations. However, in contrast to the typical total return swap there are no periodic payments to the swap counterparty. The total return swaps are recorded as financial assets at fair value in the Statement of Financial Position.

The fair value of these total return swaps is determined by the Directors based on the mark to market valuation provided by the counterparty. In determining the mark to market valuation, the counterparty makes assumptions that are based on market conditions existing on each Statement of Financial Position date and uses valuation techniques which include the use of comparable recent arm's length transactions, discounted cash flow techniques, option pricing models and other valuation techniques commonly used by market participants.

###### (v) Funded Swaps

For the funded swap in the PIANO 400 Fund, there is a transfer of the amount on inception to the counterparty, Deutsche Bank AG, for the receipt of the mark to market performance of the underlying asset (a notional portfolio with three components being (i) an Alpha Pool; (ii) a Cash Pool; and (iii) an Interest Rate Swap, as set out in the supplement to the Prospectus) on reset date of the swap.

The Alpha Pool provides the basis of the Fund's performance by notionally investing in various fixed income instruments (including but not limited to money market instruments, municipal bonds, mortgage-backed securities and asset-backed securities, a full list of fixed income instruments represented in the Alpha Pool being set out in the Prospectus). The Cash Pool is intended to help achieve preservation of capital and liquidity by notionally investing in cash deposits and the Interest Rate Swap helps to manage the sensitivity of the combined Alpha Pool and Cash Pool to notional changes in interest rates. There are periodic payments from the counterparty to the Fund to cover fees and possible distribution payments.

Fair value for the funded swap is obtained from the value of the Underlying Asset, calculated using the closing levels of the Alpha Pool and Cash Pool and dependent on the allocation to each. The valuation procedure for the components of the Pools is based on the valuation methodology for each of the specific individual underlying instrument types.

## CONCEPT FUND SOLUTIONS PLC

### Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

#### 3. Significant accounting policies cont/d

##### (a) Financial instruments cont/d

##### (v) Funded Swaps cont/d

The return on the funded swap reflects the performance of:

- i) Euribor; plus
- ii) 8 times the return of the Alpha Pool (minus Euribor); plus
- iii) The return of the Cash Pool (minus Euribor); plus
- iv) The performance of the Interest Rate Swap

The Repurchase Price on the Final Repurchase Date (20 January 2025) will be not less than one hundred percent (100%) of the Initial Issue Price (provided there is no default by the Approved Counterparty with respect to its payment obligations under the Derivative Contracts on the Final Repurchase Date, in which case the Repurchase Price on such date may be less than one hundred percent (100%) of the Initial Issue Price).

##### (vi) Cash, cash equivalents and bank overdrafts

Cash comprises current deposits and overdrafts with banks. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Cash and cash equivalents are carried at amortised cost. Bank overdrafts are presented separately on the Statement of Financial Position.

##### (vii) Cash held with brokers for derivative contracts

Cash is deposited by or on behalf of the Fund for initial margin requirements for futures contracts.

##### (viii) Futures contracts

Initial margin deposits are made upon entering into futures contracts and are generally made in cash or cash equivalents. The fair value of futures contracts is based upon their current quoted daily settlement prices on the relevant exchange as of the Statement of Financial Position date. Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time realised gains and losses are recognised. For each relevant Fund, gains or losses on open futures contracts are shown in the Portfolio of Investments of each relevant Fund and as appropriate, on the Statement of Financial Position as financial assets or liabilities at fair value through profit or loss.

##### (ix) Forward foreign currency contracts

Forward Foreign Currency Exchange Contracts - The fair value of open forward foreign currency exchange contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. For each relevant Fund, gains or losses on open foreign currency exchange contracts are included in the financial assets (or liabilities) at fair value through profit or loss, as appropriate, on the Statement of Financial Position and are shown in the Portfolio of Investments of each relevant Fund.

##### (b) Interest income

All interest income and expense is recognised in the Statement of Comprehensive Income as it accrues, using the original effective interest rate of the instrument calculated at the acquisition or origination date.

Interest income includes the amortisation of any discount or premium, transaction costs or other differences between the initial carrying amount of an interest-bearing instrument and its amount at maturity calculated on an effective interest rate basis. Interest income on debt instruments at fair value through profit or loss is accrued using the original effective interest rate and classified to the "Income from investments at fair value through profit or loss" line item within the Statement of Comprehensive Income. Bank interest is recognised on a gross basis and is classified to "Bank interest" on the Statement of Comprehensive Income. Interest income is recognised on a gross basis, including withholding tax, if any. Interest expense is recognised in the Statement of Comprehensive Income for all debt instruments using the effective interest method and is classified on the following line item "Bank interest and charges".

## CONCEPT FUND SOLUTIONS PLC

### Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

#### 3. Significant accounting policies cont/d

##### **(c) Expenses**

All expenses, including management fees are recognised in the Statement of Comprehensive Income on an accrual basis.

##### **(d) Gains and Losses on Investments**

Realised gains and losses on sales of investments are calculated on the average book cost. Unrealised gains and losses on investments arising during the financial year are taken to the Statement of Comprehensive Income.

##### **(e) Taxation**

Interest income received by the Company may be subject to withholding tax imposed in the country of origin. Investment income is recorded gross of such taxes. Please refer to note 5 for details.

##### **(f) Participating Redeemable Shares**

The Fund classifies financial instruments issued as financial liabilities or equity instruments in accordance with the substance of the contractual terms or the instruments. The redeemable shares provide investors with the right to require redemption for cash at a value proportionate to the investor's share in the Fund's net assets at each redemption date and also in the event of the Fund's liquidation.

The redeemable shares are classified as financial liabilities and are measured at a value proportionate to the investor's share in the Fund's net assets at each redemption date. In accordance with the Fund's Prospectus, the redemption amounts of the individual redeemable shares are calculated using the last-traded prices of the Fund's underlying investments.

##### **(g) Participating Dividends payable**

Dividends payable on redeemable shares are recognised in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares on the day of payment.

##### **(h) Dividend income**

Dividend income is recognised when the right to receive income is established. Usually this is the ex-dividend date for equity securities. Dividend income from equity securities designated at fair value through profit or loss is recognised in the "Income from investments at fair value through profit or loss" line in the Statement of Comprehensive Income.

##### **(i) Securities lending income**

The Company has appointed Deutsche Bank AG, London Branch as its securities lending agent. Certain Funds may lend securities through the security lending agent to brokers, dealers and other financial organisations to earn additional income. Income earned from securities lending activities is accounted for on an accruals basis. See the Statement of Comprehensive Income and note 14 for details.

### 4. Significant agreements

#### Investment Manager

The Company has appointed Deutsche International Corporate Services (Ireland) Limited (the "Investment Manager") to provide certain investment related services to the Company. The Investment Manager was incorporated under the laws of Ireland on 19 September 1989. The Investment Manager is a wholly owned subsidiary of Deutsche International Financial Services (Ireland) Limited. The principal activity of the Investment Manager is to manage and/or administer collective investment schemes and special purpose vehicles. The Investment Manager is authorised and regulated by the Central Bank.

## CONCEPT FUND SOLUTIONS PLC

### Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

#### 4. Significant agreements cont/d

##### Investment Manager cont/d

The fees due under this investment management agreement will accrue daily and be calculated on each Dealing Day and paid each month in arrears with the exception of PIANO 400 Fund, which is paid quarterly. The Investment Manager will pay out of its fees (and not out of the assets of the Fund) the fees of any sub-investment manager. Neither the Investment Manager nor any sub-investment manager will be entitled to be reimbursed out of the assets of the Fund for their respective out-of-pocket expenses. The Investment Manager was paid fees during the financial year of EUR 14,232,605 (31 December 2015: EUR 11,265,396). The Investment Manager fees accrued at the financial year end were EUR 2,332,886 (31 December 2015: EUR 2,078,650).

##### Sub-Investment Managers

State Street Global Advisors Limited ("SSGA") has been appointed as the Sub-Investment Manager to PIANO 400 Fund. SSGA is a wholly owned ultimate subsidiary of State Street Corporation. SSGA is incorporated under the law of England and Wales, and is authorised and regulated by the United Kingdom Financial Conduct Authority ("FCA"). SSGA's fees for acting as Sub-Investment Manager to the Company are paid by the Investment Manager.

Deutsche Asset Management Investment GmbH (DAWM GmbH) has been appointed as the Sub-Investment Manager to the Sub-Funds which utilise a direct replication strategy (the DR Funds). DAWM GmbH has appointed Deutsche Asset Management (UK) Limited (DAMUK) as Sub-Portfolio Manager to the DR Funds. DAWM GmbH has been appointed as Sub-Investment Manager to Deutsche MSCI World Index Fund. Index Capital GmbH has been appointed as Allocation Agent to db x-trackers Portfolio Income UCITS ETF. Deutsche Asset Management (UK) Limited has been appointed as Sub-Investment Manager to db x-trackers EUR Liquid Corporate 12.5 UCITS ETF.

DAWM GmbH is a financial services institution, registered as HRB 23891 with the Commercial Register of the Municipal Court of Frankfurt am Main. The registered office address is Mainzer Landstraße 178-190, 60327 Frankfurt am Main, Germany. DAWM GmbH is authorised and regulated by the Bundesanstalt für Finanzdienstleistungsaufsicht ("BaFin") to provide individual portfolio management, investment advice, contract broking and investment broking.

Index Capital GmbH is registered in Munich, Germany with registered number WA 35-K 5000-126538-2011/0001. The registered office address is Heilmaierstraße 5, 81477 München, Germany. Index Capital GmbH is authorised and regulated by the BaFin to provide investment advice and reception and transmission of orders in relation to one or more financial instruments.

##### Platform Fee Arrangement

The Company in respect of each Fund has entered into an arrangement with Deutsche Bank AG (the "Platform Fee Arranger"), where the Platform Fee Arranger will, in exchange for a Platform Fee, finance the payment of the Platform Costs (namely the Auditors, Directors, Set-up Costs, Administrator's and Depositary's fees and expenses and such other similar or related expenses) from time to time of the Fund. Where applicable, the Platform Fee is calculated on the average daily Net Asset Value per Fund or per Class of Shares or the initial issue price and is accrued daily and payable monthly. The Platform fee is accrued quarterly on PIANO 400 Fund. The Platform Fees paid during the financial year were EUR 7,618,248 (31 December 2015: EUR (4,846,212)). The Platform Fees accrued at the financial year end were EUR 884,950 (31 December 2015: EUR 2,227,321). The Platform Fees are included in the Fixed fee arrangement line in the Statement of Comprehensive Income.

##### Performance Fee

In respect of the PIANO 400 Fund, the Fund will pay the Investment Manager on each Fee Deduction Date an incentive fee equal to 20% of the amount, if any, of the increase in the Net Asset Value per Share (adjusted as described in the Supplement) from the beginning of the Incentive Period to the end of the Incentive Period in excess of the Hurdle Rate (Euribor in respect of the Incentive Period + 0.675% multiplied by the Net Asset Value per Share at the beginning of the Incentive Period), multiplied by the number of Shares at the end of the Incentive Period, provided that the aggregate amount in the Loss Recovery Account has been recouped.

## CONCEPT FUND SOLUTIONS PLC

### Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

#### 4. Significant agreements cont/d

##### Performance Fee cont/d

The initial Incentive Period will commence on, but exclude, the Initial Issue Date and, thereafter, immediately following the close of the preceding Incentive Period, and shall end on, and include, (i) each Fee Valuation Date and any Dividend Valuation Date, (ii) the effective date that the Investment Manager ceases to be the Fund's investment manager or the Strategy Agent ceases to serve as Strategy Agent in respect of the Underlying Asset, (iii) the date when the Fund dissolves or terminates and (iv) on the date the Fund no longer holds a Derivative Contract linked to the Underlying Asset.

No Incentive Fee shall be paid to the Investment Manager (or accrued by the Fund) unless and until the Net Asset Value per Share exceeds the previous highest Net Asset Value per Share (adjusted as described in the Supplement) on which the Incentive Fee was paid or accrued. The amount of net profits, upon which the Incentive Fee will be based, will be based upon both realised and unrealised income, gains and losses. The Incentive Fee shall be calculated by the Administrator (and verified by the Depositary) on each Determination Date and paid on the relevant Fee Deduction Date. During each period, the Net Asset Value of Shares will reflect an estimated Incentive Fee amount which may be reconciled with final calculations on the relevant Fee Deduction Date. Performance fees during the financial year amounted to EUR 304,630 (31 December 2015: EUR 3,031,494), of which EUR Nil was payable at the financial year end (31 December 2015: EUR 320,076).

##### Depositary

The Company has appointed State Street Custodial Services (Ireland) Limited to act as depositary of its assets pursuant to the Depositary Agreement and to provide trustee services to each Fund in accordance with the UCITS regulations. Under the terms of the Depositary Agreement, the Depositary may, however, appoint any person or persons to be the sub-custodian of the assets of the Company. The depositary fees are paid from the Platform Fee Arrangement.

##### Administrator

The Company has appointed State Street Fund Services (Ireland) Limited to act as Administrator of the Company pursuant to the Administration Agreement. The Administrator is responsible for performing the day to day administration of the Funds including the registrar and transfer agency function and for providing fund accounting for the Fund, including the calculation of the Net Asset Value of the Fund and the Net Asset Value per Share. The Administrator fees are paid out of the Platform Fee Arrangement.

##### Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss plus, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Transaction costs on the purchase and sale of bonds, swaps, are included in the purchase and sale price of the investment. They cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed. Similarly custody transaction costs form part of the Total Expense Ratio of the Fund but are not distinguishable from the other expenses captured within the TER.

Transaction costs on purchases and sales of equities and futures are included in net gains/(losses) on investments in the statement of operations for each fund. Custody transactions costs are included in custodian/sub-custodian fees in the statement of operations for each Fund. These costs are separately identifiable transaction costs.

### Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

#### 5. Taxation

The Company is an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997. Therefore, the Company will not be liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event. A chargeable event includes any distribution payments to shareholders or any encashment, redemption or transfer of shares or the ending period for which the investment was held.

Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or the ending of a 'Relevant Period'. A 'Relevant Period' is an eight year period beginning with the acquisition of the shares by the shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A gain on a chargeable event does not arise in respect of:

- a) a shareholder who is not an Irish resident and not ordinarily resident in Ireland at the time of the chargeable event, provided the necessary signed statutory declarations are held by the Company;
- b) certain exempted Irish tax resident Investors who have provided the Company with the necessary signed statutory declarations;
- c) an exchange of shares arising on a qualifying amalgamation or reconstruction of the Company with another fund;
- d) any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland;
- e) certain exchanges of shares between spouses and former spouses on the occasion of judicial separation and/or divorce;
- f) an exchange by a shareholder, effected by way of an arm's length bargain where no payment is made to the shareholder of shares in the Company for other shares in the Company.

Capital gains, dividends and interest (if any) received on investment made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

In the absence of an appropriate declaration, the Company will be liable for Irish tax on the occurrence of a chargeable event, and the Company reserves its right to withhold such taxes from the relevant shareholders.

## CONCEPT FUND SOLUTIONS PLC

### Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

#### 7. Directors' remuneration

The Directors who are not associated with Deutsche Bank AG will be entitled to remuneration for their services as Directors, as described below. All of the Directors will be entitled to be reimbursed out of the assets of each Fund for their reasonable out of pocket expenses incurred in discharging their duties as Directors. With effect from 1 October 2014, the Directors will be paid before deduction by the Company of all amounts required to be deducted by law under the Pay As You Earn (PAYE) system, deductions of income tax (and potentially social security contributions) at source under that system and the deduction of the universal social charge (USC) at source by the Company under the USC system:

- a base fee of €25,000 per annum in respect of the first five launched sub-funds of the Company since 15 December 2004, as adjusted to reflect the subsequent termination of the sub-funds, as at the date that such base fee is to be paid (the Base Fee Funds). For the avoidance of doubt, a sub-fund will be deemed "launched" for the purposes of this Clause 6 once the Company has issued, and continues to issue, shares in that sub-fund in exchange for subscription proceeds;
- an additional fee of €1,250 per annum, in respect of each complex, systematic fund launched in addition to the Base Fee Funds, as determined by Deutsche Bank AG (the Promoter); and
- an additional fee of €750 per annum in respect of each non-complex, ETF index tracking sub-fund, launched in addition to the Base Fee Funds, as determined by Deutsche Bank AG.

Fees are subject to a maximum fee of €75,000 per Director per annum.

The Directors' Fees are paid from the Fixed Fee Arrangement; the amount of Directors' Fees paid during the financial year ended 31 December 2016 was EUR 149,188 (31 December 2015: EUR 104,095).

#### 8. Auditor's fee

The remuneration for all work carried out by the statutory audit firm, in respect of the financial year is included in the Fixed Fee Payment. Fees paid to PricewaterhouseCoopers in Ireland in respect of the financial year ended 31 December 2016 amounted to EUR 232,000 (exclusive of VAT) (for the financial year ended 31 December 2015: EUR 175,000 (exclusive of VAT)) for statutory audit work. Other assurance service fees paid to PricewaterhouseCoopers for the financial year ended 31 December 2016 were EUR 21,500 (for the financial year ended 31 December 2015: EUR Nil). There were no other tax advisory service fees paid to PricewaterhouseCoopers in Ireland.

#### 9. Shares in issue

##### Authorised Share Capital and Subscriber Shares

The authorised subscriber share capital at 1 March 2006 was EUR 300,002 represented by 300,002 shares (the "Subscriber Shares") issued for the purposes of the incorporation of the Company at an issue price of EUR 1 per Share. EUR 300,000 of these shares were repurchased during the first year, resulting in 2 shares in issue at the financial year end. These shares do not form part of the Net Asset Value of the Company. They are thus disclosed in the financial statements by way of this note only.

Subscriber Shares do not entitle the holders to any dividend and on winding up entitle the holder to receive the amount paid up thereon but not otherwise to participate in the assets of the Company.

The redeemable participating Shares are classified as liabilities in accordance with Financial Reporting Standard No. 25 "Financial instruments disclosure and presentation" as they are redeemable at the request of the holders. The authorised share capital of the Company is 2 subscriber shares of EUR 1 each and 1,000,000,000,000 shares of no par value initially designated as unclassified shares. The unclassified shares are available for issue as shares. The issue price is payable in full on acceptance. There are no rights of pre-emption attaching to the shares in the Company.

The redeemable participating shares issued by the Company are freely transferable and are entitled to participate equally in the profits and dividends of the relevant Fund and its assets upon liquidations. These shares, which are of no par value and which must be fully paid up on issue, carry no preferential or pre-emptive rights and are entitled to one vote each at all meetings of the relevant class of shareholders. All shares of each Fund will rank pari-passu. They may be redeemed by the Company at the request of the shareholder.

### 10. Financial Instruments and Associated Risks

#### General Risk Management Process

In accordance with paragraph 34.23 of FRS 102, this note details the way in which the Company manages risks associated with the use of financial instruments.

In pursuing their respective objectives, as set out in the Investment Managers' reports, the Funds hold a number of financial instruments:

1. Fixed interest and equity securities. These are held in accordance with each Fund's objectives.
2. Cash, liquid resources and short term debtors and creditors that arise directly from the Funds' operations.
3. Derivative transactions.

#### Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market price. It includes currency risk, interest rate risk and price risk. Market risk arises mainly from uncertainty about future prices of the financial instruments held. It represents the potential loss the Funds might suffer through holding market positions in the face of price movements.

Although the Funds' exposure to market price volatility on bond holdings is hedged by the swaps entered into, the Funds are still exposed to price fluctuations in the underlying basket of indices on which the swap returns are based. The makeup of the underlying holdings for each Fund is shown at the end of that Fund's Portfolio of Investments.

The sensitivity of the Funds to movements in market prices is incorporated in the VaR measurement for the PIANO 400 Fund and db x-trackers EUR Liquid Corporate 12.5 UCITS ETF, the remainder of the Funds use the commitment approach.

## CONCEPT FUND SOLUTIONS PLC

### Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

#### 10. Financial Instruments and Associated Risks cont/d

##### Market Risk cont/d

In respect of the Funds using the commitment approach, based on the relative performance of the Funds as compared to their benchmarks over the period from launch to 31 December 2016 and 31 December 2015, assuming that relative performance remained unchanged and with all other variables remaining constant, the impact of a 10% increase in market prices at the period end on the Net Asset Values of the Funds would have been as follows:

##### 31 December 2016

## Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

### 10. Financial Instruments and Associated Risks cont/d

#### Market Risk cont/d

A 10% decrease in market prices would have had a similar negative effect. The estimated sensitivities above are for illustrative purposes only and are not intended to be predictive. Actual fluctuations in response to market price changes may differ substantially from the above.

An analysis of price risk sensitivity for the PIANO 400 Fund and the db x-trackers EUR Liquid Corporate 12.5 UCITS ETF are contained in the VaR Table further on in this note.

#### (i) Currency Risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund may invest in financial instruments and enter into transactions in currencies other than its functional currency. Consequently, the Fund is exposed to risks that the exchange rate of its currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Fund's assets or liabilities denominated in currencies other than the functional currency.

The Funds disclosed in the following tables had exposure to currencies other than their functional currency as at 31 December 2016. None of the other Funds had exposure to currencies other than their functional currency as at 31 December 2016.

## CONCEPT FUND SOLUTIONS PLC

### Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

#### 10. Financial Instruments and Associated Risks cont/d

##### Market Risk cont/d

##### (ii) Interest Rate Risk

Interest rate risk is the risk that the present, fair value or future cash flows of a financial instrument will fluctuate as a result of a change in market interest rates.

As at 31 December 2016 and 31 December 2015 the PIANO 400 Fund held a fully funded swap position which has no direct, material interest rate risk exposure. As at 31 December 2016 and 31 December 2015 the db x-trackers EUR Liquid Corporate 12.5 UCITS ETF and db x-trackers MSCI GCC Select Index UCITS ETF held a total return swap positions which has no direct, material interest rate risk exposure.

The following tables outline the interest rates of the funds which hold bonds as at 31 December 2016 and 31 December 2015:

##### 31 December 2016

Fund	Bond's type	Number of items	Coupon	
			Min	Max
db x-trackers EUR Liquid Corporate 12.5 UCITS ETF	Government	48	0.00%	5.75%
db x-trackers Barclays USD Corporate Bond UCITS ETF (DR)	Corporate	996	1.55%	9.46%
db x-trackers iBoxx Eurozone Sovereigns Quality Weighted UCITS ETF (DR)	Government	180	0.00%	8.50%
db x-trackers iBoxx EUR Corporates Yield Plus UCITS ETF (DR)	Corporate	225	0.38%	10.13%
db x-trackers iBoxx USD Emerging Sovereigns Quality Weighted UCITS ETF (DR)	Corporate	9	2.10%	5.62%
	Government	145	2.13%	11.75%

##### 31 December 2015

Fund	Bond's type	Number of items	Coupon	
			Min	Max
db x-trackers EUR Liquid Corporate 12.5 UCITS ETF	Government	71	0.00%	2.50%
db x-trackers Barclays USD Corporate Bond UCITS ETF (DR)	Corporate	207	1.85%	9.63%
db x-trackers iBoxx Eurozone Sovereigns Quality Weighted UCITS ETF (DR)	Government	69	0.25%	6.25%

For further information regarding the range and value of the Funds' investment in interest bearing securities, refer to the respective Portfolios of Investment for each Fund. As at 31 December 2016 and 31 December 2015, other than the Funds mentioned above, none of the other Funds held interest bearing securities. Cash holdings of the Funds are not subject to significant interest rate risk.

##### Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. Liquidity risks arise when a particular security is difficult to dispose of. In principle, acquisitions for the Fund must only consist of securities that can be sold again at any time.

Nevertheless, it may be difficult to sell particular securities at the required time during certain phases or in particular exchange segments. There is also the risk that securities traded in a rather tight market segment may be subject to significant price volatility. Liquidity for the securities held in the Piano 400 Fund and db x-trackers EUR Liquid Corporate 12.5 UCITS ETF Fund is provided by Deutsche Bank AG and by HSBC for the db x-trackers MSCI GCC Select Index UCITS ETF, who are the counterparty to these Funds.

## Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

### 10. Financial Instruments and Associated Risks cont/d

#### Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The discretionary investment manager only buys and sells investments through brokers which have been approved. These approved brokers are monitored to determine that they remain acceptable counterparties. State Street is rated AA- (31 December 2015: AA-) and Deutsche Bank is rated BBB+ (31 December 2015: BBB+) by S&P. The brokers or counterparties to the derivative instruments held as at 31 December 2016 are noted on the individual Portfolio of Investments of the relevant funds. The credit ratings associated with the bond holdings are disclosed on the individual Portfolio of Investments.

An amount of EUR Nil (31 December 2015: EUR 115) has been deposited at State Street Bank and Trust Company by Deutsche Bank as collateral against their counterparty exposure on the Funds as shown below. This collateral is held in the name of the Depository and does not form part of the assets of the Funds. None of the other Funds had exposure to collateral against their counterparty as at 31 December 2016 and 31 December 2015.

An amount of EUR 486,690,999 (31 December 2015: EUR 502,913,647) has been provided by Deutsche Bank as collateral against their counterparty exposure on the PIANO 400 Fund in respect of the funded swap. This is held in the name of the Depository and does not form part of the assets of the Fund.

	PIANO 400 Fund EUR
<b>31 December 2016</b>	
Deutsche Bank AG Frankfurt	-
<b>31 December 2015</b>	
Deutsche Bank AG Frankfurt	115

Certain Funds may lend securities through the security lending agent to brokers, dealers and other financial organisations to earn additional income for further details in relation to credit risk associated with such investments please refer to Note 14 Efficient Portfolio Management.

The total fair value of assets exposed to credit risk on each of the individual funds is as follows:

The Funds' Depository is State Street Custodial Services (Ireland) Limited (the "Depository"). The majority of the investments are held by the Depository at the year ended 31 December 2016 and 31 December 2015. Investments are segregated from the assets of the Depository, with ownership rights remaining with the Funds. Bankruptcy or insolvency of the Depository may cause the Funds' rights with respect to its investments held by the Depository to be delayed or limited. The maximum exposure to this risk is the amount of long investments (excluding derivatives) disclosed on the individual Portfolio of Investments of the relevant Funds.

#### Structuring Risk

Structuring risk relates to the Synthetic ETF funds only. The Funds track the performance of underlying assets (through the use of total return or funded swaps, as described in the portfolio of investments). The Funds are not expected to track the relevant Underlying Asset with the same degree of accuracy as would an investment vehicle that is entirely invested in every underlying security. However, it is intended that the difference between the performance of the Shares of the Fund (before the Fund's fees and expenses) and the performance of the Underlying Asset will not be substantial. It should be noted that exceptional circumstances may arise which cause a Fund's tracking accuracy to be substantially different from the performance of the Underlying Asset; while the Directors and Investment Manager have made every effort to ensure the swaps are structured to achieve their tracking objectives (and in relation to the PIANO 400 Fund to also provide capital protection) there is a risk that these objectives will not be fully achieved.

## CONCEPT FUND SOLUTIONS PLC

### Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

#### 10. Financial Instruments and Associated Risks cont/d

##### Value at Risk (VaR)

##### Specific Instruments

The following Funds have invested in Portfolio Swap Transactions: PIANO 400 Fund, db x-trackers MSCI GCC Select Index UCITS ETF and db x-trackers EUR Liquid Corporate 12.5 UCITS ETF.

State Street Global Advisors Limited ("SSGA"), as the Sub-Investment Manager for the PIANO 400 Fund and Deutsche International Corporate Services (Ireland) Limited, as the Investment Manager for the remaining Funds, monitor, measure and manage the investment in and use of financial derivative instruments ("FDIs") by the Funds.

The controls and systems in place to manage derivative and associated risks are appropriate to their complexity and intended use. A Value at Risk methodology is used for the PIANO 400 Fund and the db x-trackers EUR Liquid Corporate 12.5 UCITS ETF to measure global exposure in the portfolios and to the additional risk associated with the use of financial derivative instruments. The process for calculating and monitoring Value at Risk is undertaken by the Investment Manager for db x-trackers EUR Liquid Corporate 12.5 UCITS ETF and SSGA for the PIANO 400 Fund. The following Funds also held FDIs at 31 December 2016; db x-trackers MSCI AC Far East ex Japan Index UCITS ETF (DR), db x-trackers JPX-Nikkei 400 UCITS ETF (DR), db x-trackers Barclays USD Corporate Bond UCITS ETF (DR) and db x-trackers S&P 500 UCITS ETF (DR) which both held forward foreign currency contracts and futures contracts; db x-trackers MSCI North America High Dividend Yield Index UCITS ETF (DR), db x-trackers MSCI USA Index UCITS ETF (DR), db x-trackers S&P 500® Equal Weight UCITS ETF (DR), db x-trackers MSCI AC World Index UCITS ETF (DR), db x-trackers Russell 2000 UCITS ETF (DR), db x-trackers MSCI Nordic Index UCITS ETF (DR), db x-trackers Mittelstand & MidCap Germany UCITS ETF (DR), db x-trackers MSCI World Index UCITS ETF (DR), db x-trackers MSCI World Minimum Volatility UCITS ETF (DR), db x-trackers MSCI World Quality Factor UCITS ETF (DR), db-x trackers MSCI World Momentum Factor UCITS ETF (DR), db x-trackers MSCI World Value Factor UCITS ETF (DR), db x-trackers FTSE All-World ex UK UCITS ETF (DR), db x-trackers FTSE 100 Equal Weight UCITS ETF (DR), db x-trackers MSCI World Energy Index UCITS ETF (DR) and db x-trackers Russell Midcap UCITS ETF (DR) which all held futures contracts. The Funds use the commitment approach to measure global exposure on the portfolios. The process for calculating and monitoring the commitment approach for these Funds is undertaken by the Sub-Investment Manager. The remaining Funds did not hold FDIs at 31 December 2016.

The systems used to monitor and measure derivative exposure are analytical tools such as Citigroup Yield Book and proprietary databases as well as spreadsheet applications used in conjunction with industry standard information and pricing sources such as Bloomberg and Reuters to value and monitor Derivative positions and ensure compliance with pre-defined hedging and investment parameters.

The Investment Manager uses systems and analytical tools to monitor and measure derivative exposure such as Bloomberg Professional, Paladyne and proprietary databases as well as spreadsheet applications used in conjunction with industry standard information and pricing sources such as Bloomberg and Reuters to value and monitor derivative positions and ensure compliance with pre-defined hedging and investment parameters. In respect of the Funds for which the Sub-Investment Manager is the risk monitor, it uses systems such as Charles River and software by RiskMetrics to calculate reports on market risk, position feeds from Risk Data Mart or RDM as well as spreadsheet applications used in conjunction with industry standard information and pricing sources such as Bloomberg and Reuters to value and monitor derivative positions and ensure compliance with pre-defined hedging and investment parameters. SSGA will use systems and analytical tools to monitor and measure derivative exposure, such as Citigroup Yield Book and proprietary databases, as well as spreadsheet applications used in conjunction with industry standard information and pricing sources such as Bloomberg and Reuters to value and monitor derivative positions and ensure compliance with pre-defined hedging and investment parameters. The criteria used for assessing these systems are that they should allow risk monitoring of FDIs on a standalone basis but more significantly allow integration of derivative positions within the overall Funds' investment portfolios to provide a comprehensive monitoring of any breaches of the investment guidelines by combining direct and indirect holdings through derivatives.

## CONCEPT FUND SOLUTIONS PLC

### Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

#### 10. Financial Instruments and Associated Risks cont/d

##### Value at Risk (VaR) cont/d

##### Specific Instruments cont/d

The relevant risk monitor endeavours to ensure that appropriate controls are implemented and evidenced as being operative at all stages of the investment process, execution controls in the form of investment guidelines documenting Fund mandate(s), investment restrictions laid down by the UCITS Regulations, compliance and audit will, by undertaking periodic reviews, provide additional comfort independent of the fund management function that adequate controls are in place, daily reports generated by operations teams that highlight all financial derivative exposures and cover within given portfolios and portfolio analysts checking designated accounts to ensure that derivative prices, data sets, interest rates and foreign exchange rates feed into the approved derivative exposure and measurement and assessment models are accurate.

OTC derivatives such as swaps and forward foreign currency contracts are governed by internationally recognised master agreements, such as the International Swaps and Derivatives Association ("ISDA") Master Agreement. Swap confirmations are tracked and checked to confirm the terms of the trades are fully and correctly documented. The Investment Manager or any delegate investment managers use attorneys who have significant expertise in derivatives use and documentation.

##### Fund Risks

Risk can be separated into the following components: market risk, credit risk and liquidity risk. Each type of risk is discussed in turn and qualitative and quantitative analyses are provided where relevant to give the reader an understanding of the risk management methods used by the Investment Manager and the Board of Directors.

##### *Swap Agreements*

Some of the Funds aim to achieve their investment objectives by gaining exposure to the relevant Underlying Assets through the use of swaps. The return of the Fund (after fees and expenses) will reflect the performance of the derivative contracts. A swap involves the exchange by the Fund with another party of their respective commitments to pay or receive cash flows, e.g. an exchange of coupon payments for the return on a particular index or basket of indices.

An analysis of the swap agreements held at financial year end is contained in each Fund's Schedule of Investments. Investments held at financial year end are representative of the type of investments held during the financial year.

The risk exposure of PIANO 400 Fund and the db x-trackers EUR Liquid Corporate 12.5 UCITS ETF are measured using the Value at Risk ("VaR") methodology. None of the other Funds use VaR. In order to measure the leverage effect, a VaR calculation using either the Relative or Absolute VaR measures will be undertaken, dependant on whether the Fund in question is managed against a specific benchmark. In calculating the VaR the following parameters were used:

- A confidence level of 99%;
- A holding period of 1 month;
- An historical observation period of 3 years for the PIANO 400 Fund and 186 days for the db x-trackers EUR Liquid Corporate 12.5 UCITS ETF; and
- The absolute VaR will not be greater than 20% of the Net Asset Value (10% in respect of the PIANO 400 Fund).
- At the financial year end the leverage for the PIANO 400 Fund was 102.57% (31 December 2015: 99.85%), the average leverage was 101.10% (31 December 2015: 97.93%) with the highest level during the financial year being 102.57% (31 December 2015: 99.93%). At the financial year end the leverage for the db x-trackers EUR Liquid Corporate 12.5 UCITS ETF was 322.97% (31 December 2015: 366.97%), the average leverage was 352.51% (31 December 2015: 351.99%) with the highest level during the financial year being 571.56% (31 December 2015: 379.23%).

The risk model is based on a historical simulation approach. The risk metrics will be highly dependent on the historical period used in the estimation and how representative this is of potential future risk.

## CONCEPT FUND SOLUTIONS PLC

### Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

#### 10. Financial Instruments and Associated Risks cont/d

##### Value at Risk (VaR) cont/d

###### Stress Testing

Independent of the VaR calculation, appropriate stress scenarios are applied to measure any potential major depreciation of the UCITS value as a result of unexpected changes in the risk factors. At a minimum, stress tests are completed quarterly.

###### Back Testing

Actual periodic changes in the value of the portfolio are used to test the VaR model. Frequency of excesses over VaR will be measured against the confidence level. If the frequency of excesses is larger than that implied by confidence level, subject to some tolerance, then appropriate action will be taken.

The table below indicates the relative VaR for the Funds as at 31 December 2016:

	Holding Period	Mean	Maximum	Minimum	Std. Dev.	Confidence	Fund VaR	Index VaR
PIANO 400 Fund	1 month	(2.22)%	(1.32)%	(3.37)%	0.55%	(2.67)%	(2.67)%	(2.67)%
db x-trackers EUR Liquid Corporate 12.5 UCITS ETF	1 month	37.84%	48.47%	28.31%	7.51%	99.00%	6.01%	n/a

The table below indicates the relative VaR for the Funds as at 31 December 2015:

	Holding Period	Mean	Maximum	Minimum	Std. Dev.	Confidence	Fund VaR	Index VaR
PIANO 400 Fund	1 month	(2.06)%	(2.75)%	(0.56)%	(0.27)%	99%	(1.95)%	(1.95)%
db x-trackers EUR Liquid Corporate 12.5 UCITS ETF	1 month	32.51%	46.41%	7.87%	15.85%	99%	9.23%	n/a

###### Fair valuation hierarchy

FRS 102 Section 11.27 on "Fair Value: Disclosure" requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

The Company classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements, using a quantitative and qualitative analysis of those instruments recognised at fair value based on a three-level measurement hierarchy.

The fair value hierarchy has the following levels as defined under FRS 102 Section 34.22:

Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.

Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

Furthermore, for those instruments which have significant unobservable inputs (Level 3), the Company discloses the transfers into and out of Level 3, a reconciliation of the opening and closing balances, total gains and losses for the period/year split between those recognised in the Statement of Comprehensive Income and recognised through the statement of total recognised gains and losses, purchases, sales issues and settlements, and a sensitivity analysis of assumptions used in determining the fair value of Level 3 positions.

The level in the fair value hierarchy within which the fair value measurement was categorised in its entirety was determined on the basis of the lowest level input that was significant to the fair value measurement in its entirety. For this purpose, the significance of an input was assessed against the fair value measurement in its entirety. If a fair value measurement used observable inputs that required significant adjustment based on unobservable inputs, that measurement was a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety required judgement, considering factors specific to the asset or liability. The determination of what constituted "observable" required significant judgement by the Investment Manager.

<sup>1</sup> Fund launched during the financial year ended 31 December 2016.

<sup>2</sup> These funds terminated on 27 June 2016.

Deutsche Bank AG did not have a significant shareholding in db x-trackers JPX-Nikkei 400 UCITS ETF (DR), db x-trackers FTSE 100 Equal Weight UCITS ETF (DR) and db x-trackers Barclays USD Corporate Bond UCITS ETF (DR) as at 31 December 2016.

There is only one shareholder, who is not otherwise a related party, in the PIANO 400 Fund.

Although Deutsche Bank AG is the sole direct investor in these Funds, some or all of the holdings in each Fund are re-sold on secondary markets.

## CONCEPT FUND SOLUTIONS PLC

### Notes to the Financial Statements for the financial year ended 31 December 2016 cont/d

#### 13. Related party transactions cont/d

The portfolio of investments of db x-trackers Portfolio Income UCITS ETF is fully invested in a range of db x-trackers and db x-trackers II Exchange Traded Funds (ETFs), which are related parties by virtue of having either a common investment manager or an Investment Manager who is part of the same ultimate parent group as Deutsche Bank AG. All gains or losses on investments and investment income for the Fund during the financial year as shown in the Statement of Comprehensive Income relates to investments in such related parties.

For details of fees paid to the Investment Manager and Sub-Investment Manager please refer to Note 4 Significant agreements. For details of Directors' Fees paid during the financial year please refer to Note 7 Directors' remuneration.

Broker commissions and fees on purchases and sales of securities for which Deutsche Bank AG or an associated entity acted as broker amounted to EUR 181,586 (financial year ended 31 December 2015: EUR 312,887) for the financial year.

#### 14. Efficient Portfolio Management

The Company may, on behalf of each Fund and subject to the conditions and within the limits laid down by the Central Bank, employ techniques and instruments relating to transferable securities for efficient portfolio management purposes. Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving a reduction in risk, a reduction in costs or an increase in capital or income returns to a Fund and may not be speculative in nature. Such techniques and instruments will be utilised in accordance with the requirements of the Central Bank. New techniques and instruments may be developed which may be suitable for use by the Company and the Company (subject as aforesaid) may employ such techniques.

During the financial year ended and as at 31 December 2016 and 31 December 2015, the Company employed techniques or instruments for Efficient Portfolio Management purposes, see detail below.

Stock lending agreements may be used by the Funds for efficient portfolio management purposes. Deutsche Bank AG, London Branch, acts as securities lending agent for securities lending transactions entered into on behalf of the Funds.

During the financial year ended 31 December 2016, the Funds as disclosed in the below tables had stock lending agreements in place. The tables detail the fair value of securities on loan at 31 December 2016.

<b>Fund</b>	<b>Currency</b>	<b>Quantity on loan at 31 December 2016</b>	<b>Fair Value as at 31 December 2016</b>
<b>db x-trackers MSCI Nordic Index UCITS ETF (DR)</b>			
Alfa Laval	EUR	30,000	476,611

## Supplemental Data (Unaudited) cont/d

### D. Annual Report Disclosures (Unaudited)

Securities Financing Transactions Regulation (Regulation (EU) 2015/2365) ("SFTR") came into force on 12 January 2016 and, amongst other requirements, introduces new disclosure requirements in the Fund's annual and half-yearly reports published after 13 January 2017 detailing the Fund's use of securities financing transactions and total return swaps. As a result, additional disclosures have been included in the appendix to the annual report.

#### Securities Financing Transactions

Article 13 of Regulation (EU) 2015/2365 on transparency of securities financing transactions (SFTs) and of reuse and amending Regulation (EU) No 648/2012, requires UCITS investment companies to provide the following information on the use made of SFTs and total return swaps (TRSs)

### Appendix 1 – Remuneration Disclosures (unaudited)

Regulation 89(3A) of the UCITS Regulations (as introduced pursuant to the UCITS V Regulations on 21 March 2016) requires that the annual report of the Company contains certain disclosures on remuneration paid by the Company to its staff during the financial year and details of any material changes to the Company's remuneration policy made during the period. In this regard, the following points are to be noted:

- The Company has prepared a remuneration policy outlining how it adheres to the remuneration requirements set out in the UCITS Regulations. This policy was adopted with effect from 27 May 2016 and no material changes were subsequently made to it during the financial year.
- The first annual performance period in which the Company has to comply with the remuneration requirements set out in the UCITS Regulations shall be the year ending 31 December 2016, i.e. the Company's current financial year.
- The Company has no employees or staff that it employs and pays directly. The Company has a Board of Directors, two of whom are employees of the Deutsche Bank group and receive no remuneration from the Company. The remaining three directors receive fixed fees only (for the year ended 31 December 2016; €149,750 in aggregate) and do not receive variable remuneration. These fees are set at a level that reflects the qualifications and contribution required taking into account the Company's size, internal organisation and the nature, scope and complexity of its activities.

As the Remuneration Policy was only adopted with effect from 27 May 2016, no annual reviews have as yet been undertaken and no material changes have been made to the Remuneration Policy since 27 May 2016.
