Directors' Report

During the year ending 31 December 2016, db x-trackers II** (the "Company") successfully launched three (3) new Sub-Funds and/or Share Classes offering Shareholders access to a variety of investment strategies. All Sub-Funds are passively managed (i.e. without any active management decision). The Sub-Funds have replicated their respective investment strategies as further outlined below, with minimal tracking error arising mainly due to the respective Sub-Fund's fees.

The following three (3) Sub-Funds and/or Share Classes were launched during the year ending 31 December 2016 and followed the indicated investment strategies:

Other db x-trackers II** initiatives involved the conversion of 17 Sub-Funds or Share Classes to Direct Replication from a synthetic model and index changes for 2 Sub-Funds. These initiatives aimed to improve our product range and answer client demand for physical ETFs.

Depending on the Sub-Fund's strategy, 2016 performances have been impacted, inter-alia, by the following factors:

- **Cash strategies:** 2016 saw the second rates hike since the 2008 financial crisis from the Federal Reserve System ("Fed") while the European Central Bank ("ECB") continued its monetary easing policy. As one might expect, exchange traded funds ("ETFs") tracking the Euro Over Night Index Average ("EONIA") experienced negative returns due to low rates coupled with the applicable fees.
- db x-trackers II FED FUNDS EFFECTIVE RATE UCITS ETF* ended the year up 3.1% in euro ("EUR") terms¹ due to the strengthening of the USD against EUR. Meanwhile, db x-trackers II AUSTRALIAN DOLLAR CASH UCITS ETF* also saw positive returns of +4.0%¹ while db x-trackers II STERLING CASH UCITS ETF* had negative performance of -15.6%¹ in EUR terms due to weakening GBP following the effects of the British referendum on European Union membership and subsequent political uncertainty in the UK.
- **Sovereign and covered bonds strategies:** In 2016, the general trend was positive and we saw better returns in the overall sovereign bond market compared to 2015. For example, db x-trackers II GLOBAL SOVEREIGN UCITS ETF* had a positive return of 4.8%¹ in EUR terms while db x-trackers II EUROZONE GOVERNMENT BOND UCITS ETF (DR) and db x-trackers II IBOXX \$ TREASURIES UCITS ETF (DR) respectively had positive returns of +3.3%¹ and +3.7%¹.
- European sovereign bond performances were mainly driven by long dated bonds as well as core countries. Indeed, the best Eurozone government bond performer was db x-trackers II EUROZONE GOVERNMENT BOND 25+ UCITS ETF (DR) with a performance of +11.8%¹ while db x-trackers II EUROZONE GOVERNMENT BOND 1-3 UCITS ETF (DR) had a performance of +0.2%¹. db x-trackers II IBOXX SOVEREIGNS EUROZONE AAA UCITS ETF* also had a positive performance of +4.1%¹ while db x-trackers II IBOXX SOVEREIGNS EUROZONE YIELD PLUS UCITS ETF* had a performance of +2.6%¹.
- Overall emerging market sovereign bond strategies slightly underperformed in comparison to their developed markets peers and db x-trackers II EMERGING MARKETS LIQUID EUROBOND UCITS ETF* had a performance of +4.4%¹.
- The top performing sovereign bond ETFs were db x-trackers II MARKIT IBOXX ABF INDONESIA GOVERNMENT UCITS ETF* and db x-trackers II EUROZONE GOVERNMENT BOND 25+ UCITS ETF (DR), returning + 18.2%¹ and + 11.8%¹ respectively.
- European covered bond ETFs produced positive returns as set out below.

¹ All return figures in this Directors' Report are calculated based on returns in EUR. All conversions into EUR were made with WM/ Reuters closing spot rates at 16:00 UK GMT.

Directors' Report (continued)

- **Inflation-linked strategies:** 2016 was a good year for inflation-linked strategies, with db x-trackers II IBOXX GLOBAL INFLATION LINKED UCITS ETF* producing a return of + 6.9%¹. This trend was also evident with Treasury Inflation-Protected Securities ("TIPS"), as db x-trackers II IBOXX \$ TREASURIES INFLATION-LINKED UCITS ETF (DR) experienced strong gains returning +7.5%¹ in EUR terms.
- **Corporate bond strategies:** Investment grade corporate bonds had a positive year with db x-trackers II IBOXX EUR LIQUID CORPORATE UCITS ETF* returning +3.0%¹. 2016 created a positive environment for corporate bonds especially in Europe with the Corporate Sector Purchase Program of the ECB (CSPP) announced in March 2016 and continued quantitative easing ("QE").
- In Europe, the resulting yield compression and credit spread tightening resulted in a market "hunt for yield", from which the high yield bond market was one of the beneficiaries. db x-trackers II IBOXX EUR HIGH YIELD BOND UCITS ETF* achieved a positive performance of +7.7%¹.
- The financial sector underperformed the broader corporate bond market with db x-trackers II IBOXX EUR LIQUID CORPORATE FINANCIALS UCITS ETF* producing a return of + 2.2%¹.
- **Credit strategies:** ETFs which were long credit, i.e. those which represent short positions in the credit default swap ("CDS") single names, outperformed their inverse equivalents. This was due to a reduction in credit spreads and the positive carry long credit positions received due to CDS premiums.
- The best performing credit ETF, db x-trackers II ITRAXX® CROSSOVER UCITS ETF*, returned + 2.5%¹.

Below follows an overview of the 2016 performances of all Sub-Funds and/or Share Classes which were launched before the beginning of the financial year ending 31 December 2016 (and therefore for which there is a full year of performance data).

Independent auditor's report

To the Shareholders of db x-trackers II
49, avenue J.F. Kennedy
L-1855 Luxembourg

Following our appointment by the annual general meeting of the Shareholders of 29 March 2016, we have audited the accompanying financial statements of db x-trackers II (the "SICAV") and of each of its Sub-Funds, which comprise the Statement of Net Assets and the Statement of Investments as at 31 December 2016 and the Statement of Operations and Changes in Net Assets for the year then ended, and a summary of significant accounting policies and other explanatory notes to the financial statements.

Responsibility of the Board of Directors of the SICAV for the financial statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation and presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the "réviseur d'entreprises agréé"

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier". Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the judgement of the "réviseur d'entreprises agréé", including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the "réviseur d'entreprises agréé" considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors of the SICAV, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of db x-trackers II and of each of its Sub-Funds as of 31 December 2016, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Other matter

Supplementary information included in the annual report has been reviewed in the context of our mandate but has not been subject to specific audit procedures carried out in accordance with the standards described above. Consequently, we express no opinion on such information. However, we have no observation to make concerning such information in the context of the financial statements taken as a whole.

b) Investment Objectives and Policies

A Sub-Fund may carry out its Investment Objective via an Indirect Investment Policy and/or a Direct Investment Policy as more fully described in the following paragraphs.

Sub-Funds with an Indirect Investment Policy

Sub-Funds with an Indirect Investment Policy (“Indirect Replication Funds”) may not invest directly in the constituents of the Reference Index. Instead, the exposure to the performance of the Reference Index will be achieved by way of derivative transactions and/or instruments (the “Derivative Transaction(s)”). In particular, an Indirect Replication Fund will conclude OTC swap transactions negotiated at arm’s length with one or more Swap Counterparties (the “OTC Swap Transaction(s)”).

In order to achieve its Investment Objective and in accordance with the Investment Restrictions, an Indirect Replication Fund may at any time invest part or all of the net proceeds of any issue of its Shares in Invested Assets and use one or more Derivative Transactions the purpose of which is to exchange all or part of the performance and/or income of such Invested Assets to gain exposure to the Reference Index (an “Unfunded Swap”) (refer to Note 4).

The Invested Assets, Derivative Transactions and any techniques used to link the Invested Assets to the Reference Index or the Derivative Transactions will be managed by the relevant Investment Manager and/or Sub-Portfolio Manager. The management of the Invested Assets will generally not involve the active buying and selling of securities on the basis of investment judgement and economic, financial and market analysis.

In principle, the return that the Shareholder will receive will largely be dependent on the performance of the Invested Assets, the performance of the Reference Index and the performance of any techniques used to link the Invested Assets to the Reference Index.

Depending on the value of the Derivative Transactions an Indirect Replication Fund may be at any time fully or partially exposed to one or more counterparties (including one or more Swap Counterparties), in which case counterparty risk mitigation arrangements compliant with the Regulations will be implemented and/or payment will be received from the Derivative Transactions counterparties so that the percentage of the counterparty risk exposure remains within the limits set out in the Regulations.

Sub-Funds with a Direct Investment Policy

Sub-Funds with a Direct Investment Policy are identified by the reference "(DR)" at the end of their name.

* This is a synthetic ETF.

** This includes synthetic ETFs.

Notes to the Financial Statements (continued)

1. General (continued)

b) Investment Objectives and Policies (continued)

Sub-Funds with a Direct Investment Policy (“Direct Replication Funds”) may carry out their investment objective by investing in a portfolio of transferable securities or other eligible assets that may comprise all (or, on an exceptional basis, a substantial number of) the constituents of that Reference Index (“Full Index Replication”), an optimised sample thereof, or unrelated transferable securities or other eligible assets (“Optimised Index Replication”).

Direct Replication Funds may not hold every constituent or the exact weighting of a constituent in the Reference Index but instead may seek to gain exposure to a Reference Index by utilising optimisation techniques and/or by investing in securities that are not part of that Reference Index. The types of securities in which Direct Replication Funds may invest include American depositary receipts (“ADRs”), global depositary receipts (“GDRs”), and/or non-voting depositary receipts (“NVDRs”).

The extent to which a Direct Replication Fund utilises optimisation techniques will partly depend on the nature of the constituents of its Reference Index. For example, a Direct Replication Fund may utilise optimization techniques and may be able to provide a return similar to that of its Reference Index by investing in a sub-set of the constituents on its Reference Index. Use of these investment techniques, the implementation of which is subject to a number of constraints detailed in the “Investment Restrictions” section of the Prospectus, may not produce the intended results.

c) The Shares

The Shares may be differentiated between Distribution Shares (identified by the letter “D”) and Capitalisation Shares (identified by the letter “C”). Other Classes may be offered with specific features such as conversion or redemption charge, minimum subscription amount or other specific features. Within each Class of Shares, several types of sub-classes can be issued (identified by capital alphabetic letters), differentiating between (but not limited to) dividend payment structures, dividend payment dates, and fee structures. The Shares will be listed for trading on one or more stock exchanges unless otherwise specified in the relevant Product Annex of the Prospectus.

The Shares will be issued by the Company exclusively in relation to Sub-Funds with the Investment Policies described in the Prospectus and may be subscribed in cash or in kind (or a combination of both cash and in kind).

2. Accounting policies

The financial statements of the Company have been prepared according to accounting principles generally accepted in Luxembourg and applicable for investment funds. The significant accounting policies used are as follows:

a) Valuation of investments

The Net Asset Value of the Company is at any time equal to the total of the Net Asset Values of the Sub-Funds.

The Net Asset Value of the Sub-Funds shall be determined in accordance with the following rules:

- (i) the value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be determined after making such discount as may be considered appropriate in such case to reflect the true value thereof;

** This includes synthetic ETFs.

Notes to the Financial Statements (continued)

2. Accounting policies (continued)

a) Valuation of investments (continued)

- (ii) the value of all securities which are listed or traded on an official stock exchange or traded on any other Regulated Market will be valued on the basis of the last available prices on the Business Day immediately preceding the Valuation Day or on the basis of the last available prices on the main market on which the investments of the Sub-Funds are principally traded. The Board of Directors will approve a pricing service which will supply the above prices. If, in the opinion of the Board of Directors, such prices do not truly reflect the fair market value of the relevant securities, the value of such securities will be determined in good faith by the Board of Directors either by reference to any other publicly available source or by reference to such other sources as it deems in its discretion appropriate;
- (iii) securities not listed or traded on a stock exchange or a Regulated Market will be valued on the basis of the probable sales price determined prudently and in good faith by the Board of Directors;
- (iv) securities issued by open-ended investment funds shall be valued at their last available net asset value or in accordance with item (ii) above where such securities are listed;
- (v) the liquidating value of futures or forward contracts that are not traded on exchanges or on other organised markets shall be determined pursuant to the policies established by the Board of Directors, on a basis consistently applied. The liquidating value of futures or forward contracts traded on exchanges or on other organised markets shall be based upon the last available settlement prices of these contracts on exchanges and organised markets on which the particular futures or forward contracts are traded; provided that if a futures or forward contract could not be liquidated on such Business Day with respect to which a Net Asset Value is being determined, then the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable;
- (vi) liquid assets and money market instruments may be valued at nominal value plus any accrued interest or using an amortised cost method; this amortised cost method may result in periods during which the value deviates from the price the relevant Sub-Fund would receive if it sold the investment. The Management Company may, from time to time, assess this method of valuation and recommend changes, where necessary, to ensure that such assets will be valued at their fair value as determined in good faith pursuant to procedures established by the Board of Directors. If the Board of Directors believes that a deviation from the amortised cost per Share may result in material dilution or other unfair results to Shareholders, the Board of Directors shall take such corrective action, if any, as it deems appropriate, to eliminate or reduce, to the extent reasonably practicable, the dilution or unfair results;
- (vii) the swap transactions will be consistently valued based on a calculation of the net present value of their expected cash flows;
- (viii) all other securities and other permissible assets as well as any of the above mentioned assets for which the valuation in accordance with the above sub-paragraphs would not be possible or practicable, or would not be representative of their fair value, will be valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors.

b) Investment transactions

The net realised gain / (loss) on sale of investments is determined on the basis of the average cost of investments sold. Investment transactions are accounted for on a trade date basis.

The net realised gain / (loss) on sale of investments is disclosed in the financial statements as “Net realised gain / (loss) on investments”.

The cost of the inflation-linked bonds is adjusted for inflation and these adjustments are recognised as interest on bonds.

2. Accounting policies (continued)

c) Conversion of foreign currencies

Accounting records are kept for each Sub-Fund in its reference currency. The Combined Statement of Net Assets and Statement of Operations and Changes in Net Assets of the Company are presented in Euro based on the exchange rate prevailing at the date of the Statement of Net Assets.

Income and expenses in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the transaction date.

Assets and liabilities in currencies other than the reference currency of a Sub-Fund are translated into the reference currency of the relevant Sub-Fund at the exchange rates prevailing at the date of the Statement of Net Assets.

The exchange rates used as at 31 December 2016 are:

1 Euro = 1.456636 AUD	1 Euro = 123.020762 JPY
1 Euro = 1.414472 CAD	1 Euro = 9.581981 SEK
1 Euro = 1.071995 CHF	1 Euro = 1.523797 SGD
1 Euro = 7.329985 CNY	1 Euro = 1.054750 USD
1 Euro = 0.853600 GBP	

d) Income

Interest is recorded on an accrual basis. Dividends are accounted for on the ex-date, net of withholding tax.

3. Taxation of the Company

Under current law and practice, the Company is not liable to any Luxembourg income taxes, stamp or other tax. Investment income and capital gains, if any, received or realised by the Company may, however, be subject to taxation in the country of origin at varying rates, which normally cannot be recovered by the Company.

Although the Company is, in principle, subject in Luxembourg to a subscription tax (“Taxe d’Abonnement”) at an annual rate of 0.05%, all Sub-Funds are exempt from such tax as (i) all their Shares are listed or traded on at least one stock exchange or another regulated market operating regularly, recognised and open to the public; and (ii) their exclusive objective is to reflect the performance of one or more indices, it being understood that this condition of exclusive objective does not prevent the management of liquid assets, if any, on an ancillary basis, or the use of techniques and instruments used for hedging or for purposes of efficient portfolio management. A Grand-Ducal regulation may determine additional or alternative criteria with respect to the indices under that exemption.

Subscription tax exemption also applies to (i) investments in a Luxembourg UCI subject itself to the subscription tax, (ii) UCI, compartments thereof or dedicated classes reserved to retirement pension schemes, and (iii) money market UCIs.

A reduced subscription tax of 0.01% per annum is applicable to individual compartments of UCIs with multiple compartments referred to in the 2010 Law, as well as for individual classes of securities issued within a UCI or within a compartment of a UCI with multiple compartments, provided that the securities of such compartments or classes are reserved to one or more institutional investors.

4. Swaps

The swap agreements are concluded at the beginning of the life of the Sub-Funds with the transferable securities and money market instruments having a similar cost to the notional value of the underlying asset. This position may however change during the life of the swap whereby the cost of the transferable securities and money market instruments, including net purchased accrued interest, may become higher / lower than the notional value of the underlying asset due to additional purchases / sales of transferable securities and money market instruments compared to the notional value of the underlying asset.

4. Swaps (continued)

The difference between these notional values is accounted for and disclosed in the financial statements as “Receivable due from swap counterparty” or as “Payable due to swap counterparty” depending on which notional is higher. The receivable balances will be settled to the Sub-Fund and the payable balances will be settled to the swap counterparty on termination of the respective swap agreement.

The table below lists the notional values of the paying and receiving legs of the swap and the unrealised gain / (loss) on swap per Sub-Fund.

As required by the Securities Financing Transactions Regulation (see note 5), the Company is required to disclose the amount of assets engaged in total return swaps expressed as an absolute amount and as a proportion of the Sub-Funds' Net Asset Value. The percentage of net assets disclosed in the above table is calculated using the Unrealised gain / (loss) on Swap in absolute terms divided by the total Net Asset Value. This figure is not representative of the counterparty risk calculation.

Deutsche Bank AG - London branch (United Kingdom) is the counterparty to the swap positions entered into by the Company.

All trades open at the end of the financial year ended 31 December 2016 have been transacted through bilateral settlement.

For all the Sub-Funds, there are no maturities for the above swap agreements.

5. Securities financing transactions

The Company is subject to the Regulation (EU) 2015/2365 of the European Parliament and of the Council on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 of the European Parliament ("SFTR"). The SFTR was issued on 25 November 2015 and took effect for all UCITS funds as from 12 January 2016. The disclosure requirements set out in the SFTR became effective for annual reports published after 13 January 2017.

A Securities Financing Transaction ("SFT") is defined in Article 3(11) of the SFTR as:

- ▶ a repurchase transaction or a reverse repurchase transaction;
- ▶ a securities or commodities lending and securities or commodities borrowing;
- ▶ a buy-sell back transaction or sell-buy back transaction;
- ▶ a margin lending transaction.

The SFTR also covers transactions that are commonly referred to as total return swaps ("TRS") (refer to Note 4). The Company held total return swaps as at 31 December 2016.

For all the total return swaps of the Company, there is no collateral posted or received as at 31 December 2016.

Barclays Bank Plc, Merrill Lynch International Bank of America Corporation and State Street Bank Luxembourg S.C.A. are the counterparties to these open Forward Foreign Exchange Transactions.

8. Management Company Fee and Fixed Fee

a) Management Company Fee

In accordance with and subject to the terms of the Management Company Agreement, the annual Management Company Fee will accrue on each calendar day and will be calculated on each Valuation Day on the basis of a percentage of (i) the last available Net Asset Value of each Sub-Fund or Class of Shares or (ii) the Initial Issue Price multiplied by the number of outstanding Shares of each Sub-Fund or Class of Shares (as indicated for each Sub-Fund or Class of Shares in the relevant Product Annex of the Prospectus). The Management Company Fee is payable quarterly.

The Management Company is also entitled to receive reimbursement for any reasonable expenses that were made in its capacity as management company of the Company in the context of the execution of the Management Company Agreement and that were not reasonably foreseeable in the ordinary course of business.

Notwithstanding the above, the Management Company and the Company may agree on a different fee structure in respect of a certain Sub-Fund or Class of Shares, as indicated in the relevant Product Annex of the Prospectus.

The Management Company may pay a Distribution Fee to the Distributors out of the Management Company Fee. A Distributor may re-allocate an amount of the Distribution Fee to a sub-distributor (as applicable).

b) Fixed Fee

Under the terms of an arrangement between the Company and Deutsche Bank AG, acting through its London branch (the "Fixed Fee Agent"), the Fixed Fee Agent will in exchange for the payment of a Fixed Fee, calculated on the average daily Net Asset Value per Sub-Fund or per Class at a rate as specified in the table below and payable periodically, pay certain fees and expenses, unless otherwise specified in the relevant Product Annex of the Prospectus.

** This includes synthetic ETFs.

Notes to the Financial Statements (continued)

8. Management Company Fee and Fixed Fee (continued)

b) Fixed Fee (continued)

The fees and expenses covered by the arrangement are the Administrative Agent Fee, the Depositary Fee, the Registrar, Transfer Agent and Listing Agent Fee, the annual tax in Luxembourg (if any) (the "Taxe d'Abonnement"), the formation expenses and certain other Administrative Expenses.

The Fixed Fee does not include the following fees, expenses and costs:

- the Investment Management Fee;
- the Management Company Fee;
- the costs of any marketing agencies appointed by the Company or the Management Company to provide certain marketing and distribution services to the Company or the Management Company;
- any taxes or fiscal charges which the Company may be required to pay, except the Taxe d'Abonnement, if any, or, if it should be payable, any value added tax or similar sales or services tax payable by the Company (VAT) (all such taxes or fiscal charges), unless otherwise specified in the relevant Product Annex of the Prospectus;
- expenses arising out of any advertising or promotional activities in connection with the Company; nor,
- any costs and expenses incurred outside of the Company's ordinary course of business such as extraordinary expenses (e.g. legal fees incurred in prosecuting or defending, a claim or allegation, by or against, the Company).

In particular, the Fixed Fee Agent will pay the invoices of legal advisers, local paying agents and translators provided and to the extent that these invoices do not in aggregate exceed the overall threshold of Euro ten Million (10,000,000) per Financial Year and the Company will be liable to pay for any amount that exceeds this threshold. The Company will pay this amount out of the relevant Sub-Fund's assets to which the specific costs are attributed.

5) Remuneration disclosures under UCITS V regulation

The Management Company is a subsidiary of Deutsche Bank Group (“Deutsche Bank”). The businesses of Deutsche Bank encompass a wide range of products and services incorporating investment, corporate and retail banking as well as asset management in all regions across the world. The institution at the highest level of consolidation of Deutsche Bank Group is Deutsche Bank AG.

Deutsche Bank AG is subject to the EU’s Capital Requirements Directive (CRD) and the Capital Requirements Regulation (CRR) as a credit institution and is supervised by the European Central Bank (ECB). Deutsche Bank AG has established a compensation framework applying to the whole Deutsche Bank Group (excluding Postbank), which therefore also applies to the Management Company. For further information on the remuneration system of Deutsche Bank Group as provided below, please refer to the Deutsche Bank Group Compensation Report, which is part of the Financial Report¹.

Governance Structure

Deutsche Bank AG is managed by its Management Board. It is overseen by the Supervisory Board which has established a Compensation Control Committee (CCC). The CCC is, inter alia, responsible for monitoring the compensation system of the Group’s employees and its appropriateness.

5) Remuneration disclosures under UCITS V regulation (continued)

The Management Board of Deutsche Bank AG has established the Senior Executive Compensation Committee (SECC) which has the mandate to develop sustainable compensation principles, to prepare recommendations on Total Compensation levels and to ensure appropriate compensation governance and oversight. Furthermore, a Compensation Officer for Deutsche Bank Group was appointed who independently monitors the appropriateness of the employee's compensation systems on a regular basis.

The annual central and independent internal review of the remuneration system concluded its design to be appropriate and no significant irregularities were recognized.

Compensation Structure

The employees of Deutsche Bank Group and of the Management Company are subject to the compensation standards and principles as outlined in the Group Compensation Strategy and the Compensation Policy. Both policies are reviewed on an annual basis. As part of the Compensation Strategy, Deutsche Bank Group, including the Management Company, employs a Total Compensation philosophy, which comprises Fixed Pay and Variable Compensation.

In 2016, Deutsche Bank introduced a new compensation framework to align employee compensation even more closely with Deutsche Bank's strategic and business objectives, while reducing complexity at the same time. The new compensation framework also puts a stronger emphasis on Fixed Pay over Variable Compensation and aims to ensure that these components are appropriately balanced.

Fixed Pay is used to compensate employees for their skills, experience and competencies, commensurate with the requirements, size and scope of their role. The appropriate level of Fixed Pay is determined with reference to the prevailing market rates for each role, internal comparisons and applicable regulatory requirements.

Variable Compensation has the advantage of being able to differentiate between individual performance and drive behaviour through appropriate incentive systems that can positively influence culture. It also allows for flexibility in the cost base. Under the new compensation framework, Variable Compensation generally consists of two elements – the "Group Component" and the "Individual Component".

In particular, one of the overarching goals of the new compensation framework is to strengthen the link between Variable Compensation and the performance of the Group. To that end, it was decided to align the "Group Component" directly and comprehensible for the employees to Deutsche Bank's achievements in reaching its strategic targets. To assess progress towards the strategic aspirations, the Management Board of Deutsche Bank AG has decided to utilise four Key Performance Indicators (KPIs) that are significant metrics for the capital, risk, cost and revenue profile: Common Equity Tier 1 (CET1) capital ratio (fully loaded), Leverage ratio, Adjusted cost base (without Postbank and Non-Core Operations Unit) and Post-tax return on tangible equity (RoTE).

Depending on eligibility, the "Individual Component" is delivered either in the form of Individual Variable Compensation or a Recognition Award. Whereas the "Group Component" links to Group performance, Individual Variable Compensation takes into consideration a number of financial and non-financial factors. These include the applicable divisional performance, the employee's individual performance and conduct, relativities within the employee's peer group and retention considerations. The Recognition Award program is targeted at non-tariff employees at the lower hierarchy levels. It provides the opportunity to acknowledge and reward outstanding contributions made by the target population in a transparent and timely manner. Generally, there are two nomination cycles per year.

Under the new compensation framework, there continues to be no guarantee of Variable Compensation in an existing employment relationship.

Compensation for 2016

Deutsche Bank has a robust methodology in place, aimed at ensuring that the determination of Variable Compensation reflects the risk-adjusted performance as well as the capital position of Deutsche Bank and its divisions. The total amount of Variable Compensation is primarily driven by (i) Group affordability (i.e. what “can Deutsche Bank award in alignment with regulatory requirements) and (ii) Group strategy (what “should” Deutsche Bank award in order to provide an appropriate compensation while protecting the long-term health of the franchise).

For 2016, the Management Board of Deutsche Bank AG decided to only award a limited pool of Variable Compensation given the operating environment. Specifically, the Management Board decided that Deutsche Bank’s senior employees (Corporate Titles ‘Vice President’, ‘Director’ and ‘Managing Director’) would only receive a “Group Component” but no “Individual Component”. For 2016, the Management Board of Deutsche Bank AG determined a target achievement rate of 50% with regard to KPIs of the “Group Component”.

Identification of Material Risk Takers

In accordance with the Law on Undertakings for Collective Investments in conjunction with the guidelines of the European Securities and Markets Authority (“ESMA”) on sound remuneration policies under the UCITS V Directive (2014/91/EU) (“UCITS V”), the Management Company has identified individuals who have a material impact of the Management Company’s risk profile (Material Risk Takers). At least 40% of the Variable Compensation for Material Risk Takers is deferred. Additionally, at least 50% of both, the upfront and the deferred proportion, are granted in Deutsche Bank shares or share-based instruments. All deferred components are subject to a number of performance conditions and forfeiture provisions which ensure an appropriate ex-post risk adjustment. In case the Variable Compensation is lower than EUR 50,000, the Material Risk Takers receive their entire Variable Compensation in cash without any deferral.
